STATISTICAL ANNEX	

I

THE GUYANA ECONOMY

1. SUMMARY

Real economic growth for the first half of 2011 reached 5.9 percent and was driven by the agriculture, mining and quarrying, manufacturing and services sectors. Favourable weather conditions, high commodity prices, increased investment and spending were the major factors responsible for the sectors' performance. The forestry, fishing and diamond industries contracted during the review period. Inflation stood at approximately 2.97 percent due to rising fuel and food prices.

The overall balance of payments deteriorated to a deficit of US\$19.6 million compared with a surplus of US\$34.6 million a year ago. This outturn was a result of an expansion in the current account deficit caused by higher merchandise trade and services deficit which were partly offset by higher transfers. The capital account recorded a lower surplus of US\$163.8 million due to higher petrocaribe financing of US\$79.3 million. Higher exceptional financing contributed to an increase in the gross foreign assets of the Bank of Guyana which provided an import cover of 4.3 months.

Foreign exchange market transactions grew by 19.2 percent to reach US\$2,861.7 million. Transactions at the Cambios and the Bank of Guyana grew by 23.5 percent and 27.5 percent, respectively. However, those related to foreign currency accounts experienced a 10.0 percent increase. The Guyana dollar vis-à-vis the United States dollar retained its path of stability, depreciating marginally by 0.25 percent.

The overall financial operations of the public sector recorded a lower surplus. This outturn resulted from a decline in the central government surplus due to a higher capital account deficit from a 23.9 percent growth in capital spending. The current account surplus expanded as a result of a 13.0 percent growth in revenues. The Non-Financial Public Enterprises (NFPEs) account recorded a reduction in the overall deficit due to a 27.7 percent increase in current receipts which more than offset a 22.4 percent growth in current expenditure.

The stock of domestic and external public debt increased by 9.1 percent and 15 percent, respectively from end-June 2010 level. The former is attributed to an increase in the issuance of treasury bills to sterilize excess liquidity, while the latter is due to disbursements from the IDB and bilateral credit delivered under the Petrocaribe Initiative. Domestic debt service decreased as a result of lower interest payments associated with the issuance of treasury bills while external debt services was higher on account of higher principal and interest payments during the first half of 2011.

Monetary aggregates of reserve and narrow money contracted while broad money expanded during the first half of 2011. Deposits of both the private and public sectors expanded while net domestic credit by the banking system increased on account of high private sector credit. Commercial banks' interest rates trended downwards with interest rate spreads remaining relatively high. The non-bank financial institutions were active in mobilizing resources which translated to a 10.1 percent increases in their net deposits.

The Licensed Depository Financial Institutions (LDFIs) reported higher levels of capital and profits for the first half

of 2011. The Capital Adequacy Ratio (CAR) when compared with end-June 2010 remained well above the prudential benchmark of 8.0 percent. The stock of non-performing loans deteriorated from the end-June 2010 level but showed some improvement when compared with the end-December 2010 level. The LDFIs recorded a 21.0 percent rise in provision which improved the level of provision against non-performing loans to 75.0 percent, up from 62.4 percent for the corresponding period in 2010.

The conduct of monetary policy continued to focus on price stability, ensuring adequate level of liquidity is in the system and creating an enabling environment for credit and economic growth. The Bank continued to use treasury bills in the primary open market operations for the effective management of liquidity. Purchases and sales of foreign exchange by the Bank were also used to control liquidity. There was a G\$3.9 billion net issue of treasury bills. The Bank continued to facilitate efficient intermediation through the issuance of notes and coins as well as promotion of enhanced payment system operation.

Global economic growth has slowed to 4.3 percent in the first half of 2011. High food and fuel prices, post crisis difficulties in industrialized countries and natural disasters have adversely affected global growth. Economic activities continued to be weak in industrialized countries after the impact of the financial crisis while most emerging and developing economies continued to experience strong growth. Global unemployment continued to be high. Global inflation increased on account of higher commodity prices and demand pressures.

During the second half of 2011, world economic recovery is projected. Inflation and exchange rates are expected to be stable. However, global growth is very much dependant on the revival of international trade. The Guyanese economy is projected to grow by 5.1 percent by end of year 2011. Inflation will be monitored and is expected to increase by 4.8 percent on account of rising food and fuel prices while the exchange rate will remain relatively stable as a result of a net supply of foreign exchange in the system. The Bank will continue to control the liquidity level in the banking system to support efforts in promoting and sustaining macroeconomic stability. □

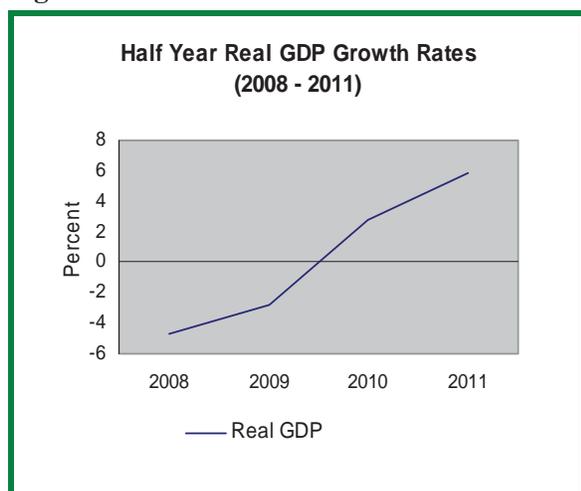

2. PRODUCTION, EMPLOYMENT, INCOME AND INFLATION

Real economic growth for the first half of 2011 reached 5.9 percent and was driven by the agriculture, mining and quarrying, manufacturing and services sectors. Favourable weather conditions, high commodity prices, increased investment and spending were the major factors responsible for the sectors' performance. The forestry, fishing and diamond industries contracted during the review period. Inflation stood at approximately 2.97 percent due to rising fuel and food prices.

GROSS DOMESTIC PRODUCT (GDP)

The economy grew by 5.9 percent during the first half of 2011. This outcome was due to improved performances in the agriculture, mining, manufacturing and services sectors. The forestry, fishing and diamond industries experienced declines in output, during the review period.

Figure I

PRODUCTION

Agriculture

The agriculture sector recorded positive growth of 3.8 percent relative to 0.3 percent for last year. This performance was credited to favourable weather conditions in the second quarter of the year, which contributed to increased production in the major commodities sugar and rice, whereas livestock output also increased. However, declines were seen in the forestry and fishing industries.

Sugar

Sugar output was 106,871 tonnes, 30.5 percent higher than the level at end June 2010, and represented 35.8 percent of the 298,879 tonnes targeted for 2011. This outturn was on account of increased acreage planted and higher yields; resulting from favourable weather through February to May, and also of increased manpower and the enhanced mechanisation processes.

Table 1

Selected Production Indicators Agriculture, Fishing & Forestry January - June			
Commodity	2009	2010	2011
Sugar (tonnes)	83,357	81,864	106,871
Rice (tonnes)	160,868	168,267	207,514
Fish (tonnes)	11,340	11,574	10,765
Shrimp (tonnes)	11,403	13,276	12,582
Poultry (tonnes)	14,015	11,157	12,239
Eggs ('000)	10,723	5,948	13,282
Total logs (cu.mt.)	116,765	138,500	90,324
Sawnwood (cu.mt)	32,863	30,248	28,541
Plywood (cu. mt.)	7,275	10,396	3,384

Rice

Rice output was 207,514 tonnes, 23.3 percent more than the corresponding 2010 level and represented 54.7 percent of the 379,628 tonnes target for 2011. This increase was due to government investments in rice research & developments, improved drainage & irrigation systems, effective rice strain equipments, and more farmers partaking in paddy production that resulted from the suitable weather and favourable

prices in the world market.

Fishing and Livestock

The fishing industry declined by 2.2 percent in the first half of 2011 compared to the corresponding period last year. Fish catches declined by 7.0 percent and prawns and small shrimp fell by 60.1 percent and 2.2 percent, respectively. This outcome was attributed to piracy, unfavourable weather conditions and high fuel prices.

Output of the livestock industry improved with increases in eggs and poultry production by 123.3 percent and 9.7 percent, respectively. The former was due to an increase in imported egg layers while the latter was due to increased importation of broiler eggs.

Forestry

Forestry activities declined by 29.0 percent, during the review period. This was attributed to inclement weather conditions and low demand for timber. Total output of logs decreased by 34.8 percent; due to the reduction in greenheart by 43.3 percent and logs of other species by 33.2 percent. The production of sawnwood, roundwood and plywood also dropped by 5.6 percent, 15.2 percent and 67.4 percent, respectively.

Mining and Quarrying

The mining sector improved by 9.5 percent in real terms. This outcome reflected the increases in bauxite and gold output, due to rising demand and high international prices, respectively. In contrast diamond production reflected a decline.

Bauxite

Bauxite output increased by 38.6 percent in this review period and represents 66.8 percent of the 1,220,000 tonnes target for the year. The industry recorded increases of 37.4 percent and 4.0 percent in Metal Grade (MAZ) and Refractory Grade bauxite (RASC), respectively as a result of higher demand for these grades. In contrast, there was a decline in output of Chemical Grade bauxite (CGB) by 58.8

percent.

Table II

Selected Production Indicators			
Mining & Quarrying			
January - June			
Commodity	2009	2010	2011
Bauxite (Tonnes)	794,128	588,369	815,506
RASC	91,700	76,959	80,024
CGB	102,112	78,700	32,406
MAZ	579,473	426,607	585,957
Gold (oz)	131,550	142,212	163,413
Diamond (mt. ct.)	87,346	35,375	23,620

Gold and Diamonds

Total gold declarations increased by 14.9 percent to 163,413 ounces and were 51.1 percent of the revised target of 320,000 ounces for the year. This outturn was due to high gold prices in the world market that resulted in increased mining activities by small and medium scale miners.

The diamond industry experienced a 33.2 percent decrease in declarations, and represent 52.6 percent of the 44,928 carats target for 2011. This outcome was a consequence of relatively lower international prices for diamond compared to gold and hence decline in mining for diamond.

Manufacturing

The manufacturing sector recorded growth of 10.6 percent against the 1.5 percent of last year. The beverage industry reported an increase in output of alcoholic products by 8.1 percent and a decline in output of non-alcoholic products by 5.2 percent. Output of liquid pharmaceuticals exhibited an increase of 11.0 percent for the first half of 2011. This performance reflected a rise in demand for pharmaceuticals in both the local and international markets. There was a 12.4 percent increase in paint production in the review period reflecting the increase in construction activities. Electricity generation rose by 2.1 percent compared with the 6.1

percent increase in the corresponding period last year.

Table III

Selected Production Indicators			
Manufacturing			
January - June			
Commodity	2009	2010	2011
Alcoholic Beverages ('000 litres)	6,445	8,339	9,011
Malta ('000 litres)	326	324	328
Non-Alcoholic Beverages ('000 litres)	18,793	20,797	19,714
Liquid Pharmaceuticals ('000 litres)	224	206	228
Paints ('000 litres)	1,010	1,100	1,236
Garments ('000 dozens)	31	40	...
Electricity ('000 MWH)	290	308	314

Services

The services sector recorded overall growth of 5.6 percent for the first half of 2011. This outcome is attributed to increases in wholesale and retail trade by 21.7 percent, financial & insurance activities by 16.0 percent, information and communication by 5.5 percent, as well as the construction industry (which includes public sector capital expenditure and private sector expenditure on housing) by 4.2 percent. On the contrary, transportation and storage reflected a fall in its usual performance by 6.5 percent.

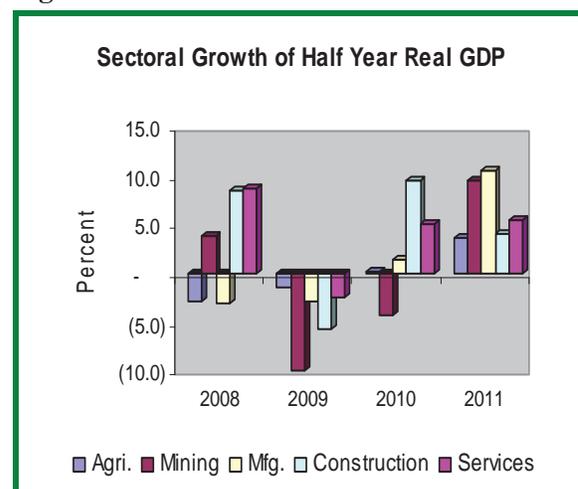

EMPLOYMENT, INCOME & INFLATION

Public Sector Employment

Preliminary data indicated that public sector employment declined marginally by 0.89 percent during the review period. This position reflected a downturn in employment within the central government by 1.67 percent.

Labour unrest was confined to GUYSUCO during the first half of 2011. The number of work stoppages increased by 13.4 percent to 110 from 97, while man days lost was higher at 21,820 from 10,450 at end-June 2010. Wages lost was also higher at G\$45.9 million during the review period.

Figure II

Private Sector Employment

Preliminary estimates indicated improvement in private sector employment especially in the growth sectors. The wholesale and retail, construction and other services sectors showed increased employment.

