

Bank of Guyana

Job Title	Programmer	Position Type	Full Time
Department	Information Services Department	Level	Intermediate
		Min. Expr Required	

Job Summary

Under the direction of the Systems Analyst, this individual will participate in the development and enhancement of customised computer programs using high level languages. These applications (both desktop and web-based, with an increasing emphasis on the latter) are intended for use by the various departments within the institution.

Duties and Responsibilities

1. Translate design specifications into computer programs using the appropriate language.
2. Test program modules for correctness.
3. Prepare documentation (both user and technical) on all programs produced.
4. Assist the Analyst Programmer/Supervisor with integration of program modules into packages for distribution.
5. Maintain and enhance desktop and web-based application systems.
6. Troubleshoot and solve problems encountered by users of application systems.
7. Assist the Supervisor/Analyst Programmer in providing end-user support for line-of-business applications whenever necessary.
8. Assist in the assessment of software packages.
9. Keep abreast with the latest developments in Information Technology, in particular software development/implementation methodologies, software maintenance and database technology.
10. Any other related duties, consistent with the work of the Department that may be assigned from time to time.

Knowledge and experience

- Knowledge of structured programming techniques.
- Knowledge of relational database technology and Structured Query Language (SQL).
- Knowledge of object oriented, client/server and/or web-based application development environments such as Microsoft Visual Studio 2017 and above (particularly C# and VB.Net), ASP.NET, languages such as Java and JavaScript (including JQuery), and web-based technologies, protocols and tools (including HTML, XML, CSS, HTTP, HTTPS, FTP and TCP/IP) would be advantageous.
- Working knowledge of Microsoft Windows Server operating system (2016 and above) would be advantageous.
- Working knowledge of Microsoft SQL Server 2016 and above.

The incumbent is expected to demonstrate:

- Good interpersonal, verbal and written communication skills;
- The ability to work independently or as part of a team;
- A logical approach to the solution of problems; and
- Commitment to understanding new technology and upgrading skills

Qualifications

1. Degree in Computer Science, Information Systems or related field.
2. Diploma in Computer Science, Information Systems or related field PLUS the Microsoft Certified System Developer (MCSD) or the Microsoft Certified Web Developer certification.
3. Diploma in Computer Science, Information Systems or related field and at least two (2) years' relevant IT experience preferably in a system development/implementation environment.

Interested persons should submit their job application and a detailed Curriculum Vitae to the Bank not later than

WEDNESDAY, JANUARY 31, 2024 and should be addressed to:

**THE DIRECTOR
HUMAN RESOURCES & ADMINISTRATION DEPARTMENT
BANK OF GUYANA,
P. O. BOX 1003,
1 CHURCH STREET & AVENUE OF THE REPUBLIC,
GEORGETOWN.**

We regret that responses will not be sent to applicants who do not satisfy the Minimum Qualification Requirements for this position.
