1. **OVERVIEW**

The economic recovery path of the global economy appears poised after facing adverse shocks in the last 3 years – most notably due to the COVID-19 pandemic and Russia's of Ukraine. Supply invasion disruptions are unwinding, while the disturbances to energy and food markets the are retreating. caused by war Additionally, the massive tightening of monetary policy by most central banks have started to succeed with inflation returning to it respective targets.

However, geopolitical tensions remain high as the war continues and risks remain firmly to the downside with the increased uncertainty from the recent financial sector turmoil. As such, global economic growth is forecasted at 2.8 percent for 2023 (0.6 pp decline from 2022), before rising modestly to 3.0 percent in 2024.

The Guyanese economy recorded mixed output performances in the major sectors during the first quarter of 2023. The agricultural sector recorded growth in rice and sugar, while forestry experienced declines in production. In the mining & quarrying sector, oil, stone and sand registered positive growth. There were declines in the production of bauxite and gold. The manufacturing sector recorded increased production of biscuits, stock feed, paints, industrial flour and aerated beverages, while ice cream, margarine, oxygen, alcoholic beverages, and putty production declined. The construction sector activities increased in both public and

private sectors with the building of infrastructure by Central Government as well as private commercial ventures and housing.

The inflation rate stood at -0.6 percent at end-March 2023, mainly due to declines in prices in categories of food, medical care & health services, clothing and transport & communication.

The overall balance of payments recorded a higher deficit of US\$175.5 million compared to US\$132 million for the same period last year. This outturn reflected a capital account deficit despite a current account surplus. The current account surplus resulted from higher export of crude oil, gold and rice. The capital account deficit was on account of outflows of oil revenues to the Natural Resource Fund (NRF) and oil cost recovery (withdrawal of equity) by the oil and gas sector.

Guyana's net international investment position (NIIP) was US\$12,815.4 million at the end of March 2023, a deterioration of US\$76.6 million from the end-December 2022 position. This was due to a reduction in assets despite a decline in liabilities.

The total value of transactions on the foreign exchange market increased by 27.0 percent or US\$747.8 million to US\$3,520.8 million. Soft & hard currency transactions, licensed bank and non-bank cambios exchanges and foreign currency accounts transactions all recorded higher receipts compared to one year ago. Moreover, total foreign exchange sales were greater than purchases by

US\$154.7 million. The Bank's mid-rate, which is the reference for official transactions, was unchanged at G\$208.50 during the first quarter of 2023.

The overall financial position of the Public Sector (which includes the Central Government and the Non-Financial Public Enterprises (NFPEs)) reported a surplus of G\$31,849 million at end–March 2023. The Central government registered a surplus of G\$32,250 million while the Non-Financial Public Enterprises recorded a deficit of G\$402 million.

The total stock of public and publicly guaranteed debt, which comprises both external and domestic debt, increased by 2.3 percent to US\$3,739.4 million compared to the end-December 2022 position. Domestic debt stock increased to US\$2,159.4 million during the review period, on account of increased issuance of bills for Central Government's budgetary financing. Domestic debt service payments increased by 49.8 percent, as a result of higher interest repayments on treasury bills, particularly, the 364-day bill. Total domestic principal and interest payments were G\$274.1 million and G\$578.7 million, respectively. Domestic debt service payments accounted for 0.7 percent of government revenue.

The stock of external debt increased to US\$1,580 million on account of increase in multilateral debt stock during the review period. This is due to positive net flows from multilateral creditors. External debt service

payments, which accounted for 1.7 percent of export earnings, increased by 27.9 percent, account of higher principal repayments to bilateral creditors and higher interest payments to multilateral creditors.

The monetary aggregates of reserve money and broad money grew by 1.5 percent and 4.5 percent, respectively, during the first quarter of 2023. The former reflected an increase in net domestic assets of the Bank of Guyana while the latter was on account of expansions in net domestic credit and other items (net)¹. Private sector credit rose by 1.9 percent at end-March 2023 compared with a decline of 0.5 percent for the corresponding period last year. Commercial banks interest rates were stable while spreads remained high.

The financial resources of the Non-Bank Financial Institutions (NBFIs), which includes depository and non-depository financial institutions, increased by 10.1 percent to G\$488,055 million. The sector's share of assets in the total financial sector increased by 1.5 percent from 35.3 percent at end- December 2022 to 36.8 percent at end-March 2023.

At the end of the first quarter of 2023, the financial system remained relatively stable with the Licensed Depository Financial Institutions (LDFIs) being adequately capitalised, highly liquid and profitable. The Capital Adequacy Ratio (CAR) continued to exceed the prudential 8 percent benchmark. Asset quality improved relative to the corresponding 2022 period as non-

¹ Other items (net) includes commercial banks' undistributed profits and other assets of the Bank of Guyana.

performing loans (NPLs) stood at 4.5 percent, 2.6pp below the end-March 2022. The average level of liquidity remained adequate at one percent above the corresponding 2022 level, while LDFIs after-tax profits increased 20.3 percent over the end-March 2022.

At end-March 2023, the insurance sector was adequately capitalized as both the life and non-life insurance sectors' assets exceeded their respective solvency requirements in keeping with the Insurance Act 2016. However, there are potential systemic issues from concentration of assets.

Pension funds' vulnerability to market risk was moderate and stable for the quarter ended March 2023, however, Defined Contribution (DC) pension funds continued to be largely exposed to insurance companies having investments in deposit administration contracts.

The conduct of monetary policy maintained its focus on price stability while ensuring an adequate level of liquidity in the system to provide for private sector credit and economic growth. The Bank continued to use treasury bills in its primary Open Market Operations and continued to facilitate efficient intermediation through the issuance of notes and coins.

The Bank continued the modernization of the payment system as well as expand the payment services that currently exist within the national system. The newly implemented systems, Guyana Real Time Gross Settlement (G-RTGS) and Guyana Central Securities Depository (G-CSD) systems are now fully integrated with the previously existed Automated Clearing House (ACH) system. The ACH system comprises the Guyana Electronic Funds Transfer (G-EFT) and the Guyana Electronic Cheque Clearing (G-ECC) sub-systems which together with the G-RTGS & G-CSD systems have formed a modern and unified payments system infrastructure for all Guyanese and in the process, meeting the required international standards and demands.

2. REVIEW OF THE FIRST QUARTER OF 2022

PRODUCTION

The Guyanese economy recorded mixed output performances in the major sectors during the first quarter of 2023. Oil sector production continued to contribute greatly to the growth of the overall economy while the non-oil economy experienced moderate growth, specifically in the sectors of agriculture, manufacturing and construction as well as services.

In the agriculture and forestry sector, rice production achieved a 36.5 percent increase to 110,932 metric tons, when compared to one year prior. This resulted from favourable weather conditions, which allowed for an increase in yield. Similarly, sugar production increased by 14.7 percent to 10,003 metric tons, when compared to the same period, one vear earlier. This performance was as a result of favourable weather conditions, which provided for better quality cane and for easier harvesting. Forestry activities contracted by 16.3 percent mainly on account of decreased output of total logs by 19.7 percent.

The mining and quarrying sector, with the exception of oil, sand and stone contracted. Oil production totalled 34 million barrels at end-March 2023, a significant increase from end-March 2022 total of 10.9 million barrels. Similarly, declaration of crushed stone and sand increased by 63.3 percent and 50.6 percent respectively, as construction activities throughout the country kept demand high. Total bauxite production

declined by 17.8 percent, when compared to one year earlier. This was mainly on account of lower production of Refractory Aggregate Super Calcined (RASC) bauxite by 30.1 percent. Similarly, gold declarations were lower by 5.3 percent, as local and licensed dealers declarations contracted by 23.9 percent. The declarations from Aurora Gold Mine Inc. (AGM), Zijin Mining's subsidiary in Guyana, the sole operating foreign company, increased by 65.4 percent, when compared to the same period one year prior.

The manufacturing sector registered increased production of biscuits by 57.5 percent, stock feed by 38.7 percent, paints by 30.6 percent, industrial flour by 20.1 percent and total aerated drinks by 4.1 percent. In contrast, there were declines in production of total pharmaceutical liquids by 45.6 percent, gas nitrogen by 17.9 percent, oxygen by 10.9 percent, alcoholic beverages by 5.2 percent and putty by 3.8 percent.

Construction activities continued its rapid growth in both the public and private sectors, with the building of infrastructure by Central Government as well as private commercial ventures and housing.

Performance in the services sector was boosted in the areas of wholesale & retail trade & repairs, financial and insurance activities, accommodation & food services as well as entertainment & recreation.

INFLATION

The Urban Consumer Price Index (CPI) recorded an inflation of -o.6 percent, at the end of the first quarter. This outcome was on account of declines in prices within the categories of food by 1.3 percent, medical care & health services by 0.1 percent, clothing by 0.1 percent and transport & communication by 0.1 percent. The decrease in food prices was driven by lower world food prices, as twelve consecutive months of declines were recorded at the end of March, as documented by the Food and Agriculture Organisation (FAO). Moreover, lower local food prices contributed to this decrease as weather conditions remained favourable for farmers in the first quarter. Contrarily, price increases were recorded in the categories of furniture by 0.5 percent, miscellaneous goods & services by 0.4 percent, and footwear & repairs by 0.1 percent.

BALANCE OF PAYMENTS

The overall balance of payments recorded a higher deficit of US\$175.5 million compared to US\$132.0 million for the same period last year. This outturn reflected a capital account deficit despite a current account surplus. The current account surplus resulted from higher export of crude oil, gold and rice. The capital account deficit was on account of outflows of oil revenues to the Natural Resource Fund (NRF) and oil cost recovery (withdrawal of equity) by the oil and gas sector.

The current account recorded a surplus of US\$864.6 million compared to a deficit of US\$279.0 million the previous year, due to a merchandise trade surplus and higher

inflows of transfers. The merchandise trade surplus increased by 223.5 percent or US\$1,387.5 million from US\$620.7 million to US\$2,008.2 million. This outturn reflected a US\$1,618.6 million growth in exports to US\$2,984.4 million. Higher export receipts came from crude oil with US\$2,677.1 million, gold with US\$210.6 million and rice with US\$32.4 million. Lower export receipts were from 'other export' bauxite, timber and sugar by US\$17.2 million, US\$3.5 million, US\$1.1 million and US\$0.2 million, respectively. Merchandise imports increased by US\$231.1 million owing higher capital, intermediate consumption goods by US\$122.1 million, US\$65.7 million and US\$45.5 million, respectively. In the intermediate goods subcategory, fuel & lubricants import was higher by US\$10.1 million due to increased demand.

The non-oil current account recorded a surplus of US\$15.6 million, 192.5 percent higher than the end-March 2022 deficit of US\$402.9 million. This resulted from a lower non-oil merchandise trade deficit of US\$212.6 million compared to US\$359.1 million a year ago.

The services account recorded a larger deficit of US\$1,441.9 million, an increase of 26.7 percent or US\$303.9 million from one year ago. This resulted from higher payments for factor services by US\$159.6 million and nonfactor services by US\$144.3 million. Net payments for non-factor services was greater by 15.5 percent as a result of higher payments for construction, technical, trade related and other business services and operating lease,

all for the oil & gas sector. Net payments for factor services increased by 76.9 percent to US\$367.2 million due mainly to the repatriation of income on equity (oil profits) by the oil & gas sector. Net unrequited transfers rose by 25.1 percent or US\$59.9 million to US\$298.3 million, reflecting increased inflows to bank accounts.

