3. OUTLOOK	15
STATISTICAL ANNEXE	

1. OVERVIEW

The global economy experienced higher economic growth at 3.5 percent for the first quarter of 2017. Activity improved in developed, emerging market and developing countries with the latter two benefitting from increased trade and some improvements in commodity prices. Advanced economies experienced stronger growth especially from the USA, Euro Zone and Japan. Structural impediments and political risks were the major threats to the global turnaround.

Guyana's economy registered uneven growth in sectoral output. The agriculture sector recorded increased production of rice and other crops which were due to greater hectares cultivated and favourable weather. In contrast, sugar and forestry output declined from the consequences of a diminished Wales sugar estate, downsizing of Barama Company Limited and tighter market conditions. The mining & quarrying sector registered higher output of gold which was attributed to sustained small and medium scale mining as well as large gold mining companies. However, bauxite outturn was lower on account of declines in the output of Chemical Grade (CGB) and Calcined Grade (RASC) bauxite as global market conditions remained fragile. The manufacturing sector recorded higher production of paints, non-alcoholic & alcoholic beverages, and flour but lower production of oxygen, margarine, biscuits and stockfeed. The construction sector experienced favourable outturn due to public projects. However, private construction was relatively subdued. The

services sector was estimated to be weak owing to sluggish activities in the financial & insurance and other service industries.

The inflation rate increased to 0.6 percent at the end of March 2017. This outturn was attributed to increases in food prices by 0.4 percent and housing (which comprises fuel and power) by 0.2 percent. The cost of transport & communication and education, recreation & culture services also contributed to the higher inflation rate.

The overall balance of payments recorded a deficit of US\$8.7 million from a surplus of US\$14.7 million for the same period last year. This performance was largely due to a deficit on the current account caused by a higher merchandise trade deficit. The capital account recorded a surplus on account of higher capital transfers and inflows to the Non-Financial Public Sector in the form of disbursements.

The overall value of transactions on the foreign exchange market expanded by 3.7 percent or US\$54.2 million to US\$1,529.1 million. Higher volumes in the hard currency and foreign currency account were directly responsible for this outcome. In contrast, the cambio market and soft currency transactions recorded lower values in transactions. Total purchases were higher than sales resulting in a net purchase of US\$16.1 million. The rate of the Guyana dollar against the United States dollar depreciated by 3.1 percent to G\$213.00.

The overall financial position of the public sector deteriorated from a surplus to a deficit due to relatively higher current and capital expenditures which more than offset the increase in revenues.

Domestic debt stock amounted to G\$90,434 million and accounted for 12.7 percent of GDP, which is relatively low by debt sustainability measures. This outturn was as a result of a reduction in the stock of the Non-Refundable NIS debentures. Domestic debt service payments accounted for 2.2 percent of government current revenue which is far below liquidity measures.

The stock of external debt increased to US\$1,174 million on account of higher disbursements by the Inter-American Development Bank (IADB) and the Eximbank of China for project financing. The external debt service ratio declined to 4.8 percent from 5.1 percent at end-March 2016, which is far below the liquidity threshold of 20 percent.

The monetary aggregates of reserve money grew by 0.4 percent while that of broad money declined by 1.4 percent. The former was mainly due to an increase in the net domestic assets of the Bank while the latter reflected a reduction in both net domestic credit and net foreign assets. Private sector credit fell by 1.5 percent. The weighted average lending rate and treasury bills rates declined during the review period.

The financial resources of the Non-Bank Financial Institutions (NBFIs), which includes depository and non-depository financial institutions, increased by 2.0

percent to G\$209,907 million. Consequently, the sector's share of total assets in the financial sector grew marginally from 30.6 percent to 31.2 percent.

At the end of the first quarter of 2017, the financial system remained relatively stable with the Licensed Depository Financial Institutions (LDFIs) being adequately capitalised, highly liquid and profitable. Capital Adequacy Ratio (CAR) continued to exceed the prudential 8.0 percent benchmark. Asset quality remained acceptable, in spite of the rise in non-performing loans when compared with the first quarter of 2016.

The conduct of monetary policy continued to focus on price and exchange rate stability while ensuring adequate level of liquidity in the system and creating an enabling environment for economic growth. The Bank continued to use treasury bills as its primary open market operation for the effective management of liquidity. The Bank also purchase and sell foreign currency to achieve its primary objective. At the end of the first quarter of 2017, there was a net issue of G\$107 million in treasury bills. Additionally, the Bank continued to facilitate efficient intermediation through the issuance of notes and coins as well as the promotion of an enhanced payment system. □

2. REVIEW OF THE FIRST QUARTER FOR 2017

PRODUCTION

Sectoral output growth was uneven during the first quarter of 2017 relative to the corresponding period last year. The agricultural sector recorded increased production of rice by 51.5 percent, due to greater hectares cultivated, favourable weather and higher yield of 5.8 tonnes per hectare from 5.4 tonnes per hectare for the similar period in 2016. There was larger output of other crops on account of higher output of citrus, vegetables and other ground provisions. In contrast, the sugar industry contracted by 33.8 percent, due to operational constraints, closure of the Wales estate and lower market prices. The forestry sector declined by 21.1 percent on account of decreases in plywood, roundwood and logs by 38.5 percent, 30.2 percent and 29.2 percent respectively. This performance was due to downsizing of large scale logging companies such as Barama Company Limited and the erosion of international markets. Poultry production decreased by 8.5 percent.

The mining & quarrying industry registered expanded output of gold by 0.5 percent on account of increased production by small to medium scale miners by 4.9 percent to 103,707 ounces or 63.9 percent of total output. The two large foreign gold mining companies' output declined by 6.4 percent or 4,000 ounces to 59,070 ounces, which reflected Guyana Goldfields expanding by 7.4 percent to 43,539 ounces

or 26.7 percent of total output while Troy Resources fell by 31.0 percent to 15,531 ounces or 9.5 percent of total output. The outturn was attributable to an increase in price by 3.2 percent to US\$1,231.1 per ounce from US\$1,192.6 per ounce at end-2016. Conversely, bauxite output contracted by 17.7 percent on account of declines in Chemical Grade (CGB) and Calcined Grade (RASC) bauxite by 68.9 percent and 52.2 percent respectively due to fragile global market conditions. However, metal grade bauxite (MAZ) expanded by 13.5 percent owing to improved metal demand.

The manufacturing sector recorded mixed performance. Production of paints, non-alcoholic & alcoholic beverages and flour increased by 6.3 percent, 6.2 percent, 4.1 percent and 2.0 percent respectively due to stable demand. In contrast, there was lower production of oxygen, margarine, biscuits and stockfeed by 21.0 percent, 7.3 percent, 6.2 percent and 1.8 percent respectively.

Construction outturn was mixed with improved execution of public projects due to the efficacy of the public investment program. However, private construction was weak on account of a relatively subdued housing drive.

The services sector recorded low activities during the review period. There were sluggish activities in the financial & insurance and other service industries due to rising economic uncertainties and lower private consumption expenditure. Private sector credit declined by 1.5 percent

compared to the 1.3 percent fall for the same period in 2016. However, electricity generated grew by 1.6 percent relative to 7.1 percent growth in the previous year.

INFLATION

The inflation rate was higher at 0.6 percent at the end of March 2017. This outturn was attributed to increases in food prices by 0.4 percent and housing (which comprises fuel and power) by 0.2 percent. The cost of transport & communication and education, recreation & culture services also contributed to the higher inflation rate.

BALANCE OF PAYMENTS

The overall balance of payments recorded a deficit of US\$8.7 million from a surplus of US\$14.7 million for the same period last year. This performance was as a result of a deficit on the current account.

The current account recorded a deficit of US\$39.8 million from a surplus of US\$48.0 million. This outturn was mainly due to a higher merchandise trade deficit of US\$51.8 million to US\$59.4 million from US\$7.54 million due to an increase in imports by US\$59.9 million.

Merchandise imports increased by 18.9 percent to US\$377.1 million due to higher imports of intermediate goods and consumption goods by 33.0 percent and 18.2 percent respectively. Imports of capital goods declined by 6.4 percent

Export receipts grew by 2.6 percent or US\$8.0 million to US\$317.7 million. This

increase was mainly due to higher export receipts from sugar by 29.6 percent or US\$1.8 million, other exports by 12.6 percent or US\$25.9 million and gold by 5.6 percent or US\$3.0 million.

The services account recorded a deficit of US\$74.4 million, an increase of 58.6 percent or US\$27.5 million on account of a higher net non-factor services payments by US\$28.2 million. Net factor services payments decreased by 4.5 percent and net unrequited transfers declined by 8.2 percent or US\$8.4 million to US\$94.0 million. The latter was due to higher remittances to bank accounts abroad.

The capital account registered a surplus of US\$28.5 million from a deficit of US\$24.9 million for the same period last year. This outturn was mainly on account of higher capital transfers and inflows to the Non-Financial Public Sector in the form of disbursements. Inflows from bilateral and multilateral agencies increased by US\$13.9 million to US\$18.3 million. Foreign direct investment net inflows increased by US\$2.6 million to US\$19.2 million.

