STATISTICAL ANNEXE	

GUYANA : HALF-YEAR ECONOMIC REVIEW 2002

SUMMARY

Real GDP grew by 2.9 per cent in the first half of 2002, significantly higher than the 1.3 per cent increase for the corresponding period last year. Growth was driven by the agricultural sector mainly through increased sugar production. Poultry output, manufacturing, engineering & construction, transport & communications and financial services also made positive contributions. There were unfavorable performances by rice, bauxite, gold and fishing. Growth in income reflected the varying real output performances in the various sectors.

The rate of inflation, on the basis of the consumer price index, accelerated to 4.1 per cent compared with -0.4 per cent for the corresponding period last year. Higher utility charges for electricity, water and telecommunication services, as well as higher cost of food and medical & personal care contributed to the relatively sharp increase in inflation. Cost of clothing and furniture remained relatively unchanged. Continuing fiscal discipline, as well as prudent monetary policy, contained the inflation growth.

On the external front, the overall balance strengthened. This reflected a significant contraction in the current account deficit due to a sharp improvement in the trade balance. In contrast, the capital account deteriorated due to lower capital transfers and other inflows in the form of trade credits. The overall deficit was funded by debt relief under the original and enhanced interim HIPC initiatives which contributed to an increase in the net foreign assets of the Bank of Guyana.

Foreign exchange conditions in the cambio market were relatively stable with a marginal depreciation of the Guyana dollar against the US dollar and higher level of foreign currency transactions. This was due to reduced demand pressure on account of enhanced flows from the major export sectors. The cambio market spread between purchases and sales rates increased marginally, reflecting the lessened demand pressure in the market.

The non-financial public sector's overall financial position strengthened on account of the performance of the central government. Central government recorded a smaller overall deficit reflecting higher current and capital receipts. The operations of the non-financial public enterprises weakened due to a deterioration in the financial operation of GUYSUCO on account of high employment cost.

Total government domestic bonded debt, as well as the stock of external public debt, increased during the review period. Higher domestic debt was attributed to an increase in the amount of treasury bills issued to sterilise excess liquidity in the financial system. In spite of this, interest payments declined due to lower interest costs on maturing treasury bills. The expansion in external public debt was mainly due to higher disbursements.

The objectives of monetary policy remained unchanged during the review period, aiming at management of the liquidity conditions to foster price and foreign exchange stability to support economic activities. Monetary and credit aggregates growth decelerated at end-June, 2002. Broad money recorded growth of 1.1 per cent while credit to the private sector contracted by 1.6 per cent, reflecting further consolidation by the commercial banks. Both banks and non-bank financial institutions continued to mobilize resources through deposits on account of positive rates of return. Interest rates trended downwards, however, spreads widened due to a slower decline in lending rates than deposit rates.

The prospects for continued growth in 2002 hinge on continued macroeconomic stability and on renewed emphasis on eliminating the obstacles to growth generally as well as focusing on selected sectors. In this regard, Bank of Guyana would continue with its objectives of fostering price and exchange rate stability to support economic activities. "

1. PRODUCTION, EMPLOYMENT, EARNINGS AND INFLATION

Real Gross Domestic Product (GDP) growth was 2.9 per cent, significantly higher than the 1.3 per cent recorded last year. Growth was primarily driven by the performance of the sugar industry with positive contributions from manufacturing, transport & communications, engineering & construction and financial services. In contrast, there were negative contributions from mining, rice and fishing. Inflation accelerated to 4.1 per cent compared with -0.4 per cent in 2001. Increases in food prices and higher electricity, telephone and water tariffs contributed to the elevated price level which was contained by prudent monetary and fiscal policies.

PRODUCTION

Agriculture and Forestry

The agricultural and forestry sectors recorded positive growth during the review period. The outturn of the agricultural sector reflected the outstanding performance of the sugar industry on account of improved weather conditions and plant husbandry. The forestry sector performance reflected increased log production.

Sugar

Sugar output amounted to 128,983 tonnes, 39.6 per cent of the target for the year and 31 per cent above the previous year's level. The outturn reflected favorable climatic conditions at the beginning of the harvesting season which contributed to improved field and factory recoveries. During the review period, field yield was higher at 79.5 tonnes of sugar cane per hectare compared with 61.1 tonnes of cane, while factory recovery was marginally better than the 10.9 tonnes of sugar per tonne of cane one year ago.

Of total production, exports of sugar amounted to 119,431 tonnes, 46.3 per cent higher than the previous year's level. Local sales was 19.3 per cent lower at 10,899 tonnes while closing inventory was 52.4 per cent higher at 26,373 tonnes.

Rice

Rice output amounted to 161,751 tonnes, 48.8 per cent of the target for the year and 5.8 per cent below the June 2001 level. The outturn reflected a 17.4 per cent decrease in acreage cultivated due to adverse weather

conditions which affected land preparations. Paddy yields and acreage harvested remained unchanged during the review period.

Of total production, export sales amounted to 95,982.6 tonnes which represented 59.3 per cent of total output and 4.5 per cent lower than the previous year's level. Domestic sales amounted to 23,775 tonnes or 14.7 per cent of total production.

Livestock and Fishing

The livestock sector recorded improved performance due to higher poultry output. Poultry output increased by 19.8 per cent to 6,570 tonnes while the output of eggs decreased by 13 per cent to 9 million. The former reflected the entry of additional large scale producers in the industry while the latter was due to the cyclical substitution of meat birds for layers.

Table 1

Selected Production Indicators			
Agriculture & Forestry			
	January - June		
Commodity	2000	2001	2002
Sugar (Tonnes)	106,247	98,224	128,983
Rice (Tonnes)	187,005	171,768	161,751
Poultry (Tonnes)	4,912	5,483	6,570
Eggs ('000)	11,955	10,429	9,000
Forestry (cu.m)	224,512	250,774	278,541

Value added of the fishing sub-sector declined during the review period on account of the performance of all the major species. Fish, prawns and shrimp catches

dropped by 21.6 per cent, 11 per cent and 6 per cent respectively.

Forestry

Forestry production amounted to 278,541 cubic metres, 11.1 per cent higher than the corresponding period last year. Growth in the forestry sector was driven mainly by a 5 per cent increase in logs production. Output of greenheart logs increased to 112,294 cubic metres from 50,343 cubic metres while other species declined to 166,247 cubic metres from 200,431 cubic metres. Sawn timber production dropped by 9.2 per cent in response to the shift in market demand. Plywood production declined by 26.9 per cent to 26,750 cubic metres as the main producer changed its product mix in response to market demand.

Mining and Quarrying

Value added in mining and quarrying declined by 7.2 per cent, reflecting lower bauxite production and gold declaration. In contrast, diamond output continued its upward trend.

Table 2

Selected Production Indicators			
Mining and Quarrying			
	January - June		
Commodity	2000	2001	2002
Bauxite (tonnes)	1,416,727	914,465	745,383
RASC	52,522	43,587	24,071
CGB	34,342	91,412	87,453
MAZ	1,307,379	771,977	633,859
OTHER	22,484	7,489	-
Gold (ounces)	211,379	218,489	213,087
Diamond (mc)	35,070	49,674	113,969

Bauxite

Total bauxite output was 745,383 tonnes, 18.5 per cent lower than the corresponding 2001 level, reflecting a contraction in the output of all grades. Refractory Grade Bauxite (RASC), Metal Grade Bauxite (MAZ) and Chemical Grade Bauxite (CGB) decreased by 44.8 per cent, 14.3 per cent and 4.3 per cent to 24,071

tonnes, 633,859 tonnes and 87,453 tonnes respectively. The significant decline in RASC output partly explained by lower power availability and some flooding of the mines at LINMINE during the second quarter. The output of MAZ and CGB were associated with difficulties in scheduled deliveries.

Gold and Diamond

Gold declaration amounted to 213,087 ounces, 2.5 per cent lower than the corresponding 2001 level. This was attributed to a 11.1 per cent decline in production by OMAI on account of lower yield from mines approaching the end of their economic lives. In contrast, declarations by local miners were 31.6 per cent higher at 58,307 ounces; this was explained by recovery of international prices.

Diamond production amounted to 113,969 metric carats compared with 49,674 metric carats during the first half of year 2001. This favorable outturn reflected an increase in the number of mining concessions, higher productivity and favorable international prices.

Table 3

Selected Production Indicators			
Manufacturing			
	January - June		
Commodity	2000	2001	2002
Consumer Non-Durables			
Alcoholic Beverages ('000 litres)	8,210	11,651	12,699
Malta ('000 litres)	634	647	725
Non Alcoholic Beverages ('000 cases)	1,701	1,663	1,962
Garments ('000 dozens)	96	162	164
Liquid Pharmaceutical ('000 litres)	201	103	185
Consumer Semi-Durables			
Electricity (MWH)	230	243	257
Paints ('000 litres)	812	782	835

Manufacturing

The manufacturing sector recorded real output growth of 6 per cent during the review period, slower than the

9.2 per cent recorded last year. Increases were recorded in the pharmaceutical, electricity, paint, garment and the alcoholic and non-alcoholic beverages industries. In contrast, the food and plywood industries recorded declines in output.

Services

The services sector recorded a 9.1 per cent growth compared with a 17.7 per cent growth during the corresponding 2001 period. The distribution sector recorded a -0.4 per cent growth as consumer goods imports slumped in response to higher inventories resulting from sluggish domestic demand. This performance was also recorded for government services which contracted by 0.5 per cent following the restrained wage increases and contraction of employment. In contrast, the transport & communications sectors and engineering & construction sectors recorded growth of 3.2 per cent and 2 per cent respectively. The former is explained by higher land transportation and increased inbound telecommunications and cellular traffic. The latter reflected the higher public sector investment program, some of which started in 2001.

EMPLOYMENT, INCOME & INFLATION

Employment

The employment level remained relatively unchanged in the public sector. Although employment data on the private sector are unavailable, there are indications of employment creation in the livestock and services industries. The labor relations climate in the market remained relatively calm, except for some work stoppages in the sugar industry during the review period.

Income

Nominal income growth reflected the output performances of the various economic sectors. Higher

earnings were reported in the sugar and transport & communications industries while lower earnings were recorded for the rice and distribution industries. Remuneration to public sector employees was marginally higher because of the 5.5 per cent wage and salary increase that was paid to public servants during the last quarter of 2001. Income by deposit holders rose slowly due to declining interest rates.

Inflation

The Georgetown Urban Consumer Price Index (CPI) grew by 4.1 per cent compared with the -0.4 per cent decline for the same period last year. Annual inflation as measured by the twelve-month change in the CPI was relatively higher at 6.1 per cent compared with 3.5 per cent one year ago. The inflation outturn reflected the increased cost of utilities (electricity, telecommunications and water), food, housing accessories, private transport and medical & personal care services. The cost of clothing and furniture remained relatively flat over the review period. The monthly average inflation of 0.7 per cent was exceeded during the months of February and April, reflecting the dates of increase in utility tariffs.

Table 4

Consumer Price Index			
	January 1994 = 100		
	Jun 2001	Dec 2001	Jun 2002
All Items	162.3	165.4	172.2

Transport & Communication	190.8	186.8	215.4
Medical & Personal Care	186.0	186.4	191.3

"

2. BALANCE OF PAYMENT DEVELOPMENTS

The overall balance of payments position strengthened during the review period. This was attributed to an improvement in the current account caused by a sharp decline in the merchandise trade deficit. In contrast, the capital account deteriorated on account of lower capital transfers and flows in the form of trade credits. The overall deficit was financed through debt relief under the HIPC initiative, which also contributed to an increase in the Bank of Guyana net foreign assets.

Current Account

The current account recorded a deficit of US\$48.7 million compared with a deficit of US\$82.9 million for the same period last year. This was primarily due to a significant contraction of the deficit in the merchandise trade balance and an increase in current transfers to the rest of the world. Net service payments increased from US\$38.9 million to US\$44 million.

Merchandise Trade

The merchandise trade balance recorded a deficit of US\$38.8 million, 47.5 per cent lower than the deficit of US\$73.9 million for the corresponding period last year. This performance was attributed to an increase in export earnings and a decline in imports.

Exports

Total exports amounted to US\$239 million, 11.1 per cent above the value recorded for the corresponding period in 2001. The major export sectors of sugar, gold and the non-traditional registered improved performances while rice, bauxite and timber recorded decreased earnings.

Sugar

Sugar export earnings amounted to US\$50.1 million or 45.5 per cent above the 2001 value, primarily reflecting higher volume. Export volume rose to 119,431 tonnes from 81,625 tonnes due to a 31.3 per cent increase in production. Although the preferential EU market price increased from US\$445.1 to US\$519.2 per tonne due to the appreciation of the Euro against the US dollar, the average export price decreased by 0.6 per cent to US\$419.1 per tonne as a

consequence of 10,850 tonnes of sugar being sold at a lower price on the world market.

