## 1. OVERVIEW

Global economic growth was 3.7 percent buoyed by the moderate performances of the Advanced Economies, particularly, the United States and the Emerging Market and Developing Economies. The US economy grew by 2.9 percent while growth in emerging market economies continued to be driven by the robust performance of the two larger economies, India and China. Global inflation increased in most economies owing to higher commodity prices.

The Guyanese economy continued to record positive growth at the end of third quarter of 2018. Growth was buoyed by agricultural output and service activities. The agriculture industry registered increases in the output of rice, forestry and poultry meat, attributed to the introduction of a new and higher yielding variety of rice (GRDB 15), favourable market conditions and enhanced production practices. Sugar production decreased due to adverse weather conditions and poor quality canes. Service activities were largely in the wholesale \& retail trade and other services industries while construction activities had moderate levels of private and public investments. The manufacturing sector experienced increased production of nitrogen gas, liquid pharmaceuticals, paints and alcoholic beverages, due to stable demand. The mining sector recorded lower output of gold while bauxite production increased. The gold sub-sector experienced lesser declarations by the small \& medium scale miners whereas there was greater combined production by the two large foreign companies - Troy Resources Limited and Guyana Goldfields Inc. The bauxite sector registered increases in Metal Grade
(MAZ), Refractory Grade (RASC) and Chemical Grade (CGB) bauxite due to favourable global market conditions.

The inflation rate was 1.5 percent at endSeptember 2018 on account of moderate increases in the prices of food as well as transportation \& communication and housing (which reflects the rate of increase in fuel prices).

The overall balance of payments recorded a higher deficit of US\$160.6 million at the end of September 2018 compared to US\$53.4 million for the same period last year. This was primarily due to a high current account deficit despite having a surplus on the capital account. The current account deficit resulted from an increase in the merchandise trade deficit.

The overall value of transactions on the foreign exchange market increased by 24.0 percent or US $\$ 1,160.8$ million to US $\$ 6,005.8$ million. This outturn was due to higher values for bank and non-bank cambios, foreign currency accounts and hard currency transactions during the review period. The market experienced net sales of US $\$ 132.5$ million which influenced the relative stability of the Guyana dollar against the United States dollar. The rate stood at G\$208.50 at the end of September 2018.

The overall financial position of the public sector at end-Sep 2018 recorded a larger deficit from the corresponding period in 2017. This performance was primarily due to a widening in the NFPEs' deficit while that of Central Government narrowed from one year ago.

Domestic debt stock amounted to G\$80,670 million compared with G\$90,482 million for the corresponding period last year. This resulted from a decline in the issuance of 182-day and 364-day treasury bills coupled with a reduction in the stock of debentures. Domestic debt service payments were G\$1,344 million and accounted for 0.8 percent of government revenue which was far below the prudential liquidity measure.

The stock of external debt increased to US $\$ 1,270$ million on account of higher loan disbursements from multilateral creditors for project financing. External debt service payments, which accounted for 5.8 percent of export earnings, rose by 29.5 percent largely due to higher principal repayments to bilateral creditors.

The monetary aggregates of reserve money and broad money grew by 6.5 percent and 1.6 percent respectively. The former was mainly due to an increase in the net domestic assets of the Bank while the latter reflected an increase in other items (net) and net domestic credit which counterbalanced a decline in net foreign assets respectively. Private sector credit increased by 1.3 percent compared to the decline of 0.3 percent one year ago. The weighted average lending rate and treasury bill rates declined during the review period.

The financial resources of the Non-Bank Financial Institutions (NBFIs), which includes depository and non-depository financial institutions, increased by 8.9 percent to $\mathrm{G} \$ 244,566$ million. The sector's share of total assets in the financial sector increased marginally from 32.3 percent to 33.0 percent.

At the end of the third quarter of 2018 the financial system remained relatively stable with the Licensed Depository Financial Institutions (LDFIs) being adequately capitalised, highly liquid and profitable. Capital Adequacy Ratio (CAR) continued to exceed the prudential 8 percent benchmark. Asset quality was satisfactory and reflected a reduction in non-performing loans when compared with the third quarter of 2017.

The conduct of monetary policy continued to focus on price and exchange rate stability while ensuring adequate level of liquidity in the system and creating an enabling environment for economic growth. The Bank continued to use treasury bills as its primary open market operation for the effective management of liquidity, in addition to purchasing and selling foreign currency. At the end of the third quarter of 2018, there was a net redemption of $G \$ 7,887$ million in treasury bills. Additionally, the Bank continued to facilitate efficient intermediation through the issuance of notes and coins as well as the promotion of an enhanced payment system.

## 2. REVIEW OF THE THIRD QUARTER OF 2018

## PRODUCTION

Positive real economic growth continued in the third-quarter of 2018 buoyed by agricultural output and service activities. The agriculture industry registered increased production of rice by 0.6 percent due to the introduction of a new and higher yielding variety of rice (GRDB 15), improved practices and greater yield per hectare of over 4 tonnes. Forestry activities grew by 19.3 percent on account of increased output of roundwood and logs by 44.2 percent and 25.3 percent respectively, fostered by favourable external market demand. There was also increased output of poultry meat by 43.0 percent due to enhanced production practices while sugar production declined by 31.3 percent owing to adverse weather conditions and poor quality canes.

Service activities were largely in the wholesale and retail trade and other services industries. The performance of the wholesale and retail industry was driven by increased demand for imported goods and positive consumer confidence. Construction activities experienced relatively moderate levels of private and public investments.

The manufacturing sector experienced increased production of nitrogen gas, liquid pharmaceuticals, paints and alcoholic beverages by 17.4 percent, 12.6 percent, 10.4 percent and 1.8 percent respectively, due to stable demand.

The mining \& quarrying sector experienced lower output of gold by 8.9 percent while bauxite production expanded by 42.0
percent. The gold sub-sector experienced lower declarations by small \& medium scale miners by 23.4 percent due to higher fuel and other operational costs as well as poor road conditions. In contrast, there was higher total combined production from the two large foreign gold mining companies by 18.2 percent, which reflected increases in output of Troy Resources Limited and Guyana Goldfields Inc. by 52.7 percent and 4.0 percent respectively. The bauxite industry experienced greater production of Metal Grade (MAZ), Refractory Grade (RASC) and Chemical Grade (CGB) bauxite by 47.0 percent, 31.0 percent and 26.8 percent respectively as a result of favourable global market conditions.

## INFLATION

The year-to-date Urban Consumer Price Index (CPI) grew by 1.5 percent due to the increases in the price category of food by 2.5 percent as well as the indices of transport \& communication and housing (which primarily reflects the rate of increase of fuel costs) by 1.7 percent and 0.9 percent respectively.

## BALANCE OF PAYMENTS

The overall balance of payments recorded a higher deficit of US $\$ 160.6$ million compared to US\$53.4 million for the same period last year. This was primarily due to a high current account deficit despite having a surplus on the capital account. The deficit on the current account resulted from an expanded merchandise trade deficit from increases in imports.

The current account deficit widened to US $\$ 324.0$ million from US $\$ 111.8$ million in the previous year. This resulted from a higher merchandise trade deficit of US $\$ 360.6$ million from US $\$ 153.1$ million recorded in the corresponding period last year. This reflected a 14.3 percent growth in imports to US $\$ 1,363.7$ million. Merchandise imports rose by US $\$ 170.4$ million mainly due to increased importations of intermediate goods, capital goods and consumption goods by 18.1 percent, 16.3 percent and 6.0 percent respectively. Merchandise export receipts declined by 3.6 percent or US $\$ 37.1$ million which stemmed from decreased exports of sugar, gold and timber by 47.4 percent, 8.6 percent and o. 8 percent respectively.

The services account recorded a larger deficit of US $\$ 243.8$ million, an increase of 16.6 percent or US $\$ 34.8$ million from one year ago. This resulted from higher payments for non-factor services, including freight and financial services, as well as higher net outflow of factor services. Net remittances increased by 12.0 percent or US\$30.0 million to US\$280.4 million.

The capital account registered a larger surplus of US $\$ 189.2$ million from US $\$ 125.4$ million on account of greater inflows to the private sector in the form of foreign direct investment. Inflows from bilateral and multilateral agencies decreased by 30.9 percent to US $\$ 31.1$ million.

The overall deficit was financed by a drawdown of the gross international reserves of the Bank of Guyana which amounted to US $\$ 452.6$ million and is equivalent to 2.4 months of import cover at the end of the third quarter.

## FOREIGN EXCHANGE MARKET

Foreign currency transactions expanded by 24.0 percent to US $\$ 6,005.8$ million from US $\$ 4,845.0$ million at the end of September 2017. Total reported purchases and sales were US\$2,936.7 million and US\$3,069.1 million respectively.

Transactions processed at banks and nonbank cambios were US\$2,770.4 million. This segment of the market recorded an expansion of 26.3 percent or US $\$ 577.1$ million in the value of trades. At the Bank, hard currency inflows and outflows increased to US\$862.7 million from US $\$ 770.8$ million. Net payments amounted to US $\$ 132.5$ million. The value of foreign currency account transactions increased by 26.6 percent to US $\$ 2,353.9$ million, with a net credit of US $\$ 9.9$ million. However, soft currency transactions declined by 13.6 percent or US\$3.0 million to US\$18.8 million.