Income

The minimum wage for certain private sector employees increased during the review period. The interest paid to holders of government securities declined in the first half of 2011 as compared to the corresponding period in 2010. Interest paid to holders of bank deposits decreased by 37.8 percent in 2011, showing increases in domestic expenditure.

Inflation

The year-to-date change in the Urban Consumer Price Index (CPI) for June 2011 is registered at 2.97 percent. This level of inflation was a result of price increases in the food category and the unstable prices of fuel occurring from conflicts in the Middle East.

The overall prices of food increased by 2.4 percent, due to the high demand for all basic foods and the drastic changes in weather patterns around the world and other resulting influential factors that triggered the price increase of food. The categories that experienced strong price increases were vegetables, fruits and pulse products.

Table IV

Consumer Price Index			
December 2009 = 100			
	Jun	Dec	Jun
	2010	2010	2011
All Items	102.0	104.4	107.6
Food	105.5	110.4	113.1
Meat, Fish & Eggs	109.8	115.4	...
Cereals & Cereal Products	99.4	103.9	...
Milk & Milk Products	96.8	95.4	...
Vegetables & Vegetable Products	103.4	123.7	...
Housing	99.9	99.7	100.7
Transport & Communication	99.6	104.8	115.4
Furniture	100.3	99.2	99.8
Clothing	100.4	99.3	98.9
Miscellaneous Goods & Services	101.9	102.0	103.6
Education, Recreational & Cultural Services	102.3	102.0	102.9

Price increases were seen in the categories of transport & communication, housing, footwear & repairs and miscellaneous goods & services, which

rose by 10.1 percent, 1.1 percent, 1.9 percent and 1.5 percent, respectively. In addition, education and furniture recorded a small price rise of 0.9 percent and 0.6 percent, respectively.

The price index for medical & personal care and clothing categories decreased by 14.5 percent and 0.3 percent, respectively during the review period.

OUTLOOK

The economy is projected to grow by 5.1 percent at the end of 2011. It is estimated that all sectors will contribute positively to growth. High output of sugar and rice are expected to be the major drivers of growth in agriculture. The mining sector will continue to benefit from improved performance in the in bauxite and gold. Manufacturing sector output is projected to grow from increases in the beverages and pharmaceutical industries, while the services sector is expected to benefit from distribution, information and communication, financial and insurance activities as well as construction. Inflation is targeted at 4.8 percent on account of anticipated moderate increases in fuel and food prices. □

3. INTERNATIONAL TRADE AND BALANCE OF PAYMENTS

The overall balance of payments deteriorated to a deficit of US\$19.6 million compared with a surplus of US\$34.6 million a year ago. This outturn was a result of an expansion in the current account deficit caused by higher merchandise trade and services deficit which were partly offset by higher transfers. The capital account recorded a lower surplus of US\$163.8 million due to higher petrocaribe financing of US\$79.3 million. Higher exceptional financing contributed to an increase in the gross foreign assets of the Bank of Guyana which provided an import cover of 4.3 months.

CURRENT ACCOUNT

The current account deficit increased to US\$184.8 million from US\$144.3 million one year ago. The deterioration was on account of a widening merchandise trade deficit due to increased import costs. Transfers, in the form of remittances amounted to US\$216.0 million.

Table V

Balance of Payments				
US\$ Million				
January – June				
	2009	2010	2011	
CURRENT ACCOUNT	(102.95)	(144.30)	(184.81)

Capital Transfers	9.15	9.70	5.62	
Non-financial Public Sector (net)	2.00	2.21	16.64	
Private Capital	115.15	158.00	162.57	
Other	(7.93)	(18.15)	(77.84)	
Short term Capital	27.37	(4.50)	(21.00)	
ERRORS & OMISSIONS	6.58	13.53	1.40	
OVERALL BALANCE	57.30	34.64	(19.59)	

Merchandise Trade

The merchandise trade deficit amounted to US\$326.4 million from US\$287.6 million at end-June 2010. This position was due to a US\$175.7 million increase in imports which more than offset the US\$136.9

million growth in exports receipts.

Exports

Total export receipts were US\$533.1 million, 34.6 percent more than the US\$396.2 million recorded at end-June 2010. The improvement was largely on account of higher earnings of all the major commodities except timber, as shown in the table VI.

Table VI

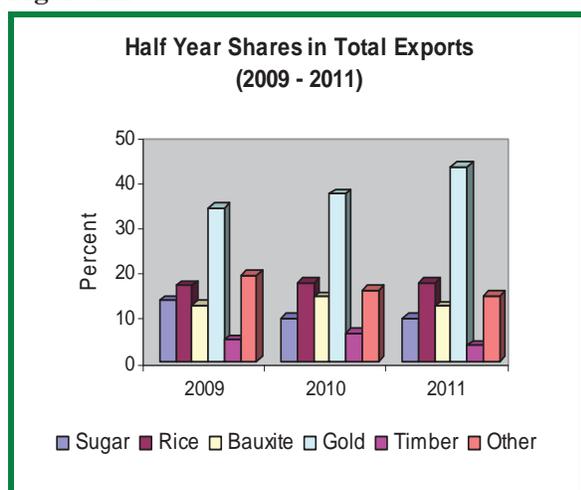

Exports of Major Commodities				
January – June				
Product	Unit	2009	2010	2011
Sugar	Tonnes	75,361.00	76,506.00	99,738.00
	US\$m.	47.84	37.81	50.05
Rice	Tonnes	124,277.38	157,234.49	167,945.04
	US\$m.	59.36	68.57	92.60
Bauxite	Tonnes	740,142.0	620,776.00	864,570.00
	US\$m.	43.55	56.66	65.18
Gold	Ounces	142,738.69	138,319.73	167,503.20
	US\$m.	119.90	146.79	229.52
Timber	Cu. Metres	44,719.09	83,250.41	66,800.82
	US\$m.	16.51	24.48	18.18

Sugar

Sugar export earnings amounted to US\$50.1 million or 32.4 percent above the June 2010 level. This outturn was due to a 1.6 percent or US\$7.7 increase in the average export price for sugar to US\$501.9 per metric tonnes. The volume of sugar exported increased by 30.4 percent to 99,738 metric tonnes from 76,506 metric tonnes at end-June 2010. Sugar exported to the EU under the Sugar Protocol of the

Lome Convention was 82.0 percent of total sugar exports compared with 77.7 percent last year. Total sugar exported to the Caricom region was higher at 16.0 percent from 10.5 percent for the corresponding period in 2010.

Figure III

Rice

Rice export earnings amounted to US\$92.6 million, 35.1 percent or US\$24.0 million above the level in 2010. This achievement was mainly on account of a 26.4 percent or US\$115.3 increase in average export price for the commodity from US\$436.1 to US\$551.4 at the end of June 2011. Volume exported increased by 6.8 percent or 10,711 metric tonnes from 157,234 metric tonnes at end-June 2010.

The EU and Caricom markets accounted for 19.5 percent and 23.5 percent of exports, respectively, compared to 47.9 percent and 38.9 percent, for the corresponding period in 2010. Exports to ‘other’ markets rose significantly to 57 percent of total rice exports from 13.2 percent one year ago.

Bauxite

Bauxite export receipts amounted to US\$65.2 million, 15 percent or US\$8.5 million above the value for the corresponding period in 2010. This performance was due to a 39.3 percent or 243,794 metric tonne increase in volumes exported despite a

decline in the average export price of 17.4 percent from US\$91.3 to US\$75.4.

Gold

Gold export receipts amounted to US\$229.5 million, 56.4 percent or US\$82.7 million more than the June 2010 level due to higher export price and volume. The average export price per ounce increased by 29.1 percent to US\$1,370.3 per ounce while export volume increased by 21.1 percent to 167,503 ounces.

Timber

Timber export receipts were US\$18.2 million, 25.7 percent below the value for the corresponding period in 2010 due to a 19.8 percent decrease in the export volume. Other timber exports decreased by 17.4 percent to US\$18.2 million while Plywood production resumed in June 2011.

Other Exports

Total earnings from all “other exports” (non-traditional exports including re-export) were US\$77.5 million, 25.3 percent more than the value for the same period last year. This achievement was mainly on account of increases in the sub-categories of garments & clothing, rum & other spirits, fish & shrimp, re-exports, diamonds, molasses, and pharmaceuticals. The other sub-categories of ‘other exports’ recorded lower earnings as shown in Table VII.

Imports

The value of merchandise imports increased by 25.7 percent or US\$175.7 million to US\$859.5 million. This position was mainly on account of higher imports of consumption, intermediate and capital goods as shown in table VIII.

Imports in the consumption goods sub-category amounted to US\$193.7 million, 9.7 percent or US\$17.1 million more than the 2010 corresponding level. All items except other non-durables, clothing & footwear, and motor cars increased in value in this subcategory.

In the intermediate sub-category, imports increased by 25.4 percent to US\$461.7 million. This position was on account of a 51.9 percent or US\$97.5 million increase in the value of fuel and lubricants imported. Textiles & fabrics, parts & accessories and other intermediate goods also recorded increases of 45.8 percent or US\$1.7 million, 3.2 percent or US\$1.0 million and 17.3 percent or US\$11.2 million, respectively.

Imports in the sub-category of capital goods increased by 48.8 percent or US\$65.6 million to US\$200.1 million. All types of capital goods recorded increases, as shown in Table VIII.

Table VII

Other Exports			
US\$ Million			
January - June			
Commodities	2009	2010	2011

Others *	5.1	7.7	8.8
Total	67.5	61.8	77.5

* This category includes exports of wild life, personal effects, handicrafts and nibbi-furniture.

Services and Unrequited Transfers

Net payment for services amounted to US\$74.4 million from US\$36.6 million for the corresponding period in 2010. The outturn was due to a 43.1 percent or US\$19.4 million increase in payments for non-factor services. This reflected higher payments for freight and travel, which increased by 27 percent

and 252 percent, respectively.

Factor services recorded a net payment of US\$9.9 million from a net receipt of US\$8.4 million one year ago. This was mainly on account of lower net inflows of portfolio investment income.

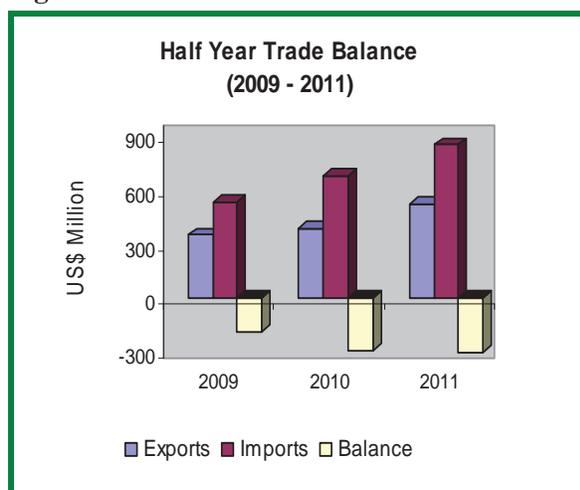

Table VIII

Imports

Sub-total	109.0	134.5	200.1
Miscellaneous	4.2	4.4	3.9
Total Imports	537.5	683.7	859.5

Net current transfers increased by 20.0 percent to

US\$216.0 million. This improvement was due to higher inflows to the private sector in the form of other current transfers which increased by 204 percent or US\$68.6 million to US\$102.3 million. Receipts from bank accounts increased by 299 percent or US\$72.7 million to US\$97.1 million. The main sources of outflows were workers' remittances and remittances to bank accounts, which amounted to US\$94.0 million and US\$53.6 million, respectively.

Figure IV

CAPITAL ACCOUNT

The capital account registered a lower surplus of US\$163.8 million from the US\$165.4 million recorded in June, 2010. This decline was due to higher petrocaribe financing which amounted to US\$79.3 million and was remitted for holding and investment purposes. Loans disbursed to the non-financial public sector (net) increased by US\$14.4 million to US\$16.6 million from US\$2.2 million one year ago. Capital grants amounted to US\$5.6 million from US\$9.7 million at end-June 2010. The other grants were associated largely with projects under the Public Sector Investment Programme (PSIP).

Investment was concentrated mainly in the energy, telecommunications and mining sectors. Short-term private capital recorded a higher net outflow of US\$21 million from US\$4.5 million for the

corresponding period in June 2010. This outflow reflected a rise in foreign assets being accumulated by commercial banks during the reporting period.

Overall Balance and Financing

The balance of payments recorded a deficit of US\$19.6 million compared with the surplus of US\$34.6 million one year ago. Exceptional financing of US\$19.2 million contributed to an increase in the gross international reserves of the Bank of Guyana.