Table 5

Balance of Payments (US\$ Million)			
	January - June		
	2000	2001	2002
CURRENT ACCOUNT	-61.0	-82.9	-48.7
Merchandise Trade	-36.0	-73.9	-38.8
Services (Net)	-44.1	-38.9	-44.0
Transfers	19.1	29.9	34.1
CAPITAL ACCOUNT	71.2	53.9	42.2
Capital Transfers	2.2	17.6	8.6
Non-financial Public Sector	6.3	5.1	12.8
Private Capital	61.5	19.6	25.5
Other	-	20.0	6.0
Short term Capital	1.2	-8.4	-10.7
ERRORS & OMISSIONS	0.7	9.7	-4.1
OVERALL BALANCE	10.9	-19.3	-10.6

Sugar exported to the EU under the Sugar Protocol of the Lome Convention was 58.9 per cent of total sugar export compared with 54.6 per cent in 2001. Exports to the EU under the Special Preferential Agreement (SPA) and CARICOM amounted to 20.4 per cent and 11.6 per cent respectively. For the same period in 2001, exports to the EU under the SPA and CARICOM were 30.1 per cent and 15.1 per cent respectively. During the review period there were also exports to Russia which accounted for 9.1 per cent of total sugar exports.

Rice

Rice export earnings amounted to US\$22.9 million, 5.9 per cent lower than the previous year's total on

account of both lower volume and prices. Rice export volume contracted to 95,982.6 tonnes from 100,549.4 tonnes while the average export price per tonne decreased by 1.4 per cent to US\$238.3 per tonne. Rice exported to the EU and CARICOM was 58.1 per cent and 38.5 per cent respectively compared with 46.7 per cent and 39 per cent respectively for the corresponding period in 2001.

Bauxite

Bauxite export earnings amounted to US\$16.3 million, 42.1 per cent below the value for the same period during 2001, reflecting lower volume and prices. Export volumes decreased to 701,878 tonnes from 838,387 tonnes while average export price decreased by 30.8 per cent to US\$23.3 per tonne. The main types of bauxite exported were Metallurgical Grade Bauxite (MAZ) and Chemical Grade Bauxite (CGB) which amounted to 627,890 tonnes and 49,732 tonnes respectively compared with 761,694 tonnes and 57,298 tonnes respectively for the same period in 2001.

Table 6

Exports of Major Commodities					
Product	Unit	January - June			2002
		2000	2001		
Sugar	Tonnes	115,330	81,625	119,431	
	US\$Mn	52.2	34.4	50.1	
Rice	Tonnes	107,483	100,549	95,983	
	US\$Mn	27.2	24.3	22.9	
Bauxite	Tonnes	1,329,565	838,387	701,878	
	US\$Mn	39.9	28.2	16.3	
Gold	Ounces	212,550	207,786	228,837	
	US\$Mn	61.0	55.4	66.7	
Timber	Cu. Metres	97,571	94,105	91,290	
	US\$Mn	21.4	19.4	17.5	

Gold

Gold exports amounted to US\$66.7 million, 20.4 per cent above the value recorded for the same period in 2001, reflecting increased volume and price. During the review period, export volume expanded to 228,837.4 ounces from 207,786.4 ounces while the

average export price per ounce increased to US\$291.5 from US\$266.6 owing to the continued upward trend in the world market price since the beginning of the year. OMAI Gold Mines Limited (OGML's) share of total gold export volume decreased to 69.8 per cent compared with 83.1 per cent while Guyana Gold Board (GGB's) share of total gold exports increased to 30.2 per cent from 16.9 per cent for the same period last year.

Timber

Timber export earnings amounted to US\$17.5 million, 9.8 per cent below the previous year's level due to a combination of lower volume and price. Plywood exports from the BARAMA Company Limited amounted to US\$6 million, representing a 35.4 per cent decrease over last year's total. Other timber exports were marginally higher at US\$11.5 million compared with US\$10.2 million in 2001.

Table 7

Other Exports January-June (US\$ Million)			
Commodities	2000	2001	2002
Garments & Clothing	6.1	7.1	9.1
Fish & Shrimps	26.2	31.5	31.7
Rum & Other Spirits	2.6	4.1	5.5
Fruits & Vegetables	0.2	0.2	0.9
Prepared Foods	2.5	3.3	2.8
Wood Products	0.2	0.3	0.3
Pharmaceuticals	0.6	0.5	0.8
Diamonds	2.0	3.0	9.0
Re-Exports	2.1	1.2	1.0
Others	5.1	2.3	4.4
Total	47.6	53.5	65.5

Other Exports

The value of all 'other exports' including re-exports was US\$65.5 million, 22.4 per cent higher than the value for the same period last year. Items in this category recorded mixed performances as shown in Table 7. Rum and spirits, garments and clothes, as well as, diamond recorded increases in export earnings

while re-exports and prepared foods registered decreases in earnings.

Imports

Merchandise imports amounted to US\$277.8 million, 3.9 per cent below the value recorded for the corresponding period in 2001. All the major categories of imports - consumption, intermediate and capital goods - recorded lower imports as shown in Table 8. Consumption goods imports amounted to US\$73.4 million, 4 per cent less than the corresponding period a year ago, reflecting a decline in the sub-categories of "other durable" and "beverages and tobacco". Intermediate goods imports amounted to US\$144.6 million, 4.8 per cent below the corresponding period in 2001. This was attributed largely to lower imports of fuel and lubricants due to the downward trend in oil prices during the first half of the year. Capital goods imports recorded a marginal decline of 1.9 per cent to US\$59.4 million, mainly on account of a contraction in the sub-category of "other capital goods".

Services and Unrequited Transfers

Guyana was a net importer of services to the value of US\$44 million compared with US\$38.9 million for the same period in 2001. This resulted largely from non-factor payments which increased to US\$15.6 million from US\$11.4 million. Freight and merchandise insurance accounted for the main form of non-factor outflows at US\$27.6 million compared with US\$23.2 million. Travel & tourism and communications services represented the main form of non-factor inflow at US\$36.3 million and US\$23.4 million respectively compared with US\$31.3 million and US\$17.8 million. Net factor payments increased marginally from US\$27.4 million to US\$28.4 million. This reflected higher employees' compensation from US\$3.6 million to US\$3.9 million, as well as, private sector interest payments on debt from US\$7.2 million to US\$9.6 million. Public sector interest payments was lower at US\$15.6 million from US\$17.1 million.

Table 8

Items	Imports		
	January - June		
	(US\$ Million)		
Items	2000	2001	2002

Sub-total	67.5	60.5	59.4
Miscellaneous	0.6	0.3	0.4
Total Imports	285.3	289.1	277.8

Net current transfers amounted to US\$34.1 million, 14 per cent higher than the corresponding 2001 level. During the review period receipts from bank accounts held abroad and other unrequited transfers represented the main forms of net current inflows which amounted to US\$25 million and US\$33.9 million respectively compared with US\$21 million and US\$29.7 million. Remittances to bank accounts abroad represented the main form of current outflows at US\$23.6 million compared with US\$18 million.

Capital Account

The capital account recorded a net inflow of US\$42.2 million, 21.7 per cent lower than the corresponding 2001 level. This was attributed to a significant decrease in capital transfers from US\$17.6 million to US\$8.6 million due to delayed disbursements of the enhanced interim HIPC assistance. On the public sector capital account, the central government and the non-financial public enterprises recorded higher net inflows of US\$12.8 million compared with US\$5.1 million for the same period in 2001. Disbursements from multilateral and bilateral sources increased to US\$24.7 million from US\$18.6 million. Amortization payments were lower at US\$11.9 million from US\$13.5 million while net private sector long-term capital inflows increased to US\$25.5 million from US\$19.6 million. The telecommunications and fishery sub-sectors were the main beneficiaries of these inflows. Net short-term private capital outflows increased to US\$10.7 million compared with US\$8.4 million while other flows in the form of trade credits declined to US\$6 million from US\$20 million.

OVERALL BALANCE AND FINANCING

The overall balance of payments deficit contracted from US\$19.3 million to US\$10.6 million on account of a sharp decline in the current account deficit. The overall deficit was financed by debt relief under the original and enhanced interim HIPC initiatives which contributed to an increase in the net foreign assets of Bank of Guyana.

Total	16.1	18.4	24.7
"			

3. FOREIGN EXCHANGE MARKET DEVELOPMENTS

The foreign exchange market conditions were relatively stable during the review period. The Guyana dollar depreciated marginally against the US dollar while there was a higher level of foreign exchange turnover. The former was due to reduced demand pressure while the latter was attributed to increased flows from the major export sectors. The enhancement of foreign exchange flows contributed favorably to the exchange rate outturn.

FOREIGN EXCHANGE RATES AND VOLUMES

During the review period, the weighted mid-rate for transactions in the cambio market depreciated by 0.3 per cent, reflecting reduced demand pressure. The total recorded foreign exchange transactions amounted to US\$1,044.1 million, 24.5 per cent higher than the level during the corresponding period last year. This reflected enhanced foreign currency flows through the cambio market, non-resident accounts and the Bank of Guyana. The cambio market, which accounted for US\$451.3 million or 43.2 per cent of the total transactions, witnessed a growth of 12.2 per cent over the corresponding 2001 level.

The Exchange Rate

The weighted mid-rate was relatively stable with a depreciation of 0.3 per cent compared with 1.1 per cent recorded for the same period last year. At the beginning of the year, the rate was G\$190.92 per US dollar and closed the second quarter at G\$191.47 per US dollar. The Bank of Guyana's transaction exchange rate, an unweighted average of the telegraphic transfer rates of the three largest dealers in the market, depreciated by 0.7 per cent compared with 1.1 per cent last year. At the beginning of the year, the rate was G\$189.50 per US dollar but it declined to G\$190.75 per US dollar at end-June 2002. The depreciation of the rates occurred largely during the first quarter as there was relative stability during the second quarter, reflecting enhanced foreign exchange flows.

The reported cambio market spread between the purchases and sales rates, expressed as a percentage of the weighted mid-rate, rose marginally from 1.6 per

cent at the beginning of the year to 1.8 per cent at end-June 2002. The average spread for the period was 2.2 per cent compared with 2 per cent last year.

The difference in average nominal spread between the bank and non-bank cambio market segments expanded marginally during the review period. The average spread between the purchases and sales exchange rates of the bank cambios was higher at G\$3.4 compared with G\$3.3 recorded last year. In contrast, the average spread of the licensed non-bank cambios remained the same at G\$4.1.

Overall Market Volumes

The volume of all foreign currency transactions amounted to US\$1,044.1 million, 24.5 per cent higher than the amount recorded for the corresponding period last year. The total foreign exchange purchases transactions were US\$514.3 million while total sales transactions amounted to US\$529.7 million. This resulted in a net sale of US\$15.4 million compared with a net purchase of US\$4.2 million for the same period in 2001. The net sale emanated from the foreign currency accounts and the Bank of Guyana.

During the review period, the market turnover in the cambio segment grew by 12.2 per cent to reach US\$451.2 million or 43 per cent of total foreign currency transactions compared with 47.9 per cent in the previous year. Aggregate purchases were US\$225.4 million while aggregate sales were US\$225.9 million, resulting in a net sales of US\$0.5 million compared with net purchases of US\$1.1 million last year. Within the cambio system, total bank cambio transactions volume was 2.5 per cent lower at US\$398.9 million or 88.4 per cent of total cambio market volume compared with 89.7 per cent

last year. Aggregate purchases amounted to US\$199.3 million while aggregate sales were US\$199.6 million. Consequently, net sales were US\$0.3 million compared with net purchases of US\$1.1 million in the previous year. The non-bank cambio transactions increased to US\$52.4 million from US\$41.4 million.

Transactions conducted by the Bank of Guyana amounted to US\$162.6 million, 20 per cent higher than the corresponding level last year and 15.6 per cent of total foreign currency transactions. This outturn reflected higher purchases and sales. Net sales by the Bank amounted to US\$5.5 million.

The total number of approved foreign currency accounts (including exporters' retention accounts) stood at 664, 6.6 per cent higher than the corresponding period in the previous year. Eighteen (18) new accounts were opened compared with seven (7) new accounts during the corresponding period last year. These accounts were associated with rice exporting, hotel management, insurance and some non-profit organizations. The value of debits and credits through these accounts amounted to US\$204.8 million and US\$218.9 million respectively, 41.3 per cent and 46.6 per cent higher than the previous year. This was due partly to the increased number of accounts as well as higher value transactions. The balances outstanding on these accounts at end-June 2002 totaled US\$14.1 million.

The US dollar continued to dominate cambio transactions during the review period, accounting for 93.1 per cent of the market turnover or 1.2 per cent below the level during the same period last year. The Pound Sterling accounted for 3.2 per cent of the turnover, marginally higher than the 3.1 per cent recorded last year. The Canadian dollar share amounted to 2.3 per cent, marginally lower than the 2.5 per cent recorded during the same period last year. CARICOM currencies' share was higher at 1.3 per cent compared with 1 per cent last year.

CARICOM Currencies

The value of CARICOM currencies traded on the cambio market was equivalent to US\$6.5 million compared with US\$7 million at end-June 2001. Transactions in CARICOM currencies continued to be dominated by the Barbados and Eastern Caribbean currencies that together accounted for 97.7 per cent of the total transactions.