Trades at banks' cambios increased by 27.0 percent to US\$2,686.2 million from US $\$ 2,115.2$ million for the corresponding period in 2017. The value of foreign exchange activities at non-bank cambios also increased by 7.8 percent to US $\$ 84.2$ million against US $\$ 78.1$ million at September 2017. Cambio market share for bank and non-bank cambios were 97.0 percent and 3.0 percent respectively.

Hard currency purchases and sales by the Bank of Guyana were US $\$ 365.1$ million and US $\$ 497.6$ million respectively compared with US $\$ 375.9$ million and US $\$ 394.9$ million respectively, for the corresponding period in 2017. Export proceeds from the sale of gold was the major contributor to the overall hard
currency receipts while fuel imports represented the largest category of total payments.

Debits and credits of authorized foreign currency accounts at commercial banks were US $\$ 1,172.0$ million and US $\$ 1,181.9$ million respectively. Consequently, there was net payments of US $\$ 9.9$ million from these accounts. The categories of non-resident transfers, rice, mining \& dredging, trading, and fishery recorded higher values. In the corresponding period last year, withdrawals and deposits of these accounts were US $\$ 921.46$ million and US $\$ 937.7$ million respectively.

Interbank trade amounted to US\$50.7 million in September 2018 when compared with US $\$ 21.0$ million for the same period last year.

The US dollar was the most traded currency on the market. US dollar transactions accounted for 94.7 percent of the overall market activity. The market share of the Pound Sterling, Canadian dollar and the Euro was 0.7 percent, 2.1 percent and 2.5 percent respectively.

CARICOM currency transactions contracted by 13.6 percent and amounted to US $\$ 18.8$ million from US $\$ 21.8$ million at the end of September 2017. The market share of the Trinidad \& Tobago dollar was 59.4 percent, followed by the Barbados dollar with 31.8 percent while the Eastern Caribbean dollar accounted for 8.8 percent.

The Guyana dollar relative to the United States dollar depreciated to G\$214.18 at the end of September 2018 from G\$213.50 for the corresponding period last year. The

Bank's weighted mid-rate also depreciated to G\$208.50 during the review period while, the un-weighted rate appreciated marginally to G\$211.17 from G\$211.25 in the previous year.

The average buying rate at bank cambios depreciated to G\$213.36 compared with G\$213.17 at end-December 2017. The selling rate also rose to G\$215.04 from G\$214.49 at the end of 2017. At the non-bank cambios, exchange rates were lower. The average buying rate appreciated to G\$210.40 from $\mathrm{G} \$ 210.83$ while the selling rate depreciated to G\$213.18 from G\$213.04 at the end of December 2017.

The difference between the buying rates of banks and non-bank cambios expanded to G\$2.97 from G\$2.34 at December 2017. Both banks and non-bank cambios reported higher selling rates during the review period while non-banks reported a lower buying rate. The difference in the selling rates between the banks and non-bank cambios was $G \$ 1.87$ compared to $G \$ 4.01$ for the corresponding period in 2017.The spread was higher at the non-bank cambios than that of the banks. The spread at the banks was G\$1.41 while non-banks' spread was G\$2.58. Total cambio market spread decreased to G\$1.43 at the end of the review period from G\$2.25 at the end of 2017.

## PUBLIC FINANCE

The overall financial position of the public sector at end-Sep 2018 recorded a larger deficit from the corresponding period in 2017. This performance was primarily due to a widening in the NFPEs' deficit while that of Central Government narrowed from one year ago.

## Central Government

The Central Government fiscal balance recorded a lower deficit of G\$195 million at end-Sep 2018, resulting mainly from a widening of the capital account deficit. The current account surplus expanded by G $\$ 2,259$ million to $G \$ 20,686$ million. This development was due to an increase in current revenue which outweighed the expansion in current expenditure.

Total current revenue increased by 12.1 percent to G\$158,846 million. This performance reflected greater collection of VAT \& excise taxes by 15.7 percent to G $\$ 63,484$ million, income taxes by 15.8 percent to G\$59,132 million, trade taxes by 21.8 percent to $\mathrm{G} \$ 15,511$ million and other tax revenues by 22.7 percent to $G \$ 8,476$ million. In contrast, non-tax revenues fell by 24.1 percent to G $\$ 12,244$ million.

Total current expenditure (including interest charges) expanded by 12.1 percent to G\$138,161 million, on account of increases in employment costs, transfer payments, and other goods \& services by 9.7 percent, 11.2 percent, and 16.9 percent respectively. Total interest charges were also higher by 12.4 percent to G\$6,859 million, due to increased external interest charges by 25.6 percent to G\$5,777 million while domestic interest payments decreased by 28.0 percent to G\$1,082 million.

The capital account deficit, after grants, widened by G $\$ 1,395$ million to $G \$ 20,881$ million, stemming from lower capital revenue despite lower capital expenditure. Total capital revenue, which include grants, contracted by 26.4 percent to G\$6,875 million. This was due to a decline in capital
receipts by 95.8 percent coupled with lower non-project grants by 65.4 percent to G\$1,900 million while grants for projects increased by 17.9 percent to G\$2,634 million. In addition, CARICOM Multilateral Clearing Facility (CMCF) and Enhanced HIPC (EHIPC) relief increased by G\$742 million and G\$1.6 million respectively.

Capital expenditure fell by 3.7 percent to G\$27,755 million due to lower disbursements to construction by 14.9 percent, power generation by 41.9 percent, administration by 14.3 percent, education by 8.7 percent, public safety by 5.7 percent and social welfare by 1.4 percent. On the other hand, disbursements were higher for environment \& pure water by G\$1,053 million, agriculture by $\mathrm{G} \$ 368$ million, national security \& defence by G\$333 million, and health by G\$301 million.

Central Government advances amounted to G\$2,523 million for net domestic financing while it recorded savings of G\$2,328 million for net external financing.

## Non-Financial Public Enterprises

Non-Financial Public Enterprises (NFPEs) recorded a deficit of G $\$ 11,889$ million at endSep 2018 compared to a deficit of G\$9,741 million at end-Sep 2017. The larger deficit was due to a relatively higher expenditure that outweighed the increase in receipts.

Total expenditure increased by 6.6 percent to G\$96,433 million. Non-interest current expenditures increased by 9.1 percent to G\$91,291 million, resulting from greater payouts to creditors, material \& supplies, and freight by G\$21,681 million, G\$2,922 million, and G\$1,874 million respectively.

Conversely, there were lower payments for other current expenditures by $\mathbf{G} \$ 16,543$ million, employment cost by G $\$ 1,913$ million and repairs \& maintenance by G\$201 million. Interest payments also declined by 16.5 percent to $\mathrm{G} \$ 552$ million mainly reflecting lower interest payments by GUYSUCO. Capital expenditure contracted by 25.7 percent to $\mathrm{G} \$ 4,589$ million owing to declines in capital spending from GUYSUCO and Guyana Power \& Light Inc. (GPL) by G\$795 million and G\$769 million respectively.

Current receipts grew by 4.7 percent to G $\$ 84,543$ million, owing to increases in receipts from debtors by $\mathrm{G} \$ 4,367$ million, other income receipts by G $\$ 2,479$ million and VAT refunds received by $\mathrm{G} \$ 1,618$ million. Conversely, local sales and export sales contracted by 2.6 percent and 47.6 percent to G\$36,843 million and G\$4,059 million respectively. Poor performances were mainly by GUYSUCO and Guyana Power \& Light Inc. (GPL).

The National Insurance Scheme's overall deficit further deteriorated to G\$1,703 million at end-Sep 2018 from a deficit of G\$263 million at end-Sep 2017. This was reflective of increased current expenditures by 14.1 percent to $G \$ 17,619$ million, which overshadowed the 4.7 percent to $\mathbf{G} \$ 15,921$ million improvement in receipts.

Furthermore, NFPEs financing needs amounted to savings of G\$468 million for net external financing, and advances of G\$12,358 million for net domestic financing.

## PUBLIC DEBT

The total stock of public debt declined marginally by 0.8 percent during the review period, as a result of a reduction in the stock of domestic debt by 9.2 percent to $\mathrm{G} \$ 80,670$ million from the end-December 2017 position. In contrast, external public debt stock increased by 2.4 percent to US $\$ 1,270$ million. Domestic debt stock declined mostly as a result of lower issuance of the 182-day and 364 -day treasury bills by $\mathrm{G} \$ 6,315$ million and $\mathrm{G} \$ 3,007$ million respectively. There was no issuance of the 91-day treasury bill during the review period. Treasury bills issued for budgetary support accounted for 51.5 percent of total issuance of treasury bills year to date. In addition, the stock of debentures fell by 2.9 percent to $G \$ 8,293$ million from G\$8,537 million during the corresponding period last year.