OUTLOOK

The overall balance of payments is expected to record a deficit of US\$36.1 million for 2011. The current account deficit is expected to widen on account of a higher food cost and growth in import volume for other commodities. The capital account is expected to remain in surplus on account of higher net inflows of private capital. Capital flows from bilateral and multilateral agencies are projected to increase. □

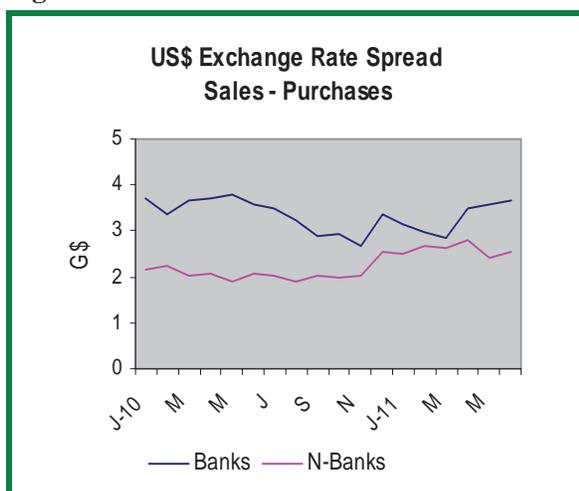

4. FOREIGN EXCHANGE MARKET DEVELOPMENTS

Foreign exchange market transactions grew by 19.2 percent to reach US\$2,861.7 million. Transactions at the Cambios and the Bank of Guyana grew by 23.5 percent and 27.5 percent, respectively. However, those related to foreign currency accounts experienced a 10.0 percent increase. The Guyana dollar vis-à-vis the United States dollar retained its path of stability, depreciating marginally by 0.25 percent.

Overall Market Volumes

The accumulated volume of foreign exchange transactions grew by US\$460.4 million to reach US\$2,861.7 million. Total purchases and sales amounted to US\$1,445.0 million and US\$1,416.7 million, respectively. Cambios and Bank of Guyana transactions together contributed 67.7 percent or US\$1,937.9 million of the entire market undertakings. The bank and non-bank cambios transactions were US\$1,471.3 million, an increase of 23.5 percent over last year. Total cambio purchases and sales were US\$749.7 million and US\$721.6 million, respectively.

Figure V

Trading at the bank cambios continued to expand reaching US\$1,408.1 million from US\$1,082.5 million last year. Consequently, the banks account for an unprecedented 95.7 percent of all cambio market transactions from approximately 90.0 percent in previous years. Total transactions among the non-banks fell by 42.2 percent or US\$46.1 million to US\$63.2 million. This situation resulted in a 5.0

percent reduction in their collective market share.

Transactions processed by the Bank of Guyana were 27.5 percent higher at US\$466.6 million. Purchases and sales were US\$231.7 million and US\$234.9 million, respectively; compared with US\$207.3 million and US\$158.9 million, for the corresponding period in 2010. Bank of Guyana made purchases from the Guyana Gold Board, the Guyana Sugar Corporation and commercial banks; while sales were primarily for fuel importation. The Bank of Guyana also carried out net sales of US\$47.5 million to the commercial banking sector compared with US\$32.4 million for the similar period last year.

Transactions accommodated through the group of foreign currency accounts increased by 10.0 percent to US\$914.4 million. The significant categories were rice, mining and dredging as well as finance and insurance and also forestry. The debits and credits amassed for these accounts were US\$456.8 million and US\$457.5 million, respectively.

There were no interbank transactions for 2011. This compares with US\$3.1 million during the same period last year. The banks have benefited from greater export generated inflows and net sales by the Bank of Guyana.

The US dollar continues to be the main currency used to conduct foreign exchange transactions. Its share of the market was 90.2 percent, followed by the Euro with 3.6 percent, the Pound Sterling with 3.4 percent and the Canadian dollar with 2.7 percent.

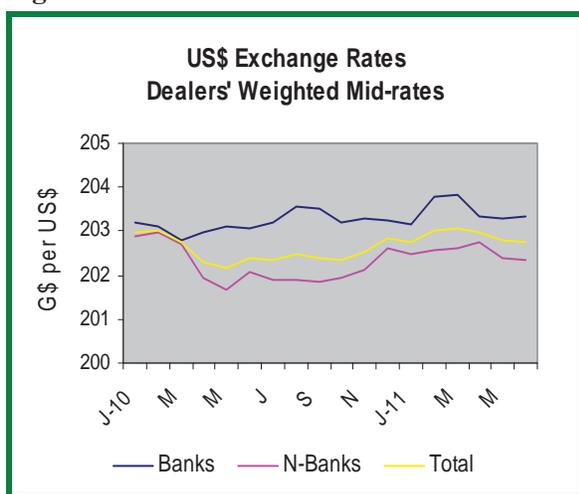

Total CARICOM currencies transactions contracted to US\$9.4 million from US\$11.6 million at end-June 2010. This decline of 18.3 percent highlights the

protracted downturn affecting the region's economy. The Barbados dollar and Eastern Caribbean dollar combined were used in 90 percent of all such transactions.

The Exchange Rates

The Guyana dollar against the currency of its main trading partner the United States fell by 0.25 percent. The relative stability of the currency is underpinned by a sufficient flow of foreign exchange to the market.

Figure VI

The G\$/US\$ exchange rate computed by the Bank and applied to official transactions moved to G\$204 at end June 2011 from G\$203.5 at end December 2010. This rate is the average of the US dollar weighted mid-rate of the three largest bank cambios. The unweighted mid-rate of the three largest bank cambio dealers in the market depreciated by 0.37 percent to G\$203.25 from G\$202.50 at end-December 2010.

The total cambio market spread between the buying and selling exchange rates widened to G\$3.05 compared with G\$2.85 for the same period last year. The bank cambios' average buying rates was slightly higher at G\$201.54 compared to G\$201.50 at the end of December 2010. The average selling rate was also higher at G\$205.1 from G\$204.87 at end-December

2010. The non-bank cambios' average buying rate increased to G\$201.25 from G\$201.17. The average selling rate was higher at G\$203.80 from G\$203.25.

The difference between the banks' and non-banks' buying rates fell from G\$0.34 at December 2010 to G\$0.29 at the end of June 2011. This movement reflects a consistent reduction in the buying rates of both the commercial banks and the non-bank cambios during the review period. The difference in the selling rates moved from G\$1.63 to G\$1.30 for the same period reflecting mostly lower selling rates of the non-bank cambios. The commercial banks' spread was G\$3.56 while the non-banks had a spread of G\$2.55.

In the region, the Trinidad and Tobago and Jamaica currencies depreciated by 0.49 percent and 0.15 percent respectively. The exchange rates for Bahamas, Barbados, Belize and the Eastern Caribbean countries remained fixed.

OUTLOOK

Foreign exchange transactions are expected to continue to grow from increased trade. The exchange rate is expected to remain relatively stable for the remainder of the year since there is more than an adequate supply of foreign exchange in the system to meet balance of payments needs. The Bank of Guyana's hard currency budget projects gross foreign reserves of US\$871.5 million. This will be achieved mainly by foreign inflows of US\$59.4 million from International Financial Institutions, returns on investment and other transactions of US\$76.5 million, and non-bank purchases of US\$381.0 million from Guysuco and the Guyana Gold Board. Sales to meet publicly guaranteed debt obligations and to finance imports are expected to amount to US\$424.6 million. □

5. PUBLIC FINANCE

The overall financial operations of the public sector recorded a lower surplus. This outturn resulted from a decline in the central government surplus due to a higher capital account deficit from a 23.9 percent growth in capital spending. The current account surplus expanded as a result of a 13.0 percent growth in revenues. The Non-Financial Public Enterprises (NFPEs) account recorded a reduction in the overall deficit due to a 27.7 percent increase in current receipts which more than offset a 22.4 percent growth in current expenditure.

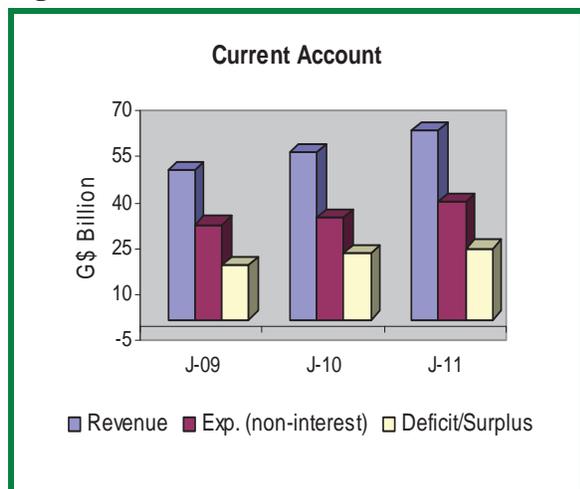

CENTRAL GOVERNMENT

The central government's overall surplus was G\$5,222 million, G\$1,199 million lower than the G\$6,421 million at end-June 2010. This performance was due to an increase in the capital account deficit.

Current Account

The current account experienced an increase in surplus from G\$16,870 million at end-June 2010 to G\$18,819 million at end-June 2011. This improvement reflected mainly higher growth in current revenue since there was also growth in current expenditure.

Figure VII

Revenue

Total current revenue rose by 13.0 percent or G\$7,086 million to G\$61,487 million, and represented 54.9 percent of the annual budgeted amount. This increase is attributed to higher collections from the Internal Revenue Department and Customs & Trade Administration, Value Added

Tax (VAT) Department and the Ministry of Finance.

The Internal Revenue Department receipts increased by 10.2 percent to G\$26,517 million, representing 43.1 percent of the total current revenue and 66.7 percent of the year's target. Income tax from business and employed persons rose by 14.2 percent and 3.1 percent to G\$15,377 million and G\$8,281 million, respectively. Property tax grew by 15.3 percent to G\$1,481 million. Estate tax expanded by 11.5 percent to G\$16 million.

The Customs & Trade Administration collections improved by 18.5 percent to G\$4,831 million. This increase reflected a 23.3 percent or G\$797 million expansion in import duties to G\$4,217 million.

The Value Added and Excise Taxes increased by 10.7 percent to G\$25,718 million, reflecting a 13.7 percent expansion in VAT which amounted to G\$14,649 million. Excise tax collection totaled G\$11,069 million, 6.9 percent higher than at end-June 2010.

Other current revenues rose by 38.2 percent or G\$1,244 million. This outturn was mainly due to a G\$1,006 million increase of Bank of Guyana profits as transfers to the Ministry of Finance. Equity holdings of the public companies and other similar agencies grew by G\$146 million to G\$600 million. Fines, fees & charges rose by 18.8 percent or G\$95 million to G\$596 million.

Expenditure

Total current expenditure increased by 13.7 percent to G\$42,668 million, representing 44.7 percent of the

budgeted amount for the year. This outturn resulted from higher employment costs and other charges. Total employment costs increased by 4.5 percent to G\$14,050 million while total interest paid decreased by 4.2 percent to G\$4,390 million. Purchases of other goods and services grew by 36.0 percent to G\$12,530 million, primarily reflecting increases in material, equipment and supplies also maintenance of infrastructure.

Interest	3,649	4,585	4,390
Current Balance	13,846	16,870	18,819
CAPITAL ACCOUNT			
Receipts	3,143	3,118	3,356
Expenditure	11,205	13,681	16,952
OVERALL BALANCE	5,784	6,421	5,222
FINANCING	(5,784)	(6,421)	(5,222)
Net External Borrowing	3,867	4,172	4,050
Net Domestic Borrowing	(9,651)	(10,593)	(9,273)
Net Divestment Proceeds	0	0	0
Other Financing	0	0	0

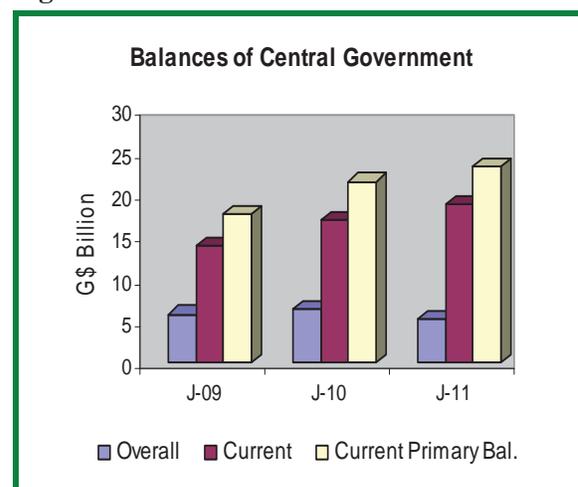

Transfer payments rose by 13.6 percent or G\$1,402 million to G\$11,698 million. This was due to a 26.0 percent or G\$1,329 million increase in contribution to local and international organization and a 2.9 percent or G\$36 million expansion in education grants.

Capital Account

The capital account recorded a 28.7 percent or G\$3,033 million increase in deficit to G\$13,596 million on account of a 23.9 percent or G\$3,270 million increase in capital expenditure to G\$16,952 million. Increased Government's spending was concentrated on agriculture, construction as well as housing.

Capital revenue improved by 7.6 percent to G\$3,355 million. Non-project grants rose by G\$1,281 million while project grants decreased by G\$893 million to G\$1,146 million as well as grants flows under the Multilateral Debt Relief Initiative reduced by 28.4 percent or G\$207 million to G\$522 million.