The exchange rates for Barbados, Belize and the Eastern Caribbean countries remained fixed during the review period. The floating exchange regime countries of Jamaica and Trinidad & Tobago maintained relatively stable exchange rates while Suriname experienced a significant depreciation of its Guilder. "

4. PUBLIC FINANCE

The consolidated public sector's cash performance continued to be strong, particularly at the level of the central government. The central government recorded a lower overall deficit as revenue collections overperformed expenditure management. In contrast, the cash performances of the public enterprises deteriorated on account of relatively higher expenditure in the form of employment cost, particularly by GUYSUCO.

CENTRAL GOVERNMENT

Central Government's financial position improved during the first half of 2002. This performance was due to higher revenue collection as a result of consistent efforts by the authorities to improve the administrative capacity of the Guyana Revenue Authority. Consequently, the recorded overall deficit contracted from G\$3,633.4 million to G\$1,382.4 million during the review period.

Current Account

The current account recorded a surplus of G\$274.9 million at end-June 2002, higher than the G\$41.2 million for the same period last year. This outturn was attributed to a 5.1 per cent increase in current revenue which offset the increase in external interest payment.

Revenue

Total current revenue (excluding the reimbursable rice levy) amounted to G\$22,250 million. This represented 50.8 per cent of the target for the year and 5.1 per cent over the end-June 2001 level. This outturn reflected improved revenue performance by the Internal Revenue Department and Customs & Trade Administration.

Internal Revenue Department's collection rose to G\$11,546 million. This represented 55.7 per cent of the target and 11.7 per cent higher than the end-June 2001 level. This was partly attributed to higher income tax collected from the 5.5 per cent wage and salary increase that was paid to public servants during the last quarter of 2001.

Corporation and personal income taxes were the main contributors to this source of revenue and together

accounted for 81.4 per cent of the Inland Revenue Department's collection. Travel voucher tax increased by 13 per cent while purchase tax on motor cars was G\$259.3 million or 20 per cent higher.

Customs and Trade Administration collection amounted to G\$8,956.5 million, 44.4 per cent of the target and a 5.1 per cent increase over last year's level. The improved performance stemmed from import duties and consumption taxes due to higher import value. Consumption tax and import duty amounted to G\$7,063 million and G\$1,623.9 million, exceeding last year's outturn by 6 per cent and 2 per cent respectively.

Expenditure

Total current expenditure amounted to G\$21,975 million, 4 per cent above the 2001 level and represented 59 per cent of the budget for the year. This outturn was due largely to higher interest payments compared with the previous year as a result of higher external interest payments.

Employment cost which accounted for 44.3 per cent of non-interest expenditure amounted to G\$7,415.4 million, 8.1 per cent higher than the end-June 2001 level. This outturn reflected the payment of salary increases for 2001 during the second half of the year.

Other non-interest expenditure including charges in respect of materials, equipment & supplies, electricity, travel & transportation, etc., amounted to G\$9,332.9 million, 3.7 per cent less than the end-June 2001 level and 43.6 per cent of the budget for the year. The decline, in part, stemmed from delays in the utilization of releases by some ministries.

Interest payments amounted to G\$5,226.8 million, representing 23.8 per cent of total current expenditures for the review period and 14 per cent above the level in 2001. Domestic interest charge amounted to G\$2,257.1 million, 8.7 per cent less than that for the same period in 2001 and was attributed to the decline in both the discount rate and the volume of redemption of treasury bills. External interest amounted to G\$2,969.7 million, 40.4 per cent higher than last year's level and was explained by higher payments made towards GUYMINE Bonds in the review period.

Table 10

Central Government Finances			
(G\$ Million)			
	January - June		
	2000	2001	2002
CURRENT ACCOUNT			
Revenue	20,433.4	21,178.6	22,250.0
Expenditure (non interest)	13,115.7	16,550.7	16,748.3
Current Primary Balance	7,317.7	4,627.9	5,501.7
Interest	6,784.4	4,586.7	5,226.8
Current Balance	533.3	41.2	274.9
CAPITAL ACCOUNT			
Receipts	3,886.4	2,288.6	4,980.9
Expenditure	5,752.8	5,963.2	6,638.2
OVERALL BALANCE	(1,333.1)	(3,633.4)	(1,382.4)
FINANCING			
Net External Borrowing	4,850.7	1,945.8	2,064.7
Net Domestic Borrowing	(3,225.0)	5,218.3	4,736.3
Net Divestment Proceeds	(281.4)	(1,178.3)	-
Other Financing	(11.2)	(2,352.4)	(5,418.6)

Capital Account

The capital account recorded a lower deficit of G\$1,657.3 million compared with G\$3,674.6 million in 2001. This outturn resulted from a sharp increase in capital receipts which outperformed the increase in capital expenditure.

Capital receipts, in the form of grants and HIPC relief, amounted to G\$3,367.6 million, a 334.2 per cent

increase over last year and 52.9 per cent of the target for the year. Capital expenditure amounted to G\$6,638.2 million, 33.3 per cent of the budget or 11.3 per cent over the previous year's level.

Capital expenditure continued to reflect new and ongoing projects, undertaken under the Public Sector Investment Programme, which were concentrated on social infrastructure rehabilitation and drainage & irrigation.

Overall Balance and Financing

The overall deficit contracted from G\$3,633.4 million for the first half of 2001 to G\$1,382.4 million in 2002, resulting mainly from an improved capital account balance. The deficit was financed primarily by external borrowing of G\$2,064.7 million compared with G\$1,945.8 million in 2001. Net domestic borrowing of G\$4,736.3 million, primarily for monetary sterilization, was 9.2 per cent lower than the 2001 level.

NON-FINANCIAL PUBLIC ENTERPRISES

The overall cash performance of the non-financial public enterprises (NFPEs), including the National Insurance Scheme (NIS), weakened during the first half of 2002. This outturn mainly reflected the deterioration in the financial operations of GUYSUCO due to higher employment cost.

Current Account

The current account of the NFPEs turned around from a surplus of G\$908 million to a deficit of G\$983.9 million, on account of higher expenditure and lower receipts. When AROAIMA was included in the account, the deficit contracted to G\$585.2 million.

Revenue

The total cash receipts of the NFPEs, excluding AROAIMA, decreased by 6.9 per cent or G\$1,362.6 million to G\$18,358.3 million, due to lower export sales, receipts from debtors and other receipts. Export sales fell by 7.3 per cent or G\$661.6 million to G\$8,367.3 million, reflecting largely the decline of

G\$333.6 million and G\$274 million recorded by LINMINE and GUYSUCO respectively. Gross receipts from debtors and other receipts fell by 17 per cent and 32.5 per cent to G\$2,534.2 million and G\$1,599.3 million respectively. The decline in other receipts was primarily due to a 58.1 per cent or G\$434.2 million decrease in investment earnings received by NIS.

Table 11

Summary of Public Enterprises Finances (G\$Million)			
	January - June		
	2000	2001	2002

Financing	(592.1)	217.9	1,817.5
Ext. Borrowing (net)	(17.2)	(61.8)	1,203.8
Domestic Fin. (net)	(575.0)	279.7	613.7

¹ Figures excluded AROAIMA.

Local sales grew by 11.1 per cent to G\$5,857.4 million during January to June 2002. The main contributors were GUYSUCO (G\$234 million) resulting from increased value of sugar and molasses sales; and GNSC (G\$98.5 million) from increased services to GUYSUCO, refund of bid bond and higher shipping advances and rental of storage bonds. GUYOIL recorded a decrease of G\$33.2 million on account of lower fuel prices.

The NIS recorded a 10.5 per cent increase in contributions to G\$2,840.1 million due to higher wages and salaries. Total cash receipts of AROAIMA was G\$2,772.4 million. This consisted of exports (G\$2,305.3 million) and other receipts (G\$467.2 million).

Expenditure

Total current expenditure of the NFPEs, excluding AROAIMA, expanded by 2.8 per cent or G\$510.6 million to G\$19,011.5 million. This outturn was due to higher employment cost of G\$2,248 million by GUYSUCO, which was greater than the increase of G\$2,216.7 million for all NFPEs. GUYSUCO's employment expenditure reflected higher output cost, late payment of wages and salaries increases during the last quarter of 2001 and incentive payouts during the first quarter of this year. Employment cost fell for LINMINE and BERMINE due to the contraction of employment.

Spending on materials and supplies amounted to G\$4,884.2 million, 20.2 per cent less than last year's level, reflecting lower outlays by LINMINE (G\$725.1 million), BERMINE (G\$272.1 million) and GUYOIL (G\$192.4 million). Expenditure on repairs and maintenance declined from G\$127.1 million to G\$45 million on account of LINMINE's reduced operations. Payments to creditors declined by 3 per cent or G\$63.5 million, resulting from lower payments by GUYOIL. Interest payments declined by 10.2 per cent to G\$38.3 million due to decrease in payments by MARDS. Other spending fell by 8.5 per cent or G\$316.1 million, reflecting lower spending by LINMINE, BERMINE and GUYSUCO.

AROAIMA's current expenditure was G\$2,373.7 million. This resulted largely from payments to creditors (G\$488.1 million) and other spending (G\$852.9 million). Spending by NIS rose by 13.7 per cent to G\$2,419.9 million due to the payout of vacation allowances to staff and higher payments to pensioners following the increase in minimum wages.

Capital Account

Capital expenditure of the NFPEs, excluding AROAIMA, amounted to G\$833.6 million, 26 per cent or G\$292.3 million lower than the corresponding level last year. This reflected lower capital outlays by GUYSUCO (G\$165 million) and LINMINE (G\$112.3 million). AROAIMA's capital expenditure amounted to G\$36.5 million.

Overall Balance and Financing

The overall deficit of NFPFs expanded from G\$217 million to G\$1,817.5 million during the review period. With the inclusion of AROAIMA, the deficit amounted to G\$1,455.3 million. The deficit was financed by both external and domestic resources. Net external borrowings amounted to G\$1,203.8 million,

reflecting mainly a G\$1,276 million advance acquired by GUYSUCO. Net domestic borrowing rose to G\$613.7 million while holding of government securities fell by G\$1,065.4 million during January to June 2002. "

5. PUBLIC DEBT

The stock of government's domestic bonded debt grew at a much slower rate of 5.2 per cent while its external public and publicly guaranteed debt increased by 4.2 per cent. The former reflected the issuance of treasury bills to sterilize excess liquidity consistent with the Bank's monetary policy stance while the latter reflected disbursements received under existing loans. Domestic interest charges contracted on account of declining interest rates on the volume of treasury bills redeemed while external debt service increased due to the delayed release of interim assistance by creditors under the E-HIPC initiative.

Stock of Domestic Debt

The outstanding stock of government domestic bonded debt, which consisted of treasury bills, debentures and defence bonds, amounted to G\$52,330 million, 5.2 per cent more than the end-June 2001 level and 0.6 per cent higher than the end-December 2001 balance. The increase resulted primarily from the issuance of treasury bills to sterilize excess liquidity in the financial system as the stock of debentures declined by 1 per cent or G\$40 million to G\$3,899 million. Defence bonds remained unchanged at G\$4 million.

The total outstanding stock of treasury bills increased by 5.7 per cent from its end-June 2000 level, but rose by only 0.7 per cent during the first half of the year. The maturity structure of the outstanding stock of treasury bills changed significantly from one year earlier, shifting towards the longer term. The stock of 364-day bills increased by 14.9 per cent to G\$37,678 million, causing its share to increase to 77.8 per cent from 71.6 per cent. The stock of 91-day and 182-day maturities contracted by 23.5 per cent and 14.3 per cent to G\$3,250 million and G\$7,500 million respectively, causing their shares to decline to 6.7 per cent and 15.5 per cent respectively.

The commercial banks retained the largest share of the outstanding treasury bills with 45.5 per cent, unchanged from one year earlier. The public sector's share, of which the National Insurance Scheme was the only stakeholder, contracted to 29.1 per cent from 33.8 per cent while the share of the other financial intermediaries increased to 22.3 per cent from 17.1 per cent. The share of the private sector was unchanged at 0.6 per cent.

Table 12

Central Government Bonded Debt by Holders (G\$Million)			
	Jun 2001	Dec 2001	Jun 2002
Total Bonded Debt	49,744	52,008	52,330
Treasury Bills	45,802	48,090	48,427
91-day	4,246	3,640	3,250
182-day	8,755	7,600	7,500
364-day	32,801	36,850	37,678
Debentures	3,938	3,914	3,899
Defence Bonds	4	4	4

Treasury bills issued during the first half of 2002 totaled G\$31,765 million, 8.3 per cent lower than the comparable period last year. Issues of 91-day and 182-day bills contracted by 26.5 per cent and 14.3 per cent to G\$6,788 million and G\$7,500 million respectively, while that of the 364-day maturity expanded by 5 per cent to G\$17,476 million. There were no issues of debentures during the review period.

Redemptions of treasury bills totaled G\$31,428 million, 4.3 per cent or G\$1,422 million lower than the level one year ago. Redemption of the 91-day and 182-day issues declined by 27.7 per cent and 10.1 per cent respectively to G\$7,179 million and G\$7,600 million respectively while that of the 364-day maturity increased by 15.1 per cent to G\$16,649 million. Redemption of debentures totaled G\$16 million compared with G\$79 million during the same period last year.