The increase in the stock of external debt was on account of higher multilateral debt by 5.5 percent or US $\$ 40$ million. This outcome reflected greater loan disbursements for project financing from the International Development Association (IDA), InterAmerican Development Bank (IADB), the Caribbean Development Bank (CDB) and the Caricom Development Fund (CDF) by 388.9 percent, 6.2 percent, 28.0 percent and 450.0 percent to US $\$ 40$ million, US $\$ 12$ million, US\$5 million and US\$4 million respectively.

Domestic debt service payments declined by 23.8 percent to G $\$ 1,344$ million when compared to the corresponding period in 2017. This was mainly as a result of a significant reduction in interest payments for treasury bills, notably the 364-day treasury bill in which interest payments fell by 32.6 percent or $\mathrm{G} \$ 360$ million from the
corresponding 2017 level, due to lower yield and redemption of 364-day bills. On the other hand, principal payments increased marginally by 0.1 percent on account of higher repayments for the CARICOM Loan due to exchange rate depreciation.

External debt service payments rose by 29.5 percent to US\$64 million mainly as a result of a significant increase in principal repayments to bilateral creditors. Debt repayments to the EximBank of China, which accounts for 59.2 percent of repayments made to bilateral creditors, increased by 65.8 percent or US\$7 million for financing projects for the improvement of the East Coast Demerara Road, the Airport extension, E-Government, GUYSUCO and GPL Infrastructure Development. As a percent of export revenue of goods and non-factor services, external debt service payments accounted for 5.8 percent, which is far below the 20 percent threshold for debt service ratio.

## MONETARY DEVELOPMENTS

Reserve money increased by 6.5 percent or G\$10,592 million to G $\$ 173,620$ million from its December 2017 level, reflecting a 85.4 percent or $\mathrm{G} \$ 36,822$ million expansion in net domestic assets while net foreign assets contracted by 21.9 percent or G\$26,230 million. The increase in net domestic assets resulted from a 25.6 percent increase in deposit liabilities to the commercial banks while currency in circulation fell by 24.7 percent.

Broad money increased by 1.6 percent or G\$5,865 million due to an increase in other items (net) ${ }^{1}$ and net domestic credit which offset a decline in net foreign assets respectively. Other items net and net domestic credit was higher by 31.6 percent or G\$9,188 million and 10.1 percent or G $\$ 22,226$ million respectively. Conversely, net foreign assets was lower by 14.4 percent or G\$25,549 million. The growth in broad money was reflected in an expansion in quasi money while narrow money declined. Quasi money, which consists of time and savings deposits, grew by 4.3 percent to reach G\$218,898 million with both time and savings deposits increasing by 6.4 percent and 4.0 percent respectively. In contrast, narrow money, consisting of currency in circulation, private sector demand deposits and cashiers' cheques \& acceptances, was lower by 2.0 percent resulting mainly from a 52.8 percent and 3.4 percent reduction in cashiers \& acceptances and currency in circulation respectively while demand deposits rose by 7.3 percent.

Total deposits by both residents and nonresidents were higher by 7.2 percent and 15.7 percent to $G \$ 377,105$ million and $G \$ 19,650$ million respectively. Private sector deposits, which accounted for 74.3 percent of total deposits by residents, were also higher by 4.9 percent.

Net domestic credit of the banking system expanded by 10.1 percent to $G \$ 241,502$ million from the December 2017 level of

[^0]G\$219,276 million on account of higher credit to the public sector.

Private sector credit increased by 1.2 percent compared with a decline of 0.3 percent one year ago. This position reflected an expansion in credit to all sectors, except the other category of the private sector ${ }^{2}$, construction \& engineering, personal and mining sectors. Loans to the rice milling, agriculture and real estate sectors increased by 28.1 percent, 11.1 percent and 2.8 percent respectively. Conversely, Loans to the other category of the private sector, construction \& engineering, personal and mining sectors fell by 23.0 percent, 6.3 percent, 1.6 percent and 0.9 percent respectively.

The public sector (net) credit position deteriorated by 77.7 percent to $G \$ 49,962$ million from G $\$ 28,111$ million at end-2017 mainly on an account of a worsening central government net credit position. Net credit to the central government was higher by 27.7 percent or $\mathrm{G} \$ 22,018$ million to $\mathrm{G} \$ 101,613$ million at the end of September 2018. The public enterprises and the other category of public sector, which includes local government and NIS remained net depositors increasing marginally by 0.3 percent each during the period under review.

The net foreign assets of the banking system contracted by 15.3 percent to US\$726.3 million. This was due mainly to a 22.6 percent decline in the net foreign assets of the Bank of Guyana while that of the commercial banks increased marginally by 0.2 percent. At the end of September 2018,
the commercial banks' net foreign assets stood at US $\$ 277.1$ million while that of the Bank of Guyana was US $\$ 449.2$ million.

The overall liquidity of the banking system increased by 9.8 percent to G\$122,882 million mainly on account of excess required reserves and an increase in the balances due from other banks abroad. The ratio of excess liquid assets to total liquid assets decreased from 33.4 percent at end-December 2017 to 32.7 percent at end-September 2018.

There were marginal movements in interest rates during the review period. The 182-day and 364-day treasury bill yields declined to 0.96 percent and 1.14 percent respectively, resulting from the competitive bidding for those treasury bills. In contrast, the yield on the 91-day treasury bill was unchanged at 1.54 percent due to the non-issuance of the bill during the review period. The small savings rate and weighted average time deposit rate also fell to 1.04 percent and 1.12 percent respectively. The weighted average lending rate decreased to 10.11 percent while the prime lending rate of the commercial banks remained stable at 13.0 percent.

## NON-BANK FINANCIAL INSTITUTIONS

The financial resources of the Non-Bank Financial Institutions (NBFIs), which includes depository and non-depository financial institutions, increased by 11.5 percent to G $\$ 250,386$ million. The sector's share of total assets in the financial sector

[^1]increased marginally from 32.3 percent to 33.5 percent.

The expansion in the NBFIs' assets resulted mainly from insurance premiums, pension funds and other liabilities. Insurance premiums and pension funds increased by 33.5 percent or $\mathrm{G} \$ 1,583$ million and 18.7 percent or G $\$ 8,066$ million respectively. Other liabilities which comprises capital and reserves were also higher by 15.9 percent or G\$17,033 million. Conversely, foreign liabilities and deposits decreased by 2.2 percent or G $\$ 402$ million and 0.7 percent or G\$376 million respectively.

Investments in all sectors increased during the period under review. Claims on the nonresident sector expanded by 59.0 percent or G $\$ 18,821$ million resulting from increased holdings of other foreign securities (which excludes debentures and treasury bills). Investments in the banking system and the acquisition of other assets were also higher by 6.9 percent or G $\$ 2,405$ million and 6.3 percent or G\$1,904 million respectively. Claims on the private sector, which accounted for 49.3 percent of total assets, grew by 2.2 percent or $\mathrm{G} \$ 2,714$ million while claims on the public sector increased marginally by 0.9 percent or $\mathrm{G} \$ 60$ million to G\$6,531 million.

## FINANCIAL STABILITY ASSESSMENT

## Capital

The average capital adequacy ratio (CAR) for the LDFIs was 30.02 percent at endSeptember 2018, a one percentage point improvement from the 29.0 percent

[^2]recorded at end-September 2017. The improved ratio resulted mainly from a 13.6 percent (G\$9,069 million) growth in qualifying capital. Risk-weighted assets rose by 7.8 percent (G\$19,295 million) over September 2017.

## Asset Quality

Non-performing loans (NPLs) of the LDFIs as a share of total loans were 11.1 percent at the end of the review period, down from the 12.1 percent recorded for the 2017 corresponding period. The foregoing resulted largely from the 4.1 percent reduction in NPLs, as five of the eight LDFIs' loan portfolios improved. The ratio of provision for loan losses to NPLs reduced to 37.8 percent at the end of September 2018 from the 44.8 percent at the end of September 2017 as a result of the reduction in NPLs.

NPLS remained concentrated in the business enterprises sector at 71.6 percent of the LDFI's aggregate NPLs. Within this sector NPLs were further concentrated in the services and manufacturing sub-sectors which held 59.5 percent and 23.2 percent respectively. Further, NPLs in the services sub-sector represented 42.6 percent of the LDFIs' aggregate NPLs, 7 percentage points higher than the 35.6 percent recorded at endSeptember 2017.

Exposure $^{3}$ to the top twenty borrowers amounted to G $\$ 78.8$ billion, 24.7 percent above the end-September 2017 level $^{4}$. Three of the eight LDFIs were responsible for the increased exposure to the industry's top twenty borrowers. The ratio of exposure to

[^3]the top twenty borrowers to total exposure rose to 18.6 percent from 15.8 percent at the end of September 2017. For the quarter under review, 1.4 percent of top twenty borrowers' exposure were non-performing, a significant improvement over September 2017.

## Earnings

As at September 30, 2018, aggregate operating income of the LDFIs amounted to G $\$ 27.7$ billion, 1.4 percent below the September 30, 2017 level. The reduction in operating income was as a result of declines in fees \& commissions, foreign exchange gains and interest income by 4.0 percent, 3.1 percent and 2.2 percent respectively. However, the deterioration was partly offset by a significant increase in other operating income of 32.3 percent.

