## THE GUYANA ECONOMY

---

### 1. SUMMARY

During the first half of 2007, real economic growth increased by 5.8 percent, compared with the 3.3 percent expansion reported in the corresponding period of 2006. The increase is due to strong performances in the agriculture, mining, engineering & construction, and service sectors; with the impact of the 2007 Cricket World Cup (CWC) being particularly evident in the latter two sectors. In contrast, the manufacturing sector recorded negative growth. Inflation spiked at the start of the year with the introduction of the Value Added Tax (VAT), and combined with rising oil and food prices on the world and internal markets resulted in an inflation rate of 12.2 percent.

Higher merchandise and service imports associated with sectoral growth, as well as increased short term investments abroad by commercial banks caused the balance of payments to deteriorate. The overall balance of payments amounted to a deficit of US\$8.6 million from a surplus of US\$17 million for the corresponding period last year. The overall deficit was financed by debt relief and a drawdown in Bank of Guyana reserves.

The foreign exchange market was very buoyant during the review period due in part to transactions associated with the successful hosting of the Cricket World Cup 2007. Total transactions were higher by 28.5 percent when compared to the corresponding period of the previous year. Periodic increases in excess demand for foreign currency, to pay for fuel and other imports, resulted in a slight depreciation of the exchange rate when compared to the end-December 2006 level.

The overall financial operations of the public sector, computed on a cash basis, strengthened largely because of higher central government revenue collection. Modest growth in the current and capital expenditure of central government as well as debt relief delivered under the Multilateral Debt Relief Initiative (MDRI) also contributed to the overall stronger position. As part of efforts to strengthen revenue collection and simplify the tax structure, central government effected tax reform by replacing six existing taxes with a 16 percent Value Added Tax and an Excise Tax, effective January 01, 2007. The overall cash deficit of Non-Financial Public Enterprises (NFPEs), including the Guyana Power & Light (GPL) and the National Insurance Scheme (NIS), but excluding LINMINE and G\$2,388 million in expenditure related to GUYSUCO's Skeldon Modernization Program, deteriorated during the first half of 2007, compared with the corresponding period last year. This was mainly due to the expanded capital program of GUYSUCO other than at the Skeldon Estate.

The economy benefited from a lower stock of public debt during the review period. The stock of government's domestic bonded debt decreased by 5.2 percent and its external public and publicly guaranteed debt decreased by 45.6 percent from end-June 2006. The decline in the former was on account of a decline in the holdings of treasury bills and lower GUYMINE bonds, while the contraction in the latter was due mainly to the delivery of debt relief from the World Bank under the Multilateral Debt Relief Initiative (MDRI) in the second half of 2006, and the Inter-American Development Bank during the first half of 2007. Both domestic and external debt service rose from their June 2006 levels.

---

Monetary aggregates grew during the first half of 2007, reflecting the current levels of economic activity and price. Broad money grew by 3.4 percent, and was due to increase in net foreign assets and net domestic credit. Credit to the private sector expanded by 8.3 percent while banks' interest rates were unchanged on account of higher levels of liquidity in the banking system. Consequently, interest rate spreads remained relatively high. The non-bank financial institutions continued the active mobilization of financial resources.

The Licensed Depository Financial Institutions (LDFIs) prudential indicators suggest that the financial system is relatively stable. Higher levels of capital, profits and liquidity were reported during the review period. The Capital Adequacy Ratio (CAR) remained well above the prudential benchmark of 8 percent. The stock of non-performing loans increased but adequate provision had been made by the LDFIs. However, there was an increase in loans to the top twenty borrowers.

The global economy continued to experience strong growth during the review period with most of the major economies expanding on account of high investment and stronger export growth. The US economy which was beset by weakening net exports, drawdown in inventory and housing market corrections in the first quarter rebounded during the second quarter. Emerging as well as developing countries, including those in the Caribbean, continued to benefit from the global expansion. Financial markets were generally stable, however, central banks have tightened monetary policy to address the shifts in inflation. Crude oil prices remain an upside risk in light of supply conditions, rising demand and the geopolitical climate.

For the remainder of 2007, the growth momentum for the global economy is expected to continue with contributions from all major economies. The US economy is expected to register growth of 2.2 percent from the projected 2.4 percent. The main downside to this expansion is the threat of further inflationary pressures, global imbalances, higher prices for crude oil on world markets and a spread of the problems in the US mortgage market. Despite the downside risks, emerging and developing countries are expected to continue benefiting from the favourable global outlook. The Guyanese economy is expected to churn out one of the highest growth rate within recent years. This will contribute to an improvement in the internal and external balances. The foreign exchange market will remain robust with the Bank of Guyana projected to purchase US\$125 million as it seeks to meet its foreign assets target over the next two quarters. Notwithstanding the foregoing, inflation will continue to be a challenge with the rising cost of food and fuel in the international market.

In light of the persistent price increases during the first half of the year, the Bank has revised its inflation target to 8 percent for 2007. To achieve this, the Bank will intensify its Open Market Operations (OMOs) to restrict the growth of money to mitigate second round price increases. This may result in an increase in interest rates. Further, a tighter fiscal stance by the government in the form of lower current expenditure will be needed to support the Bank's efforts to keep inflation low. □

---

## 2. PRODUCTION, EMPLOYMENT, INCOME AND INFLATION

During the first half of 2007, real economic growth increased by 5.8 percent, compared with the 3.3 percent expansion reported in the corresponding period of 2006. The increase is due to strong performances in the agriculture, mining, engineering & construction, and service sectors; with the impact of the 2007 Cricket World Cup (CWC) being particularly evident in the latter two sectors. In contrast, the manufacturing sector recorded negative growth. Inflation spiked at the start of the year with the introduction of the Value Added Tax (VAT), and combined with rising oil and food prices on the world and internal markets resulted in an inflation rate of 12.2 percent.

### GROSS DOMESTIC PRODUCT (GDP)

The economy, during the first half of 2007, posted a very healthy growth rate of 5.8 percent. While growth of the manufacturing sector was negative, this was offset by strong performances in the recovering agriculture and mining sectors, and the buoyant engineering & construction and transport & communications sectors.

Figure 1 shows that the economy is continuing to recover well from the devastating floods of 2005 and, if rates can be sustained, is on track to record one of its strongest growth rates for a number of years.

Figure 1

### PRODUCTION

#### Agriculture, Fishing and Forestry

The agriculture sector (including sugar processing and rice milling) recorded growth of 5.6 percent in

real terms during the first half of 2007. This was mainly due to a sustained recovery in the sugar and rice industries, and an absence of flooding.

#### Sugar

Sugar output increased by 11.7 percent compared with half year 2006, and represented 35.4 percent of the 285,000 tonnes target for 2007. This increase was due to stable weather conditions which facilitated increased planting of higher yielding ratoons leading up to the first crop, and the absence of flooding.

Nevertheless, relatively poor weather conditions during the harvesting of the first crop meant production levels were lower than expected and this is reflected by only a third of the year's production target being met by end-June.

#### Rice

Rice output increased by 19.5 percent compared with half year 2006, and represented 55 percent of the 307,000 tonnes target for 2007. Again, this was primarily due to stable weather conditions leading up to the first crop. The sector has also been boosted by securing markets for higher grade rice in European and Caribbean markets. This has led to the commissioning of a high grade rice facility which will have the capacity to produce 25,000 tonnes of parboiled rice.

#### Fishing and Livestock

The fishing sector experienced a significant decrease of 20.3 percent. Catches of fish were up by 10.6 percent, but they were down for shrimp by 25.1

percent. Although, Guyana has secured lucrative contracts with the USA for shrimp, the decrease in catches is explained by a larger depletion of prawns stock, higher fuel & maintenance costs and continued threats of piracy to fishermen. Production of fish has increased because of diversification within the industry into aqua-culture and stable weather conditions.

During the review period, production levels in the livestock sector were 12.7 percent higher than the corresponding period in 2006. Production of eggs and poultry meat increased by 25 percent and 18 percent, respectively. These increased levels of production were due to existing producers substantially expanding their capacity.

**Table 1**

<b>Selected Production Indicators</b>			
<b>Agriculture, Fishing &amp; Forestry</b>			
<b>January - June</b>			
<b>Commodity</b>	<b>2005</b>	<b>2006</b>	<b>2007</b>
Sugar (tonnes)	86,906	90,354	100,952
Rice (tonnes)	135,887	141,317	168,901
Fish (tonnes)	15,498	11,386	12,588
Shrimp (tonnes)	13,776	11,989	8,983
Poultry (tonnes)	8,429	8,361	9,866
Eggs ('000)	15,721	2,252	2,815
Total logs (cu.mt.)	156,403	176,698	159,675
Sawnwood (cu.mt)	14,287	29,494	36,555
Plywood (cu. mt.)	22,542	15,631	22,036

### **Forestry**

The forestry sector declined by 5 percent in real terms when compared with half year 2006. While output of logs declined by 9.6 percent, production of Sawnwood continued its upward trend and recorded growth of 23.9 percent. Production of plywood increased substantially by 41 percent.

Although the output of logs fell, Guyana has secured access to lucrative markets in the fast expanding emerging markets of Asia, in particular India for

purple-heart logs. This industry has the potential to significantly contribute towards the country's development, however, the suspension in the export license of one of the largest loggers highlights the mounting scrutiny this environmentally sensitive industry is coming under in global markets and also reflects the government's determination to promote the sustainable exploitation of this crucial resource.

### **Mining and Quarrying**

The mining sector recorded a 20.5 percent increase in real terms during the first half of 2007, when compared with the corresponding period in 2006. This reflected the partial realization of the substantial investment and restructuring that has been undertaken in the bauxite industry over the last few years, and the impact of increased price for gold on world market.

### **Bauxite**

Bauxite output increased substantially by 21.2 percent compared with half year 2006, achieving 61.4 percent of the 1,542,000 tonnes target for the year. The three contributory elements recorded increases in production, 21 percent, 31 percent and 11 percent for Metal Grade (MAZ – which accounts for 77.4 percent of all bauxite output), Chemical Grade (CGB) and the high value Refractory Grade bauxite (RASC), respectively. The increase in MAZ is due to heavy investment made by RUSAL at the Aroaima mine over the last two years.

The bauxite industry continued its restructuring process with a 70 percent stake in the Omai Bauxite Mining Inc. (OBMI), previously owned by Canada's IAMGOLD, being sold to Bosai Minerals of China. Both RUSAL and Bosai have indicated that they will be conducting feasibility studies into aluminum refineries, which would add further value to the industry.

### **Gold and Diamonds**

Total gold declarations increased by 20.8 percent compared with half year 2006, and achieved 83.2 percent of the 205,000 ounces target for the year.

This far exceeds the 2.5 percent projected expansion for the industry in 2007 and reflects the capability of players within the industry to expand operations in light of the closure of the Omai Gold mine in September 2005. Together with suitable weather conditions for gold mining, miners have significantly expanded operations as they have been attracted to the rising price of gold on world markets, which has increased from between US\$515 – US\$576 per ounce at end-June 2006 to between US\$640 – US\$655 per ounce during the review period.

**Table II**

<b>Selected Production Indicators</b>			
<b>Mining &amp; Quarrying</b>			
<b>January - June</b>			
<b>Commodity</b>	<b>2005</b>	<b>2006</b>	<b>2007</b>
Bauxite (Tonnes)	791,018	781,570	947,340
RASC	85,330	84,848	94,460
CGB	78,471	87,754	114,589
MAZ	613,769	606,031	733,030
Gold (oz)	150,593	89,112	107,640
Diamond (mt. ct.)	169,684	193,251	170,357

The diamond industry experienced a 11.8 percent decrease in declarations, as compared with half year 2006. This is in contrast with the industry's projected growth of 5 percent. Though 52.7 percent of the 345,000 carats target for 2007 was mined by end-June, this falls short of the proportion achieved in the corresponding period in 2006 (63 percent). The high price of gold on world markets is partly responsible for the lower diamond declarations as it has encouraged miners to shift their focus away from diamonds. Furthermore, the Government has been offering financial incentives to prospect for other highly valued minerals.

### **Manufacturing**

The manufacturing sector (excluding sugar processing and rice milling) decreased by 10.2 percent over the review period. This is far below the growth that is projected for the sector in 2007.

The beverage industry continued to experience mixed results, with an 8.1 percent decline in alcoholic products and a 5.6 percent increase in non-alcoholic products. The decline in alcoholic products, when compared to the corresponding period in 2006, was due to subdued demand and the rainy season, which reduces outdoor social events and the consumption of liquid products.

Output of liquid pharmaceuticals exhibited a sharp decline in the first half of 2007, with production decreasing by 63 percent when compared with the corresponding period in 2006. This reflected the excess capacity that had been generated in the industry as a result of substantially increasing production in 2006. There was a continuation of growth in paint production, which recorded an increase of 6.1 percent and reflected the strong performance in the construction sector.

**Table III**

<b>Selected Production Indicators</b>			
<b>Manufacturing</b>			
<b>January - June</b>			
<b>Commodity</b>	<b>2005</b>	<b>2006</b>	<b>2007</b>
Alcoholic Beverages ('000 litres)	10,993	12,386	11,386
Malta ('000 litres)	338	508	425
Non-Alcoholic Beverages ('000 litres)	21,062	17,244	18,209
Liquid Pharmaceuticals ('000 litres)	230	459	170
Paints ('000 litres)	913	1,000	1,062
Garments ('000 dozens)	70	72	59
Electricity ('000 MWH)	259	260	274

The performance of the garment industry further deteriorated from the decline it suffered during the first half of 2006, and experienced an 18 percent fall in production. This reflected, in part, the intense

competition that the industry is experiencing from lower-cost Asian producers. While the industry is trying to compete on a global scale, it is facing higher costs due to continually having to retrain staff to keep up with the growing demands of contractors.

Electricity generation rose by 5.3 percent, which not only reflected the expansion in capacity to meet the demands of the CWC, but was also in line with the establishment of new housing schemes and hotels.

### Engineering and Construction (E&C)

The growth rate in the engineering & construction sector increased by 6.6 percent when compared to the corresponding period in 2006. The substantial growth was a result of the ongoing construction of hotels, refurbishing of roads and upgrading of homes, particularly in the first quarter as the country prepared for the much anticipated CWC. However, the conclusion of this international sporting event will serve to slow growth in this sector during the remainder of the year.

### Services

The services sector recorded overall growth estimated at 5.9 percent for the first half of 2007. Government spending on wages, the major contributor to the service sector, remained unchanged, and the transport & communications sub-sector, the second largest contributor to the service sector, grew by 10 percent, suggesting that the sector is expected to grow above target this year. The strong growth recorded in the latter is primarily a result of substantial investment by Digicel (a new mobile phone operator) and the competitive response of its established rival (GT&T) to maintain its market share. Transport services also received a significant boost as a result of the influx of visitors during the CWC.