Table 13

Domestic Debt Servicing (G\$ Million)			
	Jun 2001	Dec 2001	Jun 2002
Total Bonded Debt	2,472	4,906	2,259
Treasury Bills	2,272	4,568	2,142
91-day	226	373	112
182-day	431	882	286
364-day	1,616	3,313	1,744
Debentures	200	338	116

Domestic Debt Servicing

Total interest paid on domestic bonded debt at end-June 2002 totaled G\$2,259 million, 8.6 per cent or G\$213 million lower than that paid one year earlier. This was due to lower interest charges on the stock of treasury bills and debentures redeemed. Interest paid on the 91-day and 182-day treasury bills declined by 51.1 per cent and 33.6 per cent or G\$114 million and G\$145 million respectively. In contrast, Interest paid on the 364-day bills increased by 8 per cent or G\$129 million.

Stock of External Debt

The stock of outstanding public and publicly guaranteed external debt amounted to US\$1,217.2 million, 4.3 per cent or US\$49.6 million higher than the end-June 2001 balance. The increase was due mainly to disbursements received under existing loans. Obligations to the multilateral creditors which accounted for 67.1 per cent of outstanding debt, increased by 6.2 per cent or US\$47.7 million to US\$816.2 million. Indebtedness to the Inter-American Development Bank, the largest multilateral creditor, increased by 13.6 per cent or US\$42.1 million to US\$353 million from one year earlier. In contrast, obligations to the International Bank for Reconstruction & Development and the International Monetary Fund declined by US\$1.3 million and US\$9.5 million to US\$4.8 million and US\$95 million respectively. Similarly, indebtedness to the CARICOM Multilateral Clearing Facility decreased by 12.5 per cent or US\$8 million to US\$55.9 million.

Table 14

Structure of External Public Debt (US\$Million)			
	Jun 2001	Dec 2001	Jun 2002
Multilateral	768.5	794.6	816.2
Bilateral	349.3	350.4	352.3
Suppliers' Credit	14.7	13.0	12.9
Financial Mkt/Bonds	35.1	35.4	35.8
Total	1,167.6	1,193.4	1,217.2

Total bilateral obligations which represented 28.9 per cent of total external debt, amounted to US\$352.3 million, 0.9 per cent higher than the end-June 2001 level. Obligations to Trinidad & Tobago, Guyana's largest bilateral creditor, were unchanged at US\$176.9 million. This represented 50.2 per cent and 14.5 per cent of bilateral and total external debt respectively.

External Debt Servicing

Debt service payments during the first half of 2002 increased by 7.3 per cent or US\$1.8 million to US\$26.7 million as a number of creditors delayed disbursements of their interim assistance under the Enhanced HIPC initiative at end-2001. The debt service ratio was 11.2 per cent compared with 11.3 per cent at end-June 2001.

Principal and interest payments amounted to US\$16.4 million and US\$10.3 respectively. Central government debt service totaled US\$15.2 million, a 10.4 per cent or US\$1.7 million decline while payments by the Bank of Guyana amounted to US\$11.5 million, US\$3.6 million more than that paid in the comparable period.

Payments to multilateral creditors amounted to US\$22.6 million or 84.7 per cent of total debt service while bilateral creditors received US\$3.8 million. Debt service to the International Monetary Fund amounted to US\$6 million while payments to the Inter-American Development Bank totaled US\$7.8 million. The IDA and OPEC received US\$0.7 million and US\$0.3 million respectively.

Debt Relief

Total HIPC debt relief received during the first half of the year contracted by 29.6 per cent or US\$7.3 million to US\$17.4 million. This was due to the postponement of relief under the interim E-HIPC initiative by a number of creditors at the end of 2001. Relief under the O-HIPC initiative amounted to US\$14.6 million, 3.2 per cent or US\$0.5 million more than the comparable period last year. Under the E-HIPC initiative, interim assistance amounted to US\$2.8 million, 73.3 per cent or US\$7.8 million lower than that received during the first half of 2001.

Table 15

External Debt Service Payments (US\$Million)			
End-June 2002			
	Principal	Interest	Total
Total	16.4	10.3	26.7
Bank of Guyana	9.5	2.0	11.5

Parastatals	0.0	0.0	0.0
End-June 2001			
Total	13.5	11.3	24.8
Bank of Guyana	5.5	2.4	7.9
Central Gov't	8.0	8.9	16.9
Parastatals	0.0	0.0	0.0

6. MONEY AND BANKING

Monetary policy remained focused on liquidity management to foster stable prices, private sector credit growth and a responsive exchange rate. Broad money grew by 1.1 per cent while credit to the private sector declined by 1.6 per cent on account of further consolidation in the banking system. Commercial banks' interest rates trended downwards, as other interest rates adjusted to the fall in the benchmark 91-day treasury bills rate. Interest rates spreads widened as lending rates declined slower than deposit rates. The non-bank financial institutions continued their active mobilization of financial resources.

MONETARY DEVELOPMENTS

Money Supply

Broad money (M2), comprising currency in circulation and private sector deposits, amounted to G\$94,085.4 million, 1.1 per cent above the end-December 2001 level and marginally lower than the 1.9 per cent growth during the corresponding period last year. M2 growth reflected a deceleration in quasi-money growth and a decline in narrow money.

Quasi-money, comprising interest-earning deposits of the private sector, registered a 2.1 per cent growth, which was lower than the 8.3 per cent growth recorded for the corresponding period in 2001. This outturn was mainly due to a 5.3 per cent or G\$2,387 million increase in savings deposits since time deposits declined by 4.1 per cent or G\$955 million. This reflected portfolio switching by depositors on account of a relatively sharp decline in time deposit interest rates by most commercial banks.

Narrow money (M1), consisting of currency in circulation, private sector demand deposits and cashiers' cheques and acceptances, amounted to G\$24,425.1 million, 1.5 per cent below the end-December 2001 level. This outturn reflected a decline in currency of 10.6 per cent, which was lower than the 15.3 per cent or G\$2,216 million recorded during the corresponding 2001 period. Demand deposits, including cashiers' cheques and acceptances grew by 12.6 per cent or G\$1,217 million, marginally higher than the 11 per cent or G\$1,138 million decline recorded last year.

Reserve Money

Reserve money amounted to G\$35,233 million, 6.7 per cent or G\$2,197 million above end-December 2001. This was a reversal of the 6 per cent decline recorded in the comparable period in 2001. The overall growth reflected a 27.6 per cent increase in the reserves of commercial banks as currency in circulation declined by 10.6 per cent.

Table 16

	Monetary Survey (G\$ Million)		
	Jun 2001	Dec 2001	Jun 2002
Narrow Money	21,472	24,807	24,425
Quasi-Money	65,627	68,228	69,660
Money Supply	87,099	93,035	94,085
Net Domestic Credit	27,584	27,185	25,228
Public Sector (Net)	(22,276)	(24,213)	(25,016)
Private Sect. Credit	58,473	58,943	57,984
Agriculture	8,559	8,173	7,802
Manufacture	9,758	10,091	8,676
Rice Milling	5,855	5,146	5,669
Distribution	10,546	10,368	10,177
Personal	8,788	8,182	8,503
Mining & Quarrying	740	737	664
Other Services	7,065	7,100	6,659
Transp. & Comm.	1,133	1,386	1,382
Entert. & Cater.	1,732	1,711	1,774
Professional Services	890	809	587
Other	3,310	3,194	2,917
Mortgage Loans	3,311	3,912	3,195
Other	3,851	5,234	6,639
Financial Institutions	(8,613)	(7,545)	(7,740)
Net Foreign Assets	23,596	29,003	31,542
Other Items (Net)	35,919	36,847	37,315

The net domestic assets and net foreign assets of the Bank of Guyana increased by 18.1 per cent and 2 per cent respectively. The net domestic assets rose on account of lower net deposits by the central government. This was in contrast to the 6.1 per cent decline in net domestic assets, which reflected higher deposits by central government during the corresponding period last year. The improvement in net foreign assets resulted from a 3.4 per cent or G\$1,033 million decline in foreign liabilities.

Table 17

Reserve Money (G\$ Million)

Commercial Banks Deposits

The total deposits of the commercial banks grew faster during the review period. The public, private and non-bank financial institutions sectors, all contributed to the overall increase in total deposits.

Deposits

Total deposits of residents, comprising the private and public sectors and the non-bank financial institutions, recorded higher growth of 5.3 per cent or G\$4,931.3 million compared with a 1.7 per cent or G\$1,482.3 million increase during the first half of 2001. This outturn resulted from higher deposits of both the private and public sectors and the non-bank financial institutions.

Private sector deposits, which accounted for 82.2 per cent of total deposits by residents, grew by 4.3 per cent

or G\$3,266 million compared with a 6.3 per cent for the corresponding period in 2001. Within this sector, business enterprises' deposits grew by 10.3 per cent while individual customer's deposits grew by 2.9 per cent. This compared with a decline of 2.1 per cent and an increase of 8.2 per cent for the business enterprises and individual customers respectively for the comparable period last year. As a per cent of total private sector deposits, private business enterprises' share was 19.3 per cent while the households' share was 80.7 per cent.

Total deposits of the public sector increased by 20.4 per cent or G\$1,562.9 million to G\$9,206.8 million compared with a decline of 40.8 per cent or G\$3,734.5 million for the similar period in 2001. The outturn reflected an increase in deposits of the public non-financial enterprises by 33.1 per cent or G\$626.1 million and that of NIS by 57.6 per cent or G\$980.6 million.

Total deposits of the non-bank financial institutions expanded by 1.3 per cent or G\$102.4 million to G\$8,110.9 million compared with an increase of 9.9 per cent or G\$839.1 million during the first half of 2001. This was attributed to a switch of investment portfolio from treasury bills to deposits.

BANKING DEVELOPMENTS

Net Domestic Credit

Net domestic credit, comprising private sector credit and borrowing from the banking system by the public sector and non-bank financial institutions decreased by 7.2 per cent or G\$1,958 million to G\$25,227.5 million. This was a reversal of the 11.7 per cent or G\$2,886 million increase at end-June 2001. The decrease resulted largely from contraction in bank credit to the private sector.

Credit to the Private Sector

Credit to the private sector declined by 1.6 per cent or G\$959 million compared with a marginal increase of 0.2 per cent or G\$132 million at the end of June 2001.

This outturn reflected the conservative lending policies of commercial banks and dampened demand for credit by the public, as well as, portfolio shift to the foreign sector by the banks. At the end of June 2002, private sector credit was 61.6 per cent of M2 compared with 67.1 per cent at end-June 2001.

All the economic sectors, except rice milling, personal and the “other” category experienced declines in credit over the review period. The reduction in credit was largest in the timber, saw milling and construction industries within the manufacturing sector. Overall credit to the manufacturing sector contracted by 14 per cent or G\$1,415 million. Credit to the agricultural and the services sector fell by 4.5 per cent and 6.2 per cent or G\$371 million and G\$441 million respectively. The distribution sector, which was the largest recipient of private sector credit at the end of June 2002 with 17.6 per cent of total private sector credit, recorded the same decline in credit of 1.8 per cent for the same period last year. Credit to the mining and quarrying sector decreased by 9.9 per cent compared with 7.9 per cent for the corresponding period in 2001. Loans to the real estate sector contracted by 18.3 per cent compared with a decrease of 15.4 per cent in 2001.

Despite the general contraction in credit to the private sector, credit to the rice milling sector increased by 10.2 per cent compared with a decline of 0.5 per cent in 2001. The personal sector registered credit growth of 3.9 per cent in contrast to a decrease of 3.8 per cent in 2001. Apart from loans, the other category of credit, which was largely made up of purchases of local securities by commercial banks, increased by 26.8 per cent compared with 133.2 per cent last year.

Credit to the Public Sector

The public sector continued to be a net depositor of funds with the banking system during the first half of 2002. Net deposits of the public sector (deposits net of loans, advances and treasury bills) increased by 3.3 per cent or G\$803 millions on account of increased net deposits of the non-financial public enterprises and other public sector.

Central government's net deposits with the banking system declined by 3.1 per cent (G\$568 million) to G\$17,719.3 million over the review period due mainly to the increased volume of treasury bills held by the banking system. The public enterprises registered a 74.9 per cent or G\$779 million increase in net deposits due to the inclusion of Aroaima Bauxite Company as a public enterprise, after it was bought by the government. The rest of the public sector, which includes the local government and the National Insurance Scheme, recorded an increase of 12.1 per cent or G\$592 million in net deposits largely reflecting increases in the gross deposits of NIS.

Investments

During the review period, commercial banks continued to hold relatively high levels of investment in securities and private sector loans and advances. At end-June 2002, banks' investments amounted to G\$75,794.4 million or 58 per cent of total assets compared with G\$74,748.6 million or 63 per cent of total assets at end-June 2001. Investments were marginally lower (G\$3 million) than the end-December 2001 level compared with a decline of 1 per cent or G\$804 million for the corresponding period in 2001. The lower level of investments resulted from a decline in credit to the private sector. The commercial banks continued to hold a large percentage of their investment in Government of Guyana treasury bills. At end-June 2002, government securities amounted to G\$20,967.7 million, an increase of 1 per cent over the end-2001. This choice reflected bankers' need to hold relatively risk free instruments in their portfolios.

