

### ***Why should Someone Save***

Saving is important. The list of reasons should motivate one to start saving. Savings should be stored in a safe place, preferably a bank or saving institution which will allow you to:

Earn interest and help your money grow

Reduce the temptation of spending irresponsibly

Make payments safer, less time consuming and less expensive

Establish a relationship with the Bank

Enjoy services offered by banks such as access to loans

Have enough funds to cover living expenses in event of disaster or sickness

Pay for university/college expenses, wedding, buying a home and  
for a comfortable retirement

Develop a habit of saving