The financial sub-sector grew by 6.2 percent over the review period, emphasizing its sustained development over the past few years in bringing new financial products to the market and increasing credit to the private sector. The distribution sub-sector

expanded substantially by 10.7 percent and was partly a result of an increase in imported consumer goods to cater to the needs of tourists and businesses during the CWC.

**Figure II**

## EMPLOYMENT, INCOME & INFLATION

### Public Employment

Conditions within the labor market improved during the first half of 2007 as the number of work stoppages fell by 17.1 percent, from 89 at the end of June 2006 to 76 at the end of June 2007. This decline in strikes, all occurring within the sugar industry, was primarily due to the reduction in contractual disagreements within the sugar industry. By the end of June 2007, the number of man days lost for GUYSUCO decreased from 23,642 to 16,975 and wages lost also decreased from G\$39.5 million to G\$38.3 million, when compared with the corresponding period last year.

Public Sector employment declined by 3.8 percent during the review period, the largest contributor being the Central Government whose 11.3 percent workforce cutback amounted to 1,150 workers. However, employment at the GUYSUCO and Linden Mining Enterprise (LINMINE-SEC) expanded over the review period.

## Private Employment

While data on private sector employment is sparse, there were some noteworthy developments during the review period. The introduction of Digicel has increased employment in the telecommunications sector, and the re-hiring of some miners as part of the Bosai Minerals purchase of the OBMI had a positive impact on employment in this sector. In addition, heightened activity within the engineering & construction sector required substantial increases in manual labour particularly in the first quarter.

## Income

Changes in nominal income partially reflected the output performances of the various economic sectors. The increase in the agriculture, mining, engineering & construction and services sectors ensured that the economy experienced strong growth.

Disposable income of public sector employees reflected the impact of the 5 percent increase in wages in December 2006 (retroactive to January 1st 2006) and the change in tax structure after the 2007 Budget. While interest paid to holders of government securities was higher in the first half of 2007 as compared with the corresponding period in 2006, interest paid to holders of bank deposits decreased.

## Inflation

In the first half of 2007, the Georgetown Urban Consumer Price Index (CPI) grew by 12.2 percent, compared with 3.4 percent for the corresponding period in 2006. Annual inflation, as measured by the twelve-month change in the CPI since June 2006, expanded to 13.1 percent, compared with the 8.4 percent recorded in the corresponding period in 2006.

Alongside the implementation of VAT at the start of the year, producers and vendors increased prices. Therefore, while everything from furniture to clothing saw significant increases in prices, even many of the VAT exempted items experienced large increases, such as food, which rose overall by 14.5 percent. The price of housing, which also saw sizeable increases in maintenance costs, as many

landlords sought to profit (albeit temporarily) from the CWC by charging higher rents.

**Table IV**

<b>Consumer Price Index</b>			
<b>January 1994 = 100</b>			
	<b>Jun 2006</b>	<b>Dec 2006</b>	<b>Jun 2007</b>
All Items	217.6	219.2	246.1
Food	210.0	212.4	243.2
Meat, Fish & Eggs	198.4	208.5	227.7
Cereals & Cereal Products	224.6	229.9	243.7
Milk & Milk Products	200.0	209.1	228.5
Vegetables & Vegetable Products	273.3	250.5	344.6
Housing	258.1	261.4	282.5
Transport & Communication	291.7	285.0	312.6
Furniture	146.8	148.7	163.2
Clothing	75.4	75.4	86.3
Miscellaneous Goods & Services	167.0	170.9	209.3
Recreational & Cultural Services	257.7	262.1	409.6

The price of clothing as well as the miscellaneous goods & services component increased sharply by 14.5 percent and 22.5 percent, respectively. This included items such as cosmetics, jewelry, watches, package tours, financial services and expenditures in restaurants. However, one of the highest rates of inflation was experienced in the recreational & cultural services, which saw prices increase by 56.3 percent. As with housing, providers of such services have sought to profit from the influx of visitors during the CWC by raising prices.

Rises in the price of oil on world markets have also impacted heavily on inflation. This was particularly evident in the transportation & communications component of CPI where there was a 9.7 percent increase in prices. Furthermore, continued tensions in the Middle-East are unlikely to dispel expectations of an additional increase in prices. □

### 3. INTERNATIONAL TRADE AND BALANCE OF PAYMENTS

Higher merchandise and service imports associated with sectoral growth, as well as increased short term investments abroad by commercial banks caused the balance of payments to deteriorate. The overall balance of payments amounted to a deficit of US\$8.6 million from a surplus of US\$17 million for the corresponding period last year. The overall deficit was financed by debt relief and a drawdown in Bank of Guyana reserves.

#### CURRENT ACCOUNT

The current account deficit widened to US\$109.5 million from US\$96.5 million one year ago. The expansion was due to relatively higher value of merchandise and service imports. Transfers, in the form of remittances, continued to grow.

#### Exports

Total export receipts amounted to US\$317.3 million, 19.7 percent more than the US\$265.1 million recorded at end-June 2006. This outturn mainly reflected higher volumes exported since prices for some of the key export commodities declined.

Table V

Balance of Payments			
US\$ Million			
	January – June		
	2005	2006	2007
<b>CURRENT ACCOUNT</b>	<b>(89.5)</b>	<b>(96.5)</b>	<b>(109.5)</b>
Merchandise Trade	(129.7)	(158.4)	(182.9)
Services (Net)	(38.9)	(43.8)	(56.9)
Transfers	79.0	105.7	130.4
<b>CAPITAL ACCOUNT</b>	<b>85.7</b>	<b>106.0</b>	<b>91.9</b>
Capital Transfers	20.2	28.9	386.5
Non-financial Public Sector (Net)	30.4	28.2	4.1
Private Capital (Net)	52.5	75.0	105.0
Other	0.0	0.0	(356.5)
Short Term Capital	(17.4)	(26.1)	(47.2)
<b>ERRORS &amp; OMISSIONS</b>	<b>(1.5)</b>	<b>(7.5)</b>	<b>9.0</b>
<b>OVERALL BALANCE</b>	<b>(2.3)</b>	<b>17.0</b>	<b>(8.6)</b>

#### Sugar

Sugar export earnings amounted to US\$56.1 million or 10.7 percent above the June 2006 value. This was due to higher volume exported to both inter-regional and extra-regional markets.

The volume of sugar exported increased by 2.9 percent to 90,968 tonnes. Sugar exported to the EU under the Sugar Protocol of the Lome Convention was 80.5 percent of total sugar export, slightly lower than the 81.4 percent recorded at end-June 2006. Total exports to the Caricom region amounted to 17.9 percent of total sugar exports, a substantial increase from the 12.2 percent recorded for the corresponding period in 2006. Regional export growth was attributed to curtailed regional production as a result of EU price cuts. Sugar exports to USA & Canada accounted for 1.6 percent of total exports.

The average unit price of sugar exported declined due to a marginally lower preferential EU market price to US\$631.6 at end-June 2007 from US\$633.7 in the corresponding period in 2006. The average export price for sugar on the world market was 7.6 percent higher at US\$616.9 per tonne at end-June 2007.

#### Merchandise Trade

The merchandise trade deficit amounted to US\$182.9 million, 15.5 percent above the end of June 2006 level. This reflected a sharp rise in the value of imports by US\$76.7 million to reach US\$500.2 million. This more than offset the US\$52.1 million increase in export earnings, which amounted to US\$317.3 at end-June 2007.

#### Rice

Rice export earnings amounted to US\$38.6 million, 77.6 percent above the level in 2006. This was

mainly due to higher export volume as price declined during the review period. The increase in export volume was due to the expanded extra-regional market for the commodity. The volume of rice exported amounted to 145,920 tonnes, 83.2 percent above the 2006 level, while the average export price of rice was US\$264.3 per metric tonne, or 3 percent lower than the price at the end of June 2006.

The EU and Caricom markets continued to be the major destination of rice exports, accounting for 43.8 percent and 41 percent of exports respectively in 2007, compared with 41.6 percent and 48.3 percent respectively for the corresponding period in 2006.

**Figure III**

### Bauxite

Receipts from bauxite exports amounted to US\$43.2 million, 32.2 percent above the value for the corresponding period in 2006. Export volume rose to 895,073 tonnes at the end of June 2007 from 769,310 tonnes for the corresponding period in 2006. The average unit price witnessed a 13.6 percent increase to reach US\$48.3 per tonne.

Metallurgical Grade Bauxite (MAZ) and Calcined Grade Bauxite (RASC) continued to be the main categories of exports and amounted to 673,398 tonnes and 107,872 tonnes respectively, compared with 615,085 tonnes and 59,386 tonnes respectively

for the same period in 2006. The expansion of bauxite export is attributed the sale of OMAI Bauxite Mining Inc (OBMI) to Bosai Mineral Group Guyana Inc. (BMGGI) and growth in capacity and output at Bauxite Company of Guyana Inc, in the context of expansion.

### Gold

Receipts from gold exports were US\$68.8 million, 37.5 percent higher than the end-June 2006 level. This was due to an increase in export volume and price. Export volume rose to 106,276 ounces from 91,078 ounces as favourable world prices continued. The average export price per ounce of gold rose to US\$648 at the end of June 2007 from US\$550 for the corresponding period in 2006.

**Table VI**

		Exports of Major Commodities		
		January – June		
Product	Unit	2005	2006	2007
Sugar	Tonnes	91,540	88,413	90,968
	US\$m.	46.3	50.7	56.1
Rice	Tonnes	89,856	79,666	145,920
	US\$m.	22.4	21.7	38.6
Bauxite	Tonnes	699,726	769,310	895,073
	US\$m.	26.7	32.7	43.2
Gold	Ounces	147,993	91,078	106,276
	US\$m.	60.4	50.1	68.8
Timber	Cu. Metres	90,436	128,954	117,165
	US\$m.	19.8	27.0	36.0

### Timber

The value of timber exports was US\$36 million, 33.3 percent above the value for the corresponding period in 2006. The value of other timber exports rose by 45.1 percent to US\$32.8 million, while the value of plywood exports increased by 37.3 percent or US\$1.2 million at end of June 2007.

### Other Exports

Total earnings from all “other exports” (non-traditional exports including re-exports) was US\$74.5

million, 10.2 percent less than the value for the same period last year. The decrease was reflected primarily in diamonds, fish & shrimps and garments and clothing sub-sectors as shown in table VII.

**Table VII**

<b>Other Exports</b>			
<b>US\$ Million</b>			
<b>January - June</b>			
<b>Commodities</b>	<b>2005</b>	<b>2006</b>	<b>2007</b>

\* This category includes exports of wild life, personal effects, handicrafts and nibbi-furniture.

## Imports

The value of merchandise imports grew by 18.1 percent to US\$500.2 million. The increase reflected activities associated with CWC 2007 and higher cost of fuel and lubricants. The three sub-sectors of imports – consumption, intermediate and capital goods – showed significant increases during the review period. In the consumption sub-category, the other durables item increased to US\$29.5 million from US\$11.3 million in 2006. This is attributed to furnishings for the accommodations required for CWC 2007. In the intermediate sub-category, imports amounted to US\$250.1 million, 7.0 percent higher than the value in 2006. This was due to an increase in the value of fuel and lubricants as well as the importation of other intermediate goods. In the sub-category capital, imports increased by 24.8 percent to US\$117.5 million. This growth was

mainly to facilitate new and ongoing public sector capital projects and inward private investments. Building machinery and other capital goods (including agricultural, industrial, transport and building machinery) recorded the most significant increases in this sub-category, with 38.9 percent and 50.7 percent, respectively.

**Table VIII**

## Services and Unrequited Transfers

Net payment for services amounted to US\$56.9 from US\$43.8 million for the corresponding period in 2006. The expansion was influenced by payments for factor and non-factor services. Net payment for factor services was higher at US\$17.8 million from US\$17 million, and stemmed from a rise in public and private sector interest payment, which increased to US\$3.7 million and US\$10.5 million, respectively at end-June 2007 from US\$3.6 million and US\$10.2 million, respectively one year ago. Higher net payment for non-factor services was due in large measure to a 25 percent increase in freight payment and a 6 percent decline in net earnings from travel and tourism.

Net current transfers continued to grow, amounting to US\$130.4 million. The increase reflected higher inflows to the private sector in the form of workers' remittances. Net inflows of current transfers amounted to US\$196.3 million compared with US\$149.6 million at end-2006. Workers' remittances amounted to US\$130 million compared with US\$102.5 million one year ago. Receipts from bank accounts also rose from US\$27.1 million at end-June 2006 to US\$51.5 million in 2007. The main sources of outflows were workers' remittances and remittances to bank accounts, which amounted to US\$25 million and US\$34.4 million, respectively.

**Figure IV**

## CAPITAL ACCOUNT

The capital account registered a lower surplus of US\$91.9 million from the US\$106 million in 2006. The outturn was due to net short-term private capital outflows, which rose to US\$47.2 million from US\$26.1 million for the corresponding period in June 2006 and reflected commercial banks accumulation of foreign assets. Net private investment expanded to US\$105 million from US\$75 million in 2006. Investment was concentrated mainly in telecommunication, mining and forestry sectors. Capital grants and debt relief received by the combined public sector rose by US\$357.6 million to US\$386.5 million, and reflected US\$356.5 million debt relief from the Inter-American Development Bank (IDB), under the Multilateral Debt Relief Initiative (MDRI). The other grants were associated largely with projects under the Public Sector investment Programme (PSIP).

## Overall Balance and Financing

Lower surplus on the capital account and higher current account deficit caused the overall balance to move from a surplus of US\$17 million at end-June 2006 to a deficit of US\$8.6 million at end-June 2007. The deficit was financed mainly with reserves from the central bank and debt relief under the HIPC initiative. □

## 4. FOREIGN EXCHANGE MARKET DEVELOPMENTS

The foreign exchange market was very buoyant during the review period due in part to transactions associated with the successful hosting of the Cricket World Cup 2007. Total transactions were higher by 28.5 percent when compared to the corresponding period of the previous year. Periodic increases in excess demand for foreign currency, to pay for fuel and other imports, resulted in a slight depreciation of the exchange rate when compared to the end-December 2006 level.

### Overall Market Volumes

Total foreign exchange transactions of the Bank of Guyana and cambios was US\$1,927 million, 29 percent greater than the US\$1,493 million recorded for the corresponding period last year. The increase reflected the greater flows from the cambio market and non-resident accounts. Total cambio transactions amounted to US\$918 million, 42 percent higher than the US\$646 million recorded at the same time last year. This large increase was partly due to the tourist influx during the ICC Cricket World Cup in March 2007.

Foreign exchange purchases from the cambios again outstripped sales. At the end of the review period, total purchases amounted to US\$470 million while sales were US\$448 million, resulting in a US\$22 million excess.

Figure V

Bank cambios accounted for US\$847.9 million or 92.4 percent of the cambio market transactions while

the non bank cambios accounted for the residual amount during the first half of 2007. The bank and non bank cambios experienced an increase in transactions by 45.5 percent and 11.4 percent, respectively, when compared with the first half of 2006. The increase in the bank cambio transactions was as a result of the hosting of the Rio Head of Government Conference, other international conferences along with the successful hosting of the ICC Cricket World Cup.