Net Foreign Assets

The net foreign assets of the banking system increased by G\$2,539 million (US\$12.3 million) to G\$31,542 million (US\$165.4 million) as both the Bank of Guyana and the commercial banks registered improvements in their net foreign assets positions.

Net foreign assets of the Bank of Guyana increased by 1.3 per cent to US\$125.9 million from US\$124.2 million at the end of December 2001. The Bank's

foreign liabilities declined by US\$6.4 million or from US\$160.8 million to US\$154.4 million at end-June 2002, and were mainly responsible for the improvement in the Bank's net foreign assets. The net foreign assets of the commercial banks improved by 36.9 per cent (US\$11 million) to US\$39.5 million at end-June 2002 and resulted primarily from a 24.5 per cent increase in the banks' gross foreign assets, which increased to US\$57.7 million from US\$46.4 million at end-December 2001.

Liquidity

The level of liquidity in the banking system increased over the review period as evidenced by the higher levels of liquid assets and reserve deposits of the commercial banks. Total liquid assets amounted to G\$37,454.6 million, 13.9 per cent above the end of December 2001. The commercial banks' excess liquid assets amounted to G\$16,814.2 million or 81.5 per cent above the required amount. The high level of excess liquid assets reflected the banks' preference for short-term assets, mainly government of Guyana treasury bills. At end-June 2002, treasury bills accounted for 56 per cent of total liquid assets compared with 63.2 per cent at end-2001.

The required reserves of the banks which amounted to G\$12,224.2 million, was 5.3 per cent higher than end-2001, reflecting the increase in demand and savings deposit liabilities over the review period. Reserves in excess of the minimum requirement, which averaged G\$8,054.7 million in June 2002, were 65.8 per cent of the average required reserves for the same period. The relatively high levels of excess reserves reflected the trend in private sector credit.

Interest Rates

During the review period, interest rates trended downwards. The 91-day treasury bill rate, the benchmark for the interest rate structure, declined by 76 basis points from 6.25 per cent at end-December 2001 to 5.49 per cent at end-June 2002, reflecting the competitive bidding for treasury bills. The small savings rate fell by 191 basis points to 4.79 per cent as

the rate adjusted to the decline in the 91-day treasury bill rate while the weighted average lending rate declined by 14 basis points to 17.46 per cent per annum.

Table 18

Interest Rates and Spreads			
	Jun 2001	Dec 2001	Jun 2002
1. Small Savings Rate	7.04	6.70	4.79
2. Weighted Average Time Deposit Rate	7.78	7.03	4.40
3. Weighted Average Lending Rate	17.80	17.60	17.46
4. Prime Lending Rate	17.14	16.79	16.25
5. Average 91-day Treasury Bill Rate	8.45	6.25	5.49
Spreads			
A (3-1)	10.76	10.90	12.67
B (4-1)	10.10	10.09	11.46
C (5-1)	1.41	-0.45	0.70
D (3-2)	10.02	10.57	13.06
E (4-2)	9.36	9.76	11.85

The commercial banks' interest rates spreads widened as the lending rates adjusted slower than the deposit rates. The intermediation spread between the commercial banks' savings rate and the weighted average lending rate increased to 12.67 per cent from 10.9 per cent at end-December 2001. The spreads between the prime lending rate and the small savings rate increased by 137 basis points while the spread between the weighted average lending rate and the weighted average time deposit rate rose by 249 basis points. Consistent with the above trends, the spread between the 91-day treasury bill rate and the small savings rate rose by 115 basis points. The increasing spreads reflected the commercial banks' attempt to maintain profit margins.

NON-BANK FINANCIAL INSTITUTIONS

The financial resources of Non-Bank Financial Institutions (NBFIs) amounted to G\$60,363 million at end-June 2002, 9.8 per cent above the end-December

2001 level. Consequently, the NBFIs' share of total assets in the financial sector rose from 31 per cent to 32.8 per cent. The increase in resources mobilized was from an 11.5 per cent or G\$2,270 million expansion in private sector deposits at the New Building Society, a 6.4 per cent or G\$651 million rise in pension contributions, a 15.7 per cent or G\$482 million growth in premia and a 11.2 per cent or G\$1,788 million rise in other liabilities which included retained earnings and undistributed profits.

The resources mobilized by the NBFIs were transformed into higher claims on all sectors. Claims on the private sector grew by 10.7 per cent or G\$2,611 million to G\$26,970 million. This was largely due to an 7.8 per cent increase in loans and advances to the private sector. Claims on the public sector's holdings of treasury bills expanded by 15 per cent or G\$1,291 million to G\$9,897 million.

Claims on the banking system in the form of deposits increased marginally by 1.7 per cent or G\$116 million to G\$7,087 million while claims on non-residents grew by 7.4 per cent or G\$663 million to G\$9,656 million.

The New Building Society

Total resources of the New Building Society (NBS) amounted to G\$20,418 million, 11.7 per cent above the end-December 2001 level and 34 per cent of the total assets of the NBFIs. This outturn resulted mainly from a 12.4 per cent or G\$1,940 million increase in share deposits on account of competitive deposit and mortgage rates.

Resources mobilized by NBS were used primarily to extend mortgage loans. Total loans extended mainly to the private sector rose to G\$9,066 million, 9.2 per cent above the end-December 2001 level and accounting for 44.4 per cent of total assets. Investment in government treasury bills which accounted for 38.5 per cent of total assets, increased by 12 per cent or G\$842 million to G\$7,862 million at end-June 2002.

Table 19

NON-BANK FINANCIAL INSTITUTIONS SELECTED SOURCES & USES OF FUNDS (G\$ Million)			
	Balances		
	Jun 2001	Dec 2001	Jun 2002
Sources of Funds:	53,341	54,998	60,363
Deposits	18,361	19,709	21,979
Share Deposits	14,428	15,671	17,611
Other Deposits	3,933	4,038	4,368
Foreign Liabilities	5,863	6,012	6,186
Premium	2,873	3,067	3,549
Pension Funds	9,674	10,198	10,849
Other Liabilities	16,570	16,012	17,800
Uses of Funds:	53,341	54,998	60,363
Claims on:			
Public Sector	6,805	8,605	9,897
Private Sector	23,814	24,359	26,970
Banking System	8,139	6,971	7,087
Non-Residents	9,136	8,993	9,656
Other Assets	5,447	6,070	6,753

Trust Companies

The combined resources of the trust companies comprising GNCB Trust Corporation Incorporated, Trust Company Guyana Limited and Globe Trust & Investment Limited, amounted to G\$6,538 million, a 3 per cent rise above the level at end-December 2001. Deposit growth was marginally slower at 6 per cent compared with 6.2 per cent at end-June 2001. The share of the trust companies in the total assets of the NBFIs was 10.8 per cent, down from the 11.6 per cent held at end-June 2001 and 11.5 per cent at end-December 2001.

Claims on the private sector increased by 3.7 per cent or G\$195 million to G\$5,501 million. Mortgages accounted for 22.1 per cent of private investments and 18.6 per cent of total assets. Other loans and advances amounted to G\$1,318.8 million or 24 per cent of claims on the private sector. The claims on non-residents and the banking system accounted for G\$122 million or 1.9 per cent and G\$464 million or 7.1 per cent of total assets respectively.

Finance Companies

The total resources of the finance companies comprising one stock broker (Beharry Stock Brokers Limited); one finance company (Laparkan Financial Services Limited); one investment company (Secure International Finance Company Incorporated) and one merchant bank (Guyana Americas Merchant Bank Inc.) amounted to G\$6,094 million, a 6.7 per cent or G\$381 million growth during the review period. Financing, mainly in the form of retained earnings, increased by 4.9 per cent to G\$2,782 million and accounted for 45.7 per cent of total mobilized resources.

There were noticeable changes in the relative distribution of resources within the group's portfolio of assets. Claims on the private sector was lower, representing 78.3 per cent or G\$4,775 million compared with 86.6 per cent or G\$4,835 million of total mobilized resources during the corresponding period last year. The group's holdings of shares in private companies accounted for G\$4,459 million or 93.5 per cent of claims on the private sector. Claims on the banking system amounted to G\$280 million or 4.6 per cent of total assets which was higher than the 1.7 per cent held at end-June 2001 and marginally lower than the 1.8 per cent at end-December 2001. This outturn resulted from the merchant bank's investment of G\$223.4 million in the banking sector. Claims on non-residents expanded by 46 per cent or G\$208 million to G\$662 million mainly on account of the merchant bank's share of foreign securities. Non-resident's share of total assets increased to 10.9 per cent from 8.1 per cent in June 2001 and 8 per cent in December 2001.

Pension Schemes

The consolidated resources of the pension schemes increased by 6 per cent or G\$658 million to G\$11,684 million, higher than the 2.1 per cent or G\$212 million recorded in the corresponding period last year. Pension contributions amounted to G\$10,849 million, 6.4 per cent or G\$651 million higher than the 2.5 per cent or G\$236 million for the same period last year.

The share of the pension schemes in the NBFIs' total resources was marginally lower at 19.4 per cent compared with 19.6 per cent and 20 per cent at end-June 2001 and end-December 2001 respectively.

Claims on the public and private sectors were higher while those on the banking system were lower. Holdings of government treasury bills increased by 28 per cent or G\$421 million compared with 25.5 per cent or G\$241 million recorded during the first half of last year. Treasury bills holdings amounted to 16.4 per cent of total assets. Claims on the private sector increased by 20.4 per cent or G\$715 million to G\$4,210 million, a reversal from the decrease of 0.4 per cent or G\$13 million to G\$3,161 million. Other assets increased by 18.9 per cent or G\$181 million during the review period. Claims on the banking system fell by 17.9 per cent or G\$669 million to G\$3,060 million exceeding the contraction of 5.3 per cent or G\$233 million recorded last year.

Domestic Insurance Companies

The resources of the domestic insurance companies, engaged in life and non-life segments, rose by 14.6 per cent or G\$1,993 million to reach G\$15,629 million at end-June 2002. This increase was attributed mainly to a 37.9 per cent and 6.8 per cent expansion in resources achieved by the non-life and the life insurance companies respectively. The significant growth of the non-life segment resulted in the share of the non-life insurance group accounting for 30.3 per cent or G\$4,738 million of the industry's resources at end-June 2002.

The life insurance companies which accounted for 69.7 per cent of the industry, continued to rely on insurance premia as the main source of funds. During the review period, insurance premia increased by 6.3 per cent or G\$456 million to G\$7,658 million, with the non-resident component of G\$4,108 million representing 53.6 per cent of the life insurance fund and 79 per cent of the total foreign liabilities of the insurance sector. The local life premium component increased by 15.7 per cent or G\$482 million to close the period at G\$3,549 million.

Resources mobilised were used mainly to increase claims on the private sector which accounted for 21.9 per cent of the insurance sector's investment at end-June 2002. The insurance companies' holdings of private investment increased by 43.5 per cent or G\$1,036 million to G\$3,419 million at end-June 2002. Claims on non-residents grew by 6.9 per cent or G\$454 million to G\$7,060 million, representing 45.2 per cent of the insurance sector's total assets. The companies' holdings of foreign assets comprised mainly of deposits at foreign commercial banks and foreign securities, representing 46.6 per cent and 23.8 per cent of the sector's foreign assets respectively. Loans and advances to non-residents represented 21.6 per cent of total foreign assets. Holdings of government treasury bills also increased by 34.2 per cent or G\$29 million to close the period at G\$113 million. Claims on the banking system grew by 11.5 per cent or G\$118 million to G\$1,140 million.

Interest Rates

The interest rates of the NBFIs continued to be competitive and relatively stable during the first half of 2002, although the interest rates offered by the deposit-taking trust companies on domestic and commercial mortgages rates remained unchanged at 16 per cent and 20 per cent respectively. The average mortgages rates offered by the NBS for loans not exceeding G\$1.5 million was reduced to 8 per cent from 9 per cent and the rate for loans up to G\$8 million was reduced to 9.95 per cent from 11 per cent. The weighted average lending rate offered by the commercial banks declined marginally from 17.8 at end-June 2001 to 17.46 at end-June 2002 (see Table 18). "

The World Economy

The global slowdown has abated and there are increasing signs of recovery. This was evident in the USA, Canada, Europe and in some countries in Asia. The recovery was attributed to the substantial easing of macroeconomic policies in the advanced and a number of emerging economies. Unemployment level remained high while inflation rate subsided with lower energy prices. The US dollar depreciated against the major currencies, except for the Japanese Yen while commodity prices have been trending upwards.