Figure VIII

Overall Balance and Financing

The overall surplus was smaller at G\$5,222 million from G\$6,422 million at end-June 2010. There was a decrease in net domestic borrowings to G\$9,273 million from G\$10,594 million at end-June 2010. Net external borrowing reduced from G\$4,172 million to G\$4,050 million. Disbursements declined by 58.5 percent or G\$4,848 million to G\$3,445 million while external principal loan repayments increased by 41.1 percent or G\$618.7 million to G\$2,124 million.

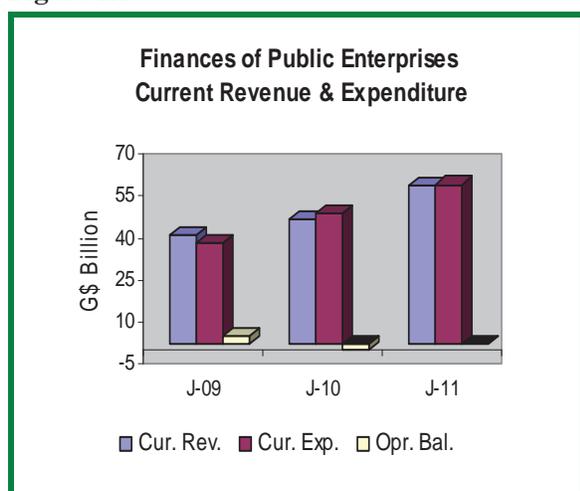

NON-FINANCIAL PUBLIC ENTERPRISES

The overall cash deficit of Non-Financial Public Enterprises (NFPEs), including the Guyana Power & Light (GPL) and the National Insurance Scheme (NIS), decreased to G\$4,371 million at end-June 2011 compared with a deficit of G\$5,026 million in June 2010. This was due to higher current and capital expenditure.

Current Account

The current operating cash deficit of the NFPEs improved significantly by 90.4 percent from G\$2,097 million to G\$201 million at end-June 2011. This improvement was mainly due to a 27.7 percent increase in receipts which more than offset a 22.4 percent growth in expenditure. Transfers to government decreased from G\$923 million to G\$229 million at end-June 2011. Consequently, the overall current cash balance registered a deficit of G\$431 million which was lower than that of G\$3,020 million last year.

Figure IX

Receipts

The total cash receipts of the NFPEs increased by 27.7 percent to G\$56,829 million. This outturn was on account of higher receipts from exports sales, local sales, debtors as well as other income. Exports

and local sales grew by 49.9 percent and 8.2 percent, respectively to G\$12,158 million and G\$30,003 million, respectively. Receipts from debtors and other income expanded by 20.0 percent and 548.6 percent to G\$9,411 million and G\$5,258 million, respectively at end-June 2011.

The National Insurance Scheme's receipts grew by 5.6 percent to G\$5,625 million as a result of increases in contributions and investment income. Contributions rose by 8.4 percent to G\$5,023 million and investment income by 4.2 percent to G\$269 million while receipts from debtors declined by 24.0 percent to G\$332 million.

Domestic Fin. (net) ¹⁾	(3,875)	1,767	2,180

¹⁾ Domestic financing includes other financing.

Expenditure

Total current expenditure of the NFPEs expanded by 22.4 percent to G\$57,031 million. This increase was due mainly to a 46.2 percent or G\$5,410 million increase in payments to creditors, and higher

spending of 21.7 percent or G\$3,500 on material and supplies.

Other current expenditure grew by 17.1 percent to G\$9,040 million. Employment costs increased by 2.2 percent to G\$10,299 million, repairs and maintenance costs rose by 11.7 percent or G\$88 million to G\$845 million while interest costs declined by 46.9 percent or G\$107 million to G\$121 million.

Total current expenditure of the National Insurance Scheme grew by 14.1 percent to G\$5,576 million. Pensions expanded by 16.1 percent to G\$4,315 million and the industrial benefits grew by 0.4 percent to G\$100.2 million. Short-term benefits increased by 10.0 percent to G\$470 million. Employment cost and materials & supplies rose by 7.7 percent and 17.1 percent to G\$477 million and

G\$4.3 million, respectively.

Capital Account

Capital expenditure of the NFPEs increased by G\$1,934 million to G\$3,941 million. This was as a result of expanded capital projects at GPL which amounted to G\$2,692 million and was for the purchase of a 15.6 megawatts wartsila engine at Kingston.

Overall Balance and Financing

The overall deficit of the NFPEs contracted to G\$4,372 million from G\$5,027 million at end-June 2010. This position was financed from domestic resources of G\$2,179 million and external funds of G\$2,192 million. □

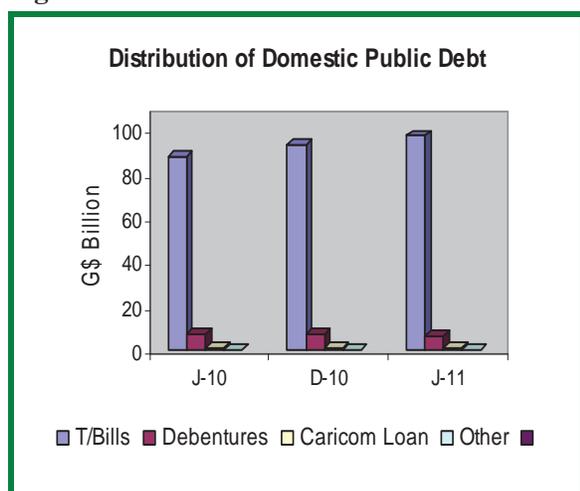

6. PUBLIC DEBT

The stock of domestic and external public debt increased by 9.1 percent and 15 percent, respectively from end-June 2010 level. The former is attributed to an increase in the issuance of treasury bills to sterilize excess liquidity, while the latter is due to disbursements from the IDB and bilateral credit delivered under the Petrocaribe Initiative. Domestic debt service decreased as a result of lower interest payments associated with the issuance of treasury bills while external debt services was higher on account of higher principal and interest payments during the first half of 2011.

Stock of Domestic Debt

The outstanding stock of government domestic bonded debt, which consisted of treasury bills, debentures, bonds and the Caricom loan, amounted to G\$103,390 million, an increase of 9.1 percent from end-June 2010 level and 2.9 percent from end-December 2010 level. The increase from one year earlier reflected the expansion in the stock of outstanding government treasury bills. The stock of defense bonds remained unchanged, while the CARICOM loan and debentures contracted.

Figure X

The stock of treasury bills increased by 11.0 percent to G\$97,029 million. As a percent of total treasury bills issued, the 364-day bills accounted for the largest share with 84.3 percent, while 182-day and 91-day bills accounted for 10.6 percent and 5.2 percent, respectively.

The share of the commercial banks' holdings of the

outstanding stock of treasury bills increased to 69.9 percent from 67.9 percent one year earlier. The public sector share, of which the National Insurance Scheme was the only stakeholder, declined to 7.7 percent from 9.5 percent at end-June 2010. The share of the other financial intermediaries increased to 15.3 percent from 13.6 percent one year earlier.

Treasury bills issued during the first half of 2011 decreased by 14.6 percent to G\$66,733 million. The issuance of the 91-day bills decreased by 20.5 percent to G\$8,000 million. Similarly, issuance of the 182- and 364-day maturities decreased by 39.62 percent and 5.25 percent to G\$10,255 million and G\$46,449 million, respectively.

Table XII

Central Government Bonded Debt by Holders G\$ Million			
	Jun 2010	Dec 2010	Jun 2011
Total Bonded Debt	94,760	100,489	103,390
Treasury Bills	87,390	93,139	97,029
91-day	6,081	1,033	4,999
182-day	16,985	7,756	10,255
364-day	64,324	84,350	81,775
CARICOM Loan	543	523	509
Gymine Bonds ¹⁾	0	0	0
Debentures	6,824	6,824	5,849
Defense Bonds	3	3	3

¹⁾ Gymine bonds were re-issued to Citizen Bank as Debentures on February 1 2007.

Redemption of treasury bills during the first half of 2011 decreased by 4 percent to G\$62,843 million. Redemptions of 91-day and 182-day bills decreased by 20.42 percent and 29.2 percent, respectively to G\$4,000 million and G\$7,756 million while that of the 364-day bills increased by 3.39 percent to G\$49,024 million. There was redemption of G\$975 million in debentures during the review period.

Domestic Debt Service

Total domestic debt service decreased by G\$353 million to G\$3,375 million from one year earlier as a result of lower interest payments associated with the issuance of treasury bills. Total interest payments decreased by 12.9 percent to G\$2,382 million. Interest paid on the 91-day bills, 182-day bills and 364-day bills decreased by 39.6 percent, 35.0 percent, and 4.2 percent, respectively to G\$43 million, G\$145 million and G\$2,035 million. Interest payments on debentures decreased by 51.3 percent to G\$148 million.

Table XIII

Domestic Debt Service G\$ Million			
	Jun 2010	Dec 2010	Jun 2011
Total Bonded Debt	3,728	4,970	3,375
Principal Payments	993	1,010	993
Total Interest	2,735	3,960	2,382
Treasury Bills	2,420	3,458	2,223
91-day	72	168	43
182-day	223	545	145
364-day	2,125	2,745	2,035
CARICOM Loans	11	22	11
Guymin Bonds	0	0	0
Debentures	304	480	148
Other	0	0	0

Treasury bill yields for 91-day, 182-day and 364-day bills have decreased to 2.35, 2.73 and 2.43, respectively. This represents a 42.8 percent reduction, 26.8 percent reduction and a 39.7 percent reduction,

respectively from their 2010 levels. This is due to an increase in the demand for treasury bills especially the 91-day and 364-day bills.

Stock of External Debt

The stock of outstanding public and publicly guaranteed external debt rose by 15 percent to US\$1111 million from US\$ 966 million at end-June 2010. This expansion reflected disbursements of US\$22 million by the Inter-American Development Bank and US\$45 million from trade credit by Venezuela under the Petrocaribe agreement.

Obligations to the multilateral creditors, which accounted for 55.1 percent of total external public debt, grew by 12.5 percent to US\$612 million. This reflected an increase in the stock of debt on loans from the Inter-American Development Bank by 24.3 percent or US\$67 million to US\$341 million from one year earlier. Obligations to the International Development Association, the International Monetary Fund, and the Caribbean Development Bank remained unchanged at US\$9 million, US\$55 million, and US\$130 million, respectively.

Table XIV

Structure of External Public Debt US\$ Million			
	Jun 2010	Dec 2010	Jun 2011
Multilateral	544	588	612
Bilateral	402	435	479
Suppliers' Credit	13	13	13
Financial Markets/Bonds	7	7	7
Total	966	1043	1111

Total bilateral obligations, which represented 43.1 percent of total external debt, amounted to US\$479 million, 19.1 percent more than the end-June 2010 level. Obligations to Venezuela increased by 41.3 percent or US\$68 million to US\$231 million. This balance represented 20.8 percent of total external public debt. Kuwait and Other Non Paris Club

bilateral creditors (China, India, UAE, Bulgaria, and Serbia) increased by 10 percent and 7.1 percent respectively to US\$68 million and US\$75 million. On the other hand, obligations to Trinidad and Tobago declined by 6 per cent to US\$45 million.

External Debt Service

External debt service increased by 49.7 percent to US\$18.3 million from its end-June 2010 level. Principal and interest payments amounted to US\$12 million and US\$6.3 million respectively. Debt service payments by Central Government increased by 25.8 percent while payments by the Bank of Guyana increased by 1815.3 percent to US\$3.2 million. Payments to multilateral creditors amounted to US\$11 million or 59.6 percent of total debt service, while bilateral creditors received US\$7.1 million. Debt service to the Caribbean Development Bank amounted to US\$4 million, while payments to the Inter-American Development Bank totaled US\$3 million.

Debt Relief

Total HIPC debt relief increased by 3.0 percent to US\$17.4 million. This status reflects an increase in relief under the E-HIPC initiative which stood at US\$10 million at end-June 2011.

Debt relief under the Multilateral Debt Relief Initiative totaled US\$16 million at end June, 2011. Relief from IDA increased by 11.4 percent to US\$2.1 million while relief by the Inter-American Development Bank and International Monetary Fund (IMF) accounted for US\$11 million and US\$2.6 million, respectively.

Table XV

External Debt Service Payments US\$ Million

Bank of Guyana	2.9	0.3	3.2
Central Gov't	9	5.9	14.9
Parastatals	0.2	0.0	0.2
End-June 2010			
Total	6.4	5.8	12.2
Bank of Guyana	0.0	0.2	0.2
Central Gov't	6.2	5.6	11.8
Parastatals	0.2	0.0	0.2

7. FINANCIAL SECTOR DEVELOPMENTS

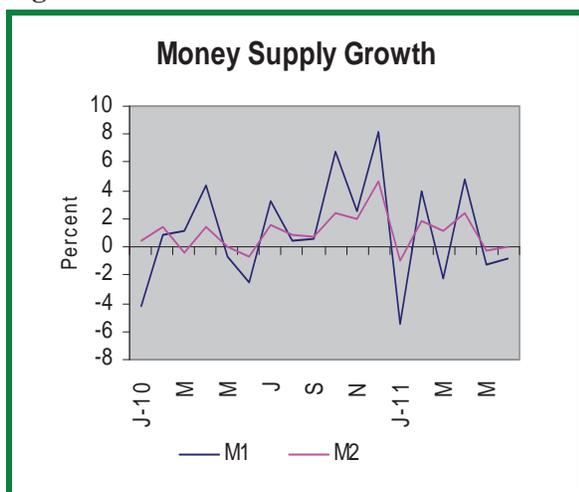

Monetary aggregates of reserve and narrow money contracted while broad money expanded during the first half of 2011. Deposits of both the private and public sectors expanded while net domestic credit by the banking system increased on account of high private sector credit. Commercial banks' interest rates trended downwards with interest rate spreads remaining relatively high. The non-bank financial institutions were active in mobilizing resources which translated to a 10.1 percent increases in their net deposits.