The Bank of Guyana continued to be a major player in the foreign exchange market for the first half of 2007, as reflected in higher purchases and sales to meet its reserve targets and make payments for oil and wheat imports. The Bank of Guyana transactions totaled US\$293 million, an increase of 4 percent over the corresponding period for 2006.

Non-residents foreign currency account transactions increased substantially when compared with last year. The debit and credits through these accounts totaled US\$347.1 million and US\$352 million respectively, compared with US\$273 million and US\$277 million respectively. Nine (9) foreign currency accounts were approved (including exporters' retention accounts) as at June 2007, an identical position as at June 2006.

### The Exchange Rates

The Guyana dollar depreciated by 1.2 percent against the US dollar during the first half of 2007, due to a rise in the demand for foreign currency to settle payment for fuel and other imports.

The Bank's transactions exchange rate, which is the US weighted mid-rate, depreciated to G\$203.50 from

its value of G\$201.00 at the end of December 2006. The unweighted average rate of the largest dealers in the market also depreciated from G\$201.00 at the end of December 2006 to G\$201.75 at the end of June 2007. The weighted rate replaced the unweighted rate for the computation of Bank's transactions rate with effect from January 25, 2007.

**Figure VI**

The reported cambio market spread between the buying and selling exchange rates was G\$3.51 at the end of June 2007, compared with G\$3.12 at the end of June 2006.

The bank cambios' average buying rates depreciated to G\$200.87 at the end of June 2007 from G\$200.61 at the end of December 2006, while the average selling rate appreciated marginally to G\$205.13 from G\$205.26 for the same period.

The non-bank cambios' average buying and selling rates declined to G\$199.32 and G\$202.46 at the end of June 2007 from G\$200.86 and G\$203.33 at the end of December 2006.

The difference between the two types of dealers' buying rates moved from G\$(0.25) in December 2006 to G\$1.55 at the end of June 2007, while the difference in the selling rates moved from G\$1.93 to G\$2.67 for the same period.

The US dollar continued to be the currency of choice, accounting for 87.3 percent of the cambio market turnover, slightly below the 90.6 percent observed in the same period last year. The pound sterling increased slightly to 5.5 percent of turnover, compared with 4.2 percent at June 2006. The Canadian dollar and Euro remained unchanged (3.6 percent).

As at June 2007, the value of CARICOM currencies traded totaled US\$17.4 million, increasing from US\$15 million at June 2006. The Barbados and Eastern Caribbean currencies continued to dominate trading, together accounting for 94 percent of the total.

The exchange rates for Bahamas, Barbados, Belize and the Eastern Caribbean countries remained fixed during the review period. The exchange rates of the Jamaica and Trinidad & Tobago currencies remained relatively stable. □

## 5. PUBLIC FINANCE

The overall financial operations of the public sector, computed on a cash basis, strengthened largely because of higher central government revenue collection. Modest growth in the current and capital expenditure of central government as well as debt relief delivered under the Multilateral Debt Relief Initiative (MDRI) also contributed to the overall stronger position. As part of efforts to strengthen revenue collection and simplify the tax structure, central government effected tax reform by replacing six existing taxes with a 16 percent Value Added Tax and an Excise Tax, effective January 01, 2007.

### CENTRAL GOVERNMENT

The central government's overall surplus rose by 84.4 percent to G\$4,268 million from G\$2,315 million at end-June 2006. This performance was due to the significant revenue growth which accrued under the Value Added Tax, which became effective at the beginning of 2007.

#### Current Account

The current account surplus grew by G\$7,274 million to G\$13,587 million from one year ago, and reflected comparatively stronger nominal growth in current revenue and the modest increase in current expenditure during the review period.

#### Revenue

Total current revenue (excluding the reimbursable rice levy) rose by 27.1 percent to G\$40,463 million, and represented 62.3 percent of the annual budgeted amount. The increased revenues are in part attributed to the overall increased level of economic activity during the first half, and receipts from the Excise Tax. The recently implemented Value Added Tax replaces the Consumption Tax on imported and locally produced goods, the Service Tax, Hotel Accommodation Tax, Entertainment Tax, Purchase Tax and the Telephone Tax.

Collections from both the Inland Revenue Department and Customs & Trade Administration increased during the review period, compared with the first half of 2006.

The Inland Revenue Department's receipts increased by 5.9 percent to G\$17,365 million. This represented

42.9 percent of the total current revenue and 63.9 percent of the year's target.

The outturn was due mainly to the 10.5 percent and 7.6 percent increase in personal income tax and income tax from business and self-employed persons, respectively, to G\$6,632 million and G\$7,771 million, respectively. Withholding taxes fell by 9.0 percent to G\$1,016 million, while net property taxes grew by 5.7 percent to G\$761 million.

Figure VII

The Customs & Trade Administration's collection increased by 57.9 percent to G\$21,453 million. This represented 53.0 percent of total current revenue and 63.8 percent of the amount budgeted for the year. The increase principally reflected revenues from the Excise tax, which totaled G\$6,953 million. Receipts from the Value Added Tax (VAT) amounted to G\$10,182 million, while consumption tax receipts fell by 87.8 percent to G\$1,397 million. Import duties and remittances under the Environmental tax grew by 44.1 percent and 16.2 percent, respectively,

to G\$2,580 million and G\$229 million.

**Table X**

<b>Central Government Finances</b>			
<b>G\$ Million</b>			
<b>January – June</b>			
	<b>2005</b>	<b>2006</b>	<b>2007</b>
<b>CURRENT ACCOUNT</b>			
Revenue	28,428	31,827	40,463
Expenditure	21,721	25,514	26,876
Current Primary Balance	8,373	8,355	16,002
Interest	1,667	2,042	2,415
Current Balance	6,707	6,313	13,587
<b>CAPITAL ACCOUNT</b>			
Receipts	4,599	8,518	4,289
Expenditure	10,536	12,516	13,608
<b>OVERALL BALANCE</b>	<b>770</b>	<b>2,315</b>	<b>4,268</b>
<b>FINANCING</b>	<b>(770)</b>	<b>(2,315)</b>	<b>(4,268)</b>
Net External Borrowing	5,852	3,755	6,049
Net Domestic Borrowing	(2,223)	(4,883)	(2,668)
Net Divestment Proceeds	0	0	0
Other Financing	(4,399)	(1,187)	(7,649)

Other current revenues decreased by 10.4 percent to G\$1,645 million, and principally reflected the 100 percent decline in receipts from public companies and other similar agencies. Fines, fees & charges, however, rose by 26.5 percent to G\$391 million, while miscellaneous receipts fell by 0.2 percent to G\$550 million.

### Expenditure

Total current expenditure increased by 5.3 percent to G\$26,876 million, or 42.8 percent of the budgeted amount for the year. This outturn reflected a larger wage bill on account of the 5 percent increase in public sector wages granted in the last quarter of 2006, higher interest costs and a decline in most other

recurrent items. Total employment costs increased by 10.0 percent to G\$9,959 million, while interest charges grew by 18.3 percent to G\$2,415 million. Purchases of other goods and services decreased by 11.9 percent, and reflected decreases in maintenance of infrastructure and electricity charges of 17.1 percent and 17.0 percent, respectively, to G\$321 million and G\$1,319 million, respectively.

Transfer payments rose by 16.7 percent to G\$7,305 million. This reflected increases of 18.1 percent in subsidies & contributions to local & international organizations to G\$4,027 million, and 23.5 percent in pensions to G\$2,408 million.

**Figure VIII**

### Capital Account

The capital account deficit grew by G\$5,321 million to G\$9,319 million from end-June 2006, and reflected the 49.6 million contraction in capital revenues to G\$4,289 million. This was due to a fall in non-project grants which resulted from a review of the process of extending these funds by specific donors, and a 64.4 percent decline in HIPC flows to G\$784 million. The decline in HIPC relief reflects the front-loaded structure of the delivery of relief under both the Original and Enhanced initiatives. Grant flows under the Multilateral Debt Relief Initiative also declined by 31.0 percent to G\$1,140 million.

Capital expenditure increased by 8.7 percent or

G\$1,092 million to G\$13,608 million. This reflects government's commitment to the continued rehabilitation and expansion of infrastructure along with increased spending on social sector projects under the PSIP.

### Overall Balance and Financing

The overall surplus improved to G\$4,268 million from G\$2,315 million at end-June 2006. Net domestic financing recorded a decrease in net repayments to G\$2,668 million from G\$4,883 million at end-June 2006.

Net external borrowing grew by G\$2,294 million to G\$6,049 million. This reflected the 16.1 percent increase in disbursements to G\$5,054 million, even as loan repayments contracted by 36.9 percent to G\$1,422 million.

### NON-FINANCIAL PUBLIC ENTERPRISES

The overall cash deficit of Non-Financial Public Enterprises (NFPEs), including the Guyana Power & Light (GPL) and the National Insurance Scheme (NIS), but excluding LINMINE and G\$2,388 million in expenditure related to GUYSUCO's Skeldon Modernization Program, deteriorated during the first half of 2007, compared with the corresponding period last year. This was mainly due to the expanded capital program of GUYSUCO other than at the Skeldon Estate.

#### Current Account

The surplus on the current cash balance of the NFPEs improved to G\$937 million from G\$369 million one year ago, mainly on account of higher earnings from local sales.

Transfers to central government, in the form of taxes, fell by 14 percent to G\$686 million. The overall current cash balance recorded a surplus of G\$251 million.

**Table XI**

<b>Summary of Public Enterprises Finances</b>			
<b>G\$ Million</b>			
<b>January - June</b>			
	<b>2005</b>	<b>2006</b>	<b>2007</b>

Expenditure	920	1,035	2,028
Overall Cash Sur.(+)/Def(-)	(1,395)	(1,462)	(1,777)
Financing	1,395	1,462	1,777
Ext. Borrowing (net)	(20)	0	0
Domestic Fin. (net) <sup>1)</sup>	1,415	1,462	1,777

<sup>1)</sup> Domestic financing includes other financing.

#### Receipts

The total cash receipts of the NFPEs increased by 1.1 percent to G\$38,565 million. The outturn reflected an increase in local sales and receipts from debtors. The increase in both local sales and receipts from debtors was due mainly to higher revenues from both the Guyana Oil Company and the Guyana Power & Light. The 11.1 percent decline in export sales to G\$12,191 million was due to the reclassification of Aroaima Bauxite Company following its privatization in 2006.

Local sales and receipts from debtors rose by 7.7 percent and 9.6 percent, respectively, to G\$19,581 million and G\$6,098 million, respectively. Other receipts increased by 2.2 percent to G\$695 million.

The National Insurance Scheme's receipts grew by 10.2 percent to G\$4,293 million as a result of increases in contributions and investment income. Contributions rose 10.5 percent to G\$3,999 million,

while other income inclusive of investment income grew by 6.7 percent to G\$293 million.

**Figure IX**

### Expenditure

Total current expenditure of the NFPEs contracted by 0.4 percent to G\$37,628 million, and mainly reflected the 9.1 percent contraction in other expenditure to G\$7,028 million, while repairs and maintenance costs decreased by 42.8 percent to G\$206 million.

However, employment costs and payments to creditors increased by 5.9 percent and 7.6 percent, respectively, to G\$9,142 million and G\$8,876 million, respectively. Interest costs also recorded an increase of 48.9 percent to G\$182 million.

Total current expenditure of the National Insurance Scheme grew by 14.3 percent to G\$3,947 million. Pensions increased by 16.5 percent to G\$2,838 million, while both short-term and industrial benefits increased by 3 percent and 1.9 percent, respectively, to G\$443 million and G\$109 million, respectively. Employment charges and materials & supplies costs both rose by 9.1 percent and 33.3 percent, respectively, to G\$359 million and G\$4 million, respectively. Other expenses also increased by 30.4 percent to G\$193 million.

### Capital Account

Capital expenditure of the NFPEs increased by G\$993 million to G\$2,028 million. This excludes G\$2,388 million capital outlays by GUYSUOCO for its Skeldon Modernization Program, which is being accounted in the capital program of central government, on account of the on-lending arrangement set up to finance the project.

### Overall Balance and Financing

The overall deficit of the NFPEs deteriorated to G\$1,777 million from G\$1,462 million at end-June 2006. This was fully financed from domestic resources. □

## 6. PUBLIC DEBT

The economy benefited from a lower stock of public debt during the review period. The stock of government's domestic bonded debt decreased by 5.2 percent and its external public and publicly guaranteed debt decreased by 45.6 percent from end-June 2006. The decline in the former was on account of a decline in the holdings of treasury bills and lower GUYMINE bonds, while the contraction in the latter was due mainly to the delivery of debt relief from the World Bank under the Multilateral Debt Relief Initiative (MDRI) in the second half of 2006, and the Inter-American Development Bank during the first half of 2007. Both domestic and external debt service rose from their June 2006 levels.

### Stock of Domestic Debt

The outstanding stock of government domestic bonded debt, which consisted of treasury bills, debentures, bonds and the Caricom loan, amounted to G\$68,999 million, a decrease of 5.2 percent from end-June 2006 and 7.1 percent from end-December 2006 balance. The decrease from one year earlier reflected the 4.4 percent contraction in the stock of outstanding government treasury bills, and the 25.7 reduction in the stock of GUYMINE bonds under renegotiated settlement terms, to G\$3,969 million at end-June 2007. The stock of defence bonds and debentures remained unchanged at G\$3 million and G\$11,817 million, respectively.

Figure X

The maturity structure of the outstanding stock of treasury bills shifted from twelve months earlier, with the share of 182-day bills growing by 5.2 percentage points to 10.5 percent. The share of 364-day bills

declined by 5.3 percentage points to 87.5 percent, while the share of 91-day bills was slightly up at 2 percent from 1.9 percent one year ago.

Table XII

Central Government Bonded Debt by Holders			
G\$ Million			
	Jun	Dec	Jun
	2006	2006	2007
<b>Total Bonded Debt</b>	<b>72,818</b>	<b>74,308</b>	<b>68,999</b>
Treasury Bills	54,988	57,864	52,569
91-day	1,064	3,066	1,065
182-day	2,914	5,864	5,513
364-day	51,010	48,934	45,991
CARICOM Loan	670	655	641
Guymine Bonds	5,340	3,969	3,969
Debentures	11,817	11,817	11,817
Defense Bonds	3	3	3

The volume of 91- and 182-day bills outstanding increased over the twelve month period by 0.1 percent and 89.2 percent, respectively, to G\$1,065 million and G\$5,513 million, respectively, while the 364-day bills decreased by 9.8 percent to G\$45,991 million.

The share of the commercial banks' holdings of the outstanding stock of treasury bills rose to 63.9 percent from 58.8 percent one year earlier. The public sector share, of which the National Insurance Scheme was the only stakeholder, fell to 9 percent, from 11.8 percent at end-June 2006. The share of the

other financial intermediaries declined to 25.1 percent from 26.1 percent.