The overall balance of payments deficit of US\$8.7 million was financed by debt forgiveness. The accumulation of gross international reserves at the Bank of Guyana was US\$596.3 million and was equivalent to 3.7 months of imports of goods and services.

FOREIGN EXCHANGE MARKET

Foreign currency transactions expanded by 3.7 percent to US\$1,529.1 million compared with US\$1,474.9 million in the first quarter of last year. Total purchases and sales were US\$772.6 million and US\$756.5 million respectively.

Transactions processed at the bank and non-bank cambios were US\$666.4 million, a decrease of 3.0 percent or US\$20.8 million in the value of trades when compared to the previous year. At the Bank, total hard currency inflows and outflows increased to US\$284.0 million from US\$217.7 million. Net outflows were US\$0.6 million. The value of foreign currency account transactions grew by 1.7 percent to US\$572.3 million. Net debits amounted to US\$20.1 million. Soft currency transactions decreased by 7.2 percent or US\$0.5 million to US\$6.4 million at the cambios.

Commercial bank cambios continued to dominate the cambio trade. Total turnover was US\$637.9 million or 95.7 percent of the entire cambio market volume, a decline of 3.6 percent compared with the corresponding period in 2016. However, the value of foreign exchange activities at the non-bank cambios showed an increase of 12.2 percent in activities. Trades amounted to US\$28.5 million against US\$25.4 million during the same period in 2016. The non-bank cambios accounted for 4.3 percent of the market.

Hard currency purchases and sales by the Bank of Guyana were US\$141.7 million and US\$142.3 million respectively compared with US\$120.5 million and US\$97.3 million

respectively, for the same period in 2016. The higher level of transactions stemmed from increased revenue from gold and other income. Fuel imports represented the largest category of total payments, amounting to 63.5 percent. While the Bank did not purchase any foreign currency, it sold US\$7.2 million to commercial banks in the first quarter of 2017.

The debits and credits of authorized foreign currency to commercial banks were US\$296.2 million and US\$276.1 million respectively. This indicated net purchases of US\$20.1 million on these accounts. The corresponding period last year recorded debits and credits of these accounts at US\$275.3 million and US\$287.7 million respectively.

Interbank trade amounted to US\$1.4 million in 2017 when compared with US\$5.7 million for the same period last year.

The US dollar was the most traded currency on the market. US dollar transactions accounted for 94.2 percent of the overall market activity. The market share of the Pound Sterling, Canadian dollar and the Euro was 1.5 percent, 2.1 percent and 2.2 percent respectively.

CARICOM currency transactions declined by 7.2 percent to US\$6.4 million from US\$6.9 million as at end-March 2016. The market share of the Trinidad & Tobago dollar was 52 percent, followed by Barbadian dollar with 37 percent and the EC dollar with 11 percent of the aggregate turnover.

The Guyana dollar vis-à-vis the United States dollar depreciated by 3.1 percent to G\$213.00. The Bank's weighted mid-rate, which is the reference for official transactions, was unchanged at G\$206.50 during the first quarter of 2017. The un-weighted rate experienced a depreciation of 2.4 percent, from G\$205.75 at the end of December 2016 to G\$210.75 at the end of March 2017.

The average buying and selling rates of the US dollar at bank cambios depreciated to G\$210.60 from G\$207.21 and to G\$214.86 from G\$209.74 respectively at December 2016. At the non-bank cambios, the buying and selling rates were lower than their counterpart at G\$209.75 and G\$211.94 compared with G\$206.40 and G\$208.04 at the end of December 2016.

The difference between the banks' and non-banks' buying rates slightly increased to G\$0.85 from G\$0.81 at end-December 2016. The banks and non-banks reported higher buying and selling rates during the review period. The difference in the selling rates of the bank and non-bank cambios was G\$2.92 compared with G\$1.70 for 2016. The banks' spread was higher at G\$4.25 compared with the non-banks' spread was G\$2.18. The total market spread increased to G\$3.22 compared with G\$2.08 at the end of 2016.

PUBLIC FINANCE

The overall financial position of the public sector deteriorated from a surplus to a deficit due to higher current and capital

expenditures which was relatively higher than increase in revenues.

Central Government's fiscal position shifted from a surplus of G\$545 million to a deficit of G\$917 million. This outturn resulted from higher current and capital expenditures by G\$6,115 million and G\$4,658 million to G\$38,472 million and G\$7,229 million respectively. Total current revenues also expanded by 9.0 percent or G\$3,138 million to G\$37,958 million.

The growth in current revenues was attributed to greater receipts from Customs & Trade Administration and the Internal Revenue Department which expanded by G\$4,510 million and G\$1,277 million respectively. Excise tax and Value Added tax were also higher by G\$2,397 million and G\$1,013 million to G\$7,313 million and G\$9,373 million respectively. Personal and corporation income taxes grew by 7.5 percent and 4.4 percent to G\$5,842 million and G\$8,224 million respectively.

Total current expenditures expanded by 18.9 percent or G\$6,115 million due to greater transfer payments of G\$2,204 million and employment cost of G\$1,649 million. The expansion in employment cost was attributed to the growth in public sector employment along with the increase in wages and salaries. Domestic and external interest costs also grew by 32.7 percent and 32.6 percent to G\$712 million and G\$1,467 million respectively.

Capital expenditure expanded by G\$4,658 million to G\$7,229 million, due to the

implementation of capital projects mainly in the construction and power generation sectors.

Capital revenue also increased by G\$6,173 million to G\$6,825 million on account of higher grant flows of G\$5,491 million and G\$962 million under non project grants and project grants respectively.

Non-Financial Public Enterprises overall balance recorded a deficit of G\$1,016 million compared to a surplus of G\$5,897 million during the first quarter of 2017. This was due to higher capital and current expenditures and lower current revenues. Current expenditures increased by 21.3 percent to G\$26,091 million resulting from greater spending on materials & supplies of G\$6,565 million, payment to creditors of G\$6,533 million and employment cost of G\$6,061 million. Capital expenditures expanded by G\$891 million to G\$1,184 million due to higher capital expenditures by the Guyana Sugar Corporation (GUYSUCO) and Guyana Power and Light (GPL) of G\$529 million and G\$521 million respectively.

Current revenue contracted by 8.0 percent or G\$2,317 million to G\$26,643 million, owing to lower export receipts and other income. Local sales expanded by 10.0 percent to G\$18,787 million and was attributed to higher revenue from the Guyana Power and Light (GPL).

The National Insurance Scheme's overall balance shifted to a surplus of G\$152 million from a deficit of G\$67 million in 2016, reflecting a 12.5 percent expansion in

contributions of the employed and the self-employed.

PUBLIC DEBT

The stock of domestic debt declined marginally to G\$90,434 million from the end-December 2016 position of G\$90,572 million, while external public and publicly guaranteed debt increased by 1.0 percent to US\$1,174 million. The decline in domestic debt stock was on account of a reduction in the stock of debentures by 2.8 percent or G\$244 million to G\$8,537 million at end-March 2017. In contrast, the stock of treasury bills increased marginally by 0.1 percent due to higher issuance of 182-day and 364-day treasury bills by G\$6 million and G\$100 million respectively.

The increase in the stock of external debt was on account of higher disbursements by the Inter-American Development Bank (IADB) and the Eximbank of China by US\$5.4 million and US\$9.8 million respectively, for financing of infrastructural upgrade and the airport expansion project.

Domestic debt service payments rose significantly by 58.4 percent to G\$850 million compared with the corresponding period last year. This outturn was mainly on account of the redemption of one of twenty certificates for the Non-Refundable NIS Debenture which amounted to G\$244 million in principal payment as well as G\$73 million in interest payment. Interest payments for treasury bills declined by 0.1 percent due to lower redemption of the 91-day and 364-day treasury bills by 36.6 percent and 5.9 percent respectively,

compared to the same period in 2016. External debt service was lower by 4.3 percent or US\$0.7 million to US\$15.3 million, due to a decline in principal payments as a result of the conclusion of principal repayments to the International Monetary Fund (IMF).

MONETARY DEVELOPMENTS

Reserve money increased marginally by 0.4 percent or G\$678 million to G\$159,349 million from its December 2016 level, reflecting a 0.1 percent or G\$88 million contraction in net foreign assets. Net domestic assets increased by 2.1 percent or G\$766 million from one year ago on account of a 7.2 percent increase in liabilities to commercial banks while currency in circulation fell by 5.8 percent.