Industrial Countries

Economic growth in the industrial economies was generally lower, reflecting the emerging recovery during the first half of year 2002. In the USA, real GDP, on an annualized basis, slowed to 1.1 per cent from 5 per cent at end-March on account of reduced consumer spending, inventory and government spending, as well as a surge in imports. Canada recorded robust growth of 6 per cent during the first quarter due to high domestic and foreign demand. The UK recorded marginal growth of 0.9 per cent due to a pickup in industrial production. In the Euro area, real GDP slowed to approximately 1 per cent due to lower domestic and foreign demand for exports outside the Euro zone. The Japanese economy experienced slight economic growth of 1.4 per cent, reflecting increased production for exports.

Inflation rate trended downwards in the first half of 2002, largely due to lower energy and food prices. In the USA, annualized inflation rate was 2.2 per cent while in Canada, it was 1.7 per cent. In the UK and Euro area, it declined to 1 per cent and 1.7 per cent respectively.

The emerging recovery is yet to have a positive impact on employment. Unemployment remained higher in most countries. The USA, UK and Canada experienced unemployment levels of 5.9 per cent, 5.2 per cent and 7.5 per cent respectively. In Japan and the Euro area, unemployment levels rose to 5.2 per cent and 8.3 per cent respectively. Germany experienced the highest unemployment rate of 9.8 per cent.

In view of the emerging recovery, most countries kept their interest rates on hold while being ready to reduce it further if weakness in demand continued. The European Central Bank (ECB) and Bank of England interest rates remained unchanged at 3.4 per cent and 4 per cent respectively. The Federal Reserve rate was also unchanged at 1.75 per cent. The Bank of Canada, however, cut its base rate by 25 basis points to 2 per cent as concerns rose about the weakness in business confidence in the first quarter.

Developing Countries

Economic performances of major developing economies were mixed during the review period. Positive real growth rates were registered in a number of Asian countries. China, India and South Korea recorded the highest growth due to higher government spending, export receipts and improvement in the information technology sector. Taiwan recorded marginal growth while Hong Kong and Singapore recorded negative growth.

In Latin and Central America, Peru recorded the strongest growth while Chile and Colombia recorded marginal growth. In contrast, Venezuela, Brazil, Mexico and Argentina recorded negative growth rates due partly to lower output from the industrial, farming and services sectors. Argentina's economic situation remained very difficult.

Inflation rates in major developing countries remained relatively stable at low single digit levels. China, Hong Kong, Singapore and Taiwan experienced deflation. In contrast, high inflation rates were recorded in Argentina, Turkey, Indonesia and Venezuela due mainly to currency depreciation.

Countries in Transition

Most countries in transition experienced positive growth rates, aided by robust domestic demand and foreign direct investments. Russia recorded the highest growth of 3.7 per cent, reflecting higher industrial output. Czech Republic and Hungary experienced modest GDP growth of 2.5 per cent and 2.9 per cent respectively. Inflation was subdued in Poland and Czech Republic on account of lower food and energy prices. However, it was high in Russia and Hungary, reflecting their currency depreciation.

Caribbean Economies

Most Caribbean economies recorded a set back during the review period on account of the weak performance of the tourism industry following the effects of September 11, 2001 attacks on the USA, adverse weather conditions which affected agricultural output and lower commodity prices. Barbados recorded a growth of -3.2 per cent while leading indicators for Trinidad and Tobago, Jamaica and the OECS signaled negative and/or relatively slow growth during the review period. Inflation trended upwards in most Caribbean states on account of higher fuel prices, except for Trinidad and Tobago.

International Exchange Rates

The US dollar weakened against all the major currencies, except for the Japanese Yen, reflecting investors' reluctance to hold US securities following doubts about the level of recovery of the US economy and further uncertainty arising from the accounting scandal of WorldCom. During the review period, the Pound Sterling and Euro appreciated by 5.1 per cent

and 8.4 per cent respectively against the US dollar. In contrast, the Yen depreciated by 10.2 per cent against the US dollar following Bank of Japan's intervention to devalue the currency so as to provide an export led recovery.

PRIMARY COMMODITY PRICES

International oil prices remained at elevated levels reaching US\$26.30 per barrel at end-June 2002 from US\$18.59 per barrel at end-December 2001 and US\$26.69 one year ago. This resulted from concerns about a possible military intervention in the Middle East, the deteriorating security situation in Israel and the West Bank and Gaza, and the emerging recovery of most economies of the world. Gold prices increased to US\$318.35 per ounce at end-June 2002 from US\$277.70 per ounce at end-December 2001 and US\$274.45 per ounce one year ago. This was due to investors turning to the ultimate 'safe-haven' asset - gold-seeking protection from a possible India-Pakistan war and a slumping US dollar.

The price of sugar sold in the European Union increased from US\$445.10 per tonne to US\$519.20 per tonne as the Euro appreciated against the US dollar. The average price for rice remained low at US\$238.30 per tonne from US\$241.70 per tonne at end-June 2001. The trend of price decline was also evident in the bauxite market with average price per tonne declining to US\$23.30 from US\$33.60. The decline in non-oil commodity prices continued to constrain growth and development in Guyana as a consequence of reduced export earnings. "

7. PUBLIC DEBT

- 7.1 Domestic Public Debt
- 7.2 Government of Guyana: Treasury Bills by Holders and Defence Bonds
- 7.3 Government of Guyana: Debentures By Holders and Defence Bonds
- 7.4 Government of Guyana: Debentures by Maturity and Terms
- 7.5 External Public Debt

8. INTERNATIONAL TRADE AND PAYMENTS

- 8.1(1) Imports by End-Use (1990-2002)
- 8.1(2) Imports by End-Use (G\$ Summary)
- 8.1(2a) Imports by End-Use (US\$ Summary)
- 8.2 Domestic Exports (G\$)
- 8.2(a) Domestic Exports (US\$)
- 8.3 Guyana: Selected Exports by Volume, Value and Unit Value
- 8.4(a) Guyana: Destination of Major Exports for 1993
- 8.4(b) Guyana: Destination of Major Exports for 1994
- 8.4(c) Guyana: Destination of Major Exports for 1995
- 8.5 Visible Trade (G\$)
- 8.5(a) Visible Trade (US\$)
- 8.6 International Reserves and Foreign Assets
- 8.7(a) Foreign Exchange Market: Purchases
- 8.7(b) Foreign Exchange Market: Sales
- 8.8 Balance of Payments

9. FOREIGN EXCHANGE RATES AND COMMODITY PRICES

- 9.1 Changes in Bank of Guyana Transaction Exchange Rate
- 9.2(a) Exchange Rates of CARICOM Countries
- 9.2(b) Exchange Rate (G\$/US\$)
- 9.3 Exchange Cross-Rates of CARICOM Countries
- 9.4 Exchange Rates Against the U.S. Dollar (1991 - 1998)
- 9.4(a) Fixed Exchange Rates Of EMU-Member Countries Against the Euro
- 9.5 Selected Exchange Rates Against the U.S. Dollar (Jan. 2001 – Jun. 2002)
- 9.5(a) Commodity Prices
- 9.6 Monthly Average Market Exchange Rates

10. NATIONAL INCOME ACCOUNTS AND PRODUCTION INDICATORS

- 10.1 Gross Domestic Product, Income And Expenditure (At Current Prices)
- 10.2 Gross Domestic Product (At 1988 Prices)
- 10.3(a) Production of Major Commodities
- 10.3(b) Production Indicators: Agriculture
- 10.3(c1) Production Indicators: Manufacturing
- 10.3(c2) Production Indicators: Manufacturing
- 10.3(c3) Production Indicators: Manufacturing
- 10.3(d) Production Indicators: Mining

11. CONSUMER PRICES

- 11.1 Guyana: Urban Consumer Price Index
- 11.2 Georgetown: Urban Consumer Price Index
- 11.3 Caricom Countries: Consumer Price Indices

12. APPENDICES

- I. General Notes
- II. Notes to the Tables

¹⁾ Net foreign assets reflect Naples terms debt stock reduction in December 1996.

²⁾ The improvement in net foreign assets of the Bank of Guyana in June 1997 reflects the transfer of the debt obligation of Trinidad and Tobago to the Ministry of Finance.

³⁾ Figures for Dec. 2001 have been updated and will therefore vary from Dec. 2001 Financial Abstract.

1) End of period rates.

2) With effect from April 30, 2002 interest payments on deposits in the External Deposits Scheme have been discontinued.

3) The prime lending rate reported by the banks has been weighted by the amount of loans issued at the corresponding rate.

4) The average prime lending rate actually used by commercial banks applicable to loans and advances.

5) Average deposits rates at GNCB Trust Company have been revised effective December 2000.

6) Small savings rate

Sources: Bureau of Statistics & State Planning Secretariat.

1) Includes Road Grade Bauxite and Tailings.

2) Gold production includes Omai Production from 1993 January.

R.A.S.C: Refractory "A" Grade Super Calcined Bauxite; A.A.C: Abrasive "A" grade Calcined Bauxite;

R.B.S.C: Refractory "B" Grade Super Calcined Bauxite; C.G.B: Chemical Grade Bauxite;

M.A.Z: Metal Grade Bauxite; A.C.G.B: Aluminous Cement Grade Bauxite.

Sources : IMF International Financial Statistics;

1) Bureau of Statistics and Bank of Guyana.

Base year was shifted from 1990 to 1995.

I. GENERAL NOTES

Symbols Used

- ... Indicates that data are not available;
- Indicates that the figure is zero or less than half the final digit shown or that the item does not exist;
- Used between two period (eg 1989/90 or July-September) to indicate the years or months covered including the beginning and the ending year or month as the case may be;
- / Used between years (eg 1989/90) to indicate a crop year or fiscal year.
- † Means incomplete data due probably to under-reporting or partial response by respondents.
- * Means preliminary figures.
- ** Means revised figures.

In some cases, the individual items do not always sum up to the totals due to rounding.

Acknowledgement

The Bank of Guyana wishes to express its appreciation of the assistance received from the Ministry of Finance, State Planning Secretariat, Commercial Banks, Bureau of Statistics, some Public Corporations and other Private Sector agencies in the compilation of the data.

II. NOTES TO THE TABLES

TABLE 1.1: **Bank of Guyana: Assets**

Foreign Assets

Balances with Foreign Banks: Deposits of the Central Bank with Foreign Banks. The data also include holdings of foreign notes and gold.

Gold Tranche with the I.M.F.: One quarter of Guyana's subscription to the International Monetary Fund (I.M.F.) quota, which is made in gold and/or convertible currencies.

Holdings of Special Drawing Rights: Unused portion of the Special Drawing Rights (S.D.R.s) allocated by the I.M.F.

Money Market Securities: Holdings of short-and long-term debt instruments of foreign governments and the International Bank for Reconstruction and Development (I.B.R.D.) recorded at cost.

Claims on the Central Government: Holdings of the Government of Guyana Treasury Bills, Debentures valued at cost and Advances from the Bank of Guyana. The Bank of Guyana Act No. 19 of 1998 section 46 has since removed the possibility of advances to Government since it restricted the Central Bank from extending credit directly or indirectly to the Government from that date.

Advances to Commercial Banks: Short term credit to commercial banks.

Other Assets: Include fixed assets such as land and buildings, furniture and equipment. Cheques in the process of collection, notes and coins issued by the British Caribbean Currency Board, non-interest bearing debentures, and other miscellaneous assets are also included.

TABLE 1.2: **Bank of Guyana: Liabilities**

Currency Issue: Notes and coins issued by the Bank.

Value of notes issued for October 1999 and August 2000 does not correspond with figures in table 1.3 due to an accounting discrepancy.

Government Deposits: Current account deposits of the Central Government which includes sterilised amount from open market type operation with effect from 1994.

Deposits of International Organisations: Obligations to the I.M.F.; local currency component of the subscription to the I.M.F. quota; deposits of the I.B.R.D, the Caribbean Development Bank (C.D.B.) and foreign central banks. Other foreign liabilities of the Bank of Guyana are also included.

Bank Deposits-EPDs: Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers pending foreign exchange releases to meet foreign

obligations which fell into arrears prior to 1990. This scheme was discontinued for foreign obligations after 1990.

Bank Deposits-Other: Commercial banks' interest earning deposits and statutory reserves deposits with Bank of Guyana are recorded here. With effect from December 1994, special interest earning deposits of the Commercial Banks were discontinued in favour of unremunerated required free reserves. The removal of remuneration for these deposits coincided with the issue of three year debentures to sterilise the prevailing excess liquidity levels of banks.

Other Deposits: Includes deposits of National Insurance Scheme (N.I.S.), Livestock Development Fund, Guyana Pension Scheme, Mayor and City Council, Sinking Funds, Guyana Co-operative Agricultural and Industrial Development Bank, Export Development Fund No. 1, Guyana/Libya Agricultural Development Company Limited, and Guyana/Libyan Fishing Company among others.

Authorised Share Capital: The enactment of the Bank of Guyana Act No. 19 of 1998 provided for the increase in the capital for the Bank as part of the reform process.

Other Reserves: These reserves include General, Revaluation and Contingency Reserves.

Allocation of S.D.R.'s: Liability accruing from the SDRs allocated to Guyana, which are valued at the equivalent of Guyana dollar amount converted through the S.D.R./U.S. dollar cross rate.