Treasury bills issued during the first half of 2007 decreased by 5.4 percent to G\$38,274 million. Issues of the 91- and 364-day maturities decreased by 30.1 percent and 9.3 percent to G\$4,129 million and G\$28,688 million, respectively. However, issues of the 182-day bills rose by 87.2 percent to G\$5,456 million. There were no issues of debentures during the review period.

Redemption of treasury bills during the first half of 2007 grew by 23.2 percent to G\$43,570 million. Redemptions of the 91- and 182-day issues fell by 19.4 percent and 26.5 percent, respectively, to G\$6,131 million and G\$5,807 million, respectively, while redemptions of the 364-day bills rose by 59.2 percent to G\$31,632 million. No debentures were redeemed during the review period.

Other	20	0	0

### **Domestic Debt Service**

Total domestic debt charges increased by 30.6 percent to \$1,835 million from one year earlier. This was due mainly to higher charges associated with the

increase in the volume of 364-day treasury bills redeemed during the first six months of 2007. Interest paid on the 91-day bills decreased by 13.5 percent to G\$64 million. Similarly, interest paid on the 182-day maturity was lower at G\$122 million, a decrease of 20.3 percent or G\$31 million. However, interest charges on the 364-day bills rose by 59.2 percent to G\$1,310 million. Debenture interest payments grew by 1.6 percent to G\$309 million.

### **Stock of External Debt**

The stock of outstanding public and publicly guaranteed external debt fell by 45.6 percent to US\$655 million from end-June 2006. This sharp decline reflected the delivery of US\$189 million in debt relief by the World Bank through the International Development Association (IDA) under the Multilateral Debt Relief Initiative in the second half of 2006, as well as US\$412 million in up-front stock-of-debt relief provided by the Inter-American Development Bank. Relief delivered by the Inter-American Development Bank comprised US\$357 million as its contribution under the Multilateral Debt Relief Initiative and US\$55 million originally committed under the Enhanced HIPC Initiative and phased over the period 2007-2012.

**Table XIV**

<b>Structure of External Public Debt</b>			
<b>US\$ Million</b>			
	<b>Jun</b>	<b>Dec</b>	<b>Jun</b>
	<b>2006</b>	<b>2006</b>	<b>2007</b>
Multilateral	952	778	384
Bilateral	231	243	249
Suppliers' Credit	13	13	13
Financial Markets/Bonds	9	9	9
<b>Total</b>	<b>1,205</b>	<b>1,043</b>	<b>655</b>

Obligations to the multilateral creditors, which accounted for 58.5 percent of total external public debt, fell by 59.7 percent to US\$384 million. This reflected the impact of debt relief from the Inter-American Development Bank, as the stock of debt

contracted by 75.9 percent or US\$374 million to US\$119 million from one year earlier. Obligations to the International Development Association and the Caricom Multilateral Clearing Facility also declined by 95.7 percent and 13.9 percent, respectively, to US\$10 million and US\$31 million, respectively. In contrast, obligations to the Caribbean Development Bank and the International Monetary Fund increased by 14.7 percent and 36.6 percent, respectively, to US\$117 million and US\$56 million, respectively. Total bilateral obligations, which represented 38.1 percent of total external debt, amounted to US\$249 million, 7.8 percent more than the end-June 2006 level. Obligations to Trinidad and Tobago decreased by 1.8 percent or US\$1 million to US\$54 million. This represented 22.7 percent and 8.2 percent of bilateral and total external debt, respectively.

### External Debt Service

External debt service during the first half of 2007 rose by 14.3 percent to US\$8 million from its end-June 2006 level. The debt service ratio, however, declined to 2.3 percent from 3 percent at end-June 2006 on account of the higher value of exports recorded in the first half of 2007.

Principal and interest payments amounted to US\$3 million and US\$5 million, respectively. Central Government debt service remained unchanged at US\$7 million, while payments by the Bank of Guyana amounted to US\$1 million. Payments to multilateral creditors amounted to US\$5 million or 69.8 percent of total debt service, while bilateral creditors received US\$2 million. Debt service to the International Monetary Fund amounted to US\$1 million, while payments to the Inter-American

Development Bank totaled US\$2 million.

**Table XV**

<b>External Debt Service Payments US\$ Million</b>

<b>End-June 2006</b>			
<b>Total</b>	<b>4.0</b>	<b>3.0</b>	<b>7.0</b>
Bank of Guyana	0.0	0.0	0.0
Central Gov't	4.0	3.0	7.0
Parastatals	0.0	0.0	0.0

### Debt Relief

Total HIPC debt relief attributable to the first six months of 2007 decreased by 30.8 percent to US\$18 million. This decline reflects the front-loaded nature of the delivery of relief under this Initiative. Relief under the O-HIPC initiative remained unchanged at US\$10 million while debt relief under the E-HIPC initiative declined by 50 percent to US\$8 million at end-June 2007.

The 100 percent escalation in debt relief under the Multilateral Debt Relief Initiative to US\$16 million attributable to the first half of 2007 was due, as earlier mentioned, to the provision of additional debt relief by the World Bank and the Inter-American Development Bank. □

## 7. FINANCIAL SECTOR DEVELOPMENTS

Monetary aggregates grew during the first half of 2007, reflecting the current levels of economic activity and price. Broad money grew by 3.4 percent, and was due to increase in net foreign assets and net domestic credit. Credit to the private sector expanded by 8.3 percent while banks' interest rates were unchanged on account of higher levels of liquidity in the banking system. Consequently, interest rate spreads remained relatively high. The non-bank financial institutions continued the active mobilization of financial resources.

### MONETARY DEVELOPMENTS

#### Reserve Money

Reserve or base money expanded by 2.8 percent to G\$52,069 million. The higher level of reserve money stemmed primarily from a 9.3 percent increase in net domestic assets of Bank of Guyana due to an increase in credit to the private sector. Net foreign assets of the Bank of Guyana rose by 0.3 percent in 2007.

The expansion in the reserve money is reflected in a 19.7 percent increase in bankers' deposits. Currency in circulation and commercial banks' vault cash declined by 8.6 percent and 24.9 percent, respectively, due to seasonality.

Figure XI

#### Money Supply

Narrow money (M1), consisting of currency in circulation, private sector demand deposits and cashiers' cheques and acceptances, amounted to

G\$44,591 million, 7.2 percent below the end-December 2006 level. This was due to the decline in currency in circulation by 8.6 percent while demand deposits, including cashiers' cheques and acceptances, dropped by 5.6 percent during the review period to G\$20,877 million.

Table XVI

	Reserve Money G\$ Million		
	Jun 2006	Dec 2006	Jun 2007
Net Foreign Assets	33,072	36,595	36,720
Net Domestic Assets	10,836	14,049	15,348
Credit to Public Sector	(39,857)	(36,031)	(35,229)
<b>Reserve Money</b>	<b>43,908</b>	<b>50,644</b>	<b>52,068</b>
Liabilities to:			
Commercial Banks	23,995	24,692	28,354
Currencies	1,594	2,660	1,998
Deposits	22,339	21,970	26,294
EPDs	62	62	62
Currency in Circulation	19,913	25,952	23,714
<b>Monthly Average</b>			
Reserve Money	44,228	47,626	51,748
Broad Money (M2)	126,235	135,942	147,188
Money Multiplier	2.85	2.85	2.84

Broad money (M2), comprising currency in circulation and private sector deposits, grew by 3.4 percent to G\$148,635 million. The increase reflected primarily the acceleration of quasi-money since narrow money declined.

Quasi-money, comprising interest-earning deposits of the private sector, accounted for 70 percent of M2 and grew by 8.7 percent. This was 2.3 percentage points above the growth for the corresponding period in 2006 and resulted primarily from a 10.5 percent increase in savings deposits associated with higher earnings and remittances-related inflows. Time deposits decreased by 1.1 percent owing to less attractive interest rates.

### Money Multiplier and Income Velocity

M2 multiplier was relatively stable during the review period, declining marginally by 0.01 percentage point to 2.84.

The income velocity of money circulation, defined as the ratio of GDP to M2, stood at 1.21 compared to 1.28 for the corresponding in 2006, indicating that GDP grew at a faster rate than M2.

### Commercial Banks Deposits

Residents' deposit comprising the public and private sectors as well as the non-bank financial institutions held higher deposits with the commercial banks. Total resident deposits grew by 7.7 percent to G\$155,731 million. The ratio of domestic banks credit to resident deposits decreased to 0.69 at end-June 2007 from 0.74 at end-December, 2006 reflecting higher level of foreign investment.

### Deposits

Private sector deposits, which accounted for 79.2 percent of total deposits, grew by 7.7 percent compared with a 7.5 percent growth recorded for the corresponding period. Business enterprises deposits increased by 13.4 percent during the first half of 2007 on account of increased business activity partially due to world cup cricket. Individual customers' deposits grew by 6.6 percent to G\$102,589 million and is associated with higher remittances-related inflows.

The deposits of the public sector expanded by 10.2 percent to G\$23,617 million compared with an increase of 2 percent for the comparable period. This

was due to a 25.1 percent increase in deposits of the public non-financial enterprises to G\$11,405 million reflecting higher revenues. Total general government deposits, comprising central and local government, declined marginally by 0.8 percent to G\$12,212 million.

**Table XVII**

<b>Monetary Survey</b>			
	<b>G\$ Million</b>		
	<b>Jun 2006</b>	<b>Dec 2006</b>	<b>Jun 2007</b>
Narrow Money	37,603	48,070	44,591
Quasi Money	91,665	95,707	104,044
<b>Money Supply (M2)</b>	<b>129,268</b>	<b>143,777</b>	<b>148,635</b>
Net Domestic Credit	32,984	43,300	44,812
Public Sector (Net)	(15,018)	(10,385)	(13,586)
Private Sector Credit	56,973	61,788	66,926
Agriculture	3,706	3,526	3,028
Other Manufacturing	8,403	8,745	8,859
Rice milling	1,749	1,400	1,518
Distribution	9,013	9,768	9,686
Personal	10,497	12,513	14,098
Mining	995	955	958
Other Services	5,678	6,201	6,725
Real Estate Mortgages	11,066	12,524	14,682
Other	5,866	6,156	7,372
Non-bank Fin. Inst.	(8,971)	(8,103)	(8,528)
Net Foreign Assets	56,252	55,459	65,430
Other Items (Net)	40,030	45,017	38,394

The deposits of the non-bank financial institutions increased by 2.3 percent to G\$8,738 million during the review period compared with a 6.3 percent reduction in 2006. The increase reflected a transfer from treasury bills holding to higher bank balances.

### Domestic Investments

Commercial banks' gross investments amounted to G\$108,376 million or 56 percent of total assets. Loans and advances, inclusive of the public sector loans, increased by 6.7 percent to G\$66,055 million

during the first six months 2007 and accounted for 61 percent of total domestic investment. Securities accounted for the remaining 39 percent of the banks investment portfolio and declined by 8 percent to G\$42,321 million. Holdings of government securities in the form of treasury bills was lower by 8.7 percent to G\$32,641 million during the review period.

**Figure XII**

## BANKING SYSTEM

### Net Domestic Credit

Net domestic credit by the banking system increased by 3.5 percent to G\$44,812 million at the end of June 2007, a reversal from a decrease of 17.3 percent at end-June 2006. The main source of the increase was private sector credit.

### Credit to the Private Sector

Private sector credit was 45 percent of M2 at end June 2007 compared to 44 percent at end June 2006. Loans and advances to the private sector grew by 8.3 percent to G\$66,926 million, compared with an 8.7 percent increase at the end of June 2006. The growth occurred from funding to the real estate mortgage sector and personal (household) sectors which increased by 17.2 percent and 12.7 percent respectively on account of continued strong demand for homes. Loans to the rice milling, other services,

other manufacturing and mining sectors expanded by 8.4 percent, 8.5 percent, 1.3 percent and 0.3 percent respectively during the review period. Credit to the distribution and agriculture sectors declined by 0.8 percent and 14.1 percent respectively. The other category of credit, comprising mainly purchases of local securities by commercial banks, expanded by 19.8 percent reflecting investments in the Berbice River Bridge.

At end-June 2007, the commercial banks' major exposures to the private sector were 22 percent to real estate mortgages, 21 percent to personal, 14 percent to distribution, 13 percent to manufacturing, 11 percent to loans for local securities, 10 percent to other services, 5 percent to agriculture, 2 percent to rice milling and 1 percent to the mining sector.

**Figure XIII**

Figure XIII shows that the commercial banks' major exposures to the private sector were 23 percent to real estate, 21 percent to personal, 15 percent to manufacturing and 14 percent to distribution.

### Net Credit to the Public Sector

The public sector continued to be a net depositor of funds with the banking system during the review period. The net deposits of the public sector, consisting of deposits net of loans and advances, treasury bills and debentures, increased by 30.8

percent to G\$13,586 million.

Central Government net credit decreased by 26.2 percent to G\$7,170 million on account of higher deposits. Public enterprises net deposits increased by 5.3 percent compared with the 194.4 percent increase in the first half of 2006. The other category of the public sector which includes the local government and the National Insurance Scheme, recorded an increase of 1.9 percent in net deposits compared with a 13.2 percent decrease during the comparable period in 2006.

### Net Credit to the Non-Bank Financial Institutions

The non-bank financial institutions registered a 5.2 percent increase in their net deposits to G\$8,528 million. This outturn resulted from a 14.1 percent increase of deposits of the private non-bank financial institutions reflecting a transfer from treasury bills holding to higher bank balances.

### Net Foreign Assets

The net foreign assets of the banking system grew by 18 percent to US\$321.5 million at end-June 2007. The net foreign assets of the commercial banks rose by 50.3 percent to US\$141.1 million. Net foreign assets of the Bank decreased slightly by 0.9 percent to US\$180.4 million from the US\$182.1 million recorded at end-December 2006. The foreign assets declined by US\$6 million during the review period while the foreign liabilities of the Bank decreased by US\$4 million from the US\$95.2 million registered at end-December 2006. The increase in net foreign assets of the commercial banks resulted mainly from an increase in gross foreign assets of US\$50 million. The gross foreign liabilities rose by US\$3 million at end-June 2007.

### Interest Rates

Commercial banks interest rates were unchanged during the review period. The small savings rate remained constant at 3.19 percent, while the prime lending rate was 14.54 percent. The inter-bank market interest rate hovered around 4 percent and 4.5

percent over the review period.