MONETARY DEVELOPMENTS

Reserve Money

Reserve or base money contracted by 4.6 percent to G\$87,769 million due to a 9.2 percent decrease in net domestic assets. Credit to the public sector declined by 4.2 percent. On the liabilities side, decrease in reserve money is reflected in a 5.0 percent reduction in commercial banks liabilities and a 4.6 percent decline in currency in circulation.

Figure XI

Narrow and Broad Money Supply

Narrow money (M1) decreased by 1.4 percent from the December 2010 level. This contraction is reflected in a 4.1 percent reduction in currency in circulation and a 54.7 percent reduction in Cashiers' cheques & acceptances.

Broad Money (M2) grew by 4.3 percent due to higher net domestic credit and net foreign assets. This performance is reflected in a 7.4 percent increase in

quasi-money, which comprises of interest-earning deposits of the private sector. The increase in quasi-money resulted from a 8.7 percent and a 7.2 percent expansion in time deposits and saving deposits, respectively.

Money Multiplier and Income Velocity

The M2 multiplier increased by 0.23 percentage points above the 2010 year end position to reach 2.77 at end-June 2011. This was on account of increased excess reserves held by commercial banks.

The income velocity of money circulation, defined as the ratio of GDP to M2, remained stable at 1.86, reflecting faster growth in M2 during the review period.

COMMERCIAL BANKS DEPOSITS AND INVESTMENTS

Residents' deposits with commercial banks, comprising the private and public sectors as well as the non-bank financial institutions, amounted to G\$253,178 million, 7.0 percent more than that of the corresponding 2010 period.

Deposits

Private sector deposits, which accounted for 77.9 percent of total deposits, grew by 8.0 percent compared with a 4.6 percent growth for the corresponding period last year. Business enterprises' deposits increased by 8.5 percent to G\$35,481 million, while individual customers' deposits grew by 7.9 percent to G\$161,806 million.

Public sector deposits recorded a marginal growth of 0.9 percent above December 2010 position to reach

G\$38,681million. This growth was meager when compared with an increase of 21.6 percent for the corresponding period in 2010. The growth was mainly due to a 57.3 percent increase in other government deposits which mainly comprises NIS. Deposits of the public enterprises amounted to G\$23,776 million, a 12.6 percent reduction from December 2010.

Table XVI

	Reserve Money G\$ Million		
	Jun	Dec	Jun
	2010	2010	2011
Net Foreign Assets	119,680	140,364	140,624
Net Domestic Assets	(45,170)	(48,413)	(52,855)
Credit to Public Sector	(71,936)	(73,128)	(76,162)

The deposits of the non-bank financial institutions grew by 10.2 percent to G\$17,211 million compared to a growth of 5.8 percent for the corresponding period last year. The increase represented higher bank balances by microfinance companies and the New Building Society (NBS).

Domestic Investments

Commercial banks' gross investments amounted to G\$153,679 million or 50 percent of total assets. Loans and advances, inclusive of the public sector loans, which accounted for 52.5 percent of the total

domestic investment, increased by 17 percent to G\$80,674 million. Securities which accounted for the remaining 47.5 percent of the banks' investment portfolio, grew by 8.5 percent to G\$73,004 million.

Holdings of government securities in the form of treasury bills was higher by 10.5 percent to G\$71,131 million while debentures declined by 35.6 percent to G\$1,873 million during the review period.

BANKING SYSTEM

Net Domestic Credit

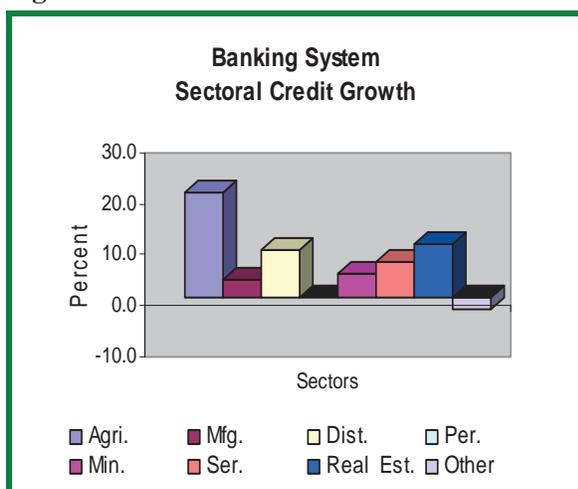

Net domestic credit by the banking system increased by 15.2 percent to G\$63,897.5 million. This expansion was as a result of a 6.7 percent increase in

private sector credit and a 10.1 percent expansion in financial institutions (net) deposits.

Net Credit to the Public Sector

The public sector though remaining a net depositor of funds with the banking system recorded a 6.2 percent decline from the December 2010 position. As at the end of June 2011 public sector (net) amounted to G\$38,741 million compared with G\$41,280 million at end December 2010. Central government's deposits, net of loans and advances, treasury bills and debentures, decreased by 15.7 percent to G\$6,744 million, while public enterprises (net) deposits amounted to G\$20,590 million, a 14.6 percent reduction from December 2010. Net deposits of the other category of the public sector, which includes local government and National Insurance Scheme (NIS), increased by 24.6 percent to G\$11,407 million at end June 2011.

Figure XII

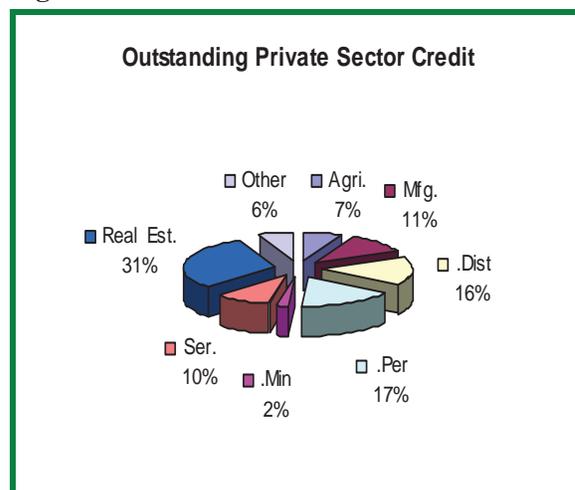

Credit to the Private Sector

Private sector credit grew by 6.7 percent to G\$119,822 million. The sectors that recorded the major growth was the agriculture, distribution, real estate mortgage loans, mining and other services sectors which recorded growths of 20.3 percent, 9.4 percent, 10.3 percent, 4.7 percent and 7.0 percent, respectively. Rice milling and manufacturing sectors also recorded marginal increases while the personal

and 'other' categories declined by 0.1 percent and 2.4 percent, respectively.

Figure XIII

Net Credit to the Non-Bank Financial Institutions

The non-bank financial institutions net deposits increased by 10.1 percent to G\$17,183 million compared with an increase of 6.3 percent for the corresponding period last year. This outturn resulted from a 34.5 percent increase in the saving deposits of the public non-bank financial institutions.

Net Foreign Assets

The net foreign assets of the banking system grew by 2.4 percent to US\$871.3 million at end-June 2011. This outturn resulted from an expansion in commercial banks foreign assets and a reduction in their foreign liabilities. Commercial banks' net foreign assets increased by 13.0 percent with gross foreign assets increasing by 7.5 percent while foreign liabilities declined by 5.0 percent over the review period. The increase in gross assets was mainly on account of increased investment in foreign securities. The Bank of Guyana's net foreign assets declined marginally by 0.1 percent to US\$689.3 million, resulting from a contraction in both its foreign assets as well as its liabilities. The Banks gross foreign assets declined by 0.2 percent while its liabilities contracted by 0.9 percent over the review period.

Interest Rates and Spreads

With the exception of the prime lending rate which remained stable, commercial banks interest rates trended downwards. The prime lending rate remained at 14.54 percent while the small savings rate declined by 16 basis points to reach 2.51 percent from 2.67 percent at end-December 2010. At the end of the review period, the weighted average time deposit rate of the banks declined by 36 basis points to 2.31 percent while the weighted average lending rate fell by 36 basis points to 11.65 percent. The interbank market interest rate ranged between 4.0 percent and 4.5 percent over the review period.

Table XVIII

Commercial Banks			
Selected Interest Rates and Spreads			
All interest rates are in percent per annum			
	Jun	Dec	Jun
	2010	2010	2011
1. Small Savings Rate	2.75	2.67	2.51
2. Weighted Avg. Time Deposit Rate	2.66	2.62	2.31
3. Weighted Avg. Lending Rate	12.03	11.95	11.65
4. Prime Lending Rate	14.54	14.54	14.54
5. End of period 91-day Treasury Bill Discount Rate	4.11	3.78	2.35
Spreads			
A (3-1)	9.28	9.28	9.14
B (4-1)	11.79	11.88	12.03
C (5-1)	1.36	1.11	-0.16
D (3-2)	9.36	9.32	9.34
E (4-2)	11.88	11.92	12.23

The commercial banks' interest rate spreads between the prime lending rate and small savings rate remained high at 12.03 percent. The spread between the 91-day treasury bill rate and the small savings rate contracted by 16 basis points at end-June 2011, reflecting a relatively faster decline in the 91-day treasury bills rate from 3.78 at the end of December

2010 to 2.35 percent at the end of June 2011. The increasing spreads reflected the commercial banks' strategy to maintain profit margins while reducing costs.

Liquidity

Total liquid assets of the commercial banks amounted to G\$108,611 million or 3.4 percent above the end-December 2010 level. The banks' excess liquid assets amounted to G\$52,941 million or 95.1 percent of the required amount reflecting the banks' holdings of short-term assets mainly in Government of Guyana treasury bills. Treasury bills accounted for 65.5 percent of total liquid assets while deposits with banks abroad increased by 44.4 percent to account for 21.0 percent of the total liquid assets over the review period.

Total reserves deposited with the Bank of Guyana were G\$40,413 million, 10.4 percent below the level at end-December 2010 reflecting a decline in demand and term deposits. The required statutory reserves of the banks was G\$31,461 million thus creating an excess over the minimum requirement of G\$8,952 million.

NON-BANK FINANCIAL INSTITUTIONS

The Non-Bank Financial Institutions' (NBFIs), which includes depository and non-depository licensed and unlicensed financial institutions, financial resources increased by 3.7 percent or G\$5,051 million to G\$139,887 million. This increase resulted from a 9.4 percent increase in deposits and a 5.2 percent growth in pension funds.

Investments in the public sector grew by 8.0 percent on account of an increase in the holdings of Government of Guyana treasury bills. Private sector investments also expanded by 1.2 percent, as a result of increased investments in local securities and mortgage loans. Similarly, claims on the banking and foreign sectors rose by 6.8 percent and 1.9 percent, respectively, while other assets grew by 8.2 percent.

Note: The coverage of non-bank financial institutions differs from that reported in the monetary section.

The New Building Society

Total resources of the New Building Society (NBS), which accounted for 31.9 percent of total assets of the NBFIs, increased by 6.6 percent or G\$2,775 million to G\$44,690 million. This expansion was due mainly to an 11.8 percent growth in share deposits.

Funds mobilized by the NBS were used to invest in Government of Guyana treasury bills and increase claims on the banking sector. Investment in Government of Guyana treasury bills increased by 9.6 percent while claims on the domestic banking sector increased by 28.4 percent, reflecting an increase in deposits at the commercial banks. Total lending to the private sector grew by 1.9 percent and represented 53.6 percent of total assets. However,

acquisitions of other assets decreased by 2.6 percent while claims on the non-resident sector remained unchanged at G\$800 million.

Trust Companies

The resources of the trust companies, which include Hand in Hand Trust Corporation Incorporated and Trust Company Guyana Limited, decreased by 1.3 percent or G\$99 million on account of a 3.2 percent decline in deposits. Conversely, foreign liabilities grew by 11.4 percent while other liabilities increased by 5.6 percent.

Claims on the banking sector declined by 10.0 percent due to a reduction in deposits at local commercial banks. Similarly, claims on the non-resident sector decreased by 1.8 percent and reflected a decline in deposits at foreign banks while other assets declined by 2.0 percent.

However, claims on the private sector increased by 4.0 percent and accounted for 32.3 percent of total assets. Mortgages accounted for 71.0 percent of

private sector investment. The companies' holdings of other loans and advances, which include agricultural and personal loans, accounted for 55.3 percent of total loans and advances.

