Due to a reclassification by two Commercial Banks, figures for Private Sector Credit have been revised from January 2012 to March 2013.

TABLE 2.13: Commercial Banks: Loans and Advances to Residents by Sector

The data provided record balances at the end of the respective period and therefore indicates the indebtedness of the respective industries at the end of the reporting period. The value of credit obtained by each industry for a given period can be obtained by taking the difference between the balances at the end of the desired period and that immediately preceding. The balances in this table exclude inter-bank loans, real estate mortgage loans, local securities and other credit instruments. It should be noted that gross indebtedness of the sugar and rice industry can be obtained by adding the balances of sugar cane and sugar and molasses manufacturing of sugar, and paddy and rice milling for rice respectively. Figures under the 'other purposes' sub-category has been reclassified to exclude credit card transactions effective from March 2007. Due to a reclassification by two Commercial Banks, figures under the Private Sector have been revised from January 2012 to March 2013. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

TABLE 2.14: Commercial Banks: Liquid Assets

The liquid assets comprise Bank of Guyana notes and coins, foreign currency held by banks, (special interest earning) deposits held at the Bank of Guyana (BOG), balances due from other Commercial Banks - both local and foreign, Government of Guyana Treasury Bills. The special reserves deposits (SRDs) established in 1969, discontinued in 1994 as the Bank of Guyana sought to develop its capacity to manage the excess reserves of the bank more effectively. Approximately, 75-80 per cent of the SRDs were absorbed through a sale of three year, variable rate, and fixed date debenture to the

Commercial Banks.

Prior to March 1989, the legally required level of liquid assets to be held by the Commercial Banks against their deposit liabilities was calculated as the sum of 20 percent of demand liabilities and 15 percent of time liabilities. During the period March 31, 1989 to May 15, 1991 the determination of the required liquid assets held by the banks was based on actual holdings on specified dates. Accordingly, from March 31, 1989 to June 30, 1990 required liquid assets were stipulated as the actual holdings on March 15, 1989. Between July 30, 1990 and February 19, 1991 the required liquid assets was based on the assets held by the banks on September 30, 1989. Further, between February 20, 1991 and May 14, 1991 the required balances were set as at the end of July 30, 1990.

With effect from May 15, 1991, however, the basis for calculating required liquid assets was changed to 25 percent of demand liabilities and 20 percent of time liabilities. Further, amendments to the liquid asset requirements became effective on 26th, October 1998. The liquid assets base period has been redefined as the Monday to Friday workweek immediately preceding the liquid asset maintenance period. The liquid asset requirement is determined by applying the prescribed percentages to the weekly average of the daily liabilities balances at the close of business of each of the five days of the liquid asset base period. Figures for Treasury Bills were reclassified from December 2000 to December 2002.

TABLE 2.15: Commercial Banks: Minimum Reserve Requirements

Prior to May 16, 1991, the minimum required reserves of the Commercial Banks were calculated as 6 percent of demand liabilities and 4 percent of time liabilities. Their percentages were changed with effect from May 16, 1991, to 11 percent of demand liabilities and 9 percent of time liabilities. Commencing April 7, 1994, the minimum required reserves of the Commercial Banks were again revised to the sum of 16 percent of demand liabilities and 14 percent of time liabilities.

On June 29, 1998, in addition to Commercial Banks, other licensed Financial Institutions were required to maintain balances with the Central Bank against their deposits and other liabilities. Further, the required reserve period has been changed on Monday to Friday workweek instead of the Wednesday to Thursday week used previously. The required reserve period has been referred to as the reserve base period. The week following the current reserve base period, i.e. the reserve maintenance period is also based on the Monday to Friday workweek. The deposits and other liabilities to which the required reserve ratio(s) are applied are referred to as the reserve base. During the reserve maintenance period, all licensed Financial Institutions subject to reserve requirement are required to maintain reserves against the relevant deposit and other liabilities.

Effective February 1, 1999, the required reserve ratio applicable to all liabilities of licensed Financial Institutions was lowered to twelve per cent (12 %). The first reserve base period for which the revised requirements became relevant was the 1st to 5th February 1999 while the reserve maintenance period was the 8th to 12th February 1999. However, reserve balances for the Non-Bank licensed Financial Institutions are excluded from table 2.15.