The LDFIs' aggregate operating expenses fell by 4.7 percent to $\mathrm{G} \$ 15.5$ billion, resulting from significantly lower levels of booked provision for loan losses of 42.3 percent and a decline in interest expense by 9.5 percent. In addition, LDFIs recovered G\$374 million (net of bad debts) compared with G\$411 million the previous year. Over the review period, salaries \& other staff costs and other operating expenses recorded increases of 6.7 percent and 3.2 percent respectively.

Interest income and interest expense fell below the September 2017 levels by 2.2 percent and 9.5 percent respectively. The fall in interest income was due to decline in five institutions' interest income, while six institutions incurred lower interest expenses.

Net income before tax grew by 3.0 percent from end-September 2017 level to G\$12.2 billion while net income after tax reflected a 1.4 percent increase to G\$8.9 billion, over the same comparative period. However, only two LDFIs reflected profits above their September 2017 levels.

## Liquidity

The average level of liquid assets held by the LDFIs amounted to G $\$ 174.3$ billion, 9.5 percent above the average level recorded for the corresponding period last year. This increase was due mainly to increases in deposits with BOG and marketable obligations.

## MONETARY POLICY

Bank of Guyana's monetary policy continued to focus on the attainment of price stability and provision of adequate level of liquidity for credit expansion and economic growth. The Bank seeks to allow the expansion of broad money along a path consistent with projections for output and inflation. Thus, weekly targets for broad money are translated into targets for base money using the money multiplier. To achieve these weekly base money targets, the Bank focuses on the effective management of excess liquidity in the financial system through its Open Market Operations (OMOs). The Bank may also purchase and sell foreign currency to achieve its primary objective.

During the review period, reserve money increased by G $\$ 10,592$ million compared with a decline of $\mathrm{G} \$ 4,628$ million for the corresponding period in 2017. There were twenty one (21) issues of treasury bills amounting to $G \$ 58,140$ million while redemptions amounted to $\mathrm{G} \$ 66,028$ million.

Treasury bills were issued when reserve money exceeded the targeted levels and was deemed likely to adversely affect the economy.

Additionally, purchases from and sales to the commercial banks by the Bank amounted to US\$159.5 million and US\$8.1 million respectively, during the review period.

The inter-bank market activities, which also provide an indication of the total liquidity condition of the financial system, had thirty one (31) trades during the review period. The value of funds traded on the market amounted to G $\$ 28.7$ billion. In comparison, there were thirty six (36) trades on the interbank market during the first three quarters of 2017.

## BANK ACTIVITIES

## Currency Operations

The Bank has a statutory obligation to issue the country's notes and coins under section 21(1) of the Bank of Guyana Act 1998, No. 19 of 1998. This obligation was discharged through the Currency Division of the Operations Department. The total supply of currency in 2018 registered an increase of 5.9 percent over 2017. The increase was as a result of more notes purchased when compared to 2017

## Notes

The total value of currency notes in circulation (including notes held in the vaults of commercial banks) at the end of the third quarter of 2018 amounted to $\mathrm{G} \$ 94.6$ billion, an increase of 9.1 percent compared with a circulation of G $\$ 86.7$ billion in 2017. The G\$5,000 note accounted for 80.6 percent in the share of total value while the G\$1,00o fell
to 15.3 percent from 18.4 percent. The G\$500 rose from 1.4 percent to 1.5 percent, the G\$100, \$50 and \$20 remained at 1.8, o.1 and o. 8 percent respectively.

The policy of ensuring that only acceptable quality notes are in circulation was continued. This was achieved by regular withdrawals of mutilated, defaced or otherwise poor quality notes and replacing them with new notes. Mutilated, defaced and poor quality notes amounting to G\$93.1 million were submitted for replacement at the end of the third quarter 2018, compared with G $\$ 295.8$ million for the same period in 2017.

## Coins

Coins issued by the Bank amounted to G\$1066.1 million at the end of the third quarter of 2018, an increase of 2.8 percent above the G $\$ 1037.1$ million in 2017. The G\$10 coin continued to account for the highest proportion of the total value of coins, followed by the G\$5 and the G\$1 coins respectively. In value terms the share of G\$10 accounted for 45.0 percent, the G\$5 accounted for 38.3 percent and the G $\$ 1$ for 16.7 percent.

## Payments System

At the end of the third quarter of 2018, 667,241 low-value transactions (LVT) were settled through the National Clearing House ( NCH ), an increase of 1.2 percent when compared with the volume recorded in 2017. The volume of high-value transactions (HVT) increased by 2.4 percent to reach 97,303 . The overall value of total transactions rose by 1.8 percent in the current period to G $\$ 889$ billion. A decrease was recorded in the value of the high-value
transactions which decreased to $\mathrm{G} \$ 571$ billion whilst the low value transactions rose to G $\$ 319$ billion at the end of the third quarter of 2018. In the current period the shares of HVT in total value of transactions fell to 64.1 percent while the share of LVT rose to 35.9 percent. The average value of HVT fell by 4.4 percent whilst the average value of LVT rose by 8.2 percent.

## THE GLOBAL ECONOMY

Growth in advanced economies was steady at 2.4 percent reflecting primarily the performance of the US economy. The US economy grew by 2.9 percent reflecting higher external demand and macroeconomic impacts of the procyclical fiscal stimulus.The Euro Area output weakened to 2.0 percent, which reflected weaker-than-expected export growth performance in the first half of 2018, however, healthy consumer spending and accommodative monetary policy are expected to facilitate aggregate demand at a moderate pace. Growth in Germany was 1.9 percent followed by France at 1.6 percent. Canada's economy grew modestly by 2.1 percent as a result of lower corporate taxes in the USA making it a less attractive destination for investment. Growth in the UK was slower at 1.4 percent owing to slowed growth in the first quarter of 2018, along with high uncertainties about the outcome of BREXIT negotiations.

Inflation in advanced economies was relatively moderate at 2.0 percent. The US inflation rate strengthened to 2.4 percent due to higher consumer demand and labor market tightening. Likewise, the Euro Area's inflation increased to 1.7 percent. The UK inflation rate declined to 2.5 percent due to
the fading pass-through effects of the weaker pound sterling.

Labour markets improved slightly in industrialised countries. The US unemployment rate fell to 3.8 percent. The Euro Area's unemployment rate was 8.3 percent while Japan's unemployment rate hovered around 2.9 percent. France's unemployment rate was 8.8 percent followed by Germany at 3.5 percent.

## Emerging Economies

Growth in emerging economies continued to be driven by the strong performance of the two larger economies, China and India, which grew by 6.6 percent and 7.3 percent respectively. The Mexican economy grew by 2.2 percent buoyed by higher US growth, despite uncertainty surrounding prolonged trade tensions. The Brazilian economy grew by 1.4 percent resulting from recovery of private demand as the output gap gradually closes. The Russian economy also grew positively by 1.7 percent facilitated by improved oil prices and recovering domestic demand.

Inflation in China was lower at 2.2 percent while India's inflation rate was 4.7 percent. Russia's rate of inflation was 2.8 percent while that of Brazil was 3.7 percent.

## Developing Economies

Developing countries grew by 4.7 percent due to stronger performances of Middle East, North Africa, Afghanistan and Pakistan economies that grew by 2.4 percent. Latin America and the Caribbean grew by 1.2 percent while Sub- Saharan Africa grew by 3.1 percent.

The prices of commodities were generally higher for the period under review. However, unemployment continued to be a major issue due to slow FDI flows

## Caribbean Economies

The Caribbean Economies continued to experience low levels of growth owing to tighter financial conditions and volatile commodity markets. The oil dependent economy of Trinidad \& Tobago along with Suriname experienced minute growth rates of 1.0 percent and 2.0 percent, respectively. For tourist based economies, The Bahamas recorded growth of 2.3 percent due to an increase in tourist arrivals while Barbados registered negative growth of 0.5 percent. Growth in Guyana's economy remained positive.

Unemployment remained high in most Caribbean economies reaching 11.6 percent and 10.3 percent in Jamaica and Barbados respectively, while that of Trinidad \& Tobago hovered around 5.0 percent.

Barbados, Belize and the ECCU continued their policy of fixed exchange rate vis-à-vis the US dollar. The Jamaican dollar stabilized at J\$128.58 while the Trinidad \& Tobago dollar depreciated to TT\$6.79 vis-à-vis the US dollar. The Guyana dollar depreciated to G\$208.50.

## Commodity Prices

Commodity prices increased during the third quarter of 2018. Gold was US\$1,198.39 per ounce at the end of September 2018. Rice price was US $\$ 395.35$ per metric tonne compared to US\$402 per metric tonne in 2017, while sugar price stabilized at US $\$ 0.38$ at the end of the review period. Oil price was

US\$78.86 per barrel, a US\$14.65 increase compared to end-2017.

## 3. OUTLOOK FOR 2018

Guyana's economy is projected to expand by 3.4 percent at the end of 2018. The agriculture, construction and services sectors are expected to fuel growth. Inflation is estimated to increase to 2.0 percent on account of moderate increases in food prices.