Finance Companies

Financial resources of the finance companies, which includes microfinance companies (Institute of Private Enterprise Development (IPED), Small Business Development Trust (SBDT) and Development Financing Limited South America (DFLSA), increased by 2.5 percent or G\$447 million at end June 2011.

The resources mobilized in the form of retained earnings expanded by 4.4 percent, and accounted for 46.4 percent of total liabilities. However, loans from companies' affiliates decreased by 2.0 percent while other liabilities increased by 2.2 percent. Foreign liabilities grew by 2.1 percent due to an increase in foreign funded loans.

Claims on the private sector, which represents 55.8 percent of finance companies' total assets, decreased

by 4.2 percent on account of a 3.9 percent decline in local securities. Other assets, comprising of other real estate, prepayments, accounts receivable and stocks, rose by 24.9 percent and accounted for 20.6 percent of total assets. Additionally, claims on both the banking and foreign sectors increased by 24.8 percent and 1.2 percent, respectively.

Finance Companies consist of: one stock broker (Beharry Stock Brokers Limited), one finance company (Laparkan Financial Services Limited), one investment company (Secure International Finance Company Incorporated), one merchant bank (Guyana Americas Merchant Bank Inc.) and three micro-finance institutions (Development Finance Limited South America Inc., Institute of Private Enterprise Development and Small Business Development Trust.).

Asset Management Companies

The resources of the asset management companies, which consist of Guyana Co-operative Financial Service (GCFS) and Guyana National Co-operative Bank (GNCB), rose marginally by 0.8 percent. Provision for loan losses which represented approximately 72.8 percent of total liabilities, rose by 1.3 percent.

Interest receivable increased by 2.8 percent, and accounted for 39.9 percent of total assets. Claims on the private sector, declined marginally by 0.6 percent and deposits with local banks contracted to G\$1,157 million from G\$1,571 million.

Pension Schemes

The consolidated resources of the pension schemes rose by 5.0 percent on account of a 5.2 percent increase in pension funds contribution. The resources were reinvested in the private and the banking sectors. Private sector investments amounted to G\$8,636 million, 4.6 percent above the December 2010 level and reflected an increase in loans and advances as well as local securities. Claims on the banking system and investments in the public sector expanded by 3.8 percent and 3.0 percent, respectively. Non-resident claims also increased by 9.4 percent while other assets fell by 2.6 percent.

Domestic Insurance Companies

The total resources of the domestic insurance companies (life and non-life segments) increased by 2.4 percent to G\$27,849 million. The life component, which accounted for 63.5 percent of the industry's resources, grew by 3.6 percent to G\$17,673 million,

whilst the non-life component rose marginally by 0.3 percent to G\$10,176 million.

Total life insurance premium contracted by 0.5 percent to G\$9,043 million. Local life premium, which accounts for 49.2 percent of total premiums, decreased by 0.2 percent. Similarly, non-resident premium fell by 0.9 percent and accounted for 50.8 percent and 98.6 percent of life insurance fund and life insurance foreign liabilities, respectively.

Total private sector investments, in the form of shares and loans & advances to residents, increased by 4.7 percent. Loans & advances which constituted 22.0 percent of total private sector investment declined marginally by 0.3 percent to G\$1,609 million. However, shares and claims on the banking system increased by 4.0 percent and 0.2 percent, respectively while other assets decreased by 0.8 percent.

Investments in the non-resident sector, in the form of foreign securities, foreign loans & advances and foreign deposits, increased by 3.6 percent. Similarly, deposits with foreign banks, which represented 47.9 percent of non resident claims, grew by 6.0 percent.

Foreign securities grew by 3.8 percent while foreign loans and advances decreased by 6.2 percent.

Interest Rates

The NBFIs reflected marginal changes in the interest rate structure during the first half of 2011. The small savings rate of the NBS remained unchanged at 2.0 percent. However, the rates of the five dollar shares and save & prosper shares increased from 2.5 percent and 3.0 percent, respectively, to 3.3 percent and 4.0 percent, respectively. The low-income mortgage rate and the average ordinary mortgage rate were unchanged at 4.95 percent and 8.45 percent, respectively.

The interest rates offered by Hand in Hand Trust on domestic and commercial mortgages remained at 14.0 percent and 16.0 percent at end-June 2011. □

8. FINANCIAL STABILITY ASSESSMENT

The Licensed Depository Financial Institutions (LDFIs) reported higher levels of capital and profits for the first half of 2011. The Capital Adequacy Ratio (CAR) when compared with end-June 2010 remained well above the prudential benchmark of 8.0 percent. The stock of non-performing loans deteriorated from the end-June 2010 level but showed some improvement when compared with the end-December 2010 level. The LDFIs recorded a 21.0 percent rise in provision which improved the level of provision against non-performing loans to 75.0 percent, up from 62.4 percent for the corresponding period in 2010.

Capital Adequacy Profiles

Composition of Capital

The average Capital Adequacy Ratio (CAR) for the LDFIs was 21.7 percent at end-June 2011, up from 18.8 percent at end-December 2010. The 290 basis points improvement in the ratio resulted from a higher tier I and tier II capital and was primarily due to the inclusion of The New Building Society (NBS).

Table XXVI

Licensed Depository Financial Institutions (LDFIs) Capital Adequacy Profiles G\$ Million			
	Jun 2010	Dec 2010	Jun 2011
Total Qualifying Capital	20,737	22,751	30,666
Total Tier I capital (Net)	20,840	22,779	30,173
Risk-weighted Assets	110,149	120,880	141,508
	Percent		
Average CAR	18.8	18.8	21.7
Tier I ratio	18.9	18.8	21.3

The total qualifying capital of the LDFIs grew by 47.9 percent to G\$30,666 million during the first half of 2011, compared with the 12.1 percent growth recorded for the same period last year. The improved 2011 capital position resulted mainly from a 44.8 percent increase in tier I capital over the same period. The higher level of tier I capital, which stood at G\$30,173 million at end-June 2011, was due to a

52.5 percent increase in retained earnings combined with 22.0 percent growth in paid up/assigned capital and 4.3 percent growth in reserve fund over the end-June 2010 level. NBS was the major contributor to the foregoing increases accounting for 18.7 percent of the LDFI's qualifying capital.

Risk-weighted Assets

The aggregate net risk-weighted assets of LDFIs at end-June 2011 rose by 17.1 percent to G\$141,508 million when compared with end-December 2010 and by 28.5 percent over the end-June 2010 level. The increase in risk-weighted assets from the December 2010 level was mainly due to the inclusion of NBS which accounted for 11.6 percent of the LDFIs' aggregate net risk-weighted assets.

Asset Quality

Non-performing loans

The LDFIs' non-performing loans at end-June 2011 deteriorated by 43.4 percent (G\$2,160 million) to G\$7,137 million but continued to represent the same 5.1 percent of total loans as at end-June 2010. Compared with end-December 2010, non-performing loans as a percentage of total loans declined by 150 basis points as a result of the 2.3 percent decline in non-performing loans, concomitant with a 15.0 percent expansion in total loans over the same one year period. The significant deterioration in non-performing loans over the June 2010 level was attributed to increases by three banks ranging between 82.1 percent (G\$390 million) and 677 percent (G\$88 million) combined with the inclusion of NBS's non-performing portfolio.

On a sectoral basis, non-performing loans expanded in both the business enterprises and households sectors by a respective 18.6 percent and 76.1 percent when compared with the first half of 2010. The manufacturing and mining and quarry sectors reported significant deterioration in the levels of non-performing loans with respective increases of 57.7 percent and 68.5 percent from end-June 2010 levels. However, when compared with the end-December 2010 levels non-performing loans in the manufacturing sector declined by 21.4 percent while such loans in the mining and quarry sector expanded by 29.0 percent. The sub-sectors with the highest concentrations of non-performing loans remained the distribution sub-sector (wholesale and retail trade) accounting for 70.7 percent of non-performing loans within the services sector and the rice-milling sub-sector accounting for 43.0 percent of the manufacturing sector's non-performing loans. The agriculture and services sectors recorded respective declines of 4.6 percent and 10.0 percent from the end-June 2010 levels.

Table XXVII

Licensed Depository Financial Institutions (LDFIs)			
Sectoral Distribution of Non-Performing Loans			
G\$ Million			
	Jun	Dec	Jun
	2010	2010	2011
Economic Sector			
Business Enterprises	2,831	4,545³	3,357
Agriculture	324	355 ³	309
Mining & Quarrying	111	145	187
Manufacturing	1,042	2,493	1,643
Services	1,354	1,552 ³	1,218
Households ¹⁾	2,146	2,762³	3,780
Total ²⁾	4,977	7,307	7,137

¹⁾ Households include personal loans only.

²⁾ Total does not include real estate.

Non-performing loans within the households sector continued to deteriorate, as in the first half of 2010, increasing by a further 76.1 percent (G\$1,634 million) when compared with end-June 2010 level. Increases of 31.7 percent, 131.2 percent, and 140.0

percent in the other purposes, housing, and education sub-sectors were primarily responsible for the deterioration from the end-June-2010 level.

The ratio of provision for loan losses to non-performing loans at end-June 2011 was 75.0 percent, compared with 62.4 percent at end-December 2010 and 91.0 percent at end-June 2010. The year-on-year change in the ratio resulted from the 21.0 percent increase in provision for loan losses.

Loan Concentration

Exposure to the top twenty borrowers amounted to G\$41,395 million, 21.3 percent above the G\$34,104 million reported at end-June 2010. This outcome was due primarily to the consolidated increases of 31.2 percent to 371.4 percent recorded by two banks, along with the inclusion of NBS's exposure. The remaining five institutions reported declines between 5.2 percent and 46.1 percent. The ratio of exposure to top twenty borrowers to total loans fell by 460 basis points to 29.4 percent over the twelve months period. At the end of the first half of this year, total loans grew by 26.8 percent (G\$29,780 million) above the level recorded at end-December 2010 to reach G\$140,774 million with growth recorded in all of the loan portfolios of the seven LDFIs along with the inclusion of NBS's portfolio.

For the first half of 2011 loans to related parties increased by 3.5 percent above the end-June 2010 level (which had recorded a 7.0 percent increase over June 2009). The ratio of such loans to total loans continued to reduce falling to 3.3 percent from 4.5 percent at end-June 2010, as a result of the LDFIs faster growing loan portfolios.

EARNINGS

Income

Operating/gross income of LDFIs amounted to G\$13,007 million for the half-year ended June 30, 2011, less than one percent (G\$116 million) above the G\$12,891 million recorded for the corresponding period last year. This increase resulted primarily

from a 22.0 percent (G\$146 million) increase in other income along with respective increases of less than one percent (G\$44 million) and 1.9 percent (G\$29 million) in interest income and foreign exchange gains when compared with the same period for 2010. The 17.0 percent (G\$103 million) drop in fees and commission served to reduce the foregoing gains. Interest income, the major income source, accounted for 78.4 percent of the LDFIs overall operating income.

Expenses

The aggregate operating expenses of the LDFIs declined by 9.9 percent to G\$7,436 million at the end of the first half of 2011. Contributing significantly to this decline was the 35.9 percent (G\$1,546 million) falloff in interest expense in spite of a 31.0 percent (G\$72,619 million) increase in deposits, due to the 34 basis points drop in interest rate taking it to 2.41 percent at the end of June 2011. However, other operating expenses and salaries and other staff costs reduced the impact of the decline in interest expense with increases of 32.5 percent (G\$604 million) and 17.8 percent (G\$287 million) respectively. For the first half of 2011, the LDFIs were able to recover G\$153 million of bad debts previously written off compared with a debt write off of G\$61 million for the corresponding period in 2010. Provision for loan losses reflected a 10.5 percent (G\$44 million) increase over the end-June 2010 level.

Net profit before tax and profitability ratios

Net income before tax, for the LDFIs, increased by 20.2 percent (G\$936 million) to reach G\$5,571 million for the first half of 2011, while net income after tax grew 30.9 percent (G\$918 million) when compared with the corresponding period last year to reach G\$3,886 million. This increase was largely attributed to the falloff in operating expenses. This result coupled with growth in assets and capital reserves resulted in an improved ROE of 11.4 percent and ROA of 1.2 percent, 30 basis points and 8 basis points respectively above the comparative January – June 2010 positions.

Table XXVIII

Consolidated Income Statement of LDFIs		
G\$ Million		
	January – June	
	2010	2011

Return on Assets (ROA)	1.1	1.2
Return on Equity (ROE)	11.1	11.4

LIQUIDITY

The financial sector remained highly liquid during the first half of 2011, with all the LDFIs exceeding the minimum statutory requirements. For the first half of 2011, excess liquid assets ranged between 24 percent and 214 percent. The average liquid assets held at end-June 2011 exceeded the statutory liquid assets requirement by 73.5 percent (G\$44,138 million) compared with 70.0 percent (G\$34,457 million) at end-June 2010, and grew by 14 percent (G\$12,011 million) over the same comparative period.