**Table XVIII**

<b>Commercial Banks</b>			
<b>Selected Interest Rates and Spreads</b>			
<b>All interest rates are in percent per annum</b>			
	<b>Jun 2006</b>	<b>Dec 2006</b>	<b>Jun 2007</b>
1. Small Savings Rate	3.29	3.19	3.19
2. Weighted Avg. Time Deposit Rate	3.03	2.93	2.73
3. Weighted Avg. Lending Rate	12.84	13.12	12.72
4. Prime Lending Rate	14.54	14.54	14.54
5. End of period 91-day Treasury Bill Discount Rate	3.85	4.16	3.94
<b>Spreads</b>			
A (3-1)	9.55	9.93	9.19
B (4-1)	11.25	11.35	11.35
C (5-1)	0.56	0.97	0.75
D (3-2)	9.81	10.19	9.67
E (4-2)	11.51	11.61	11.83

The commercial banks' interest rate spreads between the small savings rate and the prime lending rate remained high at 11.35 percent at the end of June 2007. The spread between the 91-day treasury bill rate and the small savings rate contracted from 97 basis points at end-December, 2006 to 75 basis points at end-June 2007 reflecting a decrease in the treasury bill rate by 22 basis points to 3.94 percent.

### Liquidity

Total liquid assets of the commercial banks amounted to G\$54,596 million or 1.8 percent above the end-December 2006 level. The banks' excess liquid assets amounted to G\$18,915 million or 53 percent more than the required amount. The high level of excess liquid assets continued to reflect the banks' preference for short-term assets comprising mainly of Government of Guyana Treasury bills. Treasury bills accounted for 61.4 percent of total liquid assets while

deposits with banks abroad increased by 15 percent.

Total reserves deposited with the Bank were G\$26,040 million, 14 percent above the level at end-December 2006. The required statutory reserves of the banks amounted to G\$20,188 million, 8.3 percent higher than the end-December 2006 level, reflecting the increase in savings deposit liabilities over the review period. Reserves in excess of the minimum requirement averaged G\$5,851 million during the review period.

## NON-BANK FINANCIAL INSTITUTIONS

The Non-Bank Financial Institutions (NBFIs), which includes depository and non-depository licensed and unlicensed financial institutions, financial resources increased by 8.2 percent or G\$9,309 million to G\$123,069 million. As a result, their share of total assets in the financial sector rose to 39 percent from 38.7 percent at end 2006.

The additional resources mobilized by the NBFIs were derived mainly from a 5.2 percent growth in share deposits, a 29.7 percent expansion in insurance premium, a 7.5 percent rise in pension funds and a 10.5 percent increase in other liabilities. During the review period, foreign liabilities declined by 20.1 percent.

NBFIs' funds were used to increase claims on the banking sector, non resident and to acquire additional assets. Investments in foreign securities rose by 36.3 percent due to the operations of the insurance companies. Claims on the banking sector rose by 18.4 percent and other assets increased by 41.9 percent. On the other hand, investments in the public sector and the private sector declined by 33.5 percent and 6.5 percent, respectively. Private sector investments were lower due to the contraction of investments in local securities and mortgage loans. Mortgage loans accounted for 77.3 percent of the total private sector. In addition, the reduction in claims on the public sector was due to a decline in Government of Guyana treasury bills and Central

Government debentures.

**Table XIX**

Note: The coverage of non-bank financial institutions differs from that reported in the monetary section.

## The New Building Society

Total resources of the New Building Society (NBS) increased by 5.5 percent or G\$1,743 million to G\$33,214 million and accounted for 27 percent of total assets of the NBFIs. The increase was due mainly to an increase of G\$1,312 million in share deposits. Other and foreign liabilities increased by 6.2 percent G\$259 million and 7.5 percent or G\$100 million, respectively.

Funds mobilized by the NBS were used primarily to invest in Government of Guyana securities, extend mortgage loans, and increase claims on the banking sector and non resident sectors. Total lending to the

private sector, which represented 49.3 percent of total assets, grew by 4.9 percent to G\$16,367 million, due to competitive interest rates offered by NBS. Investment in Government of Guyana treasury bills increased by 4.7 percent and accounted for 37.3 percent of total assets. Claims on the domestic banking sector increased by 33.6 percent and accounted for 6.1 percent of total assets and claims on the non resident sector rose sharply by 36.3 percent or G\$329 million.

Non-Residents	920	907	1,236
Other Assets	1,113	1,626	1,213

### Trust Companies

The resources of the trust companies, which include Hand in Hand Trust Corporation Incorporated, Trust Company Guyana Limited and Globe Trust & Investment Limited, increased by 7.6 percent or G\$662 million. This was due mainly to a 7.2 percent or G\$465 million increase in deposits, which represented 74 percent of total trust company liabilities. Other liabilities rose by 9.4 percent, while foreign liabilities declined by 2.3 percent or G\$3 million.

Funds were redistributed to increase claims on the non-resident sector by 19.1 percent or G\$605 million as the rate of return were relatively higher for foreign securities. Claims on the private sector increased by 10.2 percent or G\$263 million and accounted for 30.3 percent of total assets. Mortgages accounted for 71.9 percent of private sector investment. The companies' holdings of other loans and advances, which include agricultural and personal loans, accounted for 13.8 percent of total loans and advances.

There were decreases in the claims on the public sector and the banking sector. Claims on the public sector declined by 22.5 percent or G\$219 million, while claims on the banking sector decreased by 0.3 percent or G\$4 million.

### Finance Companies

Financial resources of the finance companies increased by 23.4 percent or G\$2,128 million, due mainly to the operations of the micro finance companies – Development Financing Limited South America (DFLSA) and Institute of Private Enterprise Development (IPED). The resources mobilized in

the form of retained earnings and loans from companies' affiliates increased by 63 percent or G\$1,530 million and 27.4 percent or G\$655 million, respectively. Other liabilities declined by 3.4 percent.

**Table XXII**

Finance Companies consist of: one stock broker (Beharry Stock Brokers Limited), one finance company (Laparkan Financial Services Limited), one investment company (Secure International Finance Company Incorporated), one merchant bank (Guyana Americas Merchant Bank Inc.) and two micro-finance institutions (Development Finance Limited South America Inc. & Institute of Private Enterprise Development)

Claims on the private sector, the banking sector and other assets increased significantly. Claims on the private sector, which represents 69.8 percent of finance companies' total assets, increased by 21.9 percent. This was due to a 35 percent increase in loans and advances and 18.3 percent increase in local securities. Claims on the banking sector increased by 94.9 percent, due to the increase in balances held at local commercial banks. Other assets, comprising of other real estate, prepayments, accounts receivable and stocks, expanded by 50.1 percent and accounted for 20.4 percent of total finance companies assets. In

contrast, the non resident claims declined by 30.7 percent.

### **Asset Management Companies**

The resources of the asset management companies, which consist of Guyana Co-operative Financial Service (GCFS) and Guyana National Co-operative Bank (GNCB), decreased by 0.1 percent. This resulted from a 0.9 percent decrease in provision for outstanding loans, which represented 74.5 percent of total liabilities.

Provisions for Loans	14,836	14,731	14,593
Other Liabilities	2,424	2,465	2,578
<b>Uses of Funds:</b>	<b>19,669</b>	<b>19,605</b>	<b>19,580</b>
Claims on:			
Private Sector	10,499	10,319	10,232
Banking System	1,226	1,341	612
Other Assets	7,944	7,946	8,736

Funds were used to acquire additional assets as other assets, including fixed assets and interest receivable, rose by 9.9 percent. Claims on the banking sector and private sector decreased 54.3 percent or G\$729 million and 0.8 percent or G\$86 million, respectively. The latter was due to a reduction in the balance of non performing loans. Interests accrued on non performing loans represented 38.9 percent of total assets.

### **Pension Schemes**

The consolidated resources of the pension schemes increased by 6 percent or G\$1,023 million, on account of a 7.5 percent or G\$1,150 million increase

in pension funds contribution. However, the pension schemes share of the total NBFIs resources declined to 14.6 percent.

**Table XXIV**

<b>PENSION COMPANIES</b>			
<b>Selected Sources &amp; Uses of Funds</b>			
<b>G\$ Million</b>			
	<b>Balances</b>		
	<b>Jun 2006</b>	<b>Dec 2006</b>	<b>Jun 2007</b>
<b>Sources of Funds:</b>	<b>15,996</b>	<b>16,992</b>	<b>18,014</b>
Pension Funds	14,602	15,324	16,474
Other Liabilities	1,394	1,668	1,540
<b>Uses of Funds:</b>	<b>15,996</b>	<b>16,992</b>	<b>18,014</b>
Claims on:			
Public Sector	1,360	1,125	402
Private Sector	5,851	6,801	4,937
Banking System	3,034	2,955	3,594
Non-Residents	4,616	4,896	7,933
Other Assets	1,135	1,215	1,148

The resources available were redistributed to increase holdings in the foreign sector and the banking sector. Foreign sector investments increased by 62.1 percent, due to an increase in deposits at foreign banks from G\$185 million to G\$2,782 million. Claims on the local banking system increased by 21.6 percent or G\$639 million. In contrast, private sector investments declined by 27.4 percent, as a result of a 91 percent reduction in deposits held with other non-bank financial institutions. In addition, claims on the public sector declined by 64.2 percent, due to a reduction in investments in Government of Guyana treasury bills.

### **Domestic Insurance Companies**

The total resources of the domestic insurance companies (life and non-life segments) increased by 13.5 percent or G\$3,778 million. The life component, which accounted for 75.8 percent of the industry's resources, increased by 12.3 percent, while the non-life component grew by 17.3 percent.

Life insurance premium increased by 16.2 percent, of this, local life premium increased by 29.7 percent, while the non-resident premium declined by 14 percent and accounted for 22.6 percent and 89.5 percent of life insurance fund and life insurance foreign liabilities, respectively.

**Table XXV**

<b>DOMESTIC INSURANCE COMPANIES</b>

Non-Residents	12,384	12,289	15,412
Other Assets	6,375	6,779	7,198

Resources were reallocated to enhance claims on the non resident sector, banking sector and to acquire additional assets. Claims on the banking system increased by 43.1 percent. Funds mobilized to the non resident sector increased by 25.4 percent. Non resident claims were distributed among foreign securities, foreign loans & advances and foreign deposits. Foreign securities increased by 13.3 percent, while foreign loans and advances increased by 93.4 percent. Deposit with foreign banks which represented 33.4 percent of non resident claims, increased by 22.6 percent. Other assets increased by 6.2 percent and accounted for 22.7 percent of total assets. Conversely, total private sector investments, in the form of shares and loans & advances to residents, declined by 8.4 percent. Loans & advances

---

constituted 57 percent of total private sector investment.

### **Interest Rates**

The interest rate structure of the NBFIs remained stable during the first half of 2007. The small savings rate and the save & prosper shares rate of NBS remained unchanged at 2.5 percent and 4.5

percent, respectively. The ordinary mortgage rate and the low-income mortgage loans remained constant at 7.5 percent and 5.5 percent, respectively.

The interest rates offered by Hand in Hand Trust on domestic and commercial mortgages remained at 14 percent and 16 percent, respectively. □

## 8. FINANCIAL STABILITY ASSESSMENT

The Licensed Depository Financial Institutions (LDFIs) prudential indicators suggest that the financial system is relatively stable. Higher levels of capital, profits and liquidity were reported during the review period. The Capital Adequacy Ratio (CAR) remained well above the prudential benchmark of 8 percent. The stock of non-performing loans increased but adequate provision had been made by the LDFIs. However, there was an increase in loans to the top twenty borrowers.

### Capital Adequacy Profiles

#### Composition of Capital

The Capital Adequacy Ratio (CAR) was 14.5 percent at end-June 2007 compared with 15.7 percent at end-December 2006. The reduction in the ratio resulted from a higher Tier 1 capital and the substantial growth in risk-weighted assets.

The total qualifying capital of the Licensed Depository Financial Institutions (LDFIs) grew by 7.8 percent to G\$13,351 million during the review period compared with the 3.5 percent growth for the same period last year. This performance resulted from an increase of 6 percent in qualifying Tier 1 capital. The higher level of Tier 1 capital, which stood at G\$12,906 million at end-June 2007, reflected an overall 3.7 percent increase in retained earnings and an 8 percent growth in reserve fund.

**Table XXVI**

Licensed Depository Financial Institutions (LDFIs) Capital Adequacy Profiles G\$ Million			
	Jun 2006	Dec 2006	Jun 2007
Total Qualifying Capital	10,730	12,380	13,351
Total Tier 1 capital (Net)	10,548	12,175	12,906
Risk-weighted Assets	76,640	78,714	92,336
Percent			
Average CAR	14.0	15.7	14.5
Tier 1 ratio	13.8	15.5	14.0

#### Risk-weighted Assets

The aggregate risk-weighted assets of LDFIs grew by

17.3 percent to G\$92,336 million, compared with 7.7 percent growth during the first half of 2006. The growth in risk-weighted assets reflected the increase in real estate loans, as well as an expansion in credit to households, manufacturing and services sectors.

#### Asset Quality

##### Non-performing loans

At end-June 2007, total non-performing loans amounted to G\$7,988 million and represented 12 percent of the LDFIs' loan portfolio as was for the period ended December 2006.

Deterioration in the quality of the loan portfolios of some of the LDFIs contributed to the 13 percent or G\$940 million growth in the total non-performing loans, which amounted to \$7,988 million compared with \$7,048 million at end-December 2006.

Non-performing loans within the business enterprise sector increased by 14 percent, while for the households sector such loans moved up slower by an approximate 8 percent. The manufacturing sector had the greatest increase in non-performing loans of 30 percent compared with the 20 percent fall-off as at end-December 2006. The rice-milling sub-sector accounted for 37.5 percent of the non-performing loans in the manufacturing sector. For the comparative period, the sugar and molasses sub-sector had zero non-performing loans. However, for this period, non-performing loans in that sub-sector amounted to \$512 million.

Non-performing loans within the mining and quarrying sector (bauxite, gold, and other, inclusive

of diamond and precious stones), increased by 22 percent for the period under review. The gold sub-sector accounted for 91 percent of this sector's non-performing loans, while diamond and other precious stones accounted for the remaining 9 percent.

**Table XXVII**

<b>Licensed Depository Financial Institutions (LDFIs)</b>			
<b>Sectoral Distribution of Non-Performing Loans</b>			
<b>G\$ Million</b>			
	<b>Jun</b>	<b>Dec</b>	<b>Jun</b>
	<b>2006</b>	<b>2006</b>	<b>2007</b>
<b>Economic Sector</b>			
<b>Business Enterprise</b>	<b>6,462</b>	<b>6,207</b>	<b>7,076</b>
Agriculture	861	348	322
Mining & Quarrying	38	67	82
Manufacturing	2,619	2,088	2,723
Services	2,944	3,704	3,949
<b>Households</b>	<b>770</b>	<b>841</b>	<b>912</b>
<b>Total <sup>1)</sup></b>	<b>7,232</b>	<b>7,048</b>	<b>7,988</b>

<sup>1)</sup> Total does not include real estate.

An 8.4 percent increase in non-performing loans within the households sector occurred this period. The housing sub-sector continued to dominate this sector with a 77 percent share of the non-performing loans.