The overall balance of payments deficit is expected to widen on account of a large current account deficit despite a surplus on the capital account. The current account deficit is expected to expand due to an increase in the merchandise trade deficit from higher imports. The capital account is projected to register a higher surplus resulting from inflows to the private sector through foreign direct investments as well as flows to the public sector in the form of loans and grants.

Total receipts by the Bank are projected at US $\$ 549.9$ million by the end of December 2018. The main sources of inflows are expected from other receipts of US $\$ 176.9$ million and non-bank purchases with US $\$ 155.5$ million. Total payments are targeted at US $\$ 626.8$ million. The two major outflow categories anticipated are debt servicing totalling US\$77.8 million and imports of US $\$ 548.6$ million. The value of fuel imports is expected to account for 58.1 percent or US\$364.2 million of total hard currency payments.

The Central Government's fiscal deficit is expected to decline to $G \$ 31,194$ million at end-Dec 2018. This improvement is likely to result from projected increases in current revenue by 11.4 percent to $\mathbf{G} \$ 216,871$ million
mainly from VAT \& excise taxes and income taxes. Total expenditure is projected to increase by 8.6 percent to $G \$ 260,964$ million reflecting expansions in both current and capital expenditures.

The NFPEs' deficit position is expected to widen to G\$15,757 million at end-Dec 2018. Current and capital expenditures are projected to increase by 10.0 percent and 12.2 percent to $G \$ 127,360$ million and G\$8,472 million respectively; while, current receipt is expected to expand by 8.7 percent to G\$120,075 million.

The stock of domestic debt is projected to remain at its end-September level, while external debt stock is expected to be higher primarily due to an increase in multilateral debt.

Domestic debt service is estimated to fall below end-December 2017 level as a result of lower interest payments for treasury bills due to a decline in the 182-day and 364-day yield. Alternatively, external debt service payments are estimated to increase on account of a higher principal and interest payments to multilateral and bilateral creditors, specifically, the IDB, IDA, CDB, Venezuela and the EximBank of China as well as exchange rate depreciation and higher interest rate.

Global economic growth is projected at 3.7 percent at the end of 2018, owing to cyclical recovery in investment and trade. Stronger activity along with more robust global demand would help commodity prices to further recover and headline inflation which
will reduce deflationary pressures. Inflation is projected at 3.8 percent on account of moderate increases in commodity prices.

## I. GENERAL NOTES

## Symbols Used

... Indicates that data is not available;

- Indicates that the figure is zero or less than half the final digit shown or that the item does not exist;
- Used between two periods (e.g. 2010-11 or July-September) to indicate the years or months covered including the beginning and the ending year or month as the case may be;
/ Used between years (e.g. 2010/11) to indicate a crop year or fiscal year.
$=\quad$ Means incomplete data due probably to under-reporting or partial response by respondents.
* Means preliminary figures.
** Means revised figures.

In some cases, the individual items do not always sum up to the totals due to rounding.

## Acknowledgement

The Bank of Guyana wishes to express its appreciation for the assistance received from the Ministry of Finance, State Planning Secretariat, Commercial Banks, Bureau of Statistics, some Public Corporations and other Private Sector agencies in the compilation of the data.

## II. NOTES TO THE TABLES

## TABLE 1.1: Bank of Guyana: Assets

## Foreign Assets

Balances with Foreign Banks: Deposits of the Central Bank with Foreign Banks. The data also include holdings of foreign notes and gold. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

Gold Tranche with the I.M.F.: One quarter of Guyana's subscription to the International Monetary Fund (I.M.F.) quota, which comprises gold and/or convertible currencies.

Holdings of Special Drawing Rights: Unused portion of the Special Drawing Rights (S.D.R.s) allocated by the I.M.F.

Money Market Securities: Holdings of short-and long-term debt instruments of foreign governments and the International Bank for Reconstruction and Development (I.B.R.D.) recorded at cost. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

Claims on the Central Government: Holdings of the Government of Guyana Treasury Bills, Debentures valued at cost and Advances from the Bank of Guyana. The Bank of Guyana Act No. 19 of 1998 section 46 has since removed the possibility of advances to Government since it restricted the Central Bank from extending credit directly or indirectly to the Government from that date.

Advances to Commercial Banks: Short term credit to Commercial Banks.
Other Assets: Include fixed assets such as land and buildings, furniture and equipment. Cheques in the process of collection, notes and coins issued by the British Caribbean Currency Board, non-interest-bearing debentures, and other miscellaneous assets are also included.

## TABLE 1.2: Bank of Guyana: Liabilities

Currency Issue: Notes and Coins issued by the Bank.

Government Deposits: Current account deposits of the Central Government which includes sterilised amount from open market type operation with effect from 1994.

Deposits of International Organisations: Obligations to the I.M.F.; local currency component of the subscription to the I.M.F. quota; deposits of the I.B.R.D, the Caribbean Development Bank (C.D.B.) and foreign central banks. Other foreign liabilities of the Bank of Guyana are also included.

Bank Deposits-EPDs: Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers pending foreign exchange releases to meet foreign obligations which fell into arrears prior to 1990. This scheme was discontinued for foreign obligations after 1990.

Bank Deposits-Other: Commercial Banks' reserve deposits which includes statutory reserves with Bank of Guyana are recorded here. With effect from December 1994, special interest earning deposits of the Commercial Banks were discontinued in favour of unremunerated required free reserves.

Other Deposits: Includes deposits of National Insurance Scheme (N.I.S.), Guyana Gold Board (US \$ Deposits), Guyana Energy Agency (GEA) and Linden Economic Advancement among others.

Authorised Share Capital: The enactment of the Bank of Guyana Act No. 19 of 1998 provided for the increase in the capital for the Bank as part of the reform process.

Other Reserves: These reserves include General, Revaluation and Contingency Reserves.
Allocation of S.D.R.'s: Liability accruing from the SDRs allocated to Guyana, which are valued at the equivalent of Guyana dollar amount converted through the S.D.R. /U.S. dollar cross rate.

Other Liabilities: Include provision for accrued expenses, items in transit; private investment fund; and miscellaneous items. The decline in Other Liabilities from November 30, 2002 to December 31, 2002 reflects the charging of valuation changes to Other and Government Deposits.

TABLE 1.3: Bank of Guyana: Currency Notes Issue
Total issue less withdrawal of mutilated or spoiled legal tender notes. With the intent of enhancing the efficiency of the Payment System, the Bank of Guyana introduced a G $\$ 5,000$ note in 2013. In celebration of Guyana's $50^{\text {th }}$ Independence Anniversary, the Bank issued a commemorative G\$50 note which was placed in circulation in May 2016.

TABLE 1.4: Bank of Guyana: Coins Issue
Total issue less withdrawals of defaced legal tender coins. The Bank of Guyana as part of its currency reform programme introduced with effect from January 1, 1997, G\$10, G\$5, G\$1 coins as legal tender and removed from the specie the use of cents.

TABLE 2.1(a): Commercial Banks: Assets
Balances due from Banks abroad: Deposits of Commercial Banks with Non-Resident foreign banks included head offices and branches.

Loans to Non-Residents: Commercial Bank lending to Non-Resident customers.
Due to re-classification at a Commercial Bank, figures for Private Sector and Non-Resident loans have been revised from December 2000 to May 2002. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for loans to Non - Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

Other Foreign Assets: Include foreign currency holdings and all other claims on NonResidents by Commercial Banks. Due to reclassification at a Commercial Bank figures for Public Sector Other and Foreign Sector Other were revised from September 2002 to February 2003.

Securities: The total volume of Central Government Treasury Bills recorded at cost and debentures held by commercial banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for Securities include accrued interest from Dec. 2002.

Loans: Central Government borrowing from the Commercial Banks. See note above under loans to Non-Residents.

Public Enterprises: Loans and Advances extended by Commercial Banks to Public Financial Business Enterprises. Public Non-Financial Enterprises are defined as enterprises in which Government owns above 50 per cent of the share capital. See note above under loans to Non Residents.

Other: Commercial Banks’ claims on Local Government and the National Insurance Scheme. See note above under loans to Non-Residents

Non-Bank Financial Institutions: Loans issued to Public and Private Non-Bank Financial Institutions by Commercials Banks'. See note above under loans to Non-Residents

Private Sector: Lending through loans and advances to Private Non-Financial Business Enterprises and Individual Customers. See note above under loans to Non-Residents.
The decline in Private Sector Loans and Advances resulted partly from a reclassification of some loans at one Commercial Bank. See note above under loans to Non-Residents.
The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G $\$ 8,473.0$ million by the National bank of Industry and Commerce Limited on March 15' 2003 resulted in the decline in Private Sector Loans and Advances during March 2003.

Deposits with Bank of Guyana: Include statutory reserve deposits and interest earning deposits of the Commercial Banks. Effective December 28, 1994, interest-earning deposits were discontinued.

External Payment Deposits (E.P.D): Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers, pending foreign exchange releases to meet external obligations.