The capital account registered a larger deficit of US\$1,058 million from a surplus of US\$138.2 million at end-March 2022, on account of outflows of oil revenues to the Natural Resource Fund (NRF) and oil cost recovery (withdrawal of equity) by the oil and gas sector. Loans disbursed to the nonfinancial public sector increased by US\$15.8 million to US\$25.3 million while short-term net private capital recorded a lower outflow of US\$6.3 million from US\$11.2 million one year ago. This outflow reflected commercial banks' accumulation of foreign assets. Net foreign direct investments recorded a net outflow of US\$1,020.0 million as a result of oil cost recovery (withdrawal of equity) by the oil and gas sector.

The overall deficit was financed by a drawdown on the Bank of Guyana's foreign reserves. BOG international reserves amounted to US\$756.9 million and was equivalent to 1.0 month of import cover at the end of the first quarter of 2023.

NET INTERNATIONAL INVESTMENT POSITION (NIIP)

Guyana's net international investment position (NIIP) was US\$12,815.4 million at the end of March 2023. This represented a deterioration of US\$76.6 million or 0.6

percent from the end-December 2022 position, resulting from a reduction of 4.5 percent in the stock of assets and a decline of 0.3 percent in the stock of liabilities. Assets declined by US\$120.2 million to US\$3,451.6 million resulting from a drawdown of US\$175.5 million from reserve assets. Liabilities decreased by US\$43.8 million to US\$16,267.0 million owing to a reduction of US\$207.6 million in other investments which was offset by a US\$163.8 million increase in net inward direct investment.

FOREIGN EXCHANGE MARKET

The total value of foreign currency transactions increased by 27.0 percent to US\$3,520.8 million compared to US\$2,773.1 million in the first quarter of last year. Total purchases and sales were US\$1,683.1 million and US\$1,837.8 million respectively, resulting in net sales of US\$154.7 million.

Transactions processed at the bank and nonbank cambios amounted to US\$1,497.1 million, an increase of 10.6 percent or US\$142.9 million in the value of trades when compared with the corresponding period last year. At the Bank of Guyana, total hard currency transactions increased to US\$804.1 US\$307.2 million from million. payments were US\$175.7 million. The value of foreign currency account transactions increased by 9.4 percent to US\$1,213.3 million. Net receipts amounted to US\$5.4 million. Transfers through money transfer agencies marginally declined by 0.2 percent US\$92.3 million. Soft currency transactions meaningfully increased by US\$4.1 million to US\$6.3 million at the cambios.

Commercial bank cambios continued to dominate the cambio trade with a 98.8 percent share of the entire cambio market transactions, which amounted to US\$1,479.5 million, an increase by 10.3 percent compared with the corresponding period a year ago. Moreover, despite accounting for a minuscule share (1.2 percent), non-bank cambio transactions rose by 34.6 percent from the corresponding period in 2022 to reach US\$17.6 million.

Hard currency purchases and sales by the Bank of Guyana were US\$314.2 million and US\$489.9 million compared with US\$86.9 million and US\$220.3 million, respectively, for the same period in 2022. The increase in purchases stemmed primarily from receipts through the Natural Resource Fund (NRF) and through other non-bank purchases: the Guyana Gold Board (GGB) and the Guyana Revenue Authority (GRA). Moreover, the increase in sales resulted from increased payments for fuel oil and other goods & services. The importation of other goods and services represented the largest category of payments, amounting to 52.0 percent followed by fuel imports representing 35.0 percent of total payments. The Bank purchased foreign currency amounting to US\$6 million from commercial banks during the first quarter of 2023.

The debits and credits of authorized foreign currency accounts at commercial banks were US\$609.4 million and US\$604.0 million, respectively. This resulted in net receipts of US\$5.4 million on these accounts. The corresponding period last year recorded debits and credits on these accounts at

US\$544.1 million and US\$565.4 million, respectively.

The aggregated value of transfers by money transfer agencies during the period under review amounted to US\$92.3 million, 0.2 percent lower than the previous year. Inbound and outbound transactions were US\$83.1 million and US\$9.2 million respectively.

Interbank trade amounted to US\$5.9 million at end-March 2023 when compared with US\$4.0 million for the same period last year.

The US dollar was the most traded currency on the market. US dollar transactions accounted for 95.3 percent of the overall market activity. The market share of the Euro was 2.1 percent, while the Sterling Pound and the Canadian dollar were 1.6 percent and 1.0 percent respectively.

CARICOM currency transactions increased by 188.8 percent to US\$6.3 million from US\$2.2 million at end-March 2022. The market share of the Trinidad & Tobago dollar was 92.0 percent followed by the Barbadian dollar with 5.7 percent and the EC dollar with 2.3 percent of the aggregate turnover.

The Bank's mid-rate, which is the reference for official transactions, was unchanged at G\$208.50 at the end of March 2023. The weighted rate experienced a depreciation by 0.8 percent, from G\$208.02 at the end of March 2022 to G\$209.78 at the end of the review month for 2023.

At the bank cambios, the average buying and selling rates of the US dollar were higher at G\$213.89 and G\$215.34 from G\$213.74 and G\$215.29 respectively, in March 2022. The average buying and selling rates of the US dollar at non-bank cambios as at March 2023 depreciated to G\$205.92 from G\$203.15 and to G\$208.96 from G\$206.34 respectively from the corresponding period last year.

The difference between the banks' and non-banks' buying rates declined to G\$7.97 from G\$10.59 at end-March 2022. The difference in the selling rates of the bank and non-bank cambios was G\$6.38 compared with G\$8.95 for the corresponding month in 2022. Moreover, the banks' spread was lower at G\$1.45 compared with the non-banks' spread at G\$3.04. The total market spread declined marginally to G\$2.69 compared with G\$2.78 at the end of March 2022.

PUBLIC FINANCE

The overall financial position of the Public Sector (which includes the Central Government and the Non-Financial Public Enterprises (NFPEs)) reported a surplus of G\$31,849 million at end–March 2023. The Central Government registered a surplus of G\$32,250 million while the Non-Financial Public Enterprises recorded a deficit of G\$402 million.

Central Government

Central Government recorded a fiscal surplus of G\$32,250 million at end-March 2023, compared to the surplus of G\$5,079 million one year prior due to the expanded current account primary balance by G\$62,221 million.

The current account recorded a surplus of G\$59,085 million, reflective of revenue collections from taxation and inflows of G\$41,596 million from the NRF and G\$4,743 million of Carbon Credit (CC) sales. Total current revenue (excluding NRF and CC inflows) rose by 19.8 percent to G\$81,878 million. This performance was attributed to greater revenue receipts from domestic taxes by 24.4 percent to G\$79,606 million. Tax revenue expansion was driven by greater collection of income taxes by 34.0 percent to G\$45,027 million, VAT & excise taxes by 6.5 percent to G\$ 24,228 million, trade taxes by 44.4 percent to G\$8,113 million and other taxable revenues by 9.4 percent to G\$2,237 million.

Total current expenditure (including interest charges) was G\$69,602 million, reflective of budgetary spending. Transfer payments amounted to G\$29,369 million while employment costs, spending on other goods & services and interest charges were G\$21,496 million, G\$15,601 million and G\$3,136 million, respectively.

The capital account deficit was G\$26,835 million, with capital revenue amounting to G\$449 million while capital expenditure amounted to G\$27,283 million. Capital revenue of G\$435 million largely comprised of proceeds received for projects.

Capital expenditure expanded by G\$15,078 million to G\$27,283 million. This capital absorption represented 7.0 percent of the budgeted target for 2023, which was higher than the 5.6 percent attained for same period last year. There were major disbursements in

the housing and construction sectors as well as social welfare, which represented 26.9 percent, 21.4 percent and 18.6 percent of aggregate capital expenditure respectively. As a percentage of total capital expenditure, the remaining disbursements were as follows: agriculture (8.8 percent), health (7.6 percent), administration (3.9 percent), power generation (2.3 percent), education (2.1 percent), transport & communication (1.3 percent), public safety (1.2 percent), environment & pure water (1.2 percent), national security & defence (0.3 percent), and culture/youth (0.2 percent). In contrast, capital spending declined in the manufacturing and fishing sectors.

Central Government financing comprised of net domestic borrowing of G\$30,428 million and net external borrowing of G\$1,822 million.

Non-Financial Public Enterprises

Non-Financial Public Enterprises (NFPEs) recorded a deficit of G\$402 million, at end-March 2023, compared to a surplus of G\$75 million, at end-March 2022. This outcome reflected expansions in total expenses by G\$786 million.

Current receipts amounted to G\$36,742 million, reflective of other income growth of G\$1,351 million to G\$10,909 million while there were declines in local and export sales and receipt from debtors received by G\$791 million, G\$95 million and G\$812 million to G\$17,451 million, G\$596 million and G\$10,909 million respectively.

Total current expenditure amounted to G\$36,895 million. Non-interest current expenditure declined by 2.3 percent to G\$36,895 million, due to reduction in payment to creditors by 20.2 percent to G\$10,171 million as well as other current expenditure by 3.9 percent to G\$9,083 million. Interest cost declined to G\$0.2 million. Conversely, there were increases in the cost of materials & supplies and employment by 4.5 percent and 21.1 percent to G\$10,104 million and G\$6,017 million respectively.

The capital account recorded a deficit of G\$249 million compared to a surplus of G\$367 million end-March 2022. This outcome was driven by increased capital outlays by G\$1,715 million to G\$2,376 million, owing to the expansions of GPL and GUYSUCOs' capital programme. Capital transfer amounted to G\$2,127 million.

The National Insurance Scheme's overall balance recorded a surplus of G\$1,035 million at end-March 2023, relative to a deficit of G\$892 million at end-March 2022. This position was reflective of greater income by 21.0 percent to G\$8,850 million while expenses declined by 4.7 percent to G\$7,816 million.

Furthermore, NFPE's financing position amounted to net domestic borrowing of G\$617 million. External savings were G\$215 million.

PUBLIC DEBT

The total stock of public and publicly guaranteed debt increased by 2.3 percent or

US\$ 84.5 million to US\$3,739.4 million from the end-December 2022 position. The stock of total domestic debt grew by 3.7 percent to US\$2,159.4 million from US\$2,082.9 million at end-December 2022, likewise the stock of external public debt increased by 0.5 percent to US\$1,580 million.

The stock of domestic debt increased mainly on account of growth in the stock of treasury bills at the end of the review period. The stock of treasury bills increased by 7.1 percent mainly as a result of higher issuances of treasury bills for budgetary support. The stock of 364-day treasury bills accounted solely for this increase and grew by G\$16,200 million to G\$243,827 million. On the other hand, the stock of 182-day treasury bills remained unchanged at G\$352.4 million from the end-December 2022 level. There were no issuances of 91-day treasury bills during the review period.

There were eleven (11) treasury bill auctions, totalling G\$69,560 million, during the first quarter of 2023, all of which were issued for fiscal purposes. The stock of debentures decreased by G\$274 million to G\$200,042 million from G\$200,316 million at end-December 2022. This reduction in stock was as a result of a payment made towards the NIS debenture during the review period.

The increase in the stock of external debt resulted mainly from 1.0 percent or US\$9.1 million growth in multilateral debt stock from the end December 2022 position. This was largely due to increased disbursement from IDA by 10.6 percent to US\$129.9 million from the end December 2022

position. There was a 0.1 percent or US\$0.5 million reduction in the stock of bilateral debt owed to Non-Paris Club creditors from end December 2022, which resulted from higher debt service payments.

Domestic debt service payments increased by 49.8 percent or G\$283.5 million to G\$852.9 million from G\$569.3 million in March 2022. Principal payments increased by 12.3 percent or G\$30 million, likewise, interest payments increase significantly by 78.0 percent or G\$253.5 million. The former was solely as a result of higher principal repayments towards the NIS debenture by G\$30 million during the first quarter of 2023. Total interest payments increased primarily as a result of the higher interest payment of 364-day treasury bill by 114.2 percent or G\$287.2 million to G\$538.9 million from G\$251.6 million in March 2022. Interest payments were lower for debenture payments by 48.3 percent or G\$33.7 million to G\$36.1 million from G\$69.8 million in March 2022. The average yield for the 364day treasury bills redeemed during the review period was 1.09 percent. There were no 182-day treasury bills redeemed during the review period.