Broad money declined by 1.4 percent or G\$4,805 million due to reductions in net domestic credit and net foreign assets which offset the increase in other items (net)¹. Net foreign assets and net domestic credit fell by 2.6 percent and 0.9 percent or G\$4,662 million and G\$1,841 million respectively, while other items (net) increased by 6.1 percent or G\$1,697 million. The decline in broad money was reflected in contractions in both narrow and quasi money. Narrow money, consisting of currency in circulation, private sector demand deposits and cashiers' cheques & acceptances, was lower by 3.2 percent resulting mainly from a 48.4 percent and 5.8 percent reduction in cashiers & acceptances

and currency in circulation respectively. Demand deposits rose by 8.1 percent while quasi money, which consists of time and savings deposits, fell marginally by 0.1 percent to reach G\$206,014 million with time deposits decreasing by 4.0 percent and savings deposits growing marginally by 0.4 percent respectively.

Total deposits by residents fell by 1.6 percent to G\$355,544 million while that of non-residents increased by 3.1 percent to G\$13,472 million. Private sector deposits, which accounted for 74.1 percent of total deposits by residents, were also higher by 1.6 percent.

Net domestic credit of the banking system contracted by 0.9 percent to G\$197,040 million from the December 2016 level of G\$198,882 million. This reduction was mainly on account of decline in credit to the private sector while credit to the public sector and net deposits of the non-bank financial institutions increased.

Private sector credit fell by 1.5 percent compared with a decline of 1.3 percent one year ago. This position reflected declines in credit to all the sectors, except the real estate mortgage sector and the "other" category of the private sector (which comprises investments in local securities and shares & other equity in local companies). Loans to the agriculture, manufacturing, distribution and personal sectors fell by 9.6 percent, 5.2 percent, 3.4 percent and 2.4 percent respectively while real estate mortgage loans and credit to the

¹ Other items (net) include commercial banks' share capital, reserve funds and undistributed profits.

“other” private grew by 1.5 percent and 0.4 percent respectively.

The public sector (net) credit position worsened by 70.9 percent to G\$11,845 million from G\$6,929 million at end-2016 mainly on account of a reduction in the deposits of the non-financial public enterprises. Net credit to the central government was lower by 0.8 percent or G\$623 million to G\$77,437 million at the end of March 2017. The public enterprises remained a net depositor; however, with a decrease of 23.8 percent in net deposits while that of the other category of public sector, which includes local government and NIS, increased by 31.7 percent.

The net foreign assets of the banking system contracted by 2.6 percent to US\$848.8 million. This was due mainly to an 8.0 percent decline in the net foreign assets of the commercial banks while that of the Bank of Guyana increased marginally by 0.1 percent. At the end of March 2017, the commercial banks’ net foreign assets stood at US\$256.0 million while that of the Bank of Guyana was US\$592.8 million.

The overall liquidity of the banking system declined by 3.7 percent to G\$117,123 million mainly on account of a decrease in the required liquid assets of the banks. However, the ratio of excess liquid assets to total liquid assets increased from 34.2 percent at end-December 2016 to 50.6 percent at end-March 2017.

There were marginal movements in interest rates during the review period. The 91-day, 182-day and 364-day treasury bill yields

declined to 1.54 percent, 1.44 percent and 1.60 percent from 1.68 percent, 1.68 percent and 2.13 percent respectively, at the end of the review period. This was as a result of the competitive bidding for treasury bills. The small savings rate and the weighted average time deposit rates fell to 1.21 percent and 1.20 percent from 1.26 percent and 1.31 percent respectively. Similarly, the weighted average lending rate fell to 10.39 percent while the prime lending rate of the commercial banks remained stable at 13.0 percent.

NON-BANK FINANCIAL INSTITUTIONS (NBFIs)

The financial resources of the Non-Bank Financial Institutions (NBFIs), which includes depository and non-depository financial institutions, increased by 2.0 percent to G\$209,907 million at end-March 2017. The sector’s share of total assets in the financial sector grew marginally from 30.6 percent to 31.2 percent.

The increase in the NBFIs’ assets was due to a 4.5 percent (G\$1,466 million) and 0.8 percent (G\$777 million) increase in pension funds and other liabilities respectively. Foreign liabilities and deposits expanded by 4.9 percent or G\$763 million and 1.3 percent or G\$650 million respectively. Insurance premium also grew by G\$454 million to G\$4,904 million.

Investments by the NBFIs were held mainly in the banking and private sectors during the period under review. Investments in the banking system and private sector increased by 10.6 percent (G\$3,172 million)

and 1.8 percent (G\$1,925 million) respectively. Other assets grew by 1.9 percent (G\$552 million) while claims on the foreign sector declined by 1.8 percent (G\$555 million). Government of Guyana securities which represented 3.8 percent of total assets contracted by 13.2 percent (G\$985 million) to G\$6,491 million.

FINANCIAL STABILITY ASSESSMENT

At the end of the first quarter of 2017, the financial system remained relatively stable with the Licensed Depository Financial Institutions (LDFIs) being adequately capitalised, highly liquid and profitable. Capital Adequacy Ratio (CAR) continued to exceed the prudential 8.0 percent benchmark. Asset quality remained relatively satisfactory, in spite of the rise in non-performing loans when compared with the first quarter of 2016.

Capital

The CAR was 30.82 percent at end-March 2017 compared with 27.46 percent at end-March 2016. The improved ratio was the net effect of a 10.29 percent (G\$6,555 million) growth in qualifying capital, stymied by a 1.81 percent (G\$4,189 million) decrease in risk-weighted assets.

Except for Guyana Bank for Trade & Industry, Demerara Bank Limited, Citizen's Bank (Guyana) Inc. and Bank of Baroda, all of the other LDFIs recorded increases in their risk weighted assets. Seven of the LDFIs recorded positive growth in their

qualifying capital contributing to the overall improved position.

Asset Quality

The LDFIs non-performing loans (NPLs) as a share of total loans were 11.4 percent during the review period, a slight deterioration when compared with the 10.2 percent recorded for the 2016 corresponding period. The foregoing change resulted from the 13.2 percent increase in NPLs combined with the 1.2 percent increase in total loans. NPLs remained concentrated in the business enterprises sector at 51.2 percent of the LDFIs aggregate NPLs, with the services sub-sector representing 36.4 percent. This was the only sub-sector to record a 32.8 percent increase at end-March 2017. The ratio of provision for loan losses to NPLs moved from 38.0 percent at the end of March 2016 to 44.8 percent at the end of March 2017. This was due largely to the 33.7 percent increase in provision for loan losses.

Exposure to the top twenty borrowers amounted to G\$59,951 million, 5.3 percent above the level at end-March 2016 level. Two of the eight LDFIs were responsible for the increase in exposure to the industry's top twenty borrowers. The ratio of exposure to the top twenty borrowers to total exposure moved from 14.6 percent at the end of March 2016 to 15.1 percent at the end of March 2017.

Earnings

The LDFIs aggregate operating income for the first quarter of 2017, stood at G\$9.4 billion and was 3.0 percent above the corresponding 2016 quarter's level. Expansions were recorded in foreign exchange gains and other operating income of 61.5 percent and 21.1 percent but were somewhat stymied by contractions in fees and commissions and interest income of 8.5 percent and 3.1 percent respectively.

However, the LDFIs' aggregate operating expenses of G\$5.5 billion grew at a faster 4.1 percent over the same review period. Higher provisions for loan losses, which was 71.1 percent or G\$346 million, was above the previous year's level; accompanied by increased other operating expenses and salaries and other staff costs of 4.2 percent and 3.2 percent respectively, contributed significantly to the rise in aggregate operating expenses. Interest expenses, however, contracted by 1.9 percent. Additionally, LDFIs recovered G\$138 million of bad debts net of write-off compared to the G\$69 million written-off during the first quarter of 2016.

Net income before tax of G\$3.9 billion represented a 1.5 percent (G\$46 million) growth over the end-March 2016 level. Net income after tax rose by 7.9 percent or G\$214 million to G\$2.9 billion. One LDFI reflected a loss while three recorded higher after tax income and four showed contracted levels of post tax income.

Liquidity

The average level of liquid assets held by the LDFIs amounted to G\$152,752 million,

2.4 percent above the average level recorded for the corresponding period last year. This increase was due mainly to increases in deposits with BOG, marketable obligations, and net balances due from LDFIs in Guyana, stymied by declines in net balances due from other banks abroad and local treasury bills.

MONETARY POLICY

Bank of Guyana's monetary policy continued to focus on the attainment of price stability and provision of adequate level of liquidity for credit expansion and economic growth. The Bank seeks to allow the expansion of broad money along a path consistent with projections for output and inflation. Thus, weekly targets for broad money are translated into targets for base money using the money multiplier. To achieve these weekly base money targets, the Bank focuses on the effective management of excess liquidity in the financial system through its Open Market Operations (OMOs). The Bank may also purchase and sell foreign currency to achieve its primary objective.

During the review period, reserve money increased by G\$10,402 million compared with an increase of G\$6,498 million for the corresponding period in 2016. There were nine (9) issues of treasury bills amounting to G\$31,065 million while redemptions amounted to G\$30,958 million. Treasury bills were issued when reserve money exceeded the targeted levels and was deemed likely to adversely affect the economy.

Additionally, the Bank sold US\$7.2 million to the commercial banks while there were no purchases during the review period.