Currency: Commercial Banks' holdings of local notes and coins.
Other Assets: Include balances due from other Commercial Banks, Real Estate Mortgage Loans, fixed assets such as land and building, furniture, equipment and other miscellaneous assets.

TABLE 2.1(b): Commercial Banks: Liabilities, Capital and Reserves
Balances due to Other Banks abroad: Foreign claims made on local Commercial Banks by Head Offices and other banks abroad.

Non-Resident Deposits: Total deposits made by Non-Resident customers with Commercial Banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for deposits to Non-Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

Other: Include all other foreign claims on Commercial Banks.
Central Government Deposits: Total demand, time and savings deposits made by the Central Government with Commercial Banks. See note above under deposits to NonResidents.

Public Enterprise Deposits: Total demand, time and savings deposits made by Public Non-Financial Enterprises with the Commercial Banks. Due to the sale of Aroaima Bauxite Company to the government and a reclassification of its accounts from the Private to Public Sector, figures from January 2002 to April 2002 have been revised. See note above under deposits to Non-Residents.

Other Public Deposits: Include total deposits of Local Government and National

Insurance Scheme. See note above under deposits to non-residents. See note on Table 2.4 Commercial Banks: Time Deposits.

Non-Bank Financial Institutions Deposits: Consist of total deposits made by Public and Private Financial Institutions. See note above under deposits to Non-Residents. See note on Table 2.4: Commercial Banks: Time Deposits.

Private Sector Deposits: Include total demand, time and savings deposits of Private nonfinancial Business Enterprises and individual customers. See note above under Public Enterprises Deposits. See note above under deposits to non-residents.

External Payment Deposits: Comprise customers' deposits (public and private sector) with commercial banks on account of External Liabilities prior to 1990 and awaiting foreign exchange releases from the BOG.

Bank of Guyana: Commercial Bank short-term borrowing from the Bank of Guyana.
Other Liabilities: Other liabilities of the Commercial Banks include manager's cheques, acceptances, provision for taxes and other miscellaneous liabilities.

Capital and Reserve: The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G $\$ 8,473.0$ million by the National Bank of Industry and Commerce Limited (now Republic Bank Guyana Limited) on March 15, 2003 resulted in the decline in the capital and reserve of the banking systems during March 2003.

TABLE 2.2: Commercial Banks: Total Deposits
Total demand, savings and time deposits of Residents and Non-Residents excluding interbank deposits are presented. Foreign currencies denominated deposits are also included here. See note under Public Enterprises Deposits for Table 2.1 (b) above. See note under Non - Resident Deposits for Table 2.1(b) above.

TABLE 2.3: Commercial Banks: Demand Deposits
Current account deposits of Residents and Non-Residents; inter-bank deposits are excluded.
See note under Public Enterprises Deposits for Table 2.1 (b) above.

TABLE 2.4: Commercial Banks: Time Deposits
Fixed deposits of Residents and Non-Residents with a minimum withdrawal notice of three months; exclude inter-bank deposits. See note under Non-Resident deposits for Table 2.1(b) above. Due to a reclassification of N.I.S and Non-Bank Financial Institutions' time deposits, figures from December 2003 to April 2005 were revised.

TABLE 2.5: Commercial Banks: Savings Deposits
Deposits with minimum withdrawal notice of one day; exclude inter-bank deposits. See note under Public Enterprises Deposits for Tables 2.1 (b) above. See note non-resident deposits for Table 2.1(b) above.

TABLE 2.6: Commercial Banks: Time Deposits by Maturity
Includes deposits of both Residents and Non-Residents. See note under Commercial Banks: Time Deposits for table 2.4 above.

TABLE 2.7: Commercial Banks: Savings Deposits
Includes deposits by both Residents and Non-Residents. Ending balance on savings accounts for November 2002 do not equate to the opening balance for December 2002 due to the addition of
accrued interest to the December 2002 opening balance. The ending balance for February 2003 saving accounts differs from the opening balance for March 2003 due to the reclassification from demand and time accounts to saving accounts.

TABLE 2.9: Commercial Banks: Clearing Balances
Comprise total amount of cheques cleared by and debited to the accounts of the Commercial Banks. A National Clearing House was established at the Bank of Guyana during 1998 whereby large (in excess of G $\$ 500,000$ ) and small valued cheques are cleared. Data recorded after 1998 in this table reflect the value of small valued cheques cleared over the reporting period.

TABLE 2.10(a): Commercial Banks: Total Loans and Advances
The data include Loans and Advances to Residents and Non-Residents. Real Estate Mortgage Loans and inter-bank loans are excluded. The total of loans and advances to the private sector differs from total credit to the private sector in Table 3.1(Monetary Survey). The totals for credit to the private sector in Table 3.1 include local securities, other credit instruments and real estate mortgage loans. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit have been revised from January 2012 to March 2013.
See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

TABLE 2.10(b): Commercial Banks: Total Loans and Advances
The data covers total Loans and Advances to Residents and Non-Residents including Real Estate Mortgage Loans effective December 2001. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.

TABLE 2.11: Commercial Banks: Demand Loans and Advances
The data cover lending for short periods including overnight loans to Residents and NonResidents and exclude inter-bank loans. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.
See note under Private Sector for Table 2.1(a) above.

TABLE 2.12: Commercial Banks: Term Loans and Advances
The Loans and Advances are for longer periods extended to Residents and Non-Residents; interbank lending is excluded. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.
See note under Private Sector for Table 2.1(a) above. See note under loans to Non-Residents for Table 2.1(a) above.

TABLE 2.13: Commercial Banks: Loans and Advances to Residents by Sector
The data provided record balances at the end of the respective period and therefore indicates the indebtedness of the respective industries at the end of the reporting period. The value of credit obtained by each industry for a given period can be obtained by taking the difference between the balances at the end of the desired period and that immediately preceding. The balances in this table exclude inter-bank loans, real estate mortgage loans, local securities and other credit instruments. It should be noted that gross indebtedness of the sugar and rice industry can be obtained by adding the balances of sugar cane and sugar and molasses manufacturing of sugar, and paddy and rice milling for rice respectively. Figures under the 'other purposes' sub-category has been reclassified to exclude credit card transactions effective from March 2007. Due to a reclassification by two Commercial Banks, figures under the Private Sector have been revised from January 2012 to March 2013.See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

## TABLE 2.14: Commercial Banks: Liquid Assets

The liquid assets comprise Bank of Guyana notes and coins, foreign currency held by banks, (special interest earning) deposits held at the Bank of Guyana (BOG), balances due from other Commercial Banks - both local and foreign, Government of Guyana Treasury Bills. The special reserves deposits (SRDs) established in 1969, discontinued in 1994 as the Bank of Guyana sought to develop its capacity to manage the excess reserves of the bank more effectively. Approximately, 75-80 per cent of the SRDs were absorbed through a sale of three year, variable rate, and fixed date debenture to the Commercial Banks.

Prior to March 1989, the legally required level of liquid assets to be held by the Commercial Banks against their deposit liabilities was calculated as the sum of 20 percent of demand liabilities and 15 percent of time liabilities. During the period March 31, 1989 to May 15, 1991 the determination of the required liquid assets held by the banks was based on actual holdings on specified dates. Accordingly, from March 31, 1989 to June 30, 1990 required liquid assets were stipulated as the actual holdings on March 15, 1989. Between July 30, 1990 and February 19, 1991 the required liquid assets was based on the assets held by the banks on September 30, 1989. Further, between February 20, 1991 and May 14, 1991 the required balances were set as at the end of July 30, 1990.

With effect from May 15, 1991, however, the basis for calculating required liquid assets was changed to 25 percent of demand liabilities and 20 percent of time liabilities. Further, amendments to the liquid asset requirements became effective on $26^{\text {th }}$, October 1998. The liquid assets base period has been redefined as the Monday to Friday workweek immediately preceding the liquid asset maintenance period. The liquid asset requirement is determined by applying the prescribed percentages to the weekly average of the daily liabilities balances at the close of business of each of the five days of the liquid asset base period. Figures for Treasury Bills were reclassified from December 2000 to December 2002.

## TABLE 2.15: Commercial Banks: Minimum Reserve Requirements

Prior to May 16, 1991, the minimum required reserves of the Commercial Banks were calculated as 6 percent of demand liabilities and 4 percent of time liabilities. Their percentages were changed with effect from May 16, 1991, to 11 percent of demand liabilities and 9 percent of time liabilities. Commencing April 7, 1994, the minimum required reserves of the Commercial Banks were again revised to the sum of 16 percent of demand liabilities and 14 percent of time liabilities.

On June 29, 1998, in addition to Commercial Banks, other licensed Financial Institutions were required to maintain balances with the Central Bank against their deposits and other liabilities. Further, the required reserve period has been changed on Monday to Friday workweek instead of the Wednesday to Thursday week used previously. The required reserve period has been referred to as the reserve base period. The week following the current reserve base period, i.e. the reserve maintenance period is also based on the Monday to Friday workweek. The deposits and other liabilities to which the required reserve ratio(s) are applied are referred to as the reserve base. During the reserve maintenance period, all licensed Financial Institutions subject to reserve requirement are required to maintain reserves against the relevant deposit and other liabilities.