External debt service payments increased by 27.9 percent to US\$34.4 million primarily on account of higher principal repayments to bilateral creditors and higher interest payments to multilateral creditors. Debt repayments to IADB, which accounts for 74.9 percent of debt repayments to multilateral creditors and 39.8 percent of total external debt service, increased by 55.5 percent to US\$13.7 million as a result of higher interest

repayments during the review period. Likewise, debt repayments to the Caribbean Development Bank (CDB) rose by 11.6 percent to US\$3.4 million. Similarly, debt repayments to the EximBank of China, which accounts for 73.1 percent of debt repayments to bilateral creditors and 32.6 percent of total external debt service, increased by 5.0 percent to US\$11.1 million as a result of higher principal repayments during the review period. Indicators of liquidity risks remained below the respective thresholds. The external debt service ratio was 1.7 percent while the external debt service to revenue ratio was 6.0 percent.

MONETARY DEVELOPMENTS

Reserve money grew by 1.5 percent or G\$4,953 million to G\$344,520 million from its December 2022 level, reflecting a 28.5 percent increase in net domestic assets to G\$187,426 while net foreign assets fell by 18.9 percent to G\$157,094 million. The expansion in reserve money was reflected in the 1.5 percent and 1.4 percent growth in currency in circulation and liabilities to the commercial banks respectively.

Broad money expanded by 4.5 percent or G\$30,452 million to G\$703,747 million, due to increases in net domestic credit and other items (net)² which offset the decline in net foreign assets. Net domestic credit and other items (net) were higher by 23.0 percent or G\$58,899 million and 5.1 percent or G\$6,825 million respectively, while net foreign assets contracted by 12.4 percent or

G\$35,273 million. The growth in broad money was due to increases in both narrow money and quasi money. Narrow money, consisting of currency in circulation, private sector demand deposits and cashiers' cheques & acceptances, was higher by 4.3 percent or G\$17,045 million. This resulted from a 9.2 percent and 1.5 percent growth in demand deposits and currency in circulation respectively, while cashiers' cheques & acceptances declined by 49.5 percent. Quasi money, which consists of time and savings deposits, grew by 4.9 percent or G\$13,406 million. This stemmed from a 22.7 percent and a 3.1 percent increase in savings deposits and time deposits respectively.

Total deposits by residents and non-residents were higher by 4.0 percent to G\$694,608 million. Private sector deposits, which accounted for 75.3 percent of total deposits by residents, grew by 6.6 percent.

Net domestic credit of the banking system expanded by 23.0 percent to G\$314,601 million from the end-December 2022 level of G\$255,701 million, on account of higher credit to the public sector.

The public sector recorded a net credit of G\$33,995 million from net deposits of G\$16,741 million at end-December 2022 mainly on account of increased domestic financing (in the form of treasury bills) by the central government. Net credit to the central government was higher by 52.5 percent or G\$57,685 million to G\$167,530 million at the end of March 2023. The public

² Other items (net) includes commercial banks' undistributed profits and other assets of the Bank of Guyana.

enterprises and 'other' category of the public sector remained net depositors with balances amounting to G\$70,096 million and G\$63,439 million respectively, at the end of the review period.

Private sector credit rose by 1.9 percent or G\$6,235 million to G\$335,103 at the end of the first quarter of 2023. This position reflected growths in credit construction & engineering, real estate mortgage and other services sectors. Credit to the construction & engineering sector rose by 14.3 percent while that to mortgage and other services sectors increased by 4.1 percent and 3.9 percent respectively. Loans to the agriculture sector contracted by 9.3 percent while that to the manufacturing sector was lower by 4.9 percent. Lending to the distribution and personal sectors declined by 0.9 percent and 0.7 percent respectively, at the end of the review period.

The net foreign assets of the banking system contracted by 12.4 percent to US\$1,192.3 million. This was primarily due to a 18.8 percent decline in the net foreign assets of the Bank of Guyana while that of the commercial banks rose by 1.6 percent. At the end of March 2023, the Bank of Guyana's net foreign assets declined by US\$175.5 million to US\$753.4 million while the net foreign assets of the commercial banks increased by US\$6.3 million to US\$438.9 million.

The overall liquidity of the banking system was higher by 1.9 percent to G\$277,287

million mainly on account of an increase in treasury bill holdings. The ratio of excess liquid assets to total liquid assets increased from 45.6 percent at end-December 2022 to 57.5 percent at end-March 2023.

Total reserves deposited with the Bank of Guyana declined by 2.6 percent to reach G\$129,041 million. The required statutory reserves of the banks increased by 2.9 percent or G\$2,340 million reflecting higher deposit liabilities of the commercial banks. Reserves in excess of the minimum requirement stood at G\$47,185 million at the end of March 2023.

There were marginal movements in the interest rates during the review period. The yield on the 91-day and 182-day treasury bills remained unchanged at 1.54 percent and 1.00 percent respectively, reflecting the non-issuance of the bills during the review period. The yield on the 364-day treasury bill rose to 1.09 percent from 0.99 percent at end-December 2022. The small savings, the weighted average time deposit and the prime lending rates remained unchanged at 0.81 percent, 0.94 percent and 8.38 percent respectively, while the weighted average lending³ rate declined by 13 basis points to 8.41 percent.

NON-BANK FINANCIAL INSTITUTIONS

The financial resources of the Non-Bank Financial Institutions (NBFIs), which include depository and non-depository

each interest rate tier, then dividing by the sum of the aggregate value of loans.

³ The weighted average lending rate is calculated by dividing the product of the aggregate value of loans and the midrate for

financial institutions as well as microfinance institutions, increased by 10.1 percent to G\$488,055 million. The sector's share of assets in the total financial sector increased by 1.5 percent from 35.3 percent at end December 2022 to 36.8 percent at end-March 2023.

This performance in the NBFIs' resources resulted mainly from an increase in other liabilities (which comprises capital and reserves) and foreign liabilities. Other liabilities grew significantly by 17.0 percent or G\$35,695 million, while foreign liabilities grew by 6.4 percent or G\$3,161 million. Insurance premium increased by 4.2 percent or \$263 million, while deposits grew significantly by 3.3 percent or G\$2,065 million at end-March 2023 when compared to a 1.3 percent or a G\$795 million growth, one year prior. Pension funds also increased by 3.0 percent or G\$3,442 million at end-March 2023.

Investments by the NBFIs increased in the private sector and other assets along with the public sector during the period in review. Claims on the private sector, which accounted for 68.4 percent of total assets of the NBFIs, rose by 14.9 percent or G\$43,272 million, while acquisition of other assets expanded by 8.1 percent or G\$3,654 million. Claims on the public sector (in the form of treasury bills) increased by 1.9 percent or G\$194 million. Similarly, claims on the banking system grew marginally by 0.8 percent or G\$403 million while claims on the foreign sector declined further by 6.0 percent or G\$2,896 million at end-March 2023 when

compared to a decline of 0.4 percent or G\$176 million at end-March 2022.

FINANCIAL STABILITY ASSESSMENT

Capital

The Bank commenced using the Basel II/III Supervisory Framework to assess the adequacy of LDFIs capital with effect from January 1, 2022. The Basel II/III framework requires LDFIs to hold capital against market risk and operational risk in addition to credit risk, compared to the Basel I framework which required capital for credit risk only.

The LDFIs aggregate CAR under the Basel II/III framework stood at 20.8 percent compared to 22.4 percent at end-March Risk-Weighted Assets were 16.5 2022. percent (G\$77.5 billion) above the March 2022 level due significantly to increases in all three risk categories. Market risk (foreign exchange, equity position, and interest rates) increased by 114.0 percent (G\$36.4 billion), credit risk (on and off-balance sheet) increased by 8.1 percent (G\$34.8 billion), and operational risk by 69.2 percent (G\$6.3 billion). LDFIs' qualifying capital reflected growth of 8.4 percent (G\$8.8 billion) over the previous year, on account of LDFIs continued profitability.

Asset Quality

The LDFIs' non-performing loans (NPLs) as a share of total loans were 4.5 percent during the review period, an improvement of 2.6pp when compared with the corresponding period in 2022. The foregoing change resulted from a 25.2 percent decrease in NPLs coupled with a 17.5 percent increase in total loans.

NPLs remained concentrated in the business enterprises sector at 53.1 percent of the LDFIs aggregate NPLs, with the services subsector representing 25.4 percent. All the subsectors reflected decreases in agriculture by 48.2 percent, services by 36.4 percent, manufacture by 19.9 percent and, mining & quarrying by 9.9 percent when compared with end-March 2022 level. The ratio of provision for loan losses to NPLs rose to 61 percent at the end of March 2023 from 52.1 percent at the end of March 2022. The increase was mainly due to the 25.2 percent improvement in NPLs. Further, provision for loan losses declined by 12.4 percent.

Exposure⁴ to the top twenty borrowers amounted to G\$107 billion, 27.6 percent above end-March 2022 level. Four of the eight LDFIs were responsible for the increase in exposure to the industry's top twenty borrowers. The ratio of top twenty borrowers' exposure to total exposure moved from 13.8 percent at the end of March 2022 to 14.9 percent at the end of March 2023. All of the top twenty borrowers' facilities were performing.

Earnings

As at March 31, 2023, aggregate operating income of the LDFIs amounted to G\$13.8 billion, 23.2 percent above the end-March, 2022 level. Respective increases were observed in other operating income, foreign

exchange gains, fees & commission and interest income of 45.9 percent, 44.2 percent, 27.5 percent and 18.8 percent.

The rise in interest income to G\$10.1 million stemmed from increases by seven institutions, while all eight LDFIs contributed to the increase in interest expense.

LDFIs' aggregate operating expenses amounted to G\$7.3 billion, 14.8 percent above the March 2022 level. The increase in operating expenses was primarily driven by increases in salaries and staff costs of 13.3 percent, interest expenses of 9.3 percent, other operating expenses of 9.0 percent, and provision for loan losses of 7.1 percent. At end-March 2023, LDFIs recovered G\$65 million in bad debts (net of write-offs).

Net income before tax was 31.7 percent above the end-March 2022 level at G\$6.3 billion, while net income after tax reflected a 20.3 percent (G\$726 million) increase to G\$4.3 billion relative to the same comparative period. This quarter, six LDFIs reflected increased profits after tax over the March 2022 levels.

Liquidity

The average level of liquid assets held by the LDFIs amounted to G\$264.3 billion, 1.0 percent above the average level recorded for the corresponding 2022 period. This expansion was due mainly to increases in deposits with BOG and LDFI's holdings of treasury bills. At end-March 2023, the LDFIs

⁴ Exposure includes loans, overdrafts, debentures, bonds, securities, and off-balance sheet items.

remained adequately liquid and able to meet liabilities as they become due.

INSURANCE REVIEW

The insurance sector, which accounted for 10.9 percent of total financial sector assets and 31.8 percent of non-bank assets as at end-March 2023, was adequately capitalized as both the life and non-life insurance sectors' assets exceeded their respective solvency requirements.

Although the insurance sector is sound with manageable risks, there are potential systemic issues from concentration of assets, specifically the long-term sector's total assets, which accounted for 69.0 percent (G\$122.1 billion) of the industry's G\$178.0 billion total assets.

For the life insurance sector, capital growth has been on an upward trajectory reflecting the sector's ability to meet its financial obligations when compared with the financial risks acquired. The industry's investment assets portfolio was fairly stable and large.

