## What to look for

1. The removal of the DualTrack™ thread from the back of the note and replace it with Pulsar™ color shifting feature at the front of the note. This 5mm wide, color shifting thread from gold to green with dynamic movement.

2. The removal of the Holographic Stripe and replace it with SPARK® Live Truspin feature at the front of the note. The design around the Jaguar when tilted shifts from gold to green and the double circle moves.

## Consequences for counterfeiting currency

The Bank of Guyana would like to remind the public that counterfeiting of currency is a serious criminal offense. The possession of counterfeit notes carries a maximum sentence of fourteen years in jail while production of counterfeit notes carries a life sentence.