The inter-bank market activities, which also provide an indication of the total liquidity condition of the financial system, had no trades during the review period. There was no funds traded on the market for the review period when compared with the G\$2.2 billion for the corresponding period in 2016.

BANK ACTIVITIES

Currency Operations

The Bank has a statutory obligation to issue the country's notes and coins under Section 21(1) of the Bank of Guyana Act No. 19 of 1998. This obligation was discharged through the Currency Division of the Operations Department. The total supply of currency in the first quarter of 2017 registered an increase of 1.2 percent from G\$69.2 million notes to G\$70.0 million notes over the corresponding period in 2016. The increase was due to a higher opening stock and a higher amount of notes purchased in that period.

Notes

The total value of currency notes in circulation (including notes held in the vaults of commercial banks) at the end of the first quarter of 2017 amounted to G\$83.7 billion, an increase of 6.1 percent when compared with a circulation of G\$78.9 billion in the first quarter of 2016. The share of the G\$5000 note in total value of notes in circulation increased to reach 75.2 percent from 68.7

percent in 2016. The share of the G\$1,000 note in the total value of notes in circulation decreased to 20.5 percent from 26.9 percent in the previous year. The share of G\$500 notes decreased to 1.5 percent from 1.7 percent while the G\$100 and \$20 notes remained at 1.9 percent and 0.8 percent respectively. A \$50 note was introduced to commemorate the 50th Independence anniversary in May of 2016 and this note had a share value of 0.1 percent at the end of the first quarter of 2017.

The policy of ensuring that only acceptable quality notes are in circulation was continued. This was achieved by regular withdrawals of mutilated, defaced or otherwise poor quality notes and replacing them with new notes. Mutilated, defaced and poor quality notes amounting to G\$109.8 million were submitted for replacement in the first quarter of 2017 compared with G\$76.3 million for the corresponding period in 2016.

Coins

Coins issued by the Bank amounted to G\$1,012 million at the end of the first quarter of 2017, an increase of 3.9 percent above the G\$974 million recorded at the end of the corresponding period in 2016. The share of the G\$10 coin (44.6 percent) in the total value of coins in circulation was 5.6 percentage points more than that of the G\$5 coin (39 percent). The G\$1 coin continued to have the lowest share of coins in circulation (16.4 percent). In terms of the total quantity of coins issued, the G\$1 coin accounted for a 57.2 percent share. The shares of G\$5 and G\$10 coins accounted

for 27.2 percent and 15.6 percent respectively.

Payments System

During the first quarter of 2017, low-value transactions (LVT) settled through the National Clearing House (NCH) amounted to 223,272, a marginal increase of 2.5 percent when compared with the volume recorded for the corresponding period in 2016. The volume of high-value transactions (HVT) increased by 1.0 percent to reach 32,469. The overall value of total transactions increased by 35.9 percent to G\$331.8 billion when compared to the corresponding period in 2016. High-value transactions increased from G\$166.1 billion to G\$231.3 billion and low-value transactions increased from G\$78.2 billion to G\$100.5 billion in 2017. The share of HVT in total value of transactions increased marginally from 68 percent in 2016 to 69.7 percent in 2017. Conversely, the share of LVT decreased to 30.3 percent in 2017 from 32 percent in the previous year. The average value of HVT rose by 36.5 percent in 2017 to G\$7.1 million, while the average value of LVT rose to G\$0.45 million in 2017.

THE GLOBAL ECONOMY

The global economy experienced higher economic growth at 3.5 percent for the first quarter of 2017. Activity improved in developed, emerging market and developing countries with the latter two benefitting from increased trade and some improvements in commodity prices. Advanced economies experienced stronger growth especially from the USA, Euro Zone

and Japan. Structural impediments and political risks were the major threats to the global turnaround.

Advanced Economies

Advanced economies grew by 2.0 percent buoyed by stronger performance by the US, the Euro Area and Japan. The US economy grew by 2.0 percent due to increased investor and consumer confidence. The Euro Area grew by 1.7 percent as a result of increased demand and higher exports especially Germany which grew by 1.6 percent while France grew by 1.4 percent. The Japanese economy grew by 1.2 percent aided by increased exports

The Canadian economy grew by 1.9 percent on account of higher export and a more competitive exchange rate. The UK economy remained resilient, despite BREXIT, and grew by 2.0 percent due to strong consumer confidence.

Headline inflation continued to be below while core inflation remained stable at 1.6 percent in the advanced economies. The US inflation was 2.7 percent. The Euro Area continued to experience low inflation at 1.2 percent due to low consumer prices while Japan's inflation was 1.7 percent. UK's inflation was 2.5 percent

Labour market in advanced economies remained flat. The US unemployment rate remained at 4.8 percent. There was a marginal decline in unemployment in the Euro Area to 9.4 percent. Germany's unemployment was 4.0 percent followed by France at 9.0 percent. However, Spain and Italy recorded unemployment level of 11.4

and 17.4 percent respectively. UK's unemployment was 4.9 percent.

Emerging Economies

Growth in emerging economies recovered from increased trade and commodity prices. India recorded a growth rate of 7.2 percent followed by China with a growth rate of 6.6 percent. Brazil experienced positive growth of 0.2 percent while Mexico grew by 1.7 percent. The Russian economy grew by 1.4 percent.

Inflation remained subdued in emerging economies due to low food and oil prices. China's inflation was 2.4 percent. Inflation in India was controlled at 4.8 percent. Inflation in Brazil and Russia were 4.4 percent and 1.5 percent respectively.

Unemployment in China was 4.0 percent. Russia's unemployment was 5.5 percent while Brazil's unemployment was 12.1 percent.

Developing Economies

Developing economies grew by 4.5 percent due to improved commodity prices and increased activities in the service sector. Improved commodity prices impacted positively on the Latin American and Caribbean Region causing a growth of 1.1 percent after experiencing negative growth last year. The rebound in commodity prices would attract higher investment that can contribute to more employment.

Inflation in developing countries remained checked at 4.7 percent influenced by lower oil and consumer prices.

Caribbean Economies

There were improvements in the output of the agricultural based commodity economies of Guyana and Belize. Energy prices did not recover to its past level as it continued to affect Trinidad & Tobago's economic performance. The tourist based economies such as Barbados, Bahamas and the OECS countries showed improvements in outturn due to higher tourist arrivals.

Unemployment continued to be a major problem in the Caribbean, hovering on average around 10 percent. However, improvements in commodity prices and tourist arrivals can contribute to more jobs.

Barbados, Belize and ECCU continued their policy of fixed exchange rate vis-à-vis the US dollar. The Guyana dollar was relatively stable at \$208.50 while the Jamaican dollar depreciated to JAM\$126 against the US dollar. The Trinidad & Tobago dollar, after some pressure, is hovering around TT\$6.70 vis-à-vis the US dollar.

Commodity Prices

Gold price was around US\$1,241 per ounce, an increase of 6.3 percent at the end of the first quarter of 2017. Rice price increased by 2.0 percent to US\$370.48 per metric tonne and sugar price increased by 12 percent to US\$18.06 per pound. Oil price increased by 1.0 percent to US\$54.97 per barrel. □

3. OUTLOOK FOR END-DECEMBER 2017

Global economic growth is projected at 3.5 percent with cyclical recovery in investment, manufacturing and trade. Stronger activity along with more robust global demand would help commodity prices recover from their low level. Economic performance in both developed and developing countries are expected to be robust during the year. The Latin America and Caribbean Region are expecting positive growth of 1.1 percent. Higher commodity prices will help headline inflation and reduce deflationary pressures. Accommodative monetary policy will continue in the Euro Area, however, a faster-than expected pace of interest hikes in the US could tighten financial conditions and cause an appreciation of the US dollar that will impact negatively on emerging economies.

Notwithstanding, Guyana's economy is projected to expand by 3.8 percent at the end of 2017. The mining, agricultural and to some extent the services sectors are expected to contribute a significant portion to real output and household income. The rate of inflation is targeted at 2.5 percent for 2017, owing to anticipated increases in fuel and some non-fuel commodity prices.

The overall balance of payments is budgeted to record a surplus of US\$19.9 million at the end of 2017 due to a capital account surplus despite a current account deficit. The capital account surplus will result from flows to the public sector through bilateral and multilateral agencies, and to the private sector through foreign direct investments and capital transfers. The

current account deficit is expected to expand, stemming from a higher merchandise and services import bill. Notwithstanding, gross international reserves of the Bank of Guyana are projected to increase at the end of 2017.

Total receipts are projected at US\$639.5 million. The main sources of inflows are from the Guyana Gold Board with US\$382.5 million, Guyana Sugar Corporation with US\$63.0 million and other receipts of US\$190.1 million. Total payments are targeted at US\$590.4 million. The two major outflow categories are debt servicing totalling US\$81.8 million and imports of US\$508.6 million. The value of fuel imports will account for 61.9 percent or US\$365.3 million of total hard currency payments.