For the non-life sector, capital has also been increasing steadily. Asset quality was maintained and the industry's risk retention has been showing a decline, indicating lower risk in relation to potential future claims.

PENSION REVIEW

At end-March 2023, pension funds accounted for 6.3 percent of the total financial sector assets and approximately 24.7 percent of non-bank financial

institutions assets, reflecting its influence as an institutional investor.

Total private occupational pension plan assets increased by 3.0 percent (G\$3,676 million) to G\$120.7 billion. Pension funds' vulnerability to market risk was moderate and stable. However, Defined Contribution (DC) pension funds continued to be largely exposed to insurance companies having investments in deposit administration contracts.

Nonetheless, the sector has been robust throughout the period with average asset growth outpacing the average growth of pension fund liabilities with an estimated solvency level of 236.0 percent. Real net returns on investments of pension fund assets increased from -4.59 percent in December 2022 to -3.11 percent in March 2023. There was a considerable decline in investment returns emanating from equities in comparison to the previous quarter. Overall, less than favourable investment returns continued to be a going concern, hence, market rates continued to be monitored. Diversification continues to be promoted and the new Private Pensions Act seeks to address the limited investment opportunities locally.

MONETARY POLICY

Bank of Guyana's monetary policy maintained its focus on the attainment of price stability while ensuring an adequate level of liquidity to provide for private sector credit and economic growth. The Bank seeks to allow the expansion of broad money along a path consistent with projections for output and inflation. Thus, weekly targets for broad money are translated into targets for base money using the money multiplier. To achieve these weekly base money targets, the Bank focuses on the effective management of liquidity in the financial system through its Open Market Operations (OMOs). The Bank may also purchase and sell foreign currency to achieve its primary objective.

During the review period, reserve money was G\$344.5 billion, G\$5 billion more than the end-December 2022. There were no issuance or redemption of treasury bills for monetary purposes. Treasury bills were issued when reserve money exceeded the targeted levels and was deemed likely to adversely affect the economy as well as to facilitate the Ministry of Finance's request for financing Budget – 2023.

Additionally, purchases from the commercial banks by the Bank amounted to US\$6 million while sales to the commercial banks by the Bank of Guyana amounted to US\$9 million.

The interbank market activities, which also provide an indication of the total liquidity condition of the financial system, had fifteen (15) trades during the review period. The total value of funds traded amounted to G\$53 billion. In comparison, there were no trades on the interbank market for the corresponding period in 2022. The interbank market interest rate was 4.5 percent during the review period.

BANK ACTIVITIES

Currency Operations

The Bank has a statutory obligation to issue the country's notes and coins under Section 21(1) of the Bank of Guyana Act No. 19 of 1998. This obligation was discharged through the Currency Division of the Operations Department. The total supply of currency in the first quarter of 2023 registered a decrease of 3.6 percent from G\$74.0 million notes to G\$71.3 million notes over the corresponding period in 2022. The decrease was due to less notes purchased.

Notes

The total value of currency notes in circulation (including notes held in the vaults of commercial banks) at the end of the first guarter of 2023 amounted to G\$211.4 billion, an increase of 20.1 percent when compared with a circulation of G\$176.0 billion in the first quarter of 2022. The G\$5,000 note accounted for 89.3 percent in the share of total value while that of the \$2,000 notes accounted for 1.3 percent. The share of the G\$1,000 note decreased to 6.7 percent from 7.6 percent while that of the G\$500 notes decreased to 0.9 percent from 1.0 percent. The share of the G\$100 increased to 1.1 percent from 1.0 percent while that of the \$50 fell to 0.2 percent from 0.3 percent. The \$20 remained at 0.5 percent.

The policy of ensuring that only acceptable quality notes are in circulation continued. This was achieved by regular withdrawals of mutilated, defaced or otherwise poor quality notes and replacing them with new notes. Mutilated, defaced and poor quality notes

amounting to G\$217 million were submitted for replacement in the first quarter of 2023 compared with G\$225.9 million for the corresponding period in 2022.

Coins

Coins issued by the Bank amounted to G\$1,235 million at the end of the first quarter of 2023, an increase of 2.5 percent above the G\$1,205 million issued for the corresponding period in 2022. The share of the G\$1 coin accounted for 14.3 percent, the \$10 coin (45.2 percent) in the total value of coins in circulation was 7.5 percentage points more than that of the G\$5 coin (37.7 percent). The G\$100 coin accounted for 2.8 percent.

Payments System

The Bank of Guyana continued to monitor the payment ecosystem during the review period. The implemented systems, Guyana Real Time Gross Settlement (G-RTGS) and Guyana Central Securities Depository (G-CSD) systems are fully integrated with the Automated Clearing House (ACH) system. The ACH system comprised the Guyana Electronic Funds Transfer (G-EFT) and the Guyana Electronic Cheque Clearing (G-ECC) sub-systems which, together with the G-RTGS & G-CSD systems, have formed a modern and unified payments system infrastructure for all Guyanese and in the process, meeting required international standards and demands.

Currently there are ten (10) participants of the National Payments System (NPS), namely: Bank of Guyana, the six commercial banks, Ministry of Finance (MOF), Guyana Revenue Authority (GRA) and National Insurance Scheme (NIS).

The Legal and Regulatory Framework is established with the NPS Act 2018. In addition, six (6) supporting regulations related to (a) Agents, (b) Electronic Funds Transfer, (c) Electronic Money, (d) Oversight, (e) Dematerialization of Government & Bank Securities and (f) Settlement & Treatment of Collateral were adopted and continued to be applied to compliance bv all licensed govern participants of the modern and efficient payments system.

G-RTGS System

For the period January to March 2023, 1,178 transactions were processed through the G-RTGS system which highlights an increase of 30 percent when compared to 906 transaction for the same period in 2022. The value of transactions for 2023 was G\$198.6 billion which highlights a 197.3 percent increase over the G\$ 66.8 billion recorded for the same period in year 2022.

G-CSD System

The G-CSD system allows change of ownership through a simple account transfer versus transferring paper ownership that is vulnerable to human errors. The recording of securities ownership in electronic form also enables efficient usage of these securities as collateral for liquidity support in the G-RTGS system and also for repo and other Open Market Operations (OMO) of BOG. This

system is interlinked with the G-RTGS system.

ACH System - G-EFT Sub-System

A total of 319,273 transactions were processed through the G-EFT sub-system for the period January to March 2023, representing an increase of 19.6 percent from 266,917 transactions recorded for the same period in 2022. The value of these transactions increased by 26.1 percent from G\$92.4 billion at the end March 2022 to G\$116.5 billion.

ACH System – G-ECC Sub-System

During the period January to March 2023, a total of 228,861 low value transactions (LVT) were settled through the National Clearings House (NCH), an increase of 10.1 percent when compared with the volume recorded for the same period in 2022. The volume of high value transactions (HVT) also increased by 16.82 percent to 31,434. The overall value of total transactions rose by 18.7 percent in the current period to G\$391.7 billion when compared to corresponding period in 2022. An increase was recorded in the value of the high value transactions which rose from G\$170.5 billion to G\$197.2 billion along with low value transactions which also rose to G\$194.4 billion at the end of first guarter 2023 from 159.6 billion for the same corresponding period of year 2022. The share of HVT in total value of transactions decreased to 50.4 percent in 2023 from 59 percent in 2022. Conversely, the share of LVT increased to 50 percent in 2023 from 41 percent in the previous year. The average value of HVT remained stable at G\$6.3 million whilst the average value of LVT rose from G\$0.8 million to G\$0.9 million.

Mobile and Internet Banking

The number of Mobile Money accounts at the end of the first quarter 2023 increased by 59.2 percent from 39,675 to 63,166 while the value of payments increased by 27.3 percent from G\$1,285.1 million to G\$1,636.6 million in comparison to March 2022. The number of merchants accepting mobile money payments also increased from 236 to 390 as at March 2023. MMG's e-wallet increased to G\$700 million from G\$550 million.

The use of the electronic VISA switch continued with the value of transactions settled through the VISA switch increasing to G\$1.66 billion at end of March 2023 from G\$1.05 billion for the same period in year 2022, an increase of 57.2 percent.

The use of mobile payment applications and internet banking continues to grow steadily in Guyana's emerging environment.

THE GLOBAL ECONOMY

The economic recovery path of the global economy appears poised after facing adverse shocks in the last 3 years - most notably due to the COVID-19 pandemic and Russia's Ukraine. invasion of Supply chain disruptions are unwinding, while the disturbances to energy and food markets caused by the are retreating. war Additionally, the massive tightening of monetary policy by most central banks have

started to succeed with inflation returning to its respective targets.

However, geopolitical tensions remain high as the war continues and risks remain firmly to the downside with the increased uncertainty from the recent financial sector turmoil. As such, global economic growth is forecasted at 2.8 percent for 2023 (0.6 pp decline from 2022), before rising modestly to 3.0 percent in 2024.

Advanced Economies

Advanced economies are expected to grow by 1.3 percent in 2023 before rising to 1.4 percent in 2024 (well below the 2.9 percent previously forecasted). According to the IMF's most recent World Economic Outlook, about 90 percent of advanced economies are projected to see a decline in growth in 2023. In the USA, economic growth slowed to 1.1 percent, down from 2.1 percent recorded in 2022. This downturn reflected businesses rebalancing their inventories while limiting spending amid punishing rate hikes from the Federal Reserve. Further, there has been mounting fears that a meltdown in the banking sector and a pending debt ceiling crisis could trigger a recession. The Canadian economy slowed in the first quarter with growth at 1.5 percent, well below its 2 percent target, in its efforts to bring its overheating economy under control. Household spending continues to be the main driver of growth in Canada. Meanwhile, the UK's growth limped at 0.1 percent reflecting reduced consumer spending across the services sector and a series of strike actions by public sector workers taking its toll. In the first quarter, the Euro Area grew by 0.8 percent while Japan's growth is forecasted at 1.3 percent.

During the first quarter of the year, inflation rates in advanced economies, although still high, has been climbing downwards, with the year end-inflation projected at 8.6 percent. The projected disinflation reflected declining fuel and nonfuel commodity prices as well as the expected cooling effects of monetary tightening on economic activity. In the USA, inflation rose at an estimated 5.0 percent in the first quarter - still above its 2 percent target but substantially below the 8.0 percent recorded in 2022, positively impacted by the Federal Reserve's interest rate increases. In Canada, it also declined to an estimated 3.0 percent from 5.7 percent in the previous year - while in the UK inflation was recorded at 6.1 percent in March – down from 9.1 percent in 2022. In the Euro Area, inflation reduced to 6.9 percent, while Japan also recorded lower inflation of 3.3 percent from 4.3 percent a year earlier.

In its efforts to continue to combat high inflation, the US Federal Reserve increased its federal funds rate from a range of 4.25 percent-4.5 percent to 4.5 percent-4.75 percent and then to 4.75 percent-5 percent; an overall 50 bps increase. Europe's two largest Central Banks – the Bank of England and the European Central Bank also opted for two increases during the quarter taking their interest rates to 4.25 percent and 3.5 percent respectively. However, the Bank of Canada only implemented a 25 bps increase, moving its rate from 4.25 percent to 4.5 percent to close the quarter.

Unemployment in advanced economies for the first quarter of 2023 was estimated at 4.7 percent, according to the World Economic Outlook, April 2023. In the USA, the unemployment rate reached 4.9 percent – up from 3.5 percent the previous year. A tight US labour market, understaffing, expected declining participation, and an aging workforce emphasize that US labour supply is challenged. Canada's unemployment increased to 5.0 percent while the UK's also increased to 3.9 - the highest since the period November 2021 and January 2022. In the Euro Area and Japan, recent figures show that the unemployment rate increased to 6.7 percent and 2.8 percent respectively.