At end-June 2011, the average level of liquid assets held by LDFIs amounted to G\$95,349 million, 14.4 percent (G\$12,011 million) above the average level recorded for the corresponding June 2010 period.

This increase resulted largely from increases in local treasury bills 16.2 percent (G\$3,515 million), deposits with Bank of Guyana 18.5 percent (G\$6,412 million), marketable obligations 37.8 percent (G\$3,229 million), net due from banks abroad 43.3 percent (G\$2,916 million), and net balances due from LDFIs in Guyana 404.9 percent (G\$5,964 million).

The average liquid assets ratio (LAR) of 29.4 percent was 120 basis points below the end-June 2010 position. Customer deposits to total (non-inter bank) loans ratio, which indicates the ability of the LDFIs to support loan growth with deposits, declined by 16.7 percentage points to 218.5 percent at end-June 2011. The falling ratio is indicative of lending increasing at a faster rate than deposits signaling improved intermediation in the industry.

Table XXIX

Licensed Depository Financial Institutions (LDFIs)

Endnote: This section examines the stability and soundness of the financial system. In particular, it analyses the performance of the following Licensed Depository Financial Institutions (LDFIs) for the first half of 2011: Republic Bank (Guyana) Limited (RBGL); Guyana Bank for Trade & Industry Limited (GBTI); Demerara Bank Limited (DBL); Citizens Bank (Guyana) Incorporated (CBI); Bank of Baroda (Guyana) Incorporated (BoB); Bank of Nova Scotia (BNS), Hand in Hand Trust Corporation Incorporated (HIHT) and The New Building Society (NBS). □

II

INTERNATIONAL ECONOMIC AND MONETARY DEVELOPMENTS

The World Economy

Global economic activity experienced moderate growth in the second quarter of 2011. This was partly due to a slowdown in global manufacturing and trade activities following the natural disasters in Japan that led to significant disruptions in the global supply chain. In addition, high commodity prices also weighed in on private consumption in most economies. However most emerging and developing economies continued to experience strong growth. Unemployment and inflation continued to heighten worldwide.

Industrial Countries

Output and Employment

Industrial countries' economic performance continued to remain flat in the first half of 2011. The US economy grew modestly at 1.6 percent compared with 3.0 percent for the similar period last year. Canada recorded growth of 3.0 percent on account of higher oil and mineral prices. Japan's economic growth contracted by 1.0 percent due to supply constraints from the worst natural disaster it experienced in March 2011.

Although the crisis in Greece, Spain and Portugal poses a major risk to the economic stability of the Euro Area; it continued to experience modest economic growth at 1.7 percent. The stability in the Euro area continued to be driven by the strong performance of Germany with growth of 2.8 percent due mainly to exceptional performance by the manufacturing sector.

Unemployment continued to be a major threat to macro economic stability in the industrialised countries. Unemployment was 9.2 percent in the US followed by Canada at 7.4 percent and the Euro area at 9.9 percent, respectively. UK experienced a slightly lower rate of 7.9 percent albeit as a result of the creation of few jobs in the first half.

Inflation

Inflation remained relatively low despite higher fuel and food prices. The US and Canada recorded annualized inflation rates of 3.6 percent and 3.1 percent, respectively. UK recorded an inflation rate of 4.2 percent while the Euro zone recorded inflation level of 2.5 percent.

Monetary and Exchange Rates

Monetary policy continued to be very accommodating, with low interest rates, in an effort to stimulate output and repair the damages of the financial crisis.

The US Prime rate remained at 3.25 percent while the European Central Bank rate was 1.25 percent. The Canadian Prime rate was 1.0 percent, at the end of the review period.

Most of the world major currencies strengthened against the US currency. The US dollar depreciated significantly vis-à-vis the Euro from \$1.34 to \$1.45. The Pound sterling appreciated against dollar from \$1.55 to \$1.6 The Japanese Yen strengthened marginally against the US dollar by 1.1 percent to ¥80.4.

Emerging Economies

Output and Employment

Emerging economies continued to be the main drivers of global economic growth with major contributions from China, India and Brazil. China and India recorded high growth rates of 9.5 percent and 8.0 percent, respectively while that of Brazil was 4.2 percent and 1.2 percent for the first and second quarter, respectively. China and India growth were driven by higher productivity, rising domestic demand and higher commodity prices while Brazil's growth was due to increased agricultural and industrial output.

Economic growth did not impact significantly on unemployment in the emerging economies. India and China unemployment rate remained high at 10.8 percent and 6.1 percent, respectively. In contrast, Brazil's unemployment declined slightly to 6.2 percent from 7.5 percent last year.

Inflation

The pressure of inflation continued to be a challenge for emerging economies because of increased domestic demand and the pass through effects of rising oil and food prices. Inflation in China was 6.4 percent while strong domestic demand saw India's inflation rate at 8.6 percent. Both India and China have been increasing their interest rates to reign in credit growth.

Developing Countries

Output and Employment

There was a strong outturn in developing countries due mainly to higher commodity prices and positive terms of trade. Sub Sahara Africa, Asia Pacific and Latin America and the Caribbean all recorded higher aggregate growth of nearly 5 percent.

Inflation

The rate of price inflation increased in most developing countries for the first half of 2011. This was driven by higher prices for oil and food products that constitute the main items in consumer food basket.

Caribbean Economies

Output and Employment

Real GDP growth was flat in the Caribbean as the economies continued to suffer from the impact of the global financial crisis. Tourism a major contributor to the region's economy, posted a sluggish performance, compared with pre-crisis levels. However, Guyana, Belize and Trinidad and Tobago continued to experience positive economic growth buoyed by higher commodity prices especially for gold and oil.

The Guyana economy grew by 5.9 percent in the first half of 2011. Economic growth was negative in Barbados and Jamaica while the OECS group of Countries experienced mixed fortunes. Unemployment continued to remain high in the Caribbean due to depressed tourism and fall in construction.

Inflation

Inflationary pressures were exacerbated by food and fuel prices in the first half of the year. Barbados' inflation rate was 6.4 percent compared with 3.3 percent last year.

Trinidad and Tobago and Jamaica, recorded inflation rates of 3.9 percent and 2.5 percent respectively; while Guyana was able to control inflation to 3.0 percent due to monetary policies.

Exchange Rates

In the Caribbean the exchange rates of Barbados and the Eastern Caribbean Currencies remained fixed.

The floating currencies were relatively stable viz Guyana, Jamaica, and Trinidad and Tobago. The latter two depreciated by 0.15 percent and 0.49 percent respectively.

Commodity Prices

Commodity prices generally increased in the first half of the year amidst global economic uncertainty, shifting weather patterns and geopolitical tensions. Oil prices rose beyond US\$120 per barrel. The prices of sugar and rice were US\$576 per metric tonne and US\$502.2 per metric tonne, respectively. The price of gold traded in the vicinity of US\$1,500 per ounce for most of the review period, as investors sought a safe haven for their investments.

Outlook for the World Economy

Global economy is predicted to expand at a moderate pace during the second half of the year. The

advanced economies are expected to maintain the current composition of accommodative macroeconomic policies, while intensifying efforts to safeguard financial stability and repair fiscal imbalances. The relatively high growth rate of emerging economies is expected to be the main driver of world output; undergirded by favourable terms of trade, high commodity prices and internal demand.

Inflation presents a downside risk especially for emerging and developing economies. The unemployment rate is expected to fall albeit moderately, once there is a sustained revival of the industrialised economies. □

III

MONETARY POLICY AND BANK ACTIVITIES

The conduct of monetary policy continued to focus on price stability, ensuring adequate level of liquidity in the system and creating an enabling environment for credit and economic growth. The Bank continued to use treasury bills in the primary open market operations for the effective management of liquidity. Purchases and sales of foreign exchange by the Bank were also used to control liquidity. There was a G\$3.9 billion net issue of treasury bills. The Bank continued to facilitate efficient intermediation through the issuance of notes and coins as well as promotion of enhanced payment system operation.

MONETARY POLICY

Monetary policy recommendations were determined within the framework of monetary programming and the evolving circumstances impinging on inflation expectation, liquidity condition and macroeconomic stability. The Bank's principal instrument of monetary control continued to be the auction of treasury bills in the primary market. The monetary policy stance was signaled through the volume of treasury bills issued with implications for the general level of interest rates.

MONETARY PROGRAMMING

In principle, monetary programming allowed the Bank to set a targeted path for the growth of broad money consistent with economic growth and inflation. Its foundation rested on the observation that the Bank controls the supply of reserve or base money, which comprises of currency in circulation and commercial banks' reserves at the Bank, to attain the targeted expansion in the money stock. The underlying assumption for the effective operation of the reserve money programme is the long term stability of the money multiplier, which is defined as the relationship between reserve money and broad money supply.

Reserve money is influenced mainly by the operations of the Bank. Changes in the Bank's net foreign assets and net domestic assets (which are largely affected by the operations of the central government) impact on the level of reserve money. The Bank's intervention in the foreign exchange

market will affect the liquidity condition in the system when it buys or sells foreign exchange. Since the counter parties to the Bank's foreign currency transactions are the commercial banks, the transactions affect the net foreign assets and the net domestic assets of the commercial banks.

A sale of foreign currency by the Bank will increase the net foreign assets and reduces the net domestic assets of the commercial banks and vice versa. On the Bank's balance sheet a sale of foreign currency will reduce its net foreign assets as well as its liabilities to commercial banks and hence reserve money. On the other hand, a purchase of foreign currency by the Bank will increase its net foreign assets and also reserve money.

The operations of Government add or withdraw liquidity from the system. An increase in net credit to the government, which will increase the net domestic assets of the Bank, results in an increase in reserve money. This usually occurs through a relative increase in expenditure compared to the increase in revenue. The net deposits of the central government are therefore affected.

During the review period, weekly forecasts of the Bank's balances sheet were produced based on estimated liquid reserve positions of the commercial banks and the public. These forecasts were compared with the weekly targeted monetary growth which was consistent with the set nominal output objective. The deviations established by this comparison indicated

the baseline scenario level of the open market operation necessary to bring the forecast money supply in line with its targeted annual growth. The actual weekly intervention was determined by the Open Market Operation Committee (OMOC) on the baseline scenario and prevailing developments.

The OMOC adopted a consultative approach during the review period by liaising closely with agencies which impacted directly on liquidity in the financial sector. Additionally, other information such as the state of the foreign exchange market, the interbank market, the structure of interest rates and the liquidity position of the non-bank financial institutions facilitated more informed decisions by the OMOC.

Reserve money was G\$91,673 million, G\$6,775 million above the target. This was achieved through the net issue of treasury bills amounting to G\$3,923 million. Total redemptions of treasury bills were G\$60,781 million while issues amounted to G\$64,704 million. The commercial banks holdings of treasury bills increased by G\$7,852 million compared with G\$11,930 million for the corresponding period last year.

Liquidity condition varied among commercial banks and is reflected by the interbank market. There were thirty-three trades at end-June 2011 compared with fourteen trades at end-June 2010. The value of funds traded was G\$17,160 million compared with G\$3,505 million during the corresponding period last year. The inter-bank market interest rate hovered between 4.0 percent to 4.5 percent over the review period.

Monetary policy was able to control liquidity condition in the banking system and achieved an inflation rate of 3.0 percent. This achievement contributed to the maintenance of macroeconomic stability and an environment for fostering economic growth in the economy.

RESERVE MANAGEMENT

The Bank's gross foreign assets remained stable at

US\$780 million between December 31, 2010 and June 30, 2011. As a percent of total reserve, US dollars holding was 98.64 percent. Pounds Sterling, Euro and Canadian holdings accounted for 0.26 percent, 0.31 percent and 0.1 percent, respectively. The Bank's foreign assets were mainly held in capital market securities which were 42.0 percent of the total, deposits with foreign banks (32 percent) and money market instruments (24 percent). The rates of return for these assets ranged from 0.05 percent to 13.63 percent.

BANK ACTIVITIES

Currency Operations

The Bank has a statutory obligation to issue the country's notes and coins under section 21(1) of the Bank of Guyana Act 1998, No. 19 of 1998. The Bank continued to discharge this obligation in the face of increased demand and substantial acquisition costs.

Notes

The total value of currency notes in circulation (including notes held in the vaults of commercial banks) at the end of June 2011 amounted to G\$46,678 million, an increase of 19.9 percent when compared to G\$38,920 at the end of June 2010. The share of G\$1,000 in the total value of notes in circulation increased to 94.5 percent from 93.7 percent, while the share of G\$500 and G\$100 fell to 2.4 percent and 2.2 percent from 2.8 percent and 2.5 percent, respectively. The share of the \$20 also fell from 1.0 percent to 0.9 percent.

The total supply of currency was increased by 13.5 percent over June 2010. This increase was due to higher imports and withdrawals during this period.

The Policy of ensuring acceptable quality notes are in circulation continued during the review period. This was achieved by regular withdrawals of mutilated, defaced or otherwise poor quality notes and replacing them with new notes. Mutilated, defaced and poor quality notes amounting to G\$99,957,300 were

replaced in the first half of 2011 compared with G\$118,517,200 in the first half of 2010 and G\$148,756,340 in the first half of 2009.