The central government's overall balance is projected to deteriorate mainly on account of higher current and capital expenditures. This position is expected to adversely affect the current account balance while the capital account deficit is projected to widen due to higher capital expenditure even though grant flows are forecasted to expand at the end of 2017.

The overall deficit of the Non-Financial Public Enterprises is expected to increase resulting from higher expenditures and current revenue. This outcome will cause a decrease in the current account surplus. The capital account is expected to record a larger deficit due to increased spending. This position will be financed by external borrowing and domestic financing.

The stock of domestic debt is expected to decline at end-December 2017 due primarily to an increase in the redemption of debentures as well as lower issuance of treasury bills as a result of accommodative monetary policy implemented by the Bank of Guyana. In contrast, the stock of external debt is estimated to increase on account of higher disbursements from the Inter-American Development Bank and the Eximbank of China for project financing.

Domestic debt service payments are projected to escalate significantly mainly on account of principal and interest payments for redeeming NIS debenture certificate.

External debt service is estimated to increase in 2017 on account of higher scheduled principal and interest payments to bilateral creditors.

Bank of Guyana will continue to manage base money through its Open Market Operations and seek to maintain low inflation while providing a conducive environment for private sector credit to promote growth in the economy. □

1) End of period rates.

2) The prime lending rate reported by the banks has been weighted by the amount of loans issued at the corresponding rate.

3) The average prime lending rate actually used by commercial banks applicable to loans and advances.

4) Small savings rate

5) Effective November 2009, the mortgage rate for New Building Society is reflected as an average rate.

I. GENERAL NOTES

Symbols Used

- ... Indicates that data are not available;
- Indicates that the figure is zero or less than half the final digit shown or that the item does not exist;
- Used between two period (e.g. 2010-11 or July-September) to indicate the years or months covered including the beginning and the ending year or month as the case may be;
- / Used between years (e.g. 2010/11) to indicate a crop year or fiscal year.
- = Means incomplete data due probably to under-reporting or partial response by respondents.
- * Means preliminary figures.
- ** Means revised figures.

In some cases, the individual items do not always sum up to the totals due to rounding.

Acknowledgement

The Bank of Guyana wishes to express its appreciation for the assistance received from the Ministry of Finance, State Planning Secretariat, Commercial Banks, Bureau of Statistics, some Public Corporations and other Private Sector agencies in the compilation of the data.

II. NOTES TO THE TABLES

TABLE 1.1: Bank of Guyana: Assets

Foreign Assets

Balances with Foreign Banks: Deposits of the Central Bank with Foreign Banks. The data also include holdings of foreign notes and gold. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

Gold Tranche with the I.M.F.: One quarter of Guyana's subscription to the International Monetary Fund (I.M.F.) quota, which comprises gold and/or convertible currencies.

Holdings of Special Drawing Rights: Unused portion of the Special Drawing Rights (S.D.R.s) allocated by the I.M.F.

Money Market Securities: Holdings of short-and long-term debt instruments of foreign governments and the International Bank for Reconstruction and Development (I.B.R.D.) recorded at cost. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

Claims on the Central Government: Holdings of the Government of Guyana Treasury Bills, Debentures valued at cost and Advances from the Bank of Guyana. The Bank of Guyana Act No. 19 of 1998 section 46 has since removed the possibility of advances to Government since it restricted the Central Bank from extending credit directly or indirectly to the Government from that date.

Advances to Commercial Banks: Short term credit to Commercial Banks.

Other Assets: Include fixed assets such as land and buildings, furniture and equipment. Cheques in the process of collection, notes and coins issued by the British Caribbean Currency Board, non-interest-bearing debentures, and other miscellaneous assets are also included.

TABLE 1.2: Bank of Guyana: Liabilities

Currency Issue: Notes and Coins issued by the Bank.

Government Deposits: Current account deposits of the Central Government which includes sterilised amount from open market type operation with effect from 1994.

Deposits of International Organisations: Obligations to the I.M.F.; local currency component of the subscription to the I.M.F. quota; deposits of the I.B.R.D, the Caribbean Development Bank (C.D.B.) and foreign central banks. Other foreign liabilities of the Bank of Guyana are also included.

Bank Deposits-EPDs: Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers pending foreign exchange releases to meet foreign obligations which fell into arrears prior to 1990. This scheme was discontinued for foreign obligations after 1990.

Bank Deposits-Other: Commercial Banks' reserve deposits which includes statutory reserves with Bank of Guyana are recorded here. With effect from December 1994, special interest earning deposits of the Commercial Banks were discontinued in favour of unremunerated required free reserves.

Other Deposits: Includes deposits of National Insurance Scheme (N.I.S.), Guyana Gold Board (US \$ Deposits), Guyana Energy Agency (GEA) and Linden Economic Advancement among others.

Authorised Share Capital: The enactment of the Bank of Guyana Act No. 19 of 1998 provided for the increase in the capital for the Bank as part of the reform process.

Other Reserves: These reserves include General, Revaluation and Contingency Reserves.

Allocation of S.D.R.'s: Liability accruing from the SDRs allocated to Guyana, which are valued at the equivalent of Guyana dollar amount converted through the S.D.R. /U.S. dollar cross rate.

Other Liabilities: Include provision for accrued expenses, items in transit; private investment fund; and miscellaneous items. The decline in Other Liabilities from November 30, 2002 to December 31, 2002 reflects the charging of valuation changes to Other and Government Deposits.

TABLE 1.3: Bank of Guyana: Currency Notes Issue

Total issue less withdrawal of mutilated or spoiled legal tender notes. With the intent of enhancing the efficiency of the Payment System, the Bank of Guyana introduced a G\$5,000 note in 2013.

TABLE 1.4: Bank of Guyana: Coins Issue

Total issue less withdrawals of defaced legal tender coins. The Bank of Guyana as part of its currency reform programme introduced with effect from January 1, 1997, G\$10, G\$5, G\$1 coins as legal tender and removed from the specie the use of cents.

TABLE 2.1(a): Commercial Banks: Assets

Balances due from Banks abroad: Deposits of Commercial Banks with Non-Resident foreign banks included head offices and branches.

Loans to Non-Residents: Commercial Bank lending to Non-Resident customers. Due to re-classification at a Commercial Bank, figures for Private Sector and Non-Resident loans have been revised from December 2000 to May 2002. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for loans to Non – Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

Other Foreign Assets: Include foreign currency holdings and all other claims on Non-Residents by Commercial Banks. Due to reclassification at a Commercial Bank figures for Public Sector Other and Foreign Sector Other were revised from September 2002 to February 2003.

Securities: The total volume of Central Government Treasury Bills recorded at cost and debentures held by commercial banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for Securities include accrued interest from Dec. 2002.

Loans: Central Government borrowing from the Commercial Banks. See note above under loans to Non-Residents.

Public Enterprises: Loans and Advances extended by Commercial Banks to Public Financial Business Enterprises. Public Non-Financial Enterprises are defined as enterprises in which Government owns above 50 per cent of the share capital. See note above under loans to Non-Residents.

Other: Commercial Banks' claims on Local Government and the National Insurance Scheme. See note above under loans to Non-Residents

Non-Bank Financial Institutions: Loans issued to Public and Private Non-Bank Financial Institutions by Commercial Banks'. See note above under loans to Non-Residents

Private Sector: Lending through loans and advances to Private Non-Financial Business Enterprises and Individual Customers. See note above under loans to Non-Residents.

The decline in Private Sector Loans and Advances resulted partly from a reclassification of some loans at one Commercial Bank. See note above under loans to Non-Residents.

The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National bank of Industry and Commerce Limited on March 15' 2003 resulted in the decline in Private Sector Loans and Advances during March 2003.

Deposits with Bank of Guyana: Include statutory reserve deposits and interest earning deposits of the Commercial Banks. Effective December 28, 1994, interest-earning deposits were discontinued.

External Payment Deposits (E.P.D): Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers, pending foreign exchange releases to meet external obligations.

Currency: Commercial Banks' holdings of local notes and coins.

Other Assets: Include balances due from other Commercial Banks, Real Estate Mortgage Loans, fixed assets such as land and building, furniture, equipment and other miscellaneous assets.

TABLE 2.1(b): Commercial Banks: Liabilities, Capital and Reserves

Balances due to Other Banks abroad: Foreign claims made on local Commercial Banks by Head Offices and other banks abroad.

Non-Resident Deposits: Total deposits made by Non-Resident customers with Commercial Banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for deposits to Non-Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

Other: Include all other foreign claims on Commercial Banks.

Central Government Deposits: Total demand, time and savings deposits made by the Central Government with Commercial Banks. See note above under deposits to Non-Residents.

Public Enterprise Deposits: Total demand, time and savings deposits made by Public Non-Financial Enterprises with the Commercial Banks. Due to the sale of Aroaima Bauxite Company to the government and a reclassification of its accounts from the Private to Public Sector, figures from January 2002 to April 2002 have been revised. See note above under deposits to Non-Residents.

Other Public Deposits: Include total deposits of Local Government and National Insurance Scheme. See note above under deposits to non-residents. See note on Table 2.4 Commercial Banks: Time Deposits.