Emerging Market & Developing Economies

The economic prospects of emerging market and developing economies (EMDEs) are on average stronger than for advanced economies, but these prospects vary more widely across regions. On average, growth is expected to be 3.9 percent in 2023 and to rise to 4.2 percent in 2024. Improved conditions for EMDEs were originally attributed to peaking inflation and the end of monetary tightening. More recently, however, the end of China's zero-COVID policy has bolstered emerging markets' overall growth prospects given that the country is the largest incremental buyer of commodities and the single-largest trading partner of most other emerging markets countries.

The region with the highest forecasted growth in 2023 is emerging and developing Asia with 5.3 percent, owing to tremendous increases in China and Thailand with 5.2

percent and 3.4 percent growth respectively. India's economy remained resilient with growth recorded at 5.9 percent - down from last quarter's level of 6.8 percent. Countries in other emerging and developing Asia grew by 4.2 percent, up from 3.4 percent in 2022, primarily attributable to a recovery in mobility after easing COVID-19 containment measures and strong pent-up demand across the region.

Emerging and developing Europe is expected to grow by 1.2 percent in 2023. Russia is expected to rebound with growth of 0.7 percent, due to increased industry and retail sales with boost through government Meanwhile, expenditures. Ukraine's economy slowed by -3.0 percent in the first quarter as the country continued to endure the Russian military aggression that started in February of 2022. Moreover, growth in the Euro Area is estimated at 0.1 percent, a decline from the 3.5 percent recorded in 2022. Increased borrowing costs dampened households' and businesses' appetite for credit and weakened consumer demand. There were also concerns that tumult in the global banking sector could make it harder to access loans.

In Latin America and the Caribbean, growth is forecasted at 1.2 in 2023, influenced by reduced economic activities and global trade. In addition, the interest rate hikes carried out globally were compounded by the financial turbulence seen in early March, which has increased uncertainty and volatility in financial markets. Mexico's GDP grew by 1.8 percent from 3.1 percent in 2022. Brazil's growth for 2023 is estimated at 0.9

percent, due to high interest rates affecting domestic demand.

Inflationary pressures have receded in EMDEs due to the early and determined efforts of central banks as well as lower global prices of food and energy. The end-2023 inflation is estimated at 7.6 percent, down from 10.5 percent in 2022. In Brazil, the rate at the end of the first quarter was 4.7 percent – the lowest since October 2020 and in Mexico it was 6.9 percent. China's inflation rate fell to 0.7 percent while India's eased to 5.1 percent. In Russia, inflation declined to 3.5 percent in March (a marked decline from the previous year with 18 percent), while Ukraine's was recorded at 17.9 percent.

In Brazil, the unemployment rate stood at 8.8 percent – up from 8.3 percent recorded one year earlier, while Mexico's decreased to 2.4 percent - the lowest since the pandemic. India recorded a rate of 7.8 percent and Russia, a record low of 3.5 percent. The quarterly unemployment rate in China stood at 5.5 percent in the first quarter of 2023.

Caribbean Economies

The commodity exporters of the Caribbean region are expected to expand at a rate of 12.8 percent in 2023 while expectations for the tourism-dependent economies are much more subdued at 3.6 percent. Guyana is expected to experience the highest growth in the region with 25.1 percent owing mainly to growing output in its oil and gas industry. Trinidad and Tobago, Jamaica and Suriname are forecasted to experience GDP growth of 3.5 percent, 3.0 percent and 2.3 percent

respectively in 2023. As economic activity gradually returns, fiscal consolidation is necessary to create flexibility to help build economic resilience.

As in the rest of the world, inflation in the region is exhibiting a downward trend. At the end of the quarter, Jamaica recorded an inflation rate of 6.1 percent while Guyana's was -0.6 percent. Barbados and Trinidad's recent figures show rates of 5.5 percent and 7.7 percent respectively. Suriname continued to experience high inflation recording a rate of 55.0 percent.

Throughout the first quarter, Barbados, Belize and the ECCU continued to maintain fixed exchange rates with the US dollar of Bds\$2, BZ\$2 and EC\$2.7 respectively. The Bank of Guyana exchange rate also remained at GY\$208.5 for US\$1. The Trinidad & Tobago dollar depreciated slightly against the US dollar and ended the quarter at TT\$6.75 while the Jamaican dollar also depreciated to J\$149.72 for US\$1.

Commodity Prices

Global commodity prices fell 14 percent in the first quarter of 2023 and by end-March they were roughly 30 percent lower than their historic peak in June 2022. The decline in prices reflects a combination of slowing economic activity, favourable weather, and a global reallocation of commodity trade flows. Sugar prices declined during the quarter and then rose, ending the quarter where it began – at US\$0.45 per kg, while the price of rice decreased by 7.9 percent to US\$476 per metric ton. Oil prices also declined during the quarter, decreasing from an opening of

Bank of Guyana First Quarter Report 2023

US\$80.41/bbl. and ending the quarter at US\$76.47/bbl., mostly reflecting weaker growth prospects in advanced economies. Gold prices increased from US\$1,897.71 per ounce to US\$1,912.73 per ounce - an increase of 0.8 percent. Inflation concerns and geopolitical tensions continue to result in an increased demand for gold, which is viewed as a safe haven asset. Moreover, while commodity prices have generally softened, there remains upside risks, primarily because many factors that have caused shocks to commodity markets in recent times are still present.

3. OUTLOOK FOR 2023

Risks to the outlook are heavily skewed to the downside with global growth projected to slow to 2.8 percent in 2023, representing a downward spiral from the previous year. Financial sector stress could amplify and weaken the real economy through a sharp deterioration in financing conditions and compel central banks to reconsider their policy paths. Pockets of sovereign debt distress could, in the context of higher borrowing costs and lower growth, spread become more systemic. and Russia/Ukraine conflict could intensify and lead to more food and energy price spikes, pushing inflation up. (World Economic Outlook, April 2023).

The Guyanese economy is projected to record real GDP growth of 25.1 percent, while the non-oil economy is estimated to grow by 7.9 percent. This significant growth is expected to be mainly a result of expansions in all major sectors of the economy, as both government and private investment increases. Additionally, output of oil is expected to greatly increase with the introduction of the third FPSO, Liza Prosperity, which will add 220,000 barrels per day to current production. The end of year inflation rate is expected to slow to a rate of 3.8 percent, as prices decline locally and abroad, coupled with suitable policy decisions by government.

The overall balance of payments surplus is estimated to widen on account of a current account surplus despite a capital account deficit. The current account surplus is projected to expand due to oil exports coupled with higher export prices for gold and rice. The capital account is expected to register a deficit resulting from the outflows of oil revenue to the Natural Resource Fund (NRF) and oil cost recovery (withdrawal of equity) by the oil and gas sector.

Central government's overall financial position is anticipated to record a larger deficit. The expected balance results from increased capital and current expenditure budgetary sizes, due to the forecasted execution of significant development projects as well as the increased cost of labour, goods & services. The NFPE's is estimated to register an overall deficit, which is due to the estimated increases in operating expenses (forecasted higher costs of materials & supplies and employment).

Total public debt is expected to expand to US\$4,458.2 million, due to increases in both domestic and external debt stock, while debt service payments are expected to rise. The growth in domestic debt stock will reflect higher issuance of treasury bills for fiscal support, while on the other hand, increase in external debt will be as a result of greater obligations mainly to bilateral creditors.

Source: Commercial Banks

Notes:

1 Total Loans and Advances includes Real Estate Mortgage Loans (see general notes).

2 Other Govt. consists of Local Government and NIS.

3 Figures have been revised from January 2012 - March 2013 to reflect reclassifications by two commercial banks.

4 Total Private Sector figure has been revised to include Real Estate Mortgage Loans.

COMMERCIAL BANKS: DEMAND LOANS AND ADVANCES¹ (G\$ Million)

Notes:

- 1) End of period rates.
- 2) The prime lending rate reported by the banks has been weighted by the amount of loans issued at the corresponding rate.
- 3) The average prime lending rate actually used by commercial banks applicable to loans and advances.
- 4) Small savings rate
- 5) Effective November 2009, the mortgage rate for New Building Society is reflected as an average rate.

Sources: Ministry of Finance and Bank of Guyana.
Notes:

^{1.} From year 2017 the capital revenue will follow the MOF format; therefore, the figure will show a reduced amount due to the exclusions of all grants and debt reliefs.

2. Figures revised from 2008 to reflect the computation of Central Government on an accrual basis.

CENTRAL GOVERNMENT: CURRENT REVENUE (G\$ Million)

¹⁾ Total Current Revenue include funds from the Natural Resource Fund and Guyana REDD Plus Investment Fund.

²⁾ As of 2003, Companies Income Tax includes self-employed, corporation and withholding income taxes.

³⁾ As at March-2017, 'other income tax' will not include capital gains (it was relocated under 'other tax revenue').

⁴⁾ Value Added Tax (VAT) and Excise Tax were implemented on January 01, 2007.

⁵⁾ Revised Figures for 3rd and 4th quarters are not available.

1 Environmental Levy was implemented on February 01, 2017.

²⁾ As at Mar-2017, 'capital gains' was relocated to 'other tax revenue' from 'other' income taxes.

³⁾ Includes taxes on services such as betting shops.

⁴⁾ Guyama REDD Plus Investment Fund Inflows were excluded from Total Non-Tax Revenue with effect Dec-2012.

⁵⁾ Natural Resource Fund (NRF) Withdrawl represents local currency amount withdrawn from the NRF & transferred to Central Government.

⁶⁾ Carbon Credit Sales included from March 2023.

Source: Bank of Guyana.

¹⁾ The Government of Guyana made the decision to include publicly guaranteed debt so as to provide a complete picture of the country's debt position. This amount excludes non-interest bearing debentures.

²⁾ In May 2018, the Bank of Guyana commenced issuance of Treasury Bills, on behalf of the Government, for budgetary support.

³⁾ In September 2016, there was an issuance of 20 Non-Negotiable Debenture to NIS with a total value of G\$4,882.4 million, to assist in recovering from losses due to their invesment in CLICO

⁴⁾ Includes the outstanding balance on the NICIL Bond, which was transferred to the books of the Government in December 2020.

⁵⁾ The CARICOM Loan was contracted to finance the construction of the CARICOM Secretariat.

⁶⁾ Comprises the Central Government's gross overdraft with the Bank of Guyana was included in domestic debt with effect from December 2020 in order to regularize and accurately reflect government's liabilities.

⁷⁾ Includes the 5-year syndicated NICIL Bond which was guaranteed by the Government of Guyana in May 2018. In December 2020, a decision was taken to have this Bond transferred to the books of the Central Government. The guarantee of the Deposit Insurance Corporation amount of G\$500 million from June 2019 is also included in this

Notes:

¹⁾ R.A.S.C: Refractory "A" Grade Super Calcined Bauxite

²⁾ C.G.B: Chemical Grade Bauxite

³⁾ M.A.Z: Metal Grade Bauxite

⁴⁾ Includes Road Grade Bauxite, Tailings and Capping as well as output by First Bauxite Company for which no specific grade was provided.

⁵⁾ Reflects output of Guyana Goldfields Inc. and Troy Resources Ltd.

I. GENERAL NOTES

Symbols Used

- ... Indicates that data are not available;
- Indicates that the figure is zero or less than half the final digit shown or that the item does not exist;
- Used between two period (e.g. 2010-11 or July-September) to indicate the years or months covered including the beginning and the ending year or month as the case may be;
- / Used between years (e.g. 2010/11) to indicate a crop year or fiscal year.
- Means incomplete data due probably to under-reporting or partial response by respondents.
- * Means preliminary figures.
- ** Means revised figures.