Effective February 1, 1999, the required reserve ratio applicable to all liabilities of licensed Financial Institutions was lowered to twelve per cent ( $12 \%$ ). The first reserve base period for which the revised requirements became relevant was the $1^{\text {st }}$ to $5^{\text {th }}$ February 1999 while the reserve maintenance period was the $8^{\text {th }}$ to $12^{\text {th }}$ February 1999. However, reserve balances for the Non-Bank licensed Financial Institutions are excluded from table 2.15.

TABLE 2.16(a): Foreign Exchange Intervention
This comprises Bank of Guyana's purchases and sales of US Dollars to the Commercial Banks.
TABLE 2.16(b): Interbank Trade
This comprises foreign currency (US, Euro, Pounds Sterling and Canadian) purchases and sales amongst the Commercial Banks.

TABLE 2.17: Commercial Banks holdings of treasury bills
These are short-term government securities held by the Commercial Banks with maturities of 91 days, 182 days and 364 days. Data are at face value.

TABLE 3.1: Monetary Survey
A consolidation of the balance sheets of the Bank of Guyana and Commercial Banks.

## Foreign Assets (net)

Bank of Guyana: Gross foreign assets less gross foreign liabilities.
Commercial Banks: Gross foreign assets less gross foreign liabilities. See note under Loans to Non-Residents for Table 2.1 (a) above.

## Domestic Credit

Government (net): Gross lending to Central Government by the banking system (a sum of Holdings of debentures, bonds, Treasury Bills and loans and advances less total deposits of the Central Government).

Public Enterprise (net): Gross borrowing by Non-Financial Public Enterprises from the banking system less their deposits. See notes under Public Enterprises Deposits for Table 2.1 (b) and Commercial Banks: Time Deposits for Table 2.4 above.

Other Public Sector (net): Gross borrowing from the banking system by local authorities and municipalities less their total deposits and other Public Sector funds. See note under loans to Non-Residents for Table 2.1(b) above.

Non-Bank Financial Institution (net): Gross borrowing from the banking system by the nonbank financial intermediaries with the banking system less their deposits. See notes under loans to Non-Residents for Table 2.1(b) and Commercial Banks: Time Deposits for Table 2.4 above.

Private Sector: Gross borrowing from the banking system. See note under Loans to NonResidents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

## Money and Quasi-Money

Money: Currency outside banks plus private sector demand deposits, managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above

Currency: Currency issue (Table 1.2) less currency holdings by Commercial Banks (Table 2.1(a)).

Quasi-money: Time and savings deposits held by the Private Sector. See note under Public Enterprises Deposits for Table 2.1 (b) above.

Demand deposits: Balances of the Private Sector including managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above.

Savings and Time deposits: Balances held by Private Sector. See note under Loans to NonResidents for Table 2.1 (a) above.

Other (net): Includes the net sum of all assets and liabilities of the Bank of Guyana and the Commercial Banks not shown elsewhere.

## TABLE 4.1: Guyana: Selected Interest Rates

Reflects interest rates at Commercial Banks and Non-Bank Financial Institutions on loans and deposits. The small savings rate represents an arithmetic average of savings deposit rates as reported by the Commercial Banks. Treasury bill rates for all maturities reflect rates at the end of the reporting period. Special deposits have been discontinued with effect from December 1994.

TABLE 4.2: Commercial Banks: Selected Interest Rates
Arithmetic average of interest rates as reported by the Commercial Banks.

TABLE 4.3: Comparative Treasury Bills Rates and Bank Rates
The average discount rate on three month Treasury Bills for the U.K., U.S.A., Barbados, Trinidad, Guyana and Jamaica. The U.K. and U.S. rates are the average discount rates at the last tender in each month. The rates for the CARICOM territories are those rates of monthly tender held towards

TABLE 5.1: The New Building Society: Assets and Liabilities
Assets
Foreign Assets: Includes holdings of foreign assets.
Cash and Deposits: Holdings of cash and total deposits (demand, time and savings) at Commercial Banks.

Government of Guyana Treasury Bills: Holdings of Treasury Bills recorded at book value.
Government of Guyana Securities: Holdings of debentures and defence bonds at book value.
Government of Guyana Debentures: Holdings of debentures at book value.
Local Authorities Securities: Bonds at book value.

## Liabilities

Share Deposits: A total of Five Dollar and Save and Prosper Share deposits.
Other Deposits: Ordinary Saving deposits

TABLE 5.2 (a): Trust Companies: Assets
Trust Companies reflect the consolidated operations of Trust Company (Guyana) Limited and Hand-In-Hand Trust.

Cash: Currency (local notes and coins) held by the institution.
Deposits: Balances of savings and time deposits at Bank of Guyana and the Commercial Banks.
Government of Guyana Treasury Bills: Recorded at book value.
Local Government Securities: Recorded at book value.

## TABLE 5.2 (b): Trust Companies: Liabilities

Deposits - Business Firms: Balances held by private sector businesses.
Deposits - Individual Customers: Balances held by private individuals.
Deposits - Other Customers: Balances held by other private sector agencies including nonfinancial organizations.

TABLE 5.2 (c): Finance Companies: Assets
Finance Companies reflect the consolidated operations of Secure International Finance Company, Beharry Stock Brokers Limited and one merchant bank.

Cash: See note under Cash for Table 5.2 (a) above.
Deposits: Balances of savings and time deposits at Commercial Banks.
Private Sector Shares: Ownership of equity such as bonds, bills, shares etc. in private companies.

## TABLE 5.2 (d): Finance Companies: Liabilities

Loans: Loans received from Companies' affiliates.
Capital and Reserves: Includes retained earnings and reserves.
Deposits - Other Customers: Balances held by other private sector agencies including nonfinancial organizations.

TABLE 5.3: Domestic Life Insurance Companies: Assets and Liabilities
The data cover four insurance companies: Demerara Mutual Life Assurance Company; Guyana and Trinidad Mutual Life Insurance Company; Hand-In-Hand Mutual Life Insurance Company and North American Life Insurance Company Limited.

## Assets

Foreign Commercial Bank Deposits: Deposits held in Foreign Commercial Banks.
Foreign Securities: Holdings of the Government of the United Kingdom and CARICOM countries and other foreign securities.

Other Foreign Assets: Balances due from reinsurance abroad, and other foreign assets.
Government of Guyana Debentures: Holdings are recorded at book value.
Local Government Securities: Holdings are recorded at book value.
Securities in Firms: Holdings of commercial bills, shares and other securities recorded at book value.

## Liabilities

Life Insurance Fund: Insurance premia received.

Foreign Liabilities: Claims by non-residents, balances due to insurance companies abroad, nonresident life insurance funds and other liabilities.

## TABLE 5.4: Pension Schemes: Assets and Liabilities

## $\underline{\text { Assets }}$

Foreign Sector: Includes foreign deposits and foreign securities.

Government of Guyana Treasury Bills: Holdings recorded at book value.
Government of Guyana Debentures: Holdings recorded at book value.
Local Government Securities: Holdings of Local Government Securities recorded at book value.

## Liabilities:

Pension Fund: Receipts from the twenty-seven pension funds in Guyana which submit returns to the Bank of Guyana.

## TABLE 6.1 Central Government Finances: Summary

Current Revenue: The data include collection of taxes, other charges and fees. The data are recorded on a cash basis.

Current Expenditure: The data include interest payment, interest charges and other expenditure. Repayment of Principal is not included. The data are recorded on a cash basis.

Current Surplus/Deficit: Current revenue less current expenditure.
Capital Receipts: These include proceeds from sale of assets and external grants.
Capital Expenditure: Investment expenditure; the data also include net transfers and lending to the public enterprises for financing development projects.

Overall Surplus/Deficit: The total of current revenue and capital receipts less the total of current and capital expenditure.

## Borrowing from abroad:

Net short term: Gross borrowing with a maturity of up to 1 year less repayment of principal.

Long term net borrowing: Gross borrowing with a maturity of over 1 year less repayment of principal.

## Domestic Borrowing:

Borrowing from the banking system (net): The banking system holdings of Government debentures, bonds, Treasury Bills and loans and advances less Government deposits.

Non-bank borrowing: Borrowing outside the banking system. Short-term (net) includes Treasury bill holdings less redemptions and local suppliers' credits. Long-term (net) borrowing comprises holdings of debentures and development bonds less redemptions. Holdings of debentures and Treasury Bills by sinking funds are excluded.

Other Financing: Comprises mainly accumulated arrears on external debt repayment, rescheduling of debt and financing from counterpart funds.

TABLE 6.4 Public Corporations Finances: Summary
The table summarises the financial operations of the public corporations and companies. All data from 1990 are based on cash flow statements. Prior to 1990 the data were on an accrual basis.

TABLE 7.1 Domestic Public Debt
Comprise Government of Guyana Defence Premium Bonds, Guymine Bonds, Debentures and Treasury Bills.

Defence Premium Bonds: These are non-interest bearing savings certificates of six months duration. They are no longer used to raise funds. Data are at face value.