Non-performing loans within the services sector moved up by 6.6 percent this period. The distribution sub-sector accounted for 58 percent (\$2,298 million) of this sector's total non-performing loans and the other services sub-sector accounted for 32 percent.

The agriculture sector recorded a 7 percent decline from the December 2006 amount. Paddy continued to be the major sub-sector within this sector, accounting for 47 percent of the sector's non-performing loans.

The ratio of provision for loan losses to non-performing loans was 43 percent, compared with 41 percent at end-December 2006. The LDFIs' provision for loan losses increased by 20 percent,

while the non-performing loans moved up by 13 percent when compared with the previous period.

### **Loan Concentration**

Loans to the top 20 borrowers stood at G\$29,472 million as at end-June 2007 and represented 45.6 percent of total loans compared with 38.1 percent at end-June 2006. In the last twelve months loans to the top 20 borrowers grew by 33 percent, while total loans rose by 11.2 percent above June 2006 level. The growth in total loans resulted mainly from a 30 percent rise in one institution's loan portfolio.

For this review period, loans to related parties reflected a 13.7 percent growth above June 2006, which had recorded an 11.7 percent decline from the previous period. The ratio of loans to related parties to total loans moved to 5.9 percent from a previously held 5.8 percent as at end-June 2006.

## **EARNINGS**

### **Income**

Operating/gross income for the first half of 2007 amounted to G\$8,826 million, 20.3 percent or G\$1,490 million above the G\$7,336 million reported for the corresponding period last year. Eighty-two percent of the improvement in gross earnings was attributed to growth in interest income of the LDFIs (see Table XXVIII). Interest income for the first half of 2007 when compared with the corresponding period for 2006, grew by 22 percent on account of higher income on loans and advances and Government of Guyana treasury bills. Foreign exchange gains and other operating income reflected increases of 17 percent or G\$179 million and 13.2 percent or \$93 million, respectively.

### **Expenses**

The aggregate operating expenses of the LDFIs for the first half of 2007 amounted to G\$5,710 million compared with G\$5,074 million for the corresponding period last year. This increase resulted from higher interest expenses, salaries and

other staff cost and other operating expenses (see Table XXVIII).

**Table XXVIII**

<b>Consolidated Income Statement of LDFIs</b>		
<b>G\$ Million</b>		
	<b>January – June</b>	
	<b>2006</b>	<b>2007</b>
<b>Operating Income</b>	<b>7,336</b>	<b>8,826</b>

Other operating income	706	799
<b>Non-operating income</b>	<b>0</b>	<b>0</b>
<b>Operating Expenses</b>	<b>5,074</b>	<b>5,710</b>
Interest Expenses	2,008	2,290
Salaries and other staff cost	1,200	1,418
Provision for loan losses	561	287
Bad debts written off	(121)	(220)
Foreign exchange losses	0	0
Other operating expenses	1,426	1,935
<b>Non-Operating Expenses</b>	<b>0</b>	<b>0</b>
<b>Net income before tax</b>	<b>2,262</b>	<b>3,116</b>
<b>Taxation</b>	<b>706</b>	<b>955</b>
<b>Net income/loss after tax</b>	<b>1,556</b>	<b>2,161</b>
<b>Profitability Ratios - Percent (%)</b>		
Return on Assets (ROA)	1.3	1.1
Return on Equity (ROE)	12.7	13.0

### Net profit before tax and profitability ratios

The net income before tax of the LDFIs during the first six months of 2007 was 37.8 percent higher than the corresponding period last year, as a result of increased gross income this quarter. The average return on assets (ROA) and average return on equity (ROE) were 1.1 percent and 13 percent, respectively for the first half of 2007, compared with 1.3 percent and 12.7 percent, respectively for the same period in 2006.

## LIQUIDITY

During the first half of 2007, the average level of liquid assets held by LDFIs amounted to G\$55,173 million, 8.4 percent or G\$4,265 million above the average level recorded for the same period in 2006. This growth resulted from increases in foreign asset holdings, reserve deposits, and investments in Government of Guyana treasury bills.

The average liquid asset ratio (LAR) fell from 29.9 percent at end-June 2006 to 27.7 percent at end June 2007. The ratio of customer deposits to total (non-inter bank) loans, which indicates the ability of the LDFIs to support loan growth with deposits, declined by 5 percentage points to 268 percent at end-June 2007.

**Table XXIX**

<b>Licensed Depository Financial Institutions (LDFIs)</b>			
<b>Liquidity Indicators</b>			
<b>G\$ Million</b>			
	<b>January – June</b>		
	<b>2005</b>	<b>2006</b>	<b>2007</b>
Avg. Actual Liq. Assets	47,603	50,908	55,173
Avg. Required Liq. Assets	28,175	31,437	36,278
Avg. Excess Liq. Assets	19,428	19,471	18,895
<b>Liquidity Ratios - Percent (%)</b>			
Liq. Asset Ratio (LAR)	31.6	29.9	27.7
Customer deposits to total (non-interbank) loans	295.8	273.0	268.0

Endnote: This section examines the stability and soundness of the financial system. In particular, it analyses the performance of the following Licensed Depository Financial Institutions (LDFIs) for the first half of 2007: Republic Bank (Guyana) Limited (RBGL); Guyana Bank for Trade & Industry Limited (GBTI); Demerara Bank Limited (DBL); Citizens Bank (Guyana) Incorporated (CBI); Bank of Baroda (Guyana) Incorporated (BoB); Bank of Nova Scotia (BNS) and Hand in Hand Trust Corporation Incorporated (HIHT). □

# II

## INTERNATIONAL ECONOMIC AND MONETARY DEVELOPMENTS

---

### The World Economy

The global economy continued to experience strong growth during the review period with most of the major economies expanding on account of high investment and stronger export growth. The US economy which was beset by weakening net exports, drawdown in inventory and housing market corrections in the first quarter rebounded during the second quarter. Emerging as well as developing countries, including those in the Caribbean, continued to benefit from the global expansion. Financial markets were generally stable, however, central banks have tightened monetary policy to address the shifts in inflation. Crude oil prices remain an upside risk in light of supply conditions, rising demand and the geopolitical climate.

### Industrial Countries

#### Output

Most of the major economies recorded strong growth performances during the review period. Higher private sector spending and stronger export growth contributed to the growth momentum. Unfavorable trade balances were mainly responsible for the contraction in the other economies.

In the USA, real GDP grew by 3.4 percent during the second quarter after a slow pace of 0.6 percent in the first quarter. The growth reflected a rise in spending by businesses and government. Businesses boost their spending on new plants, buildings and other commercial contribution. In Canada, real output increased to 2.4 percent due to growth in consumer and business spending as well as exports.

The Euro area witnessed expanded economic activity with real GDP growth of 2.7 percent compared with 2 percent at the end of 2006. The growth was driven mainly by strong domestic demand and net exports. Growth in Britain increased to 2.7 percent from 1.7 percent in 2006 due to strong business investments and rising exports.

In Japan, economic activity continued to recover with real GDP growing by 1.6 percent at the end of the second quarter compared with 0.8 percent for the corresponding period in 2006. The expansion was supported by strong exports and steady business investment.

#### Inflation

Inflation was somewhat elevated in many of these economies, reflecting mainly high commodity prices, tight labour market conditions and rising wages. In the USA, inflation was at 2.6 percent while in Canada, inflation was 1.6 percent. The annual inflation rate in Britain was subdued to 2.5 percent from 3.1 percent in December 2006, while the Euro area recorded lower inflation at 1.9 percent. The decrease was largely driven by an appreciation of the pound sterling and the Euro. In Japan the inflation rate declined from 0.3 percent in 2006 to 0.1 percent.

#### Employment

The labour market trends remained favourable during the review period, reflecting continued strong growth in most of these economies. In the United States and Canada, the unemployment rates hovered around 4.5 percent and 6.1 percent, respectively. The unemployment rate in Britain was unchanged at 5.5

---

percent, while the Euro Area rate fell to 7 percent from 7.5 percent at end-December 2006. Germany and France's labour markets favourable outturn were the main contributors with high growth. In Japan, unemployment rate fell to 3.8 percent from 4.1 percent, reflecting the recovery of the economy.

### **Monetary and Exchange Rates**

Many of the industrialized countries continued to maintain tight monetary policy in the first half of 2007 to address high inflation concerns. Higher interest rates were recorded in the USA, Canada, the UK and the Euro area.

The targeted Federal Fund rate in the USA remained unchanged at 5.25 percent, while the three months Euro LIBOR and the United Kingdom three month rates moved to 4.18 percent and 5.98 percent, respectively.

The United States dollar weakened against both the pound sterling and the Euro, as traders and investors alike rebalanced their risks and portfolios in the context of the trade deficit of the United States, and relative interest rates adjustments across these economies. The Japanese yen, however, fell modestly against the United States dollar, trading at US\$1:¥123, compared with US\$1:¥119 at the end of 2006. This was due to relatively lower interest rates in Japan. The Canadian dollar was traded at \$1.06 per United States dollar from \$1.16 at the end of 2006, on account of high oil prices.

### **Emerging Economies**

#### **Output**

Economic activity continued to be strong in many of these economies, particularly in the Asian region, mainly bolstered by a favorable export performance and higher domestic demand. In China, the growth rate was 11.9 percent compared with 10.4 percent at the end of 2006. The expansion was driven mainly by favorable domestic demand, high fixed investment

and acceleration in exports. Growth in India continued with an annualized rate of 8 percent due to higher household and business spending. In Russia, booming investment caused GDP to grow at an annual rate of 7.9 percent at end-March 2007.

#### **Inflation**

Inflationary pressures were contained in most of these economies during the review period. CPI inflation in China was 4.4 percent from 1.9 percent at the end of 2006 as the country continued its pricing reform on energy products and water. In India, the rate of inflation remained high at 5.3 percent due to higher oil prices as well as those for key food products on account of poor crop. The growth in consumer prices in Russia was 5.7 percent from 6.2 percent in 2006 as higher food prices continue to spur inflation in 2007.

#### **Employment**

There was an overall decline in the rate of unemployment in these economies. However, rates are still considered to be relatively high. The rate of unemployment in China and India remained at 4.1 percent and 7.3 percent, respectively. In Russia, the unemployment rate was narrowed to 7.2 percent.

### **Caribbean Economies**

#### **Output**

The Caribbean states continue to experience strong performance on account of a buoyant global economy, the Cricket World Cup 2007 in March and April as well as higher commodity prices. Positive growth was experienced in Barbados, Trinidad & Tobago, Jamaica and the Eastern Caribbean Currency Union.

The Barbadian economy registered growth in all sectors, especially transportation, communication, construction and utilities. In Trinidad & Tobago, the main drivers of economic activities continued to be the energy, construction and services sectors. In

---

Jamaica, robust economic growth was led mainly by construction, mining and the services sectors. A slowdown in tourism, however, affected output growth. In the Eastern Caribbean Currency Union, sustained growth was due to construction and tourism related activities.

### **Inflation**

There was a downward trend in inflation across the region. Point to point inflation rate in Barbados declined, while inflation in Trinidad & Tobago was 7.3 percent as a result of a decline in food prices. Jamaica realized a sharp decline to 5.6 percent from the 8.4 percent recorded in 2006, which was also due to lower food prices. In the Eastern Caribbean Currency Union, higher food and oil prices continue to impact inflation, which remains in the low single digit.

### **Employment**

The sustained levels of stronger economic activity translated into generally improved labour market conditions in the Caribbean states. In Barbados, the unemployment rate remained at its lowest level of 8.7 percent. The unemployment rate in Trinidad & Tobago was even lower at around 6 percent, reflecting a tight labour market.

### **Exchange Rates**

In the Caribbean, the exchange rate for Barbados, Belize and the Eastern Caribbean Currency Union remained fixed, while the performance for the floating currencies was mixed. The Trinidad & Tobago dollar appreciated by 0.1 percent, reflecting the overall performance in its external accounts. The

Jamaican dollar also appreciated by 2.3 percent at end-June 2007 on account of higher inflows.

### **Commodity Markets**

Commodity prices remained high during the first half of 2007. The price of crude oil averaged US\$67 per barrel in June 2007 from US\$54 per barrel in January 2007. Sentiments of shortages from security concerns as well as high rates of growth globally, were among the main factors that contributed to the higher oil prices.

Non-oil commodity prices also increased during the review period. The price of gold increased from US\$565.6 per ounce at end 2006 to US\$644.5 at end-June 2007. The price of sugar also increased, reflecting lower production on account of a decline in European Union sugar production and favourable US dollar exchange rate from an appreciation of the Euro. The average price of sugar was US\$615.8 per metric tonne, compared with US\$574.2 per metric tonne at end 2006. However, the average price of rice on the world market was 1 percent lower at US\$264.3 per metric tonne at end-June 2007.

### **Outlook for the World Economy**

Overall, the global economy remains favourable in churning out another strong performance with contribution from most of the major economies. The US economy is expected to register growth of 2.2 percent from the projected 2.4 percent. The main downside to this expansion is the threat of further inflationary pressures, global imbalances, higher prices for crude oil on world markets and a spread of the problems in the US mortgage market. □

# III

## MONETARY POLICY AND BANK ACTIVITIES

---

The primary objectives of monetary policy during the first half of 2007 were the attainment of price stability while creating the enabling environment for credit and economic growth. Progress has been recorded on conduct of monetary policy. However, persisting increase of oil and food prices on the world market and seasonal factors compromised the efficacy of monetary policy. The Bank continues to facilitate efficient intermediation through the issuance of notes and coins as well as promotion of enhanced payment system operation.

### MONETARY POLICY

Monetary policy recommendations were determined within the framework of monetary programming. The Bank's principal instrument of monetary control continued to be the auction of treasury bills in the primary market. The monetary policy stance was signaled through the volume of treasury bills issued with implications for the general level of interest rates.

### MONETARY PROGRAMMING

In principle, monetary programming allowed the Bank to set a targeted path for the growth of broad money consistent with output, growth and inflation. Its foundation rested on the observation that the Bank controls the supply of reserve or base money in the financial system. The underlying assumption for the effective operation of the reserve money programme was the long term stable money multiplier defined as the relationship between reserve money and the total money supply. On the basis of the constancy of the money multiplier, the Bank is able to attain the targeted expansion in the money stock by managing the growth in reserve money.

Reserve money which is comprised of currency in circulation and commercial banks' reserves is influenced mainly by the operations of the Bank. Changes in the Bank's net foreign assets and net domestic assets (which is largely affected by the operations of the Central Government) impact on the level of reserve money. The Bank's intervention in the foreign exchange market will affect the liquidity conditions when it buys or sells foreign exchange in

the system. Since the counter parties to the Bank's foreign currency transactions are the commercial banks, the transactions affect the net foreign assets and the net domestic assets of the commercial banks, while the net foreign assets and hence reserve money of the Bank are affected.