Non-Bank Financial Institutions Deposits: Consist of total deposits made by Public and Private Financial Institutions. See note above under deposits to Non-Residents. See note on Table 2.4: Commercial Banks: Time Deposits.

Private Sector Deposits: Include total demand, time and savings deposits of Private non-financial Business Enterprises and individual customers. See note above under Public Enterprises Deposits. See note above under deposits to non-residents.

External Payment Deposits: Comprise customers' deposits (public and private sector) with commercial banks on account of External Liabilities prior to 1990 and awaiting foreign exchange releases from the BOG.

Bank of Guyana: Commercial Bank short-term borrowing from the Bank of Guyana.

Other Liabilities: Other liabilities of the Commercial Banks include manager's cheques, acceptances, provision for taxes and other miscellaneous liabilities.

Capital and Reserve: The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National Bank of Industry and Commerce Limited (now Republic Bank Guyana Limited) on March 15, 2003 resulted in the decline in the capital and reserve of the banking systems during March 2003.

TABLE 2.2: Commercial Banks: Total Deposits

Total demand, savings and time deposits of Residents and Non-Residents excluding inter-bank deposits are presented. Foreign currencies denominated deposits are also included here. See note under Public Enterprises Deposits for Table 2.1 (b) above. See note under Non – Resident Deposits for Table 2.1(b) above.

TABLE 2.3: Commercial Banks: Demand Deposits

Current account deposits of Residents and Non-Residents; inter-bank deposits are excluded.
See note under Public Enterprises Deposits for Table 2.1 (b) above.

TABLE 2.4: Commercial Banks: Time Deposits

Fixed deposits of Residents and Non-Residents with a minimum withdrawal notice of three months; exclude inter-bank deposits. See note under Non-Resident deposits for Table 2.1(b) above. Due to a reclassification of N.I.S and Non-Bank Financial Institutions' time deposits, figures from December 2003 to April 2005 were revised.

TABLE 2.5: Commercial Banks: Savings Deposits

Deposits with minimum withdrawal notice of one day; exclude inter-bank deposits. See note under Public Enterprises Deposits for Tables 2.1 (b) above. See note non-resident deposits for Table 2.1(b) above.

TABLE 2.6: Commercial Banks: Time Deposits by Maturity

Includes deposits of both Residents and Non-Residents. See note under Commercial Banks: Time Deposits for table 2.4 above.

TABLE 2.7: Commercial Banks: Savings Deposits

Includes deposits by both Residents and Non-Residents. Ending balance on savings accounts for November 2002 do not equate to the opening balance for December 2002 due to the addition of accrued interest to the December 2002 opening balance. The ending balance for February 2003 saving accounts differs from the opening balance for March 2003 due to the reclassification from

demand and time accounts to saving accounts.

TABLE 2.9: Commercial Banks: Clearing Balances

Comprise total amount of cheques cleared by and debited to the accounts of the Commercial Banks. A National Clearing House was established at the Bank of Guyana during 1998 whereby large (in excess of G\$500,000) and small valued cheques are cleared. Data recorded after 1998 in this table reflect the value of small valued cheques cleared over the reporting period.

TABLE 2.10: Commercial Banks: Total Loans and Advances

The data include Loans and Advances to Residents and Non-Residents. Real Estate Mortgage Loans and inter-bank loans are excluded. The total of loans and advances to the private sector differs from total credit to the private sector in Table 3.1 (Monetary Survey). The totals for credit to the private sector in Table 3.1 include local securities, other credit instruments and real estate mortgage loans. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit have been revised from January 2012 to March 2013.

See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

TABLE 2.10(b): Commercial Banks: Total Loans and Advances

The data covers total Loans and Advances to Residents and Non-Residents including Real Estate Mortgage Loans effective December 2001. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.

TABLE 2.11: Commercial Banks: Demand Loans and Advances

The data cover lending for short periods including overnight loans to Residents and Non-Residents and exclude inter-bank loans. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.

See note under Private Sector for Table 2.1(a) above.

TABLE 2.12: Commercial Banks: Term Loans and Advances

The Loans and Advances are for longer periods extended to Residents and Non-Residents; inter-bank lending is excluded. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.

See note under Private Sector for Table 2.1(a) above. See note under loans to Non-Residents for Table 2.1(a) above.

TABLE 2.13: Commercial Banks: Loans and Advances to Residents by Sector

The data provided record balances at the end of the respective period and therefore indicates the indebtedness of the respective industries at the end of the reporting period. The value of credit obtained by each industry for a given period can be obtained by taking the difference between the balances at the end of the desired period and that immediately preceding. The balances in this table exclude inter-bank loans, real estate mortgage loans, local securities and other credit instruments. It should be noted that gross indebtedness of the sugar and rice industry can be obtained by adding the balances of sugar cane and sugar and molasses manufacturing of sugar, and paddy and rice milling for rice respectively. Figures under the 'other purposes' sub-category has been reclassified to exclude credit card transactions effective from March 2007. Due to a reclassification by two Commercial Banks, figures under the Private Sector have been revised from January 2012 to March 2013. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

TABLE 2.14: Commercial Banks: Liquid Assets

The liquid assets comprise Bank of Guyana notes and coins, foreign currency held by banks, (special interest earning) deposits held at the Bank of Guyana (BOG), balances due from other Commercial Banks - both local and foreign, Government of Guyana Treasury Bills. The special reserves deposits (SRDs) established in 1969, discontinued in 1994 as the Bank of Guyana sought to develop its capacity to manage the excess reserves of the bank more effectively. Approximately, 75-80 per cent of the SRDs were absorbed through a sale of three year, variable rate, and fixed date debenture to the Commercial Banks.

Prior to March 1989, the legally required level of liquid assets to be held by the Commercial Banks against their deposit liabilities was calculated as the sum of 20 percent of demand liabilities and 15 percent of time liabilities. During the period March 31, 1989 to May 15, 1991 the determination of the required liquid assets held by the banks was based on actual holdings on specified dates. Accordingly, from March 31, 1989 to June 30, 1990 required liquid assets were stipulated as the actual holdings on March 15, 1989. Between July 30, 1990 and February 19, 1991 the required liquid assets was based on the assets held by the banks on September 30, 1989. Further, between February 20, 1991 and May 14, 1991 the required balances were set as at the end of July 30, 1990.

With effect from May 15, 1991, however, the basis for calculating required liquid assets was changed to 25 percent of demand liabilities and 20 percent of time liabilities. Further, amendments to the liquid asset requirements became effective on 26th, October 1998. The liquid assets base period has been redefined as the Monday to Friday workweek immediately preceding the liquid asset maintenance period. The liquid asset requirement is determined by applying the prescribed percentages to the weekly average of the daily liabilities balances at the close of business of each of the five days of the liquid asset base period. Figures for Treasury Bills were reclassified from December 2000 to December 2002.

TABLE 2.15: Commercial Banks: Minimum Reserve Requirements

Prior to May 16, 1991, the minimum required reserves of the Commercial Banks were calculated as 6 percent of demand liabilities and 4 percent of time liabilities. Their percentages were changed with effect from May 16, 1991, to 11 percent of demand liabilities and 9 percent of time liabilities. Commencing April 7, 1994, the minimum required reserves of the Commercial Banks were again revised to the sum of 16 percent of demand liabilities and 14 percent of time liabilities.

On June 29, 1998, in addition to Commercial Banks, other licensed Financial Institutions were required to maintain balances with the Central Bank against their deposits and other liabilities. Further, the required reserve period has been changed on Monday to Friday workweek instead of the Wednesday to Thursday week used previously. The required reserve period has been referred to as the reserve base period. The week following the current reserve base period, i.e. the reserve maintenance period is also based on the Monday to Friday workweek. The deposits and other liabilities to which the required reserve ratio(s) are applied are referred to as the reserve base. During the reserve maintenance period, all licensed Financial Institutions subject to reserve requirement are required to maintain reserves against the relevant deposit and other liabilities.

Effective February 1, 1999, the required reserve ratio applicable to all liabilities of licensed Financial Institutions was lowered to twelve per cent (12 %). The first reserve base period for which the revised requirements became relevant was the 1st to 5th February 1999 while the reserve maintenance period was the 8th to 12th February 1999. However, reserve balances for the Non-Bank licensed Financial Institutions are excluded from table 2.15.

TABLE 2.16(a): Foreign Exchange Intervention

This comprises Bank of Guyana's purchases and sales of US Dollars to the Commercial Banks.

TABLE 2.16(b): Interbank Trade

This comprises foreign currency (US, Euro, Pounds Sterling and Canadian) purchases and sales amongst the Commercial Banks.

TABLE 2.17: Commercial Banks holdings of treasury bills

These are short-term government securities held by the Commercial Banks with maturities of 91 days, 182 days and 364 days. Data are at face value.

TABLE 3.1: Monetary Survey

A consolidation of the balance sheets of the Bank of Guyana and Commercial Banks.