In some cases, the individual items do not always sum up to the totals due to rounding.

Acknowledgement

The Bank of Guyana wishes to express its appreciation for the assistance received from the Ministry of Finance, State Planning Secretariat, Commercial Banks, Bureau of Statistics, some Public Corporations and other Private Sector agencies in the compilation of the data.

II. NOTES TO THE TABLES

TABLE 1.1: Bank of Guyana: Assets

Foreign Assets

Balances with Foreign Banks: Deposits of the Central Bank with Foreign Banks. The data also include holdings of foreign notes and gold. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

Gold Tranche with the I.M.F.: One quarter of Guyana's subscription to the International Monetary Fund (I.M.F.) quota, which comprises gold and/or convertible currencies.

Holdings of Special Drawing Rights: Unused portion of the Special Drawing Rights (S.D.R.s) allocated by the I.M.F.

Money Market Securities: Holdings of short-and long-term debt instruments of foreign governments and the International Bank for Reconstruction and Development (I.B.R.D.) recorded at cost. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

<u>Claims on the Central Government</u>: Holdings of the Government of Guyana Treasury Bills, Debentures valued at cost and Advances from the Bank of Guyana. The Bank of Guyana Act No. 19 of 1998 section 46 has since removed the possibility of advances to Government since it restricted the Central Bank from extending credit directly or indirectly to the Government from that date.

Advances to Commercial Banks: Short term credit to Commercial Banks.

<u>Other Assets</u>: Include fixed assets such as land and buildings, furniture and equipment. Cheques in the process of collection, notes and coins issued by the British Caribbean Currency Board, non-interest-bearing debentures, and other miscellaneous assets are also included.

TABLE 1.2: Bank of Guyana: Liabilities

Currency Issue: Notes and Coins issued by the Bank.

Government Deposits: Current account deposits of the Central Government which includes sterilized amount from open market type operation with effect from 1994.

Deposits of International Organisations: Obligations to the I.M.F.; local currency component of the subscription to the I.M.F. quota; deposits of the I.B.R.D, the Caribbean Development Bank (C.D.B.) and foreign central banks. Other foreign liabilities of the Bank of Guyana are also included.

Bank Deposits-EPDs: Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers pending foreign exchange releases to meet foreign obligations which fell into arrears prior to 1990. This scheme was discontinued for foreign obligations after 1990.

Bank Deposits-Other: Commercial Banks' reserve deposits which includes statutory reserves with Bank of Guyana are recorded here. With effect from December 1994, special interest earning deposits of the Commercial Banks were discontinued in favour of unremunerated required free reserves.

Other Deposits: Includes deposits of National Insurance Scheme (N.I.S.), Guyana Gold Board (US \$ Deposits), Guyana Energy Agency (GEA) and Linden Economic Advancement among others.

<u>Authorized Share Capital</u>: The enactment of the Bank of Guyana Act No. 19 of 1998 provided for the increase in the capital for the Bank as part of the reform process.

Other Reserves: These reserves include General, Revaluation and Contingency Reserves.

<u>Allocation of S.D.R.'s</u>: Liability accruing from the SDRs allocated to Guyana, which are valued at the equivalent of Guyana dollar amount converted through the S.D.R. /U.S. dollar cross rate.

<u>Other Liabilities</u>: Include provision for accrued expenses, items in transit; private investment fund; and miscellaneous items. The decline in Other Liabilities from November 30, 2002 to December 31, 2002 reflects the charging of valuation changes to Other and Government Deposits.

TABLE 1.3: Bank of Guyana: Currency Notes Issue

Total issue less withdrawal of mutilated or spoiled legal tender notes. With the intent of enhancing the efficiency of the Payment System, the Bank of Guyana introduced a G\$5,000 note in 2013. In celebration of Guyana's 50th Independence Anniversary, the Bank issued a commemorative G\$50 note which was placed in circulation in May 2016.

TABLE 1.4: Bank of Guyana: Coins Issue

Total issue **less** withdrawals of defaced legal tender coins. The Bank of Guyana as part of its currency reform programme introduced with effect from January 1, 1997, G\$10, G\$5, G\$1 coins as legal tender and removed from the specie the use of cents. In observance of Guyana's 50th Republic Anniversary, the Bank issued a commemorative \$10,000 coin and a circulation \$100 coin which were launched on August 26, 2020.

TABLE 2.1(a): Commercial Banks: Assets

Balances due from Banks abroad: Deposits of Commercial Banks with Non-Resident foreign banks included head offices and branches.

Loans to Non-Residents: Commercial Bank lending to Non-Resident customers.

Due to re-classification at a Commercial Bank, figures for Private Sector and Non-Resident loans have been revised from December 2000 to May 2002. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for loans to Non – Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

Other Foreign Assets: Include foreign currency holdings and all other claims on Non-Residents by Commercial Banks. Due to reclassification at a Commercial Bank figures for Public Sector Other and Foreign Sector Other were revised from September 2002 to February 2003.

Securities: The total volume of Central Government Treasury Bills recorded at cost and debentures held by commercial banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for Securities include accrued interest from Dec. 2002.

Loans: Central Government borrowing from the Commercial Banks. See note above under loans to Non-Residents.

Public Enterprises: Loans and Advances extended by Commercial Banks to Public Financial Business Enterprises. Public Non-Financial Enterprises are defined as enterprises in which Government owns above 50 per cent of the share capital. See note above under loans to Non – Residents.

Other: Commercial Banks' claims on Local Government and the National Insurance Scheme. See note above under loans to Non-Residents

Non-Bank Financial Institutions: Loans issued to Public and Private Non-Bank Financial

Institutions by Commercials Banks'. See note above under loans to Non-Residents

<u>Private Sector</u>: Lending through loans and advances to Private Non-Financial Business Enterprises and Individual Customers. See note above under loans to Non-Residents. The decline in Private Sector Loans and Advances resulted partly from a reclassification of some loans at one Commercial Bank. See note above under loans to Non-Residents.

The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National bank of Industry and Commerce Limited on March 15' 2003 resulted in the decline in Private Sector Loans and Advances during March 2003.

Deposits with Bank of Guyana: Include statutory reserve deposits and interest earning deposits of the Commercial Banks. Effective December 28, 1994, interest-earning deposits were discontinued.

External Payment Deposits (E.P.D): Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers, pending foreign exchange releases to meet external obligations.

<u>Currency</u>: Commercial Banks' holdings of local notes and coins.

<u>Other Assets</u>: Include balances due from other Commercial Banks, Real Estate Mortgage Loans, fixed assets such as land and building, furniture, equipment and other miscellaneous assets.

TABLE 2.1(b): Commercial Banks: Liabilities, Capital and Reserves

Balances due to Other Banks abroad: Foreign claims made on local Commercial Banks by Head Offices and other banks abroad.

Non-Resident Deposits: Total deposits made by Non-Resident customers with Commercial Banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for deposits to Non-Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

Other: Include all other foreign claims on Commercial Banks.

Central Government Deposits: Total demand, time and savings deposits made by the

Central Government with Commercial Banks. See note above under deposits to Non-Residents.

Public Enterprise Deposits: Total demand, time and savings deposits made by Public Non-Financial Enterprises with the Commercial Banks. Due to the sale of Aroaima Bauxite Company to the government and a reclassification of its accounts from the Private to Public Sector, figures from January 2002 to April 2002 have been revised. See note above under deposits to Non-Residents.

Other Public Deposits: Include total deposits of Local Government and National

Insurance Scheme. See note above under deposits to non-residents. See note on Table 2.4

Commercial Banks: Time Deposits.

<u>Non-Bank Financial Institutions Deposits</u>: Consist of total deposits made by Public and Private Financial Institutions. See note above under deposits to Non-Residents. See note on Table 2.4: Commercial Banks: Time Deposits.

<u>Private Sector Deposits</u>: Include total demand, time and savings deposits of Private non-financial Business Enterprises and individual customers. See note above under Public Enterprises Deposits. See note above under deposits to non-residents.

External Payment Deposits: Comprise customers' deposits (public and private sector) with commercial banks on account of External Liabilities prior to 1990 and awaiting foreign exchange releases from the BOG.

<u>Bank of Guyana</u>: Commercial Bank short-term borrowing from the Bank of Guyana.

<u>Other Liabilities</u>: Other liabilities of the Commercial Banks include manager's cheques, acceptances, provision for taxes and other miscellaneous liabilities.

<u>Capital and Reserve</u>: The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National Bank of Industry and Commerce Limited (now Republic Bank Guyana Limited) on March 15, 2003 resulted in the decline in the capital and reserve of the banking systems during March 2003.

TABLE 2.2: Commercial Banks: Total Deposits

Total demand, savings and time deposits of Residents and Non-Residents excluding inter-bank deposits are presented. Foreign currencies denominated deposits are also included here. See note under Public Enterprises Deposits for Table 2.1 (b) above. See note under Non – Resident Deposits for Table 2.1(b) above.

TABLE 2.3: Commercial Banks: Demand Deposits

Current account deposits of Residents and Non-Residents; inter-bank deposits are excluded. See note under Public Enterprises Deposits for Table 2.1 (b) above.

TABLE 2.4: Commercial Banks: Time Deposits

Fixed deposits of Residents and Non-Residents with a minimum withdrawal notice of three months; exclude inter-bank deposits. See note under Non-Resident deposits for Table 2.1(b) above. Due to a reclassification of N.I.S and Non-Bank Financial Institutions' time deposits, figures from December 2003 to April 2005 were revised.

TABLE 2.5: Commercial Banks: Savings Deposits

Deposits with minimum withdrawal notice of one day; exclude inter-bank deposits. See note under Public Enterprises Deposits for Tables 2.1 (b) above. See note non-resident deposits for

Table 2.1(b)

above.

TABLE 2.6: Commercial Banks: Time Deposits by Maturity

Includes deposits of both Residents and Non-Residents. See note under Commercial Banks: Time Deposits for table 2.4 above.

TABLE 2.7: Commercial Banks: Savings Deposits

Includes deposits by both Residents and Non-Residents. Ending balance on savings accounts for November 2002 do not equate to the opening balance for December 2002 due to the addition of accrued interest to the December 2002 opening balance. The ending balance for February 2003 saving accounts differs from the opening balance for March 2003 due to the reclassification from demand and time accounts to saving accounts.

TABLE 2.9: Commercial Banks: Clearing Balances

Comprise total amount of cheques cleared by and debited to the accounts of the Commercial Banks. A National Clearing House was established at the Bank of Guyana during 1998 whereby large (in excess of G\$500,000) and small valued cheques are cleared. Data recorded after 1998 in this table reflect the value of small valued cheques cleared over the reporting period.

TABLE 2.10 (a): Commercial Banks: Total Loans and Advances

The data include Loans and Advances to Residents and Non-Residents. Real Estate Mortgage Loans and inter-bank loans are excluded. The total of loans and advances to the private sector differs from total credit to the private sector in Table 3.1 (Monetary Survey). The totals for credit to the private sector in Table 3.1 include local securities, other credit instruments and real estate mortgage loans. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit have been revised from January 2012 to March 2013.

See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

TABLE 2.10(b): Commercial Banks: Total Loans and Advances

The data covers total Loans and Advances to Residents and Non-Residents including Real Estate Mortgage Loans effective December 2001. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013.

TABLE 2.11: Commercial Banks: Demand Loans and Advances

The data cover lending for short periods including overnight loans to Residents and Non-Residents and exclude inter-bank loans. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013. See note under Private Sector for Table 2.1(a) above.

TABLE 2.12: Commercial Banks: Term Loans and Advances

The Loans and Advances are for longer periods extended to Residents and Non-Residents; inter-bank lending is excluded. Due to a reclassification by two Commercial Banks, figures for Private Sector Credit and Real Estate Mortgage loans have been revised from January 2012 to March 2013. See note under Private Sector for Table 2.1(a) above. See note under loans to Non-Residents for Table 2.1(a) above.