A sale of foreign currency by the Bank will increase the net foreign assets and reduces the net domestic assets of the commercial banks and vice versa. On the Bank's balance sheet a sale of foreign currency will reduce its net foreign assets as well as its liabilities to commercial banks and hence reserve money. On the other hand, a purchase of foreign currency by the Bank will increase its net foreign assets and also reserve money.

The operations of Government add or withdraw liquidity from the system. An increase in net credit to the government, which will increase the net domestic assets of the Bank, results in an increase in reserve money. This usually occurs through a relative increase in expenditure compared to the increase in revenue. The net deposits of the Central Government are therefore affected.

During the review period, weekly forecasts of the Bank's balances sheet were produced based on estimated liquid reserve positions of the commercial banks and the public, collectively referred to as reserve money. These forecasts were compared with the weekly targeted monetary growth which was consistent with the set nominal output objective. The deviations established by this comparison indicated

---

the baseline scenario level of the open market operation necessary to bring the forecast money supply in line with its targeted annual growth rate. The actual weekly intervention was determined by the Open Market Operation Committee (OMOC) on the basis of prevailing developments and the base scenario.

During the review period reserve money was G\$52,069 million, G\$2,083 million above the target. The actual increase in reserve money was due to higher net domestic assets of the Bank of Guyana which increased mainly on account of lower Central Government deposits. The net foreign assets of the Bank which also impacts reserve money increased marginally.

The auction of treasury bills with various maturities (91-day, 182-day and 364-day) at the primary market level continued to be the Bank's principal instrument of monetary control. The OMOC adopted a consultative approach during the review period by liaising closely with agencies which impacted directly on liquidity in the financial sector. Additionally, other information such as the state of the foreign exchange market, the interbank market, the structure of interest rates and the liquidity position of the non-bank financial institutions facilitated more informed decisions by the OMOC.

During the review period, there was a net redemption of treasury bills of G\$5,295 million. Total redemption were G\$43,569 million, while total tender was G\$39,258 million. However, due to relatively tighter liquidity condition in the form of lower free reserves, the total issuance was G\$38,274 million. Lower free reserve is explained by 8.3 percent or G\$5,137 million increase in private sector credit and a 50.3 percent or G\$9,846 million growth in net foreign assets during the review period. The commercial banks had a net redemption of G\$3,117 million for the first half of 2007.

Tight liquidity condition is also reflected in the interbank market. There were 204 trades during the

first half of 2007 representing a 100 percent increase over the same period in 2006. The value of funds traded in the current period G\$51,000 million, which is up by 96 percent over the corresponding period in 2006.

Notwithstanding the tighter liquidity conditions, interest rates did not increase. Treasury bill rates trended downwards reflecting the need to hold liquid assets. Commercial banks savings and prime lending rates remained stable, indicating the ease in mobilizing deposits and the relatively high rate of return on credit portfolio, respectively.

Over the review period, monetary policy provided an enabling environment to maintain macroeconomic stability in the economy. However, this was compromised by persistent increase in prices. The rate of inflation for the first half of 2007 was 12.2 percent compared with 2.24 percent for the first half of 2006. In January 2007 the inflation rate was 6.6 percent partially reflecting VAT induced price increases. For the remaining months up to June 2007, the rates were lower than the January 2007 figure reflecting seasonal and external factors, which included shortages of agricultural produce, increase in cost of imported food products and higher oil prices.

## **OUTLOOK FOR THE SECOND HALF OF 2007**

In light of the persistent price increases during the first half of the year, the Bank has revised its inflation target to 8 percent for 2007. To achieve this, the Bank will intensify its Open Market Operations (OMOs) to restrict the growth of money to mitigate second round price increases. This may result in an increase in interest rates. Further, a tighter fiscal stance by the government in the form of lower current expenditure will be needed to support the Bank's efforts to keep inflation low.

## BANK ACTIVITIES

### Currency Operations

The Bank has a statutory obligation to issue the country's notes and coins under section 21(1) of the Bank of Guyana Act 1998, No. 19 of 1998. The Bank continued to discharge this obligation in the face of increased demand and rising acquisition costs.

### Notes

The total value of currency notes in circulation (including notes held in the vaults of commercial banks) at the end of June 2007 amounted to G\$25,205 million, an increase of 19.7 percent when compared to G\$21,053 at the end of June 2006. The share of G\$1,000 in the total value of notes in circulation increased to 91.7 percent from 91.2 percent while the share of G\$500 and G\$100 fell to 3.9 percent from 4.1 percent and to 3.1 percent from 3.4 percent respectively. The share of G\$20 remained unchanged at 1.3 percent.

The total supply of currency registered an increase of

5.27 percent over June 2006. The increase was due to 2006 orders arriving in early 2007.

The Policy of ensuring only acceptable quality notes are in circulation continued during the review period. This was achieved by regular withdrawals of mutilated, defaced or otherwise poor quality notes and replacing them with new notes. Mutilated, defaced and poor quality notes amounting to G\$128,311,480 were replaced in the first half of 2007 compared with G\$95,351,420 in the first half of 2006 and G\$125,651,220 in the first half of 2005.

### Coins

Coins issued by the Bank of Guyana amounted to G\$508 million at the end of June 2007, an increase of 11.9 percent above the G\$454 million in June, 2006. The \$10 coin continued to account for the highest proportion of the total value of coins, followed by the G\$5 and G\$1 coins, respectively. In value terms the share of G\$10 coins accounted for 43.3 percent, the G\$5 accounted for 37.9 percent and the G\$1 for 18.8 percent.

In terms of the total quantity of coins issued, the G\$1 accounted for 61.2 percent, the G\$5 accounted for 24.6 percent and the G\$10 for 14.1 percent.

### Payments System

During the period January - June 2007, 494,019 low value transactions (LVT) were settled through the National Clearings House (NCH), a decrease of 3 percent when compared with the volume recorded for the same period in 2006. The Volume of high value transactions (HVT) increased by 14.2 percent. Continuing the over all trend for the past five years total transactions rose to 15.3 percent in 2007 to reach G\$323 billion. Increases were recorded in the value of both high-value and low value transactions which amounted to G\$226.2 billion and G\$96.8 million respectively. The shares of HVT was 70 percent in total value of transactions; this percentage remained unchanged when compared to the previous period in 2006. As a result, the share of LVT rose marginally to 30 percent in 2007 from 29 percent in

the previous period. The average value of HVT rose by 1 percent in 2007 to G\$5.01 million, while the average value of LVT rose by 19 percent to reach G\$0.19 million.

## I. GENERAL NOTES

### Symbols Used

- ... Indicates that data are not available;
- Indicates that the figure is zero or less than half the final digit shown or that the item does not exist;
- Used between two period (eg 1989-90 or July-September) to indicate the years or months covered including the beginning and the ending year or month as the case may be;
- / Used between years (eg 1989/90) to indicate a crop year or fiscal year.
- † Means incomplete data due probably to under-reporting or partial response by respondents.
- \* Means preliminary figures.
- \*\* Means revised figures.

In some cases, the individual items do not always sum up to the totals due to rounding.

### Acknowledgement

The Bank of Guyana wishes to express its appreciation for the assistance received from the Ministry of Finance, State Planning Secretariat, Commercial Banks, Bureau of Statistics, some Public Corporations and other Private Sector agencies in the compilation of the data.

## II. NOTES TO THE TABLES

### TABLE 1.1: Bank of Guyana: Assets

#### Foreign Assets

**Balances with Foreign Banks:** Deposits of the Central Bank with Foreign Banks. The data also include holdings of foreign notes and gold. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

**Gold Tranche with the I.M.F.:** One quarter of Guyana's subscription to the International Monetary Fund (I.M.F.) quota, which is made in gold and/or convertible currencies.

**Holdings of Special Drawing Rights:** Unused portion of the Special Drawing Rights (S.D.R.s) allocated by the I.M.F.

**Money Market Securities:** Holdings of short-and long-term debt instruments of foreign governments and the International Bank for Reconstruction and Development (I.B.R.D.) recorded at cost. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

**Claims on the Central Government:** Holdings of the Government of Guyana Treasury Bills, Debentures valued at cost and Advances from the Bank of Guyana. The Bank of Guyana Act No. 19 of 1998 section 46 has since removed the possibility of advances to Government since it restricted the Central Bank from extending credit directly or indirectly to the Government from that date.

**Advances to Commercial Banks:** Short term credit to Commercial Banks.

**Other Assets:** Include fixed assets such as land and buildings, furniture and equipment. Cheques in the process of collection, notes and coins issued by the British Caribbean Currency Board, non-interest-bearing debentures, and other miscellaneous assets are also included.

### TABLE 1.2: Bank of Guyana: Liabilities

**Currency Issue:** Notes and Coins issued by the Bank.

Value of notes issued for October 1999 and August 2000 does not correspond with figures in table 1.3 due to an accounting discrepancy.

**Government Deposits:** Current account deposits of the Central Government which includes sterilised amount from open market type operation with effect from 1994.

**Deposits of International Organisations:** Obligations to the I.M.F.; local currency component of the subscription to the I.M.F. quota; deposits of the I.B.R.D, the Caribbean Development Bank (C.D.B.) and foreign central banks. Other foreign liabilities of the Bank of Guyana are also included.

**Bank Deposits-EPDs:** Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers pending foreign exchange releases to meet foreign obligations which fell

into arrears prior to 1990. This scheme was discontinued for foreign obligations after 1990.

**Bank Deposits-Other:** Commercial Banks' interest earning deposits and statutory reserve deposits with Bank of Guyana are recorded here. With effect from December 1994, special interest earning deposits of the Commercial Banks were discontinued in favour of unremunerated required free reserves. The removal of remuneration for these deposits coincided with the issue of three-year debentures to sterilise the prevailing excess liquidity levels of banks.

**Other Deposits:** Includes deposits of National Insurance Scheme (N.I.S.), Livestock Development Fund, Guyana Pension Scheme, Mayor and City Council, Sinking Funds, Guyana Co-operative Agricultural and Industrial Development Bank, Export Development Fund No. 1, Guyana/Libya Agricultural Development Company Limited, and Guyana/Libyan Fishing Company among others.

**Authorised Share Capital:** The enactment of the Bank of Guyana Act No. 19 of 1998 provided for the increase in the capital for the Bank as part of the reform process.

**Other Reserves:** These reserves include General, Revaluation and Contingency Reserves.

**Allocation of S.D.R.'s:** Liability accruing from the SDRs allocated to Guyana, which are valued at the equivalent of Guyana dollar amount converted through the S.D.R./U.S. dollar cross rate.

**Other Liabilities:** Include provision for accrued expenses, items in transit; private investment fund; and miscellaneous items. The decline in Other Liabilities from November 30, 2002 to December 31, 2002 reflect the charging of valuation changes to Other and Government Deposits.

**TABLE 1.3: Bank of Guyana: Currency Notes Issue**

Total issue of less withdrawal of mutilated or spoiled legal tender notes. In December 1996, the Bank of Guyana introduced a G\$1,000 as part of its currency reform process. This was followed by the removal from the legal tender of the G\$10, G\$5, and G\$1 notes with effect from January 1997 and their conversion to coins the new legal tender until June 30, 1997.

**TABLE 1.4: Bank of Guyana: Coins Issue**

Total issue of less withdrawals of defaced legal tender coins. The Bank of Guyana as part of its currency reform programme introduced with effect from January 1, 1997, G\$10, G\$5, G\$1 coins as legal tender and removed from the specie the use of cents.

**TABLE 2.1(a): Commercial Banks: Assets**

**Balances due from Banks abroad:** Deposits of Commercial Banks with Non-Resident foreign banks included head offices and branches.

**Loans to Non-Residents:** Commercial Bank lending to Non-Resident customers. Due to re-classification at a Commercial Bank, figures for Private Sector and Non-Resident loans have been revised from December 2000 to May 2002. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for loans to Non – Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

**Other Foreign Assets:** Include foreign currency holdings and all other claims on Non-Residents by Commercial Banks. Due to reclassification at a Commercial Bank figures for Public Sector Other and Foreign Sector Other were revised from September 2002 to February 2003.

**Securities:** The total volume of Central Government Treasury Bills recorded at cost and debentures held by commercial banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for Securities include accrued interest from Dec. 2002.

**Loans:** Central Government borrowing from the Commercial Banks. See note above under loans to Non-Residents.

**Public Enterprises:** Loans and Advances extended by Commercial Banks to Public Financial Business Enterprises. Public Non-Financial Enterprises are defined as enterprises in which Government owns above 50 per cent of the share capital. See note above under loans to Non – Residents.

**Other:** Commercial Banks' claims on Local Government and the National Insurance Scheme. See note above under loans to Non-Residents

**Non-Bank Financial Institutions:** Loans issued to Public and Private Non-Bank Financial Institutions by Commercial Banks'. See note above under loans to Non-Residents

**Private Sector:** Lending through loans and advances to Private Non-Financial Business Enterprises and Individual Customers. See note above under loans to Non-Residents.

The decline in Private Sector Loans and Advances resulted partly from a reclassification of some loans at one Commercial Bank. See note above under loans to Non-Residents.

The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National bank of Industry and Commerce Limited on March 15' 2003 resulted in the decline in Private Sector Loans and Advances during March 2003.

**Deposits with Bank of Guyana:** Include statutory reserve deposits and interest earning deposits of the Commercial Banks. Effective December 28, 1994, interest-earning deposits discontinued.

**External Payment Deposits (E.P.D):** Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers, pending foreign exchange releases to meet external obligations.

**Currency:** Commercial Banks' holdings of local notes and coins.

**Other Assets:** Include balances due from other Commercial Banks, Real Estate Mortgage Loans, fixed assets such as land and building, furniture, equipment and other miscellaneous assets.

**TABLE 2.1(b): Commercial Banks: Liabilities, Capital and Reserves**

**Balances due to Other Banks abroad:** Foreign claims made on local Commercial Banks by Head Offices and other banks abroad.

**Non-Resident Deposits:** Total deposits made by Non-Resident customers with Commercial Banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for deposits to Non-Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

**Other:** Include all other foreign claims on Commercial Banks.

**Central Government Deposits:** Total demand, time and savings deposits made by the Central Government with Commercial Banks. See note above under deposits to Non-Residents.

**Public Enterprise Deposits:** Total demand, time and savings deposits made by Public Non-Financial Enterprises with the Commercial Banks. Due to the sale of Aroaima Bauxite Company to the government and a reclassification of its accounts from the Private to Public Sector, figures from January 2002 to April 2002 have been revised. See note above under deposits to Non-Residents.

**Other Public Deposits:** Include total deposits of Local Government and National Insurance Scheme. See note above under deposits to non-residents. See note on Table 2.4 Commercial

Banks: Time Deposits.

**Non-Bank Financial Institutions Deposits:** Consist of total deposits made by Public and Private Financial Institutions. See note above under deposits to Non-Residents. See note on Table 2.4: Commercial Banks: Time Deposits.

**Private Sector Deposits:** Include total demand, time and savings deposits of Private non-financial Business Enterprises and individual customers. See note above under Public Enterprises Deposits. See note above under deposits to non-residents.