Foreign Assets (net)

Bank of Guyana: Gross foreign assets **less** gross foreign liabilities.

Commercial Banks: Gross foreign assets **less** gross foreign liabilities. See note under Loans to Non-Residents for Table 2.1 (a) above.

Domestic Credit

Government (net): Gross lending to Central Government by the banking system (a sum of Holdings of debentures, bonds, Treasury Bills and loans and advances **less** total deposits of the Central Government).

Public Enterprise (net): Gross borrowing by Non-Financial Public Enterprises from the banking system **less** their deposits. See notes under Public Enterprises Deposits for Table 2.1 (b) and Commercial Banks: Time Deposits for Table 2.4 above.

Other Public Sector (net): Gross borrowing from the banking system by local authorities and municipalities **less** their total deposits and other Public Sector funds. See note under loans to Non-Residents for Table 2.1(b) above.

Non-Bank Financial Institution (net): Gross borrowing from the banking system by the non-bank financial intermediaries with the banking system **less** their deposits. See notes under loans to Non-Residents for Table 2.1(b) and Commercial Banks: Time Deposits for Table 2.4 above.

Private Sector: Gross borrowing from the banking system. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

Money and Quasi-Money

Money: Currency outside banks **plus** private sector demand deposits, managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above

Currency: Currency issue (Table 1.2) **less** currency holdings by Commercial Banks (Table 2.1(a)).

Quasi-money: Time and savings deposits held by the Private Sector. See note under Public Enterprises Deposits for Table 2.1 (b) above.

Demand deposits: Balances of the Private Sector including managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above.

Savings and Time deposits: Balances held by Private Sector. See note under Loans to Non-Residents for Table 2.1 (a) above.

Other (net): Includes the net sum of all assets and liabilities of the Bank of Guyana and the Commercial Banks not shown elsewhere.

TABLE 3.2: International Reserves and Foreign Assets

International Reserves

Bank of Guyana Foreign Assets: Data include gold holdings, balances with foreign banks, foreign notes, foreign cash in the process of collection, gold tranche with I.M.F., S.D.R. holdings and money securities.

Bank of Guyana Foreign Liabilities: Data include total short-term liabilities, short-term liabilities in arrears and total medium-term liabilities in arrears. The liabilities include interest obligations. Rescheduled short-term liabilities are excluded.

Foreign Assets

Bank of Guyana Foreign Assets: The composition of the assets is identical to that of International Reserves foreign assets above.

Bank of Guyana Foreign Liabilities: Data includes all short-term liabilities (current, arrears and rescheduled) and all medium-term liabilities (current, arrears and rescheduled). The liabilities include interest obligations.

Commercial Bank Foreign Assets: Data includes foreign currencies in banks, net balances due from Head Office and other branches abroad, balances due from other banks abroad, foreign treasury bills and securities and credit to non-residents. See note under loans to Non-Residents for Table 2.1(a) above.

Commercial Bank Foreign Liabilities: Data includes net balances due to Head Office and other branches abroad, balances due to other banks abroad and deposits of non-residents.

TABLE 4.1: Guyana: Selected Interest Rates

Reflects interest rates at Commercial Banks and Non-Bank Financial Institutions on loans and deposits. The small savings rate represents an arithmetic average of savings deposit rates as reported by the Commercial Banks. Treasury bill rates for all maturities reflect rates at the end of the reporting period. Special deposits have been discontinued with effect from December 1994.

TABLE 4.2: Commercial Banks: Selected Interest Rates

Arithmetic average of interest rates as reported by the Commercial Banks.

TABLE 4.3: Comparative Treasury Bills Rates and Bank Rates

The average discount rate on three month Treasury Bills for the U.K., U.S.A., Barbados, Trinidad, Guyana and Jamaica. The U.K. and U.S. rates are the average discount rates at the last tender in each month. The rates for the CARICOM territories are those rates of monthly tender held towards

TABLE 5.1: The New Building Society: Assets and Liabilities

Assets

Foreign Assets: Includes holdings of foreign assets.

Cash and Deposits: Holdings of cash and total deposits (demand, time and savings) at Commercial Banks.

Government of Guyana Treasury Bills: Holdings of Treasury Bills recorded at book value.

Government of Guyana Securities: Holdings of debentures and defence bonds at book value.

Government of Guyana Debentures: Holdings of debentures at book value.

Local Authorities Securities: Bonds at book value.

Liabilities

Share Deposits: A total of Five Dollar and Save and Prosper Share deposits.

Other Deposits: Ordinary Saving deposits

TABLE 5.2 (a): Trust Companies: Assets

Trust Companies reflect the consolidated operations of Trust Company (Guyana) Limited and Hand-In-Hand Trust.

Cash: Currency (local notes and coins) held by the institution.

Deposits: Balances of savings and time deposits at Bank of Guyana and the Commercial Banks.

Government of Guyana Treasury Bills: Recorded at book value.

Local Government Securities: Recorded at book value.

TABLE 5.2 (b): Trust Companies: Liabilities

Deposits – Business Firms: Balances held by private sector businesses.

Deposits – Individual Customers: Balances held by private individuals.

Deposits – Other Customers: Balances held by other private sector agencies including non-financial organizations.

TABLE 5.2 (c): Finance Companies: Assets

Finance Companies reflect the consolidated operations of Secure International Finance Company, Beharry Stock Brokers Limited and one merchant bank.

Cash: See note under Cash for Table 5.2 (a) above.

Deposits: Balances of savings and time deposits at Commercial Banks.

Private Sector Shares: Ownership of equity such as bonds, bills, shares etc. in private companies.

TABLE 5.2 (d): Finance Companies: Liabilities

Loans: Loans received from Companies' affiliates.

Capital and Reserves: Includes retained earnings and reserves.

Deposits – Other Customers: Balances held by other private sector agencies including non-financial organizations.

TABLE 5.3: Domestic Life Insurance Companies: Assets and Liabilities

The data cover four insurance companies: Demerara Mutual Life Assurance Company; Guyana and Trinidad Mutual Life Insurance Company; Hand-In-Hand Mutual Life Insurance Company and North American Life Insurance Company Limited.

Assets

Foreign Commercial Bank Deposits: Deposits held in Foreign Commercial Banks.

Foreign Securities: Holdings of the Government of the United Kingdom and CARICOM countries and other foreign securities.

Other Foreign Assets: Balances due from reinsurance abroad, and other foreign assets.

Government of Guyana Debentures: Holdings are recorded at book value.

Local Government Securities: Holdings are recorded at book value.

Securities in Firms: Holdings of commercial bills, shares and other securities recorded at book value.

Liabilities

Life Insurance Fund: Insurance premia received.

Foreign Liabilities: Claims by non-residents, balances due to insurance companies abroad, non-resident life insurance funds and other liabilities.

TABLE 5.4: Pension Schemes: Assets and Liabilities

Assets

Foreign Sector: Includes foreign deposits and foreign securities.

Government of Guyana Treasury Bills: Holdings recorded at book value.

Government of Guyana Debentures: Holdings recorded at book value.

Local Government Securities: Holdings of Local Government Securities recorded at book value.

Liabilities:

Pension Fund: Receipts from the twenty-seven pension funds in Guyana which submit returns to the Bank of Guyana.

TABLE 6.1 Central Government Finances: Summary

Current Revenue: The data include collection of taxes, other charges and fees. The data are recorded on a cash basis.

Current Expenditure: The data include interest payment, interest charges and other

expenditure. Repayment of Principal is not included. The data are recorded on a cash basis.

Current Surplus/Deficit: Current revenue **less** current expenditure.

Capital Receipts: These include proceeds from sale of assets and external grants.

Capital Expenditure: Investment expenditure; the data also include net transfers and lending to the public enterprises for financing development projects.

Overall Surplus/Deficit: The total of current revenue and capital receipts **less** the total of current and capital expenditure.

Borrowing from abroad:

Net short term: Gross borrowing with a maturity of up to 1 year **less** repayment of principal.

Long term net borrowing: Gross borrowing with a maturity of over 1 year **less** repayment of principal.

Domestic Borrowing:

Borrowing from the banking system (net): The banking system holdings of Government debentures, bonds, Treasury Bills and loans and advances **less** Government deposits.

Non-bank borrowing: Borrowing outside the banking system. Short-term (net) includes Treasury bill holdings **less** redemptions and local suppliers' credits. Long-term (net) borrowing comprises holdings of debentures and development bonds **less** redemptions. Holdings of debentures and Treasury Bills by sinking funds are excluded.

Other Financing: Comprises mainly accumulated arrears on external debt repayment, rescheduling of debt and financing from counterpart funds.

TABLE 6.4 Public Corporations Finances: Summary

The table summarises the financial operations of the public corporations and companies. All data from 1990 are based on cash flow statements. Prior to 1990 the data were on an accrual basis.

TABLE 7.1 Domestic Public Debt

Comprise Government of Guyana Defence Premium Bonds, Guymine Bonds, Debentures and Treasury Bills.