TABLE 2.13: Commercial Banks: Loans and Advances to Residents by Sector

The data provided record balances at the end of the respective period and therefore indicates the indebtedness of the respective industries at the end of the reporting period. The value of credit obtained by each industry for a given period can be obtained by taking the difference between the balances at the end of the desired period and that immediately preceding. The balances in this table exclude inter-bank loans, real estate mortgage loans, local securities and other credit instruments. It should be noted that gross indebtedness of the sugar and rice industry can be obtained by adding the balances of sugar cane and sugar and molasses manufacturing of sugar, and paddy and rice milling for rice respectively. Figures under the 'other purposes' subcategory has been reclassified to exclude credit card transactions effective from March 2007. Due to a reclassification by two Commercial Banks, figures under the Private Sector have been revised from January 2012 to March 2013. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

TABLE 2.14: Commercial Banks: Liquid Assets

The liquid assets comprise Bank of Guyana notes and coins, foreign currency held by banks, (special interest earning) deposits held at the Bank of Guyana (BOG), balances due from other Commercial Banks - both local and foreign, Government of Guyana Treasury Bills. The special reserves deposits (SRDs) established in 1969, discontinued in 1994 as the Bank of Guyana sought to develop its capacity to manage the excess reserves of the bank more effectively. Approximately, 75-80 per cent of the SRDs were absorbed through a sale of three year, variable rate, and fixed date debenture to the Commercial Banks.

Prior to March 1989, the legally required level of liquid assets to be held by the Commercial Banks against their deposit liabilities was calculated as the sum of 20 percent of demand liabilities and 15 percent of time liabilities. During the period March 31, 1989 to May 15, 1991 the determination of the required liquid assets held by the banks was based on actual holdings on specified dates. Accordingly, from March 31, 1989 to June 30, 1990 required liquid assets were stipulated as the actual holdings on March 15, 1989. Between July 30, 1990 and February 19, 1991 the required liquid assets was based on the assets held by the banks on September 30, 1989. Further, between February 20, 1991 and May 14, 1991 the required balances were set as at the end of July 30, 1990.

With effect from May 15, 1991, however, the basis for calculating required liquid assets was changed to 25 percent of demand liabilities and 20 percent of time liabilities. Further, amendments to the liquid asset requirements became effective on 26th, October 1998. The liquid assets base period has been redefined as the Monday to Friday workweek immediately preceding the liquid asset maintenance period. The liquid asset requirement is determined by applying the prescribed percentages to the weekly average of the daily liabilities balances at the close of business of each of the five days of the liquid asset base period. Figures for Treasury Bills were reclassified from December 2000 to December 2002.

The Liquid Assets Ratio was temporarily amended to 20 percent of demand liabilities and 15 percent of time liabilities with effect from August 24, 2020 – December 31, 2020 in keeping with the agreement between the Bank of Guyana and the Commercial Banks in relation to COVID-19 supplementary relief measures.

TABLE 2.15: Commercial Banks: Minimum Reserve Requirements

Prior to May 16, 1991, the minimum required reserves of the Commercial Banks were calculated as 6 percent of demand liabilities and 4 percent of time liabilities. Their percentages were changed with effect from May 16, 1991, to 11 percent of demand liabilities and 9 percent of time liabilities. Commencing April 7, 1994, the minimum required reserves of the Commercial Banks were again revised to the sum of 16 percent of demand liabilities and 14 percent of time liabilities.

On June 29, 1998, in addition to Commercial Banks, other licensed Financial Institutions were

required to maintain balances with the Central Bank against their deposits and other liabilities. Further, the required reserve period has been changed on Monday to Friday workweek instead of the Wednesday to Thursday week used previously. The required reserve period has been referred to as the <u>reserve base period</u>. The week following the current reserve base period, i.e. <u>the reserve maintenance period</u> is also based on the Monday to Friday workweek. The deposits and other liabilities to which the required reserve ratio(s) are applied are referred to as the <u>reserve base</u>. During the reserve maintenance period, all licensed Financial Institutions subject to reserve requirement are required to maintain reserves against the relevant deposit and other liabilities.

Effective February 1, 1999, the required reserve ratio applicable to all liabilities of licensed Financial Institutions was lowered to twelve per cent (12 %). The first reserve base period for which the revised requirements became relevant was the 1st to 5th February 1999 while the reserve maintenance period was the 8th to 12th February 1999. However, reserve balances for the Non-Bank licensed Financial Institutions are excluded from table 2.15.

The Reserve Requirement Ratio was temporarily amended to 10 percent with effect from August 24, 2020 – December 31, 2020 in keeping with the agreement between the Bank of Guyana and the Commercial Banks in relation to COVID-19 supplementary relief measures.

TABLE 2.16(a): Foreign Exchange Intervention

This comprises Bank of Guyana's purchases and sales of US Dollars to the Commercial Banks.

TABLE 2.16(b): Interbank Trade

This comprises foreign currency (US, Euro, Pounds Sterling and Canadian) purchases and sales amongst the Commercial Banks.

TABLE 2.17: Commercial Banks holdings of treasury bills

These are short-term government securities held by the Commercial Banks with maturities of 91 days, 182 days and 364 days. Data are at face value.

TABLE 3.1: Monetary Survey

A consolidation of the balance sheets of the Bank of Guyana and Commercial Banks.

Foreign Assets (net)

Bank of Guyana: Gross foreign assets less gross foreign liabilities.

Commercial Banks: Gross foreign assets **less** gross foreign liabilities. See note under Loans to Non-Residents for Table 2.1 (a) above.

Domestic Credit

Government (net): Gross lending to Central Government by the banking system (a sum of Holdings of debentures, bonds, Treasury Bills and loans and advances **less** total deposits of the Central Government).

Public Enterprise (net): Gross borrowing by Non-Financial Public Enterprises from the banking system **less** their deposits. See notes under Public Enterprises Deposits for Table 2.1 (b) and Commercial Banks: Time Deposits for Table 2.4 above.

Other Public Sector (net): Gross borrowing from the banking system by local authorities and municipalities **less** their total deposits and other Public Sector funds. See note under loans to Non-Residents for Table 2.1(b) above.

Non-Bank Financial Institution (net): Gross borrowing from the banking system by the non-bank financial intermediaries with the banking system **less** their deposits. See notes under loans to Non-Residents for Table 2.1(b) and Commercial Banks: Time Deposits for Table 2.4

above.

Private Sector: Gross borrowing from the banking system. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

Money and Quasi-Money

Money: Currency outside banks **plus** private sector demand deposits, managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above

Currency: Currency issue (Table 1.2) **less** currency holdings by Commercial Banks (Table 2.1(a)).

Quasi-money: Time and savings deposits held by the Private Sector. See note under Public Enterprises Deposits for Table 2.1 (b) above.

Demand deposits: Balances of the Private Sector including managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above.

Savings and Time deposits: Balances held by Private Sector. See note under Loans to Non-Residents for Table 2.1 (a) above.

Other (net): Includes the net sum of all assets and liabilities of the Bank of Guyana and the Commercial Banks not shown elsewhere.

TABLE 4.1: Guyana: Selected Interest Rates

Reflects interest rates at Commercial Banks and Non-Bank Financial Institutions on loans and deposits. The small savings rate represents an arithmetic average of savings deposit rates as reported by the Commercial Banks. Treasury bill rates for all maturities reflect rates at the end of the reporting period. Special deposits have been discontinued with effect from December 1994.

TABLE 4.2: Commercial Banks: Selected Interest Rates

Arithmetic average of interest rates as reported by the Commercial Banks.

TABLE 4.3: Comparative Treasury Bills Rates and Bank Rates

The average discount rate on three month Treasury Bills for the U.K., U.S.A., Barbados, Trinidad, Guyana and Jamaica. The U.K. and U.S. rates are the average discount rates at the last tender in each month. The rates for the CARICOM territories are those rates of monthly tender held towards

TABLE 5.1: The New Building Society: Assets and Liabilities

Assets

Foreign Assets: Includes holdings of foreign assets.

Cash and Deposits: Holdings of cash and total deposits (demand, time and savings) at Commercial Banks.

Government of Guyana Treasury Bills: Holdings of Treasury Bills recorded at book value.

Government of Guyana Securities: Holdings of debentures and defence bonds at book value.

Government of Guyana Debentures: Holdings of debentures at book value.

Local Authorities Securities: Bonds at book value.

Liabilities

Share Deposits: A total of Five Dollar and Save and Prosper Share deposits.

Other Deposits: Ordinary Saving deposits

TABLE 5.2 (a): Trust Companies: Assets

Trust Companies reflect the consolidated operations of Trust Company (Guyana) Limited and Hand-In-Hand Trust.

Cash: Currency (local notes and coins) held by the institution.

Deposits: Balances of savings and time deposits at Bank of Guyana and the Commercial Banks.

Government of Guyana Treasury Bills: Recorded at book value.

Local Government Securities: Recorded at book value.

TABLE 5.2 (b): Trust Companies: Liabilities

Deposits – Business Firms: Balances held by private sector businesses.

Deposits – Individual Customers: Balances held by private individuals.

Deposits – Other Customers: Balances held by other private sector agencies including non-financial organizations.

TABLE 5.2 (c): Finance Companies: Assets

Finance Companies reflect the consolidated operations of Secure International Finance

Company, Beharry Stock Brokers Limited and one merchant bank.

Cash: See note under Cash for Table 5.2 (a) above.

Deposits: Balances of savings and time deposits at Commercial Banks.

Private Sector Shares: Ownership of equity such as bonds, bills, shares etc. in private companies.

TABLE 5.2 (d): Finance Companies: Liabilities

Loans: Loans received from Companies' affiliates.

Capital and Reserves: Includes retained earnings and reserves.

Deposits – Other Customers: Balances held by other private sector agencies including non-financial organizations.

TABLE 5.3: Domestic Insurance Companies: Assets and Liabilities

The data covers four life insurance companies: Demerara Mutual Life Assurance Company; Guyana and Trinidad Mutual Life Insurance Company; Hand-In-Hand Mutual Life Insurance Company and North American Life Insurance Company Limited and five non-life insurance companies: Demerara Fire Insurance Company, . Guyana and Trinidad Mutual Fire Insurance Company; Hand-In-Hand Mutual Fire Insurance Company, North American Fire Insurance Company Limited and Diamond Fire and General Insurance Company.

Assets

Foreign Commercial Bank Deposits: Deposits held in Foreign Commercial Banks.

Foreign Securities: Holdings of the Government of the United Kingdom and CARICOM countries and other foreign securities.

Other Foreign Assets: Balances due from reinsurance abroad, and other foreign assets.

Government of Guyana Debentures: Holdings are recorded at book value.

Local Government Securities: Holdings are recorded at book value.

Securities in Firms: Holdings of commercial bills, shares and other securities recorded at book value.

Liabilities

Life Insurance Fund: Insurance premia received.

Foreign Liabilities: Claims by non-residents, balances due to insurance companies abroad, non-resident life insurance funds and other liabilities.

TABLE 5.4: Pension Schemes: Assets and Liabilities

Assets

Foreign Sector: Includes foreign deposits and foreign securities.

Government of Guyana Treasury Bills: Holdings recorded at book value.

Government of Guyana Debentures: Holdings recorded at book value.

Local Government Securities: Holdings of Local Government Securities recorded at book value.

Liabilities:

Pension Fund: Receipts from the twenty-seven pension funds in Guyana which submit returns to the Bank of Guyana.

TABLE 6.1 Central Government Finances: Summary

Current Revenue: The data include collection of taxes, other charges and fees. The data are recorded on a cash basis.