**External Payment Deposits:** Comprise customers' deposits (public and private sector) with commercial banks on account of External Liabilities prior to 1990 and awaiting foreign exchange releases from the BOG.

**Bank of Guyana:** Commercial Bank short-term borrowing from the Bank of Guyana.

**Other Liabilities:** Other liabilities of the Commercial Banks include manager's cheques, acceptances, provision for taxes and other miscellaneous liabilities.

**Capital and Reserve:** The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National Bank of Industry and Commerce Limited on March 15, 2003 resulted in the decline in the capital and reserve of the banking systems during March 2003.

**TABLE 2.2: Commercial Banks: Total Deposits**

Total demand, savings and time deposits of Residents and Non-Residents excluding inter-bank deposits are presented. Foreign currencies denominated deposits are also included here. See note under Public Enterprises Deposits for Tables 2.1 (b) above. See note under Non – Resident Deposits for Table 2.1(b) above.

**TABLE 2.3: Commercial Banks: Demand Deposits**

Current account deposits of Residents and Non-Residents; inter-bank deposits are excluded. See note under Public Enterprises Deposits for Tables 2.1 (b) above.

**TABLE 2.4: Commercial Banks: Time Deposits**

Fixed deposits of Residents and Non-Residents with a minimum withdrawal notice of three months; exclude inter-bank deposits. See note under Non-Resident deposits for Table 2.1(b) above. Due to a reclassification of N.I.S and Non-Bank Financial Institutions' time deposits, figures from December 2003 to April 2005 were revised.

**TABLE 2.5: Commercial Banks: Savings Deposits**

Deposits with minimum withdrawal notice of one day; exclude inter-bank deposits. See note under Public Enterprises Deposits for Tables 2.1 (b) above. See note non-resident deposits for Table 2.1(b) above.

**TABLE 2.6: Commercial Banks: Time Deposits by Maturity**

Includes deposits of both Residents and Non-Residents. See note under Commercial Banks: Time Deposits for table 2.4 above.

**TABLE 2.7: Commercial Banks: Savings Deposits**

Includes deposits by both Residents and Non-Residents. Ending balance on savings accounts for November 2002 do not equate to the opening balance for December 2002 due to the addition of accrued interest to the December 2002 opening balance. The ending balance for February 2003 saving accounts differs from the opening balance for March 2003 due to the reclassification from

demand and time accounts to saving accounts.

**TABLE 2.9: Commercial Banks: Clearing Balances**

Comprise total amount of cheques cleared by and debited to the accounts of the Commercial Banks. A National Clearing House was established at the Bank of Guyana during 1998 whereby large (in excess of G\$500,000) and small valued cheques are cleared. Data recorded after 1998 in this table reflect the value of small valued cheques cleared over the reporting period.

**TABLE 2.10: Commercial Banks: Total Loans and Advances**

The data include Loans and Advances to Residents and Non-Residents. Real Estate Mortgage Loans and inter-bank loans are excluded. The total of loans and advances to the private sector differs from total credit to the private sector in Table 3.1 (Monetary Survey). The totals for credit to the private sector in Table 3.1 include local securities, other credit instruments and real estate mortgage loans. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above

**TABLE 2.11: Commercial Banks: Demand Loans and Advances**

The data cover lending for short periods including overnight loans to Residents and Non-Residents and exclude inter-bank loans. See note under Private Sector For Table 2.1(a) above.

**TABLE 2.12: Commercial Banks: Term Loans and Advances**

The Loans and Advances are for longer periods extended to Residents and Non-Residents; inter-bank lending is excluded. See note under Private Sector for Table 2.1(a) above. See note under loans to Non-Residents for Table 2.1(a) above.

**TABLE 2.13: Commercial Banks: Loans and Advances to Residents by Sector**

The data provided record balances at the end of the respective period and therefore indicates the indebtedness of the respective industries at the end of the reporting period. The value of credit obtained by each industry for a given period can be obtained by taking the difference between the balances at the end of the desired period and that immediately preceding. The balances in this table exclude inter-bank loans, real estate mortgage loans, local securities and other credit instruments. It should be noted that gross indebtedness of the sugar and rice industry can be obtained by adding the balances of sugar cane and sugar and molasses manufacturing of sugar, and paddy and rice milling for rice respectively. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

**TABLE 2.14: Commercial Banks: Liquid Assets**

The liquid assets comprise Bank of Guyana notes and coins, foreign currency held by banks, (special interest earning) deposits held at the Bank of Guyana (BOG), balances due from other Commercial Banks - both local and foreign, Government of Guyana Treasury Bills. The special reserves deposits (SRDs) established in 1969, discontinued in 1994 as the Bank of Guyana sought to develop its capacity to manage the excess reserves of the bank more effectively. Approximately, 75-80 per cent of the SRDs were absorbed through a sale of three year, variable rate, fixed date debenture to the Commercial Banks.

Prior to March 1989, the legally required level of liquid assets to be held by the Commercial Banks against their deposit liabilities was calculated as the sum of 20 percent of demand liabilities and 15 percent of time liabilities. During the period March 31, 1989 to May 15, 1991 the determination of the required liquid assets held by the banks was based on actual holdings on specified dates. Accordingly, from March 31, 1989 to June 30, 1990 required liquid assets were stipulated as the actual holdings on March 15, 1989. Between July 30, 1990 and February 19, 1991 the required liquid assets was based on the assets held by the banks on September 30, 1989. Further, between February

20, 1991 and May 14, 1991 the required balances were set as at the end of July 30, 1990.

With effect from May 15, 1991, however, the basis for calculating required liquid assets was changed to 25 percent of demand liabilities and 20 percent of time liabilities. Further, amendments to the liquid asset requirements became effective on 26<sup>th</sup>, October 1998. The liquid assets base period has been redefined as the Monday to Friday workweek immediately preceding the liquid asset maintenance period. The liquid asset requirement is determined by applying the prescribed percentages to the weekly average of the daily liabilities balances at the close of business of each of the five days of the liquid asset base period. Figures for Treasury Bills were reclassified from December 2000 to December 2002.

**TABLE 2.15: Commercial Banks: Minimum Reserve Requirements**

Prior to May 16, 1991, the minimum required reserves of the Commercial Banks were calculated as 6 percent of demand liabilities and 4 percent of time liabilities. Their percentages were changed with effect from May 16, 1991, to 11 percent of demand liabilities and 9 percent of time liabilities. Commencing April 7, 1994, the minimum required reserves of the Commercial Banks were again revised to the sum of 16 percent of demand liabilities and 14 percent of time liabilities.

On June 29, 1998, in addition to Commercial Banks, other licensed Financial Institutions were required to maintain balances with the Central Bank against their deposits and other liabilities. Further, the required reserve period has been changed on Monday to Friday workweek instead of the Wednesday to Thursday week used previously. The required reserve period has been referred to as the reserve base period. The week following the current reserve base period, i.e. the reserve maintenance period is also based on the Monday to Friday workweek. The deposits and other liabilities to which the required reserve ratio(s) are applied are referred to as the reserve base. During the reserve maintenance period, all licensed Financial Institutions subject to reserve requirement are required to maintain reserves against the relevant deposit and other liabilities.

Effective February 1, 1999, the required reserve ratio applicable to all liabilities of licensed Financial Institutions was lowered to twelve per cent (12 %). The first reserve base period for which the revised requirements became relevant was the 1<sup>st</sup> to 5<sup>th</sup> February 1999 while the reserve maintenance period was the 8<sup>th</sup> to 12<sup>th</sup> February 1999. However, reserve balances for the Non-Bank licensed Financial Institutions are excluded from table 2.15.

**TABLE 3.1: Monetary Survey**

A consolidation of the balance sheets of the Bank of Guyana and Commercial Banks.

**Foreign Assets (net)**

**Bank of Guyana:** Gross foreign assets **less** gross foreign liabilities.

**Commercial Banks:** Gross foreign assets **less** gross foreign liabilities. See note under Loans to Non-Residents for Table 2.1 (a) above.

**Domestic Credit**

**Government (net):** Gross lending to Central Government by the banking system (a sum of Holdings of debentures, bonds, Treasury Bills and loans and advances **less** total deposits of the Central Government).

**Public Enterprise (net):** Gross borrowing by Non-Financial Public Enterprises from the banking system **less** their deposits. See notes under Public Enterprises Deposits for Table 2.1 (b) and Commercial Banks: Time Deposits for Table 2.4 above.

**Other Public Sector (net):** Gross borrowing from the banking system by local authorities and municipalities **less** their total deposits and other Public Sector funds. See note under loans to Non-

Residents for Table 2.1(b) above.

**Non-Bank Financial Institution (net):** Gross borrowing from the banking system by the non-bank financial intermediaries with the banking system **less** their deposits. See notes under loans to Non-Residents for Table 2.1(b) and Commercial Banks: Time Deposits for Table 2.4 above.

**Private Sector:** Gross borrowing from the banking system. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

### **Money and Quasi-Money**

**Money:** Currency outside banks **plus** private sector demand deposits, managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above

**Currency:** Currency issue (Table 1.2) **less** currency holdings by Commercial Banks (Table 2.1(a)).

**Quasi-money:** Time and savings deposits held by the Private Sector. See note under Public Enterprises Deposits for Table 2.1 (b) above.

**Demand deposits:** Balances of the Private Sector including managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above.

**Savings and Time deposits:** Balances held by Private Sector. See note under Loans to Non-Residents for Table 2.1 (a) above.

**Other (net):** Includes the net sum of all assets and liabilities of the Bank of Guyana and the Commercial Banks not shown elsewhere.

## **TABLE 3.2: International Reserves and Foreign Assets**

### **International Reserves**

**Bank of Guyana Foreign Assets:** Data include gold holdings, balances with foreign banks, foreign notes, foreign cash in the process of collection, gold tranche with I.M.F., S.D.R. holdings and money securities.

**Bank of Guyana Foreign Liabilities:** Data include total short-term liabilities, short-term liabilities in arrears and total medium-term liabilities in arrears. The liabilities include interest obligations. Rescheduled short-term liabilities are excluded.

### **Foreign Assets**

**Bank of Guyana Foreign Assets:** The composition of the assets is identical to that of International Reserves foreign assets above.

**Bank of Guyana Foreign Liabilities:** Data includes all short-term liabilities (current, arrears and rescheduled) and all medium-term liabilities (current, arrears and rescheduled). The liabilities include interest obligations.

**Commercial Bank Foreign Assets:** Data includes foreign currencies in banks, net balances due from Head Office and other branches abroad, balances due from other banks abroad, foreign treasury bills and securities and credit to non-residents. See note under loans to Non-Residents for Table 2.1(a) above.

**Commercial Bank Foreign Liabilities:** Data includes net balances due to Head Office and other branches abroad, balances due to other banks abroad and deposits of non-residents.

**TABLE 4.1: Guyana: Selected Interest Rates**

Interest rates at Commercial Banks and Non-Bank Financial Institutions on loans and deposits. The small savings rate represents an arithmetic average of savings deposit rates as reported by the Commercial Banks. Treasury bill rates for all maturities reflect rates at the end of the reporting period. Special deposits have been discontinued with effect from December 1994. NBS deposit rate for September, October and December 2001 have been revised. Small savings rate for November 2001 has been revised. The rates for the Five dollar shares, Save and prosper shares and the deposits for NBS have been revised for July 2002. The average deposit rates for GNCB Trust Company has been revised for the period of September 2002. Due to the modification of the interest rate structure, figures for the Commercial Banks' weighted average lending rate from September 2005 have been revised.

**TABLE 4.2: Commercial Banks: Selected Interest Rates**

Arithmetic average of interest rates as reported by the Commercial Banks.

**TABLE 4.3: Comparative Treasury Bills Rates and Bank Rates**

The average discount rate on three month Treasury Bills for the U.K., U.S.A., Barbados, Trinidad, Guyana and Jamaica. The U.K. and U.S. rates are the average discount rates at the last tender in each month. The rates for the CARICOM territories are those rates of monthly tender held towards the end of the month. Treasury bills rates for Barbados for 2001 have been revised. The Euro area Bank Rate is the rate at which other Monetary Financial Institutions obtain overnight liquidity from the National Central Bank against eligible assets.

**TABLE 4.4: Changes in Bank of Guyana Transaction Exchange Rates**

The Guyana dollar was fixed in Pound Sterling at the rate of £1 to G\$4.80 until October of 1975 when it was linked to the US\$1 to G\$2.55.

On June 2, 1981, the Guyana dollar was pegged to a composite basket of currencies consisting of the United States dollar, Pound Sterling, Deutsche Mark, Trinidad and Tobago dollar and the Japanese Yen. The exchange rates was fixed at US\$1 to G\$3.00. The US dollar was the intervention currency used to determine the exchange rate.

From January 11, 1984, the composite basket of currencies was adjusted to include the Pound Sterling, Deutsche Mark, Japanese Yen, French Franc and the Netherlands Guilder, the US dollar, although nor part of the revised basket, remained as the intervention currency. The United States dollar/Guyana dollar exchange rate was announced weekly. From October 1984 until January 1987, the exchange rate was maintained in the range of G\$4.15 to G\$4.40 per US dollar.

Effective January 19, 1987, the Guyana dollar was devalued to G\$10 to US\$1, effective from April 3, 1989 the Guyana dollar was devalued moving from G\$33 per US\$ to US\$1. On June 15, 1990, the Guyana dollar was devalued from G\$33.00 per US\$ to G\$45.00 per US\$. Transactions for this rate were confined to payments in respect of oil imports and external debt services and proceeds from sugar and rice exports.

On February 21, 1991, the Guyana dollar was devalued from G\$45.00 to US\$ to G\$101.75 thereby unifying the official exchange rate with the market determined rate prevailing at that date. The US dollar continued to be the intervention currency. From February 25, 1991, the exchange rate was fixed on a weekly basis. During the period February to September 1991, the exchange rate was determined by the pervious week free market exchange rate of the Commercial Banks and Non-Bank dealers.

From October 1991, the average weighted daily exchange rate was telegraphic transfers for the three largest Commercial Banks was utilised to determine the exchange rate for the Bank of Guyana daily transactions.

**TABLE 4.5: Exchange Rate**

Yearly figures were revised to reflect the average for the year.

**TABLE 4.6: Monthly Average Market Exchange Rate**

On March 13, 1990, the authorities established the cambio system for foreign currency transactions. Under the system, transactions in the cambio market were conducted freely with licensed dealers (banks and non-banks) setting the rate at which foreign exchange could be bought and sold. The rates are referred to as the market exchange rates. Data collection for the Euro started in January 2004.

**The buying rate** is a weighted average of the purchase rates of all licensed foreign exchange dealers for the month.

**The selling rate** is a weighted average of the sales rates of all licensed foreign exchange dealers for the month.

**The mid-rate** is the average buying and selling rates of all licensed foreign exchange dealers. The rate is based on transactions in foreign notes only.