Other Liabilities: Include provision for accrued expenses, items in transit; revaluation accounts; and miscellaneous items.

TABLE 1.3: Bank of Guyana: Currency Notes Issue

Total issue of less withdrawal of mutilated or spoiled legal tender notes. In December 1996, the Bank of Guyana introduced a G\$1,000 as part of its currency reform process. This was followed by the removal from the legal tender of the G\$10, G\$5, and G\$1 notes with effect from January 1997 and their conversion to coins the new legal tender until June 30, 1997.

TABLE 1.4: Bank of Guyana: Coins Issue

Total issue of less withdrawals of defaced legal tender coins. The Bank of Guyana as part of its currency reform programme introduced with effect from January 1, 1997, G\$10, G\$5, G\$1 coins as legal tender and removed from the specie the use of cents.

TABLE 2.1(a): Commercial Banks: Assets

Balances due from Banks abroad: Deposits of commercial banks with non-resident foreign banks included head offices and branches.

Loans to Non-Residents: Commercial Bank lending to non-resident customers. Due to re-classification at a commercial bank, figures for Private Sector and Non-Resident loans have been revised from December 2000 to May 2002.

Other Foreign Assets: Include foreign currency holdings and all other claims on non-residents by commercial banks.

Securities: the total volume of Central Government Treasury Bills recorded at cost and

debentures held by commercial banks.

Loans: Central Government borrowing from the Commercial Banks.

Public Enterprises: Loans and advances extended by Commercial Banks to public financial business enterprises. Public non-financial enterprises are defined as enterprises in which Government owns above 50 per cent of the share capital.

Other: Commercial Banks' claims on Local Government and the National Insurance Scheme.

Non-Bank Financial Institutions: Loans issued to public and private non-bank financial institutions by commercial Banks'.

Private Sector: Lending through loans and advances to private non-financial business enterprises and individual customers.

Deposits with Bank of Guyana: Include statutory reserves deposits and interest earning deposits of the Commercial Banks. Effective December 28, 1994, interest earning deposits discontinued.

External Payment Deposits (E.P.D): Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers, pending foreign exchange releases to meet external obligations.

Currency: Commercial Banks' holdings of local notes and coins.

Other Assets: Include balances due from other Commercial Banks, Real estate mortgage loans, fixed assets such as land and building, furniture, equipment and other miscellaneous assets.

TABLE 2.1(b): Commercial Banks: Liabilities, Capital and Reserves

Balances due to Other Banks abroad: Foreign claims made on local commercial banks by Head Offices and other banks abroad.

Non-Resident Deposits: Total deposits made by non-resident customers with commercial banks.

Other: Include all other foreign claims on Commercial Banks.

Central Government Deposits: Total demand, time and savings deposits made by the Central Government with Commercial Banks.

Public Enterprise Deposits: Total demand, time and savings deposits made by public non-financial enterprises with the Commercial Banks. Due to the sale of Aroaima Bauxite Company to the government and a reclassification of its accounts from the private to public sector, figures from January 2002 to April 2002 have been revised.

Other Public Deposits: Include total deposits of Local Government and National Insurance Scheme.

Non-Bank Financial Institutions Deposits: Consist of total deposits made by Public and Private Financial Institutions.

Private Sector Deposits: Include total demand, time and savings deposits of Private non-

financial Business Enterprises and individual customers. See note above under Public Enterprises Deposits.

External Payment Deposits: Comprise customers' deposits (public and private sector) with commercial banks on account of External Liabilities prior to 1990 and awaiting foreign exchange releases from the BOG.

Bank of Guyana: Commercial Bank short-term borrowing from the Bank of Guyana.

Other Liabilities: Other liabilities of the Commercial Banks include manager's cheques, acceptances, provision for taxes and other miscellaneous liabilities.

TABLE 2.2:

Commercial Banks: Total Deposits

Total demand, savings and time deposits of residents and non-residents excluding inter-bank deposits are presented. Foreign currencies denominated deposits are also included here. See note under Public Enterprises Deposits for Tables 2.1 (b) above.

TABLE 2.3:

Commercial Banks: Demand Deposits

Current account deposits of residents and non-residents; inter-bank deposits are excluded. See note under Public Enterprises Deposits for Tables 2.1 (b) above.

TABLE 2.4:

Commercial Banks: Time Deposits

Deposits with a minimum withdrawal notice of three months; exclude inter-bank deposits.

TABLE 2.5:

Commercial Banks: Savings Deposits

Deposits with minimum withdrawal notice of one day; exclude inter-bank deposits. See note under Public Enterprises Deposits for Tables 2.1 (b) above.

TABLE 2.6:

Commercial Banks: Time Deposits by Maturity

Includes deposits of both residents and non-residents.

TABLE 2.7:

Commercial Banks: Savings Deposits

Includes deposits by both residents and non-residents.

TABLE 2.9:

Commercial Banks: Clearing Balances

Comprise total amount of cheques cleared by and debited to the accounts of the Commercial Banks. A National Clearing House was established at the Bank of Guyana during 1998 whereby large (in excess of G\$500,000) and small valued cheques are cleared. Data recorded after 1998 in this table reflect the value of small valued cheques cleared over the reporting period, which is consistent with prior years data.

TABLE 2.10:

Commercial Banks: Total Loans and Advances

The data include loans and advances to residents and non-residents. Real estate mortgage loans and inter-bank loans are excluded. The total of loans and advances to the private sector differs from total credit to the private sector in Table 3.1(Monetary Survey). The totals for credit to the private sector in Table 3.1 include local securities, other credit instruments and real estate mortgage loans. See note under Loans to Non-Residents for Table 2.1 (a) above.

TABLE 2.11:

Commercial Banks: Demand Loans and Advances

The data cover lending for short periods including overnight loans to residents and non-residents and exclude inter-bank loans. See note under Loans to Non-Residents for Table 2.1 (a) above.

TABLE 2.12:

Commercial Banks: Term Loans and Advances

The Loans and advances are for longer periods extended to residents and non-residents; inter-bank lending is excluded.

TABLE 2.13:**Commercial Banks: Loans and Advances to Residents by Sector**

The data provided record balances at the end of the respective period and therefore indicates the indebtedness of the respective industries at the end of the reporting period. The value of credit obtained by each industry for a given period can be obtained by taking the difference between the balances at the end of the desired period and that immediately preceding. The balances in this table exclude inter-bank loans, real estate mortgage loans, local securities and other credit instruments. It should be noted that gross indebtedness of the sugar and rice industry can be obtained by adding the balances of sugar cane and sugar and molasses manufacturing of sugar, and paddy and rice milling for rice respectively. See note under Loans to Non-Residents for Table 2.1 (a) above.

TABLE 2.14:**Commercial Banks: Liquid Assets**

The liquid assets comprise Bank of Guyana notes and coins, foreign currency held by banks, (special interest-earning) deposits held at the Bank of Guyana (SDRs), balances due from other commercial banks - both local and foreign, Government of Guyana treasury bills. Special deposits are stated according to Bank of Guyana records. The special reserves deposits (SDRs) established in 1969, discontinued in 1994 as the Bank of Guyana sought to develop its capacity to manage the excess reserves of the bank more effectively. Approximately, 75-80 per cent of the SDRs were absorbed through a sale of three year, variable rate, fixed date debenture to the Commercial Banks.

Prior to March 1989, the legally required level of liquid assets to be held by the Commercial Banks against their deposit liabilities was calculated as the sum of 20 percent of demand liabilities and 15 percent of time liabilities. During the period March 31, 1989 to May 15, 1991 the determination of the required liquid assets held by the banks was based on actual holdings on specified dates.

Accordingly, from March 31, 1989 to June 30, 1990 required liquid assets were stipulated as the actual holdings on March 15, 1989. Between July 30, 1990 and February 19, 1991 the required liquid assets was based on the assets held by the banks on September 30, 1989. Further, between February 20, 1991 and May 14, 1991 the required balances were set as at the end of July 30, 1990.

With effect from May 15, 1991, however, the basis for calculating required liquid assets was changed to 25 percent of demand liabilities and 20 percent of time liabilities.

Further, amendments to the liquid asset requirements became effective on 26th, October 1998. The liquid assets based period as been redefined as the Monday for Friday work week immediately preceding the liquid asset maintenance period. The liquid asset requirement is determined by applying the prescribed percentages to the weekly average of the daily liabilities balances at the close of business of each of the five days of the liquid asset base period.

TABLE 2.15: Commercial Banks: Minimum Reserve Requirements

Prior to May 16, 1991, the minimum required reserves of the Commercial Banks were calculated as 6 percent of demand liabilities and 4 percent of time liabilities. These percentages were changed with effect from May 16, 1991, to 11 percent of demand liabilities and 9 percent of time liabilities. Commencing April 7, 1994, the minimum required reserves of the Commercial Banks were again revised to the sum of 16 percent of demand liabilities and 14 percent of time liabilities.

On June 29, 1998, in addition to commercial banks, other licensed financial institutions were required to maintain balances with the Central Bank against their deposits and other liabilities.

Further, the required reserve period has been changed on Monday to Friday work week instead of the Wednesday to Thursday week used previously. The required reserve period, has been referred to as the reserve base period. The week following the current reserve base period, i.e. the reserve maintenance period is also based on the Monday to Friday work week. The deposits and other liabilities to which the required reserve ratio(s) are applied are referred to as the reserve base. During the reserve maintenance period, all licensed financial institutions subject to reserve requirement are required to maintain reserves against the relevant deposit and other liabilities.

Effective February 1, 1999, the required reserve ratio applicable to all liabilities of licensed financial institutions was lowered to twelve per cent (12%). The first reserve base period for which the revised requirements became relevant was the 1st to 5th February 1999 while the reserve maintenance period was the 8th to 12th February 1999. However, reserve balances for the non-bank licensed financial institutions are excluded from table 2.15.

TABLE 3.1: Monetary Survey

A consolidation of the balance sheets of the Bank of Guyana and commercial banks.

Foreign Assets (net)

Bank of Guyana: Gross foreign assets **less** gross foreign liabilities.

Commercial banks: Gross foreign assets **less** gross foreign liabilities. See note under Loans to Non-Residents for Table 2.1 (a) above.

Domestic Credit

Government (net): Gross lending to Central Government by the banking system (a sum of Holdings of debentures, bonds, Treasury bills and loans and advances **less** total deposits of the Central Government).

Public Enterprise (net): Gross borrowing by non-financial public enterprises from the banking system **less** their deposits. See note under Loans to Non-Residents for Table 2.1 (a) above.

Other Public Sector (net): Gross borrowing from the banking system by local authorities and municipalities **less** their total deposits and other public sector funds.

Non-Bank Financial Institution (net): Gross borrowing from the banking system by the non-bank financial intermediaries with the banking system **less** their deposits.

Private Sector: Gross borrowing from the banking system. See note under Loans to Non-Residents for Table 2.1 (a) above.

Money and Quasi-Money

Money: Currency outside banks **plus** private sector demand deposits, managers' cheques and acceptances.

Currency: Currency issue (Table 1.2) **less** currency holdings by Commercial Banks (Table 2.1(a)).

Quasi-money: Time and savings deposits held by the private sector. See note under Loans to

Non-Residents for Table 2.1 (a) above.

Demand deposits: Balances of the private sector including managers' cheques and acceptances. See note under Loans to Non-Residents for Table 2.1 (a) above.

Savings and Time deposits: Balances held by private sector. See note under Loans to Non-Residents for Table 2.1 (a) above.

Other (net): Includes the net sum of all assets and liabilities of the Bank of Guyana and the Commercial Banks not shown elsewhere.

TABLE 4.1: Guyana: Selected Interest Rates

Interest rates at Commercial banks and non-bank financial institutions on loans and deposits. The small savings rate represents an arithmetic average of savings deposit rates as reported by the Commercial Banks. Treasury bill rates for all maturities reflect rates at the end of the reporting period. Special deposits have been discontinued with effect from December 1994.

TABLE 4.2: Commercial Banks: Selected Interest Rates

Arithmetic average of interest rates as reported by the Commercial Banks.

TABLE 4.3: Comparative Treasury Bills Rates And Bank Rates

The average discount rate on three month Treasury Bills for the U.K., U.S.A., Barbados, Trinidad, Guyana and Jamaica. The U.K. and U.S. rates are the average discount rates at the last tender in each month. The rates for the CARICOM territories are those rates of monthly tender held towards the end of the month.

TABLE 5.1: The New Building Society: Assets and Liabilities

Assets

Foreign Assets: Includes holdings of foreign securities.

Cash and Deposits: Holdings of till cash and total deposits (demand, time and savings) at commercial banks.

Government of Guyana Treasury Bills: Holdings of Treasury Bills recorded at book value.

Government of Guyana Securities: Holdings of debentures and defence bonds at book value.

Government of Guyana Debentures: Holdings of debentures at book value.

Local Authorities Securities: Bonds at book value.

Liabilities

Share deposits: A total of Five Dollar and Save and Prosper Share deposits.

Other Deposits: Fixed term deposits.