Guymine Bonds: These were issued by the Government of Guyana to foreign creditors of the Guyana Mining Enterprise at the time of the firm's restructuring in June 1992. The amounts shown here were required by Guyanese residents during 2000 through 2002. Data are at face value.

Government of Guyana Debentures: These are long term government securities with maturities in excess of one year. Data are at face value.

Government Treasury Bills: These are short-term government securities with maturities of 91 days, 182 days and 364 days. Data are at face value.

TABLE 7.2 Government of Guyana: Treasury Bills by Holders
The holdings of Treasury Bills are recorded at face value. Consequently, figures in this table will differ from those reported in the balance sheet of the Bank of Guyana, Commercial Banks and Non-Bank Financial Institutions, which are recorded at book value.

Other Financial Institutions: Consist of non-bank financial institutions viz:- building societies, insurance companies, trust companies and pension funds.

Public Sector: Include Public Enterprises, National Insurance Scheme, other funds and sinking funds.

Private Sector: excludes financial institutions.
Non-residents: include foreign missions and organizations.

TABLE 7.3 Government of Guyana: Debentures by Holders and Other Debt
The holdings of Debentures and Defence Bonds are at face value. The debentures are long term government securities with maturities in excess of one year. Non-interest bearing debentures held by the Bank of Guyana are excluded. The Defence Bonds have a six-month duration. They are no longer issued.

## TABLE 7.4 Government of Guyana: Debentures by Maturities and Terms

Data include all fixed date, equated annuity and special issues; at face value.
Fixed Date Debentures: These debentures have fixed dates for payments of principal and interest.
Special Issues: Comprise fixed date and equate annuity debentures issued to Bank of Guyana and the National Insurance Scheme. In 1994 the Central Bank absorbed between 75 percent to 80
percent of the excess reserves of the banking system, through a forced sale of a long term (3 years) variable rate fixed date debenture. The interest is calculated at a rate of point five percent $(0.5 \%)$ per annum above the regular three month treasury bill yield rate averaged over the calendar months prior to the interest due date. In 2003, the Government of Guyana made a special issue of debentures to the National Bank of Industry and Commerce (NBIC) (now Republic Bank (Guyana) Limited) to capitalize the Guyana National Co-operative Bank (GNCB) at the time of its privatization.

TABLE 7.5 External Public Debt
The data comprise the stock of Central Government and Government guaranteed debt outstanding, Bank of Guyana's debt is excluded.

Bilateral Debt: Debt contracted with foreign investments.
Multilateral Debt: Debt contracted with international lending institutions such as the World Bank, the Inter-American Development Bank, the Caribbean Development Bank and the European Investment Bank.

Financial Institutions Debt: These debts include borrowing from foreign commercial banks and specialized official lending agencies.

Suppliers Credit: Obligations to suppliers for deferred payment after delivery of goods and/or services.
Nationalisation Debt: Amounts owing to foreigners in compensation for nationalized assets.

## TABLE 8.1(a) Imports by End-Use

The data are complied on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Figures for all commodities are complied by the Bureau of Statistics and forwarded to the Bank of Guyana.

TABLE 8.2 Domestic Exports
The data are complied on a free-on-board (f.o.b.) basis as recorded on customs returns. Figures for all commodities are complied by the Bureau of Statistics and forwarded to the Bank of Guyana.

## TABLE 8.5 International Reserves and Foreign Assets

International Reserves
Bank of Guyana Foreign Assets: Data include gold holdings, balances with foreign banks, foreign notes, foreign cash in the process of collection, gold tranche with I.M.F., S.D.R. holdings and money market securities.

Bank of Guyana Foreign Liabilities: Data include total short-term current liabilities, short-term liabilities in arrears and total medium liabilities in arrears. The liabilities include interest obligations. Rescheduled short-term liabilities are excluded.

## Foreign Assets

Bank of Guyana Foreign Assets: The composition of the assets is identical to that of International Reserves Foreign Assets above.

Bank of Guyana Foreign Liabilities: Data include all short-term liabilities (current, arrears and rescheduled) and all medium term liabilities (current, arrears and rescheduled). The liabilities
include interest obligations.
Commercial Banks' Foreign Assets: Data include foreign currencies in banks, net balances due from Head Offices and other branches abroad, balances due from other banks abroad, foreign treasury bills and securities and credit to non-residents.

Commercial Banks' Foreign Liabilities: Data include net balances due to Head Offices and other branches abroad, balances due to other banks abroad and deposits of non-residents. See note under Loans to Non-Residents for Table 2.1(a) above.

## TABLE 8.7 Balances of Payments Summary

Exports: The data are complied on a free on board (f.o.b.) basis as recorded on customs returns. Data for all commodities are complied by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

Imports: The data are complied on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Data for all commodities are complied by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

## TABLE 9.1 Changes in Bank of Guyana Transaction Exchange Rates

The Guyana dollar was fixed in Pound Sterling at the rate of $£ 1$ to G\$4.80 until October of 1975 when it was linked to the US\$1 to G\$2.55.

On June 2, 1981, the Guyana dollar was pegged to a composite basket of currencies consisting of the United States dollar, Pound Sterling, Deutsche Mark, Trinidad and Tobago dollar and the Japanese Yen. The exchange rates was fixed at US\$1 to G\$3.00. The US dollar was the intervention currency used to determine the exchange rate.

From January 11,1984 , the composite basket of currencies was adjusted to include the Pound Sterling, Deutsche Mark, Japanese Yen, French Franc and the Netherlands Guilder, the US dollar, although nor part of the revised basket, remained as the intervention currency. The United States dollar/Guyana dollar exchange rate was announced weekly. From October 1984 until January 1987, the exchange rate was maintained in the range of G $\$ 4.15$ to $\mathrm{G} \$ 4.40$ per US dollar.

Effective January 19, 1987, the Guyana dollar was devalued to G\$10 to US\$1, effective from April 3, 1989 the Guyana dollar was devalued moving from G\$33 per US\$ to US\$1. On June 15, 1990, the Guyana dollar was devalued from G $\$ 33.00$ per US\$ to G $\$ 45.00$ per US\$. Transactions for this rate were confined to payments in respect of oil imports and external debt services and proceeds from sugar and rice exports.

On February 21, 1991, the Guyana dollar was devalued from G\$45.00 to US\$ to G\$101.75 thereby unifying the official exchange rate with the market determined rate prevailing at that date. The US dollar continued to be the intervention currency. From February 25, 1991, the exchange rate was fixed on a weekly basis. During the period February to September 1991, the exchange rate was determined by the pervious week free market exchange rate of the Commercial Banks and Non-Bank dealers.

From October 1991, the average weighted daily exchange rate was telegraphic transfers for the three largest Commercial Banks was utilised to determine the exchange rate for the Bank of Guyana daily transactions.

TABLE 9.2(b) Exchange Rate (G\$/US\$)
The end of period exchange rate is the weighted official rate used by the Bank of Guyana for transactions. The period average exchange rate reflects the weighted average rate for the respective periods.

TABLE 9.5: Monthly Average Market Exchange Rate
On March 13, 1990, the authorities established the cambio system for foreign currency transactions. Under the system, transactions in the cambio market were conducted freely with licensed dealers (banks and non-banks) setting the rate at which foreign exchange could be bought and sold. The rates are referred to as the market exchange rates. Data collection for the Euro started in January 2004.

The buying rate is a weighted average of the purchase rates of all licensed foreign exchange dealers for the month.

The selling rate is a weighted average of the sales rates of all licensed foreign exchange dealers for the month.

The mid-rate is the average buying and selling rates of all licensed foreign exchange dealers. The rate is based on transactions in foreign notes only.

TABLE 10.1 Gross Domestic Products, Income and Expenditure (at Current Basic Prices)
GDP compiled at current basic prices, for the respective year, is the production of goods and services undertaken by firms, households, government bodies within the borders of the country during a calendar year, at the amount receivable by the producer from the purchase of a unit of good or service less any tax payable, plus any subsidy receivable as a consequence of its production or sale.

## TABLE 10.2 Gross Domestic Products (at 2006 Prices)

Real GDP - taking the quantities of goods and services produced (at the current basic year) and priced at the base year of 2006 prices, it is therefore adjusted for any variation in prices (inflation or deflation).

## TABLES 10.3 National Production

This accounts for the major commodities that account for a significant portion of national production and economic activities within a calendar year. It is sourced from the Bureau of Statistic (BOS) as well as the respective industries, such as for rice: Guyana Rice Development Board, sugar: GUYSUCO, forestry: Guyana Forestry Commission and gold: Guyana Gold Board, etc.

Table 11.1 Georgetown: Urban Consumer Price Index
The Urban Consumer Price Index measures the overall level of price movement for a specified basket of consumer goods and services in the urban area. It is compiled and computed by the Bureau of Statistics, and the basket is made up of nine (9) sub-categories, (this table highlights four: Food, Housing, Transport \& Communication and Miscellaneous), which comprises of 217 items (goods and services). The current base year December 2009.

Table 11.2 CARICOM Countries: Consumer Price Indices
This table reflects the consumer price movements for selected CARICOM countries (current base year 2010).