Current Expenditure: The data includes interest payment, interest

charges and other expenditure. Repayment of Principal is not included. The data are recorded on a cash basis.

Current Surplus/Deficit: Current revenue **less** current expenditure.

Capital Receipts: These include proceeds from sale of assets and external grants.

Capital Expenditure: Investment expenditure; the data also include net transfers and lending to the public enterprises for financing development projects.

<u>Overall Surplus/Deficit:</u> The total of current revenue and capital receipts **less** the total of current and capital expenditure.

Borrowing from abroad:

Net short term: Gross borrowing with a maturity of up to 1 year **less** repayment of principal.

Long term net borrowing: Gross borrowing with a maturity of over 1 year **less** repayment of principal.

Domestic Borrowing:

Borrowing from the banking system (net): The banking system holdings of Government debentures, bonds, Treasury Bills and loans and advances **less** Government deposits.

Non-bank borrowing: Borrowing outside the banking system. Short-term (net) includes Treasury bill holdings **less** redemptions and local suppliers' credits. Long-term (net) borrowing comprises holdings of debentures and development bonds **less** redemptions. Holdings of debentures and Treasury Bills by sinking funds are excluded.

<u>Other Financing:</u> Comprises mainly accumulated arrears on external debt repayment, rescheduling of debt and financing from counterpart funds.

TABLE 6.4 Public Corporations Finances: Summary

The table summarizes the financial operations of the public corporations and companies. All data from 1990 are based on cash flow statements. Prior to 1990 the data were on an accrual basis.

TABLE 7.1 Domestic Public and Publicly Guaranteed Debt

Comprises Government of Guyana Defence Premium Bonds, Guymine Bonds, Debentures, Treasury Bills and Publicly GuaranteedDebt.

Defence Premium Bonds: These are non-interest bearing savings certificates of six months duration. They are no longer used to raise funds. Data are at face value.

NICIL Bond: In May 2018, the GOG guaranteed a 5-year syndicated NICIL Bond not exceeding \$30 billion, of which \$17.6 billion was issued. In December 2020, a decision was taken to have this Bond transferred to the books of the Central Government.

Government of Guyana Debentures: These are long term government securities with maturities in excess of one year. Figures are at face value.

Government Treasury Bills: These are short-term government securities with maturities of 91 days, 182 days and 364 days. Data are at face value.

In May 2018, the Bank of Guyana commenced issuance of Treasury Bills, on behalf of the Government, for budgetary support.

Other: Includes the Central Government's gross overdraft with the Bank of Guyana, which was included in domestic debt with effect from December 2020 in order to regularize and accurately reflect government's liabilities.

Publicly Guaranteed Debt: The Government of Guyana made the decision to include publicly guaranteed debt so as to provide a complete picture of the country's debt position. Includes the 5-year syndicated NICIL Bond which was guaranteed by the Government of Guyana in May 2018. In December 2020, a decision was taken to have this Bond transferred to the books of the Central Government. The guarantee of the Deposit Insurance Corporation amount of G\$500 million from June 2019 is also included in this category.

TABLE 7.2 Government of Guyana: Treasury Bills by Holders

The holdings of Treasury Bills are recorded at face value. Consequently, figures in this table will differ from those reported in the balance sheet of the Bank of Guyana, Commercial Banks and Non-Bank Financial Institutions, which are recorded at book value.

Other Financial Institutions: Consist of non-bank financial institutions viz:- building societies, insurance companies, trust companies and pension funds.

Public Sector: Include Public Enterprises, National Insurance Scheme, other funds and sinking funds.

Private Sector: excludes financial institutions.

Non-residents: include foreign missions and organizations.

TABLE 7.3 Government of Guyana: Debentures by Holders and Other Debt

The holdings of Debentures and Defence Bonds are at face value. The debentures are long term government securities with maturities in excess of one year. Non-interest bearing debentures held by the Bank of Guyana are excluded. The Defence Bonds have a six-month duration. They are no longer issued.

TABLE 7.4 Government of Guyana: Debentures by Maturities and Terms

Data include all fixed date, equated annuity and special issues; at face value.

Fixed Date Debentures: These debentures have fixed dates for payments of principal and interest.

Special Issues: Comprise fixed date and equate annuity debentures issued to Bank of Guyana and the National Insurance Scheme. In 1994 the Central Bank absorbed between 75 percent to 80 percent of the excess reserves of the banking system, through a forced sale of a long term (3 years) variable rate fixed date debenture. The interest is calculated at a rate of point five percent (0.5 %) per annum above the regular three month treasury bill yield rate averaged over the calendar months prior to the interest due date. In 2003, the Government of Guyana made a special issue of debentures to the National Bank of Industry and Commerce (NBIC) (now Republic Bank (Guyana) Limited) to capitalize the Guyana National Co-operative Bank (GNCB) at the time of its privatization.

TABLE 7.5 External Public Debt

The data comprise the stock of Central Government and Government guaranteed debt outstanding, Bank of Guyana's debt is excluded.

Bilateral Debt: Debt contracted with foreign investments.

Multilateral Debt: Debt contracted with international lending institutions such as the World Bank, the Inter-American Development Bank, the Caribbean Development Bank and the

European Investment Bank.

Financial Institutions Debt: These debts include borrowing from foreign commercial banks and specialized official lending agencies.

Suppliers Credit: Obligations to suppliers for deferred payment after delivery of goods and/or services.

Nationalization Debt: Amounts owing to foreigners in compensation for nationalized assets.

TABLE 8.1(a) Imports by End-Use

The data are compiled on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Figures for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana.

TABLE 8.2 Domestic Exports

The data are compiled on a free-on-board (f.o.b.) basis as recorded on customs returns. Figures for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana.

TABLE 8.5 International Reserves and Foreign Assets

International Reserves

Bank of Guyana Foreign Assets: Data include gold holdings, balances with foreign banks, foreign notes, foreign cash in the process of collection, gold tranche with I.M.F., S.D.R. holdings and money market securities.

Bank of Guyana Foreign Liabilities: Data include total short-term current liabilities, short-term liabilities in arrears and total medium liabilities in arrears. The liabilities include interest obligations. Rescheduled short-term liabilities are excluded.

Foreign Assets

Bank of Guyana Foreign Assets: The composition of the assets is identical to that of International Reserves Foreign Assets above.

Bank of Guyana Foreign Liabilities: Data include all short-term liabilities (current, arrears and rescheduled) and all medium term liabilities (current, arrears and rescheduled). The liabilities include interest obligations.

Commercial Banks' Foreign Assets: Data include foreign currencies in banks, net balances due from Head Offices and other branches abroad, balances due from other banks abroad, foreign treasury bills and securities and credit to non-residents.

Commercial Banks' Foreign Liabilities: Data include net balances due to Head Offices and other branches abroad, balances due to other banks abroad and deposits of non-residents. See note under Loans to Non-Residents for Table 2.1(a) above.

TABLE 8.7 Balances of Payments

Exports: The data are compiled on a free on board (f.o.b.) basis as recorded on customs returns. Data for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

Imports: The data are compiled on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Data for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

TABLE 8.8 International Investment Position

With effect from December 2019, the Bank of Guyana began reporting data on Guyana's International Investment Position.

Direct Investment: Direct Investment includes equity investment and debt investment.

Portfolio Investment: Portfolio Investment includes equity and debt securities.

Other Investment: Other investment includes currency & deposits, loans, insurance, trade credits and other.

TABLE 9.1 Changes in Bank of Guyana Transaction Exchange Rates

The Guyana dollar was fixed in Pound Sterling at the rate of £1 to G\$4.80 until October 1975 when it was linked to the US\$1 to G\$2.55.

On June 2, 1981, the Guyana dollar was pegged to a composite basket of currencies consisting of the United States dollar, Pound Sterling, Deutsche Mark, Trinidad and Tobago dollar and the Japanese Yen. The exchange rates was fixed at US\$1 to G\$3.00. The US dollar was the intervention currency used to determine the exchange rate.

From January 11,1984, the composite basket of currencies was adjusted to include the Pound Sterling, Deutsche Mark, Japanese Yen, French Franc and the Netherlands Guilder, the US dollar, although nor part of the revised basket, remained as the intervention currency. The United States dollar/Guyana dollar exchange rate was announced weekly. From October 1984 until January 1987, the exchange rate was maintained in the range of G\$4.15 to G\$4.40 per US dollar.

Effective January 19, 1987, the Guyana dollar was devalued to G\$10 to US\$1, effective from April 3, 1989 the Guyana dollar was devalued moving from G\$33 per US\$ to US\$1. On June 15, 1990, the Guyana dollar was devalued from G\$33.00 per US\$ to G\$45.00 per US\$. Transactions for this rate were confined to payments in respect of oil imports and external debt services and proceeds from sugar and rice exports.

On February 21, 1991, the Guyana dollar was devalued from G\$45.00 to US\$ to G\$101.75 thereby unifying the official exchange rate with the market determined rate prevailing at that date. The US dollar continued to be the intervention currency. From February 25, 1991, the exchange rate was fixed on a weekly basis. During the period February to September 1991, the exchange rate was determined by the previous week free market exchange rate of the Commercial Banks and Non-Bank dealers.

From October 1991, the average weighted daily exchange rate was telegraphic transfers for the three largest Commercial Banks was utilized to determine the exchange rate for the Bank of Guyana daily transactions.

TABLE 9.2(b) Exchange Rate (G\$/US\$)

The end of period exchange rate is the weighted official rate used by the Bank of Guyana for transactions. The period average exchange rate reflects the weighted average rate for the respective periods.

TABLE 9.5: Monthly Average Market Exchange Rate

On March 13, 1990, the authorities established the cambio system for foreign currency

transactions. Under the system, transactions in the cambio market were conducted freely with licensed dealers (banks and non-banks) setting the rate at which foreign exchange could be bought and sold. The rates are referred to as the market exchange rates. Data collection for the Euro started in January 2004.

The buying rate is a weighted average of the purchase rates of all licensed foreign exchange dealers for the month.

The selling rate is a weighted average of the sales rates of all licensed foreign exchange dealers for the month.

The mid-rate is the average buying and selling rates of all licensed foreign exchange dealers. The rate is based on transactions in foreign notes only.

TABLE 10.1 Gross Domestic Product (at Current Basic Prices)

GDP compiled at current basic prices, for the respective year, is the production of goods and services undertaken by firms, households, government bodies within the borders of the country during a calendar year, at the amount receivable by the producer from the purchase of a unit of good or service less any tax payable, plus any subsidy receivable as a consequence of its production or sale.

TABLE 10.2 Gross Domestic Product (at 2012 Prices)

Real GDP – taking the quantities of goods and services produced (at the current basic year) and priced at the base year of 2012 prices, it is therefore adjusted for any variation in prices (inflation or deflation).

TABLES 10.3 National Production

This accounts for the major commodities that account for a significant portion of national production and economic activities within a calendar year. It is sourced from the Bureau of Statistic (BOS) as well as the respective industries, such as for rice: Guyana Rice Development Board, sugar: GUYSUCO, forestry: Guyana Forestry Commission and gold: Guyana Gold Board, etc.

Table 11.1 Georgetown: Urban Consumer Price Index

The Urban Consumer Price Index measures the overall level of price movement for a specified basket of consumer goods and services in the urban area. It is compiled and computed by the Bureau of Statistics, and the basket is made up of nine (9) sub-categories, (this table highlights four: Food, Housing, Transport & Communication and Miscellaneous), which comprises of 217 items (goods and services). The current base year is December 2009.

Table 11.2 CARICOM Countries: Consumer Price Indices

This table reflects the consumer price movements for selected CARICOM countries (current base year 2010).