TABLE 5.2(a): Trust Companies: Assets

Prior to December 1998 data reflect the operation of Trust and Finance Companies. Effective December 1998 finance companies have been excluded from database. Trust Companies thus reflect the consolidated operation of Trust Company (Guyana) Limited, Globe Trust

Investment Company and Guyana National Co-operative Trust Company.

Cash: Currency in the till **plus** balances on cash management current accounts at commercial banks. The figures in brackets result from overdrawn cash management accounts.

Deposits: Balances of savings and time deposits at commercial banks.

Government of Guyana Treasury Bills: Recorded at book value.

Local Government Securities: Recorded at book value.

TABLE 5.2(b): Trust Companies: Liabilities

Deposits - Business Firms: Balances held by private sector businesses.

Deposits - Individual Customers: Balances held by private individuals.

Deposits - Other customers: Balances held by other private sector agencies including non-profit organizations.

TABLE 5.2(c): Finance Companies: Assets

Prior to December 1998 data reflect the operation of Trust and Finance Companies. Effective December 1998 Trust companies have been excluded from database. Finance Companies thus reflect the consolidated operation of Secure International Finance Company and Beharry Stock Brokers Limited.

Cash: Currency in the till **plus** balances on cash management current accounts at commercial banks. The figures in brackets result from overdrawn cash management accounts.

Deposits: Balances of savings and time deposits at commercial banks.

Government of Guyana Treasury Bills: Recorded at book value.

Local Government Securities: Recorded at book value.

TABLE 5.2(d): Finance Companies: Liabilities

Deposits - Business Firms: Balances held by private sector businesses.

Deposits - Individual Customers: Balances held by private individuals.

Deposits - Other customers: Balances held by other private sector agencies including non-profit organizations.

TABLE 5.3: Domestic Life Insurance Companies: Assets and Liabilities

The data cover four insurance companies: Demerara Mutual Life Assurance Company, Guyana and Trinidad Mutual Life Insurance Company; Hand-in-Hand Mutual Life Insurance Company; North American Life Insurance Company Limited, and Clico Life and General Insurance Company (S.A.) Guyana.

Assets

Foreign Commercial Bank Deposits: Deposits held in Foreign Commercial Banks.

Foreign Securities: Holdings of the government of the United Kingdom and CARICOM countries and other foreign securities.

Other Foreign Assets: Balances due from reinsurance abroad, and other foreign miscellaneous assets.

Government of Guyana Debentures: Holdings are recorded at book value.

Local Government Securities: Holdings are recorded at book value.

Securities in Firms: Holdings of commercial bills, shares and other securities recorded at book value.

Liabilities

Life Insurance Fund: Insurance premia received.

Foreign Liabilities: Claims by non-residents, balances due to insurance companies abroad, non-resident life insurance funds and other miscellaneous liabilities.

TABLE 5.4 Pension Schemes: Assets and Liabilities

Assets

Foreign Sector: Includes foreign deposits and foreign securities.

Government of Guyana Treasury Bills: Holdings recorded at book value.

Government of Guyana Debentures: Holdings are recorded at book value.

Local Government Securities: Holdings of Local Government Securities recorded at book value.

Liabilities

Pension Fund: Receipts from the twenty pension funds in Guyana which submit returns to the Bank of Guyana.

TABLE 5.5 Guyana Co-operative Mortgage Finance Bank: Assets and Liabilities

Assets

Deposits: Balances of savings and time deposits at commercial banks.

Government Treasury Bills: Recorded at book value.

Liabilities

Caribbean Development Bank: Loans received/receivable from the Caribbean Development Bank.

Government Contribution: Receipts from Government to finance budgetary shortfalls and

other outlays.

Debentures: Receipts from the sale of own debentures to the public.

TABLE 6.1: Central Government Finances: Summary

Current Revenue: The data include collection of taxes, other charges and fees. The data are recorded on a cash basis.

Current Expenditure: The data include interest payment, interest charges and other expenditure. Repayment of Principal is not included. The data are recorded on a cash basis.

Current Surplus/Deficit: Current revenue less current expenditure.

Capital Receipts: These include proceeds from sale of assets and external grants.

Capital Expenditure: Investment expenditure; the data also include net transfers and lending to the public enterprises for financing development projects.

Overall Surplus/Deficit: The total of current revenue and capital receipts less the total of current and capital expenditure.

Borrowing from abroad:

Net short term: Gross borrowing with a maturity of up to 1 year less repayment of principal.

Long terms net borrowing: Gross borrowing with a maturity of over 1 year less repayment of principal.

Domestic Borrowing:

Borrowing from the banking system (net): The banking system holdings of Government debentures, bonds, Treasury bills and loans and advances less Government deposits.

Non-bank borrowing: Borrowing outside the banking system. Short-term (net) includes Treasury bill holdings less redemptions and local suppliers credits. Long-term (net) borrowing comprises holdings of debentures and development bonds less redemptions. Holdings of debentures and Treasury Bills by sinking funds are excluded.

Other financing: Comprises mainly accumulated arrears on external debt repayment, rescheduling of debt and financing from counterpart funds.

TABLE 6.4: Public Corporations Finances: Summary

The table summarises the financial operations of the public corporations and companies. All data from 1990 are based on cash flow statements. Prior to 1990 the data were on an accrual basis.

TABLE 7.1 Domestic Public Debt

Comprises Government of Guyana Defence Bonds; Debentures; and Treasury Bills. Banking system loans, advances and holdings by Sinking Funds are excluded. The data are recorded at face value.

Defence Bonds: These are long term non-interest bearing savings certificates issued by the Government of Guyana. Data are at face value.

Government of Guyana Debentures: These are long term government securities with

maturities of over one year. Non-interest bearing debentures held by the Bank of Guyana are excluded. Data are at face value.

Government of Guyana Treasury Bills: These are short term government securities with maturities of ninety-one (91) days. Data are recorded at face value.

TABLE 7.2:

Government of Guyana Treasury Bills by Holders and Defence Bonds

The holdings Treasury Bills and short-term Defence Bonds are recorded at face value. Consequently, figures in this table will differ from those reported in the balance sheets of the Bank of Guyana, Commercial Banks and non-bank financial institutions which are recorded at book value.

Other Financial Institutions: Consist of the non bank financial institutions viz:- building societies, Insurance Companies, Pension funds and Development Banks.

Public Sector: Include public enterprises, national insurance scheme, other funds and Sinking funds.

Private Sector: Excludes Financial institutions.

Non-residents: Include foreign controlled firms domiciled in Guyana, foreign missions and organisations.

TABLE 7.3

Government of Guyana: Debentures by Holders and Defence Bonds

The holdings of Debentures and long-term Defence Bonds are at face value. These are long term government securities with maturities of over one year. Non-interest bearing debentures held by the Bank of Guyana are excluded.

TABLE 7.4

Government of Guyana: Debentures By Maturities and Terms Data include all fixed Date, Equated Annuity and Special issues; at face value.

Fixed Date Debentures: These debentures have fixed dates for payments of principal and interest.

Equated Annuity: Interest on this category of debentures is paid equally on a half yearly basis.

Special Issues: Comprise Fixed date and Equated Annuity debentures issued to Bank of Guyana and the National Insurance Scheme. In 1994 the Central Bank absorbed between 75 to 80 per cent of the excess reserves of the banking system through a forced sale of a long term (3 years) variable rate fixed date debenture. The interest was calculated at a rate of point five per cent (0.5 per cent) per annum above the regular three month treasury bill yield rate averaged over the calendar months prior to the interest due date.

TABLE 7.5:

External Public Debt

The data comprise the stock of Central Government and Government guaranteed debt outstanding.

Bank of Guyana external debt is excluded.

Bilateral debt: Debt contracted with foreign governments.

Multilateral debt: Debt contracted with international lending institutions such as the World Bank, the Inter-American Development Bank, the Caribbean Development Bank and the European Investment Bank but excludes amounts owed to the I.M.F.

Financial Institutions Debt: These debts include borrowing from foreign commercial banks and specialized official lending agencies.

Suppliers Credit: Obligations to suppliers for deferred payment after delivery of goods and/or services.

Nationalization Debt: Amounts owing to foreigners in compensation for nationalised assets.

TABLES 8.1(1): Imports by End-Use

The data are compiled on a free on board basis (f.o.b.) based on customs returns.

TABLE 8.2 Domestic Exports

The data are compiled on a free on board basis (f.o.b.) as recorded on customs returns. Figures (f.o.b.) for sugar, bauxite, rice, rum, shrimp and molasses are, however, collected directly from the exporting agencies and compiled by the Bank of Guyana.

TABLE 8.6: International Reserves and Foreign Assets

International Reserves

Bank of Guyana Foreign Assets: Data include gold holdings, balances with foreign banks, foreign notes, foreign cash in the process of collection, gold tranche with I.M.F., S.D.R. holdings and money market securities.

Bank of Guyana Foreign Liabilities: Data include total short term current liabilities, short term liabilities in arrears and total medium term liabilities in arrears. The liabilities include interest obligations. Rescheduled short-term liabilities are excluded.

Foreign Assets

Bank of Guyana Foreign Assets: The composition of the assets is identical to that of International Reserves foreign assets above.

Bank of Guyana Foreign Liabilities: Data include all short-term liabilities (current, arrears and rescheduled) and all medium term liabilities (current arrears and rescheduled). The liabilities include interest obligations.

Commercial Banks Foreign Assets: Data include foreign currencies in banks, net balances due from Head Offices and other branches abroad, balances due from other banks abroad, foreign treasury bills and securities and credit to non-residents.

Commercial Banks Foreign Liabilities: Data include net balances due to Head Offices and other branches abroad, balances due to other banks abroad and deposits of non-residents. See note under Loans to Non-Residents for Table 2.1 (a) above.

TABLE 8.8 Balance of Payments

Exports

The data are compiled on a free-on-broad (f.o.b.) basis as recorded on customs returns. Data for products including sugar, rice, bauxite, rum, shrimp and molasses are collected directly from the exporting agencies and compiled by the Bank of Guyana. The conversion rate is an average rate for the period for the United States dollar against the Guyana dollar.

Imports

The data are compiled on a cost-insurance-freight (c.i.f) basis on customs returns. For fuel and lubricants the data are collected from the National Energy Authority. The conversion rate is the average period rate for the United States dollar against the Guyana dollar.

The Merchandise Trade:

The trade data in this table do not agree with those of tables 8.1(a) to 8.5(a) due mainly to valuation differences.

TABLE 9.1 Changes In Bank of Guyana Transaction Exchange Rate

The Guyana dollar was fixed in Pound Sterling at the rate of £1 to G\$4.80 until October of 1975 when it was linked to the US\$ at the rate of US\$1 to G\$2.55.

On June 2, 1981, the Guyana dollar was pegged to a composite basket of currencies consisting of the United States dollar, Pound Sterling, Deutsche Mark, Trinidad and Tobago dollar and the Japanese Yen. The exchange rate was fixed at US\$1 to G\$3.00. The US dollar was the intervention currency used to determine the exchange rate.

From January 11, 1984 the composite basket of currencies was adjusted to include the Pound Sterling, Deutsche Mark, Japanese Yen, French Franc and the Netherlands Guilder. The US dollar, although not part of the revised basket, remained as the intervention currency. The United States dollar/Guyana dollar exchange rate was announced weekly. From October, 1984 until January 1987, the exchange rate was maintained in the range of G\$4.15 to G\$4.40 per US dollar.

Effective January 19, 1987 the Guyana dollar was devalued to G\$10.00 per US\$1.00, effective from April 3, 1989 the Guyana dollar was devalued moving the exchange rate to G\$33 to US\$1. On June 15, 1990 the Guyana dollar was devalued from G\$33 per US\$ to G\$45 per US\$. Transactions for this rate were confined to payments in respect of oil imports and external debt services and proceeds from sugar and rice exports.

On February 21, 1991 the Guyana dollar was devalued from G\$45 to US\$1 to G\$101.75 thereby unifying the official exchange rate with the market determined rate prevailing at that date. The US dollar continued to be the intervention currency. From February 25, 1991 the exchange rate was fixed on a weekly basis. During the period February to September, 1991, the exchange rate was determined by the previous week free market average rate of the commercial banks and non-bank dealers.

From October, 1991 the average weighted daily exchange rate of telegraphic transfers for the three largest commercial banks was utilised to determine the exchange rate for the Bank of Guyana daily transactions.

Table 9.2(b) Exchange Rate (G\$/US\$)

The Period End and Period Average Exchange Rates relate to the Bank of Guyana Transactions Rate.

Table 9.6 Monthly Average Market Exchange Rate

On March 13, 1990 the authorities established the cambio system for foreign currency transactions. Under the system, transactions in the cambio market were conducted freely with licensed dealers (banks and non-banks) setting the rate at which foreign exchange could be bought and sold. The rates are referred to as the market exchange rates.

The buying rate is an unweighted average of the purchase rates of all licensed foreign exchange dealers for the month.

The selling rate is an unweighted average of the sales rates of all the licensed foreign exchange dealers for the month.

The mid-rate is the average of the buying and selling rates of all the licensed foreign exchange dealers.

The rates are based on transaction in foreign notes only.