Defence Premium Bonds: These are non-interest bearing savings certificates of six months duration. They are no longer used to raise funds. Data are at face value.

Guymine Bonds: These were issued by the Government of Guyana to foreign creditors of the Guyana Mining Enterprise at the time of the firm's restructuring in June 1992. The amounts shown here were required by Guyanese residents during 2000 through 2002. Data are at face value.

Government of Guyana Debentures: These are long term government securities with maturities in excess of one year. Data are at face value.

Government Treasury Bills: These are short-term government securities with maturities of 91 days, 182 days and 364 days. Data are at face value.

TABLE 7.2**Government of Guyana: Treasury Bills by Holders**

The holdings of Treasury Bills are recorded at face value. Consequently, figures in this table will differ from those reported in the balance sheet of the Bank of Guyana, Commercial Banks and Non-Bank Financial Institutions, which are recorded at book value.

Other Financial Institutions: Consist of non-bank financial institutions viz:- building societies, insurance companies, trust companies and pension funds.

Public Sector: Include Public Enterprises, National Insurance Scheme, other funds and sinking funds.

Private Sector: excludes financial institutions.

Non-residents: include foreign missions and organizations.

TABLE 7.3**Government of Guyana: Debentures by Holders and Other Debt**

The holdings of Debentures and Defence Bonds are at face value. The debentures are long term government securities with maturities in excess of one year. Non-interest bearing debentures held by the Bank of Guyana are excluded. The Defence Bonds have a six-month duration. They are no longer issued.

TABLE 7.4**Government of Guyana: Debentures by Maturities and Terms**

Data include all fixed date, equated annuity and special issues; at face value.

Fixed Date Debentures: These debentures have fixed dates for payments of principal and interest.

Special Issues: Comprise fixed date and equate annuity debentures issued to Bank of Guyana and the National Insurance Scheme. In 1994 the Central Bank absorbed between 75 percent to 80 percent of the excess reserves of the banking system, through a forced sale of a long term (3 years) variable rate fixed date debenture. The interest is calculated at a rate of point five percent (0.5 %) per annum above the regular three month treasury bill yield rate averaged over the calendar months prior to the interest due date. In 2003, the Government of Guyana made a special issue of debentures to the National Bank of Industry and Commerce (NBIC) (now Republic Bank (Guyana) Limited) to capitalize the Guyana National Co-operative Bank (GNCB) at the time of its privatization.

TABLE 7.5**External Public Debt**

The data comprise the stock of Central Government and Government guaranteed debt outstanding, Bank of Guyana's debt is excluded.

Bilateral Debt: Debt contracted with foreign investments.

Multilateral Debt: Debt contracted with international lending institutions such as the World Bank, the Inter-American Development Bank, the Caribbean Development Bank and the European Investment Bank.

Financial Institutions Debt: These debts include borrowing from foreign commercial banks and specialized official lending agencies.

Suppliers Credit: Obligations to suppliers for deferred payment after delivery of goods and/or services.

Nationalisation Debt: Amounts owing to foreigners in compensation for nationalized assets.

TABLE 8.1(1) Imports by End-Use

The data are compiled on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Figures for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana.

TABLE 8.2 Domestic Exports

The data are compiled on a free-on-board (f.o.b.) basis as recorded on customs returns. Figures for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana.

TABLE 8.6 International Reserves and Foreign Assets

International Reserves

Bank of Guyana Foreign Assets: Data include gold holdings, balances with foreign banks, foreign notes, foreign cash in the process of collection, gold tranche with I.M.F., S.D.R. holdings and money market securities.

Bank of Guyana Foreign Liabilities: Data include total short-term current liabilities, short-term liabilities in arrears and total medium liabilities in arrears. The liabilities include interest obligations. Rescheduled short-term liabilities are excluded.

Foreign Assets

Bank of Guyana Foreign Assets: The composition of the assets is identical to that of International Reserves Foreign Assets above.

Bank of Guyana Foreign Liabilities: Data include all short-term liabilities (current, arrears and rescheduled) and all medium term liabilities (current, arrears and rescheduled). The liabilities include interest obligations.

Commercial Banks' Foreign Assets: Data include foreign currencies in banks, net balances due from Head Offices and other branches abroad, balances due from other banks abroad, foreign treasury bills and securities and credit to non-residents.

Commercial Banks' Foreign Liabilities: Data include net balances due to Head Offices and other branches abroad, balances due to other banks abroad and deposits of non-residents. See note under Loans to Non-Residents for Table 2.1(a) above.

TABLE 8.8 Balances of Payments

Exports: The data are compiled on a free on board (f.o.b.) basis as recorded on customs returns. Data for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

Imports: The data are compiled on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Data for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

TABLE 9.1 Changes in Bank of Guyana Transaction Exchange Rates

The Guyana dollar was fixed in Pound Sterling at the rate of £1 to G\$4.80 until October of

1975 when it was linked to the US\$1 to G\$2.55.

On June 2, 1981, the Guyana dollar was pegged to a composite basket of currencies consisting of the United States dollar, Pound Sterling, Deutsche Mark, Trinidad and Tobago dollar and the Japanese Yen. The exchange rates was fixed at US\$1 to G\$3.00. The US dollar was the intervention currency used to determine the exchange rate.

From January 11,1984, the composite basket of currencies was adjusted to include the Pound Sterling, Deutsche Mark, Japanese Yen, French Franc and the Netherlands Guilder, the US dollar, although nor part of the revised basket, remained as the intervention currency. The United States dollar/Guyana dollar exchange rate was announced weekly. From October 1984 until January 1987, the exchange rate was maintained in the range of G\$4.15 to G\$4.40 per US dollar.

Effective January 19, 1987, the Guyana dollar was devalued to G\$10 to US\$1, effective from April 3, 1989 the Guyana dollar was devalued moving from G\$33 per US\$ to US\$1. On June 15, 1990, the Guyana dollar was devalued from G\$33.00 per US\$ to G\$45.00 per US\$. Transactions for this rate were confined to payments in respect of oil imports and external debt services and proceeds from sugar and rice exports.

On February 21, 1991, the Guyana dollar was devalued from G\$45.00 to US\$ to G\$101.75 thereby unifying the official exchange rate with the market determined rate prevailing at that date. The US dollar continued to be the intervention currency. From February 25, 1991, the exchange rate was fixed on a weekly basis. During the period February to September 1991, the exchange rate was determined by the pervious week free market exchange rate of the Commercial Banks and Non-Bank dealers.

From October 1991, the average weighted daily exchange rate was telegraphic transfers for the three largest Commercial Banks was utilised to determine the exchange rate for the Bank of Guyana daily transactions.

TABLE 9.2(b) Exchange Rate (G\$/US\$)

The end of period exchange rate is the weighted official rate used by the Bank of Guyana for transactions. The period average exchange rate reflects the weighted average rate for the respective periods.

TABLE 9.6: Monthly Average Market Exchange Rate

On March 13, 1990, the authorities established the cambio system for foreign currency transactions. Under the system, transactions in the cambio market were conducted freely with licensed dealers (banks and non-banks) setting the rate at which foreign exchange could be bought and sold. The rates are referred to as the market exchange rates. Data collection for the Euro started in January 2004.

The buying rate is a weighted average of the purchase rates of all licensed foreign exchange dealers for the month.

The selling rate is a weighted average of the sales rates of all licensed foreign exchange dealers for the month.

The mid-rate is the average buying and selling rates of all licensed foreign exchange dealers. The rate is based on transactions in foreign notes only.

TABLE 10.1 Gross Domestic Products, Income and Expenditure (at Current Basic Prices)

GDP compiled at current basic prices, for the respective year, is the production of goods and

services undertaken by firms, households, government bodies within the borders of the country during a calendar year, at the amount receivable by the producer from the purchase of a unit of good or service less any tax payable, plus any subsidy receivable as a consequence of its production or sale.

TABLE 10.2 Gross Domestic Products (at 2006 Prices)

Real GDP – taking the quantities of goods and services produced (at the current basic year) and priced at the base year of 2006 prices, it is therefore adjusted for any variation in prices (inflation or deflation).

TABLES 10.3 National Production

This accounts for the major commodities that account for a significant portion of national production and economic activities within a calendar year. It is sourced from the Bureau of Statistic (BOS) as well as the respective industries, such as for rice: Guyana Rice Development Board, sugar: GUYSUICO, forestry: Guyana Forestry Commission and gold: Guyana Gold Board, etc.

Table 11.1 Georgetown: Urban Consumer Price Index

The Urban Consumer Price Index measures the overall level of price movement for a specified basket of consumer goods and services in the urban area. It is compiled and computed by the Bureau of Statistics, and the basket is made up of nine (9) sub-categories, (this table highlights four: Food, Housing, Transport & Communication and Miscellaneous), which comprises of 217 items (goods and services). The current base year December 2009.

Table 11.2 CARICOM Countries: Consumer Price Indices

This table reflects the consumer price movements for selected CARICOM countries (current base year 2010).