¹⁾Notes awaiting sorting, cancellation and destruction.

Coins

Coins issued by the Bank of Guyana amounted to G\$719 million at the end of June 2011, an increase of 8.8 percent above the G\$661 million in June, 2010. The \$10 coin continued to account for the highest proportion of the total value of coins, followed by the G\$5 and G\$1 coins, respectively. In value terms the share of G\$10 coins accounted for 42.3 percent, the G\$5 accounted for 38.9 percent and the G\$1 for 18.8 percent.

In terms of the total quantity of coins issued, the G\$1 accounted for 61.1 percent, the G\$5 accounted for 25.2 percent and the G\$10 for 13.7 percent.

Payments System

During the period January – June 2011, 499,495 low value transactions (LVT) were settled through the National Clearing House (NCH), an increased of 1.7 percent when compared with the volume recorded for

the same period in 2010. The Volume of high value transactions (HVT) also showed an increase of 4.4 percent to reach 58,570. There was an increase recorded in the value of high-value transactions which amounted to G\$343.4 billion and an increase in the value of low-value transactions which amounted to G\$156.4 billion. The overall value increased by 11.49 percent to reach 499.8 billion. The shares of HVT in total value of transactions fell from 72.3 percent in 2010 to 68.71 percent in 2011. Correspondingly the share of LVT rose to 31.29 percent in 2011 from 27.7 percent in the previous period. The average value of HVT rose by 1.4 percent in 2011 to reach G\$5.86 million, while the average value of LVT rose by 24 percent to reach G\$0.31 million.

I. GENERAL NOTES

Symbols Used

- ... Indicates that data are not available;
- Indicates that the figure is zero or less than half the final digit shown or that the item does not exist;
- Used between two period (eg 1989-90 or July-September) to indicate the years or months covered including the beginning and the ending year or month as the case may be;
- / Used between years (eg 1989/90) to indicate a crop year or fiscal year.
- = Means incomplete data due probably to under-reporting or partial response by respondents.
- * Means preliminary figures.
- ** Means revised figures.

In some cases, the individual items do not always sum up to the totals due to rounding.

Please be advised that with effect from March 2011, Table 5:5 Guyana Co-operative Mortgage Finance Bank: Assets and Liabilities will no longer be included in future reports.

Acknowledgement

The Bank of Guyana wishes to express its appreciation for the assistance received from the Ministry of Finance, State Planning Secretariat, Commercial Banks, Bureau of Statistics, some Public Corporations and other Private Sector agencies in the compilation of the data.

II. NOTES TO THE TABLES

TABLE 1.1: Bank of Guyana: Assets

Foreign Assets

Balances with Foreign Banks: Deposits of the Central Bank with Foreign Banks. The data also include holdings of foreign notes and gold. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

Gold Tranche with the I.M.F.: One quarter of Guyana's subscription to the International Monetary Fund (I.M.F.) quota, which is made in gold and/or convertible currencies.

Holdings of Special Drawing Rights: Unused portion of the Special Drawing Rights (S.D.R.s) allocated by the I.M.F.

Money Market Securities: Holdings of short-and long-term debt instruments of foreign governments and the International Bank for Reconstruction and Development (I.B.R.D.) recorded at cost. Figures from December 2005 to December 2006 were restated to reflect the audited statements.

Claims on the Central Government: Holdings of the Government of Guyana Treasury Bills, Debentures valued at cost and Advances from the Bank of Guyana. The Bank of Guyana Act No. 19 of 1998 section 46 has since removed the possibility of advances to Government since it restricted the Central Bank from extending credit directly or indirectly to the Government from that date.

Advances to Commercial Banks: Short term credit to Commercial Banks.

Other Assets: Include fixed assets such as land and buildings, furniture and equipment. Cheques in the process of collection, notes and coins issued by the British Caribbean Currency Board, non-interest-bearing debentures, and other miscellaneous assets are also included.

TABLE 1.2: Bank of Guyana: Liabilities

Currency Issue: Notes and Coins issued by the Bank.

Value of notes issued for October 1999 and August 2000 does not correspond with figures in table 1.3 due to an accounting discrepancy.

Government Deposits: Current account deposits of the Central Government which includes sterilised amount from open market type operation with effect from 1994.

Deposits of International Organisations: Obligations to the I.M.F.; local currency component of the subscription to the I.M.F. quota; deposits of the I.B.R.D, the Caribbean Development Bank (C.D.B.) and foreign central banks. Other foreign liabilities of the Bank of Guyana are also included.

Bank Deposits-EPDs: Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers pending foreign exchange releases to meet foreign obligations which fell into arrears prior to 1990. This scheme was discontinued for foreign obligations after 1990.

Bank Deposits-Other: Commercial Banks' interest earning deposits and statutory reserve deposits with Bank of Guyana are recorded here. With effect from December 1994, special interest earning deposits of the Commercial Banks were discontinued in favour of unremunerated required free reserves. The removal of remuneration for these deposits coincided with the issue of three-year debentures to sterilise the prevailing excess liquidity levels of banks.

Other Deposits: Includes deposits of National Insurance Scheme (N.I.S.), Livestock Development Fund, Guyana Pension Scheme, Mayor and City Council, Sinking Funds, Guyana Co-operative Agricultural and Industrial Development Bank, Export Development Fund No. 1, Guyana/Libya Agricultural Development Company Limited, and Guyana/Libyan Fishing Company among others.

Authorised Share Capital: The enactment of the Bank of Guyana Act No. 19 of 1998 provided for the increase in the capital for the Bank as part of the reform process.

Other Reserves: These reserves include General, Revaluation and Contingency Reserves.

Allocation of S.D.R.'s: Liability accruing from the SDRs allocated to Guyana, which are valued at the equivalent of Guyana dollar amount converted through the S.D.R./U.S. dollar cross rate.

Other Liabilities: Include provision for accrued expenses, items in transit; private investment fund; and miscellaneous items. The decline in Other Liabilities from November 30, 2002 to December 31, 2002 reflect the charging of valuation changes to Other and Government Deposits.

TABLE 1.3: Bank of Guyana: Currency Notes Issue

Total issue of less withdrawal of mutilated or spoiled legal tender notes. In December 1996, the Bank of Guyana introduced a G\$1,000 as part of its currency reform process. This was followed by the removal from the legal tender of the G\$10, G\$5, and G\$1 notes with effect from January 1997 and their conversion to coins the new legal tender until June 30, 1997.

TABLE 1.4: Bank of Guyana: Coins Issue

Total issue of less withdrawals of defaced legal tender coins. The Bank of Guyana as part of its currency reform programme introduced with effect from January 1, 1997, G\$10, G\$5, G\$1 coins as legal tender and removed from the specie the use of cents.

TABLE 2.1(a): Commercial Banks: Assets

Balances due from Banks abroad: Deposits of Commercial Banks with Non-Resident foreign banks included head offices and branches.

Loans to Non-Residents: Commercial Bank lending to Non-Resident customers. Due to re-classification at a Commercial Bank, figures for Private Sector and Non-Resident loans have been revised from December 2000 to May 2002. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for loans to Non – Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

Other Foreign Assets: Include foreign currency holdings and all other claims on Non-Residents by Commercial Banks. Due to reclassification at a Commercial Bank figures for Public Sector Other and Foreign Sector Other were revised from September 2002 to February 2003.

Securities: The total volume of Central Government Treasury Bills recorded at cost and debentures held by commercial banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for Securities include accrued interest from Dec. 2002.

Loans: Central Government borrowing from the Commercial Banks. See note above under loans to

Non-Residents.

Public Enterprises: Loans and Advances extended by Commercial Banks to Public Financial Business Enterprises. Public Non-Financial Enterprises are defined as enterprises in which Government owns above 50 per cent of the share capital. See note above under loans to Non – Residents.

Other: Commercial Banks' claims on Local Government and the National Insurance Scheme. See note above under loans to Non-Residents

Non-Bank Financial Institutions: Loans issued to Public and Private Non-Bank Financial Institutions by Commercial Banks'. See note above under loans to Non-Residents

Private Sector: Lending through loans and advances to Private Non-Financial Business Enterprises and Individual Customers. See note above under loans to Non-Residents.

The decline in Private Sector Loans and Advances resulted partly from a reclassification of some loans at one Commercial Bank. See note above under loans to Non-Residents.

The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National bank of Industry and Commerce Limited on March 15' 2003 resulted in the decline in Private Sector Loans and Advances during March 2003.

Deposits with Bank of Guyana: Include statutory reserve deposits and interest earning deposits of the Commercial Banks. Effective December 28, 1994, interest-earning deposits discontinued.

External Payment Deposits (E.P.D): Guyana dollar deposits with the Bank of Guyana made by Commercial Banks on behalf of their customers, pending foreign exchange releases to meet external obligations.

Currency: Commercial Banks' holdings of local notes and coins.

Other Assets: Include balances due from other Commercial Banks, Real Estate Mortgage Loans, fixed assets such as land and building, furniture, equipment and other miscellaneous assets.

TABLE 2.1(b): Commercial Banks: Liabilities, Capital and Reserves

Balances due to Other Banks abroad: Foreign claims made on local Commercial Banks by Head Offices and other banks abroad.

Non-Resident Deposits: Total deposits made by Non-Resident customers with Commercial Banks. In keeping with the Monetary Financial Statistics Manual (MFSM), figures for deposits to Non-Residents, Private Sector and Public Financial Enterprises include accrued interest with effect from December 2002.

Other: Include all other foreign claims on Commercial Banks.

Central Government Deposits: Total demand, time and savings deposits made by the Central Government with Commercial Banks. See note above under deposits to Non-Residents.

Public Enterprise Deposits: Total demand, time and savings deposits made by Public Non-Financial Enterprises with the Commercial Banks. Due to the sale of Aroaima Bauxite Company to the government and a reclassification of its accounts from the Private to Public Sector, figures from January 2002 to April 2002 have been revised. See note above under deposits to Non-Residents.

Other Public Deposits: Include total deposits of Local Government and National Insurance Scheme. See note above under deposits to non-residents. See note on Table 2.4 Commercial Banks: Time Deposits.

Non-Bank Financial Institutions Deposits: Consist of total deposits made by Public and Private Financial Institutions. See note above under deposits to Non-Residents. See note on Table 2.4: Commercial Banks: Time Deposits.

Private Sector Deposits: Include total demand, time and savings deposits of Private non-financial Business Enterprises and individual customers. See note above under Public Enterprises Deposits. See note above under deposits to non-residents.

External Payment Deposits: Comprise customers' deposits (public and private sector) with commercial banks on account of External Liabilities prior to 1990 and awaiting foreign exchange releases from the BOG.

Bank of Guyana: Commercial Bank short-term borrowing from the Bank of Guyana.

Other Liabilities: Other liabilities of the Commercial Banks include manager's cheques, acceptances, provision for taxes and other miscellaneous liabilities.

Capital and Reserve: The acquisition of Guyana National Co-operative Bank (GNCB)'s assets net of loans valued G\$8,473.0 million by the National Bank of Industry and Commerce Limited on March 15, 2003 resulted in the decline in the capital and reserve of the banking systems during March 2003.

TABLE 2.2: Commercial Banks: Total Deposits

Total demand, savings and time deposits of Residents and Non-Residents excluding inter-bank deposits are presented. Foreign currencies denominated deposits are also included here. See note under Public Enterprises Deposits for Tables 2.1 (b) above. See note under Non – Resident Deposits for Table 2.1(b) above.

TABLE 2.3: Commercial Banks: Demand Deposits

Current account deposits of Residents and Non-Residents; inter-bank deposits are excluded. See note under Public Enterprises Deposits for Tables 2.1 (b) above.

TABLE 2.4: Commercial Banks: Time Deposits

Fixed deposits of Residents and Non-Residents with a minimum withdrawal notice of three months; exclude inter-bank deposits. See note under Non-Resident deposits for Table 2.1(b) above. Due to a reclassification of N.I.S and Non-Bank Financial Institutions' time deposits, figures from December 2003 to April 2005 were revised.

TABLE 2.5: Commercial Banks: Savings Deposits

Deposits with minimum withdrawal notice of one day; exclude inter-bank deposits. See note under Public Enterprises Deposits for Tables 2.1 (b) above. See note non-resident deposits for Table 2.1(b) above.

TABLE 2.6: Commercial Banks: Time Deposits by Maturity

Includes deposits of both Residents and Non-Residents. See note under Commercial Banks: Time Deposits for table 2.4 above.

TABLE 2.7: Commercial Banks: Savings Deposits

Includes deposits by both Residents and Non-Residents. Ending balance on savings accounts for November 2002 do not equate to the opening balance for December 2002 due to the addition of accrued interest to the December 2002 opening balance. The ending balance for February 2003 saving accounts differs from the opening balance for March 2003 due to the reclassification from

demand and time accounts to saving accounts.

TABLE 2.9: Commercial Banks: Clearing Balances

Comprise total amount of cheques cleared by and debited to the accounts of the Commercial Banks. A National Clearing House was established at the Bank of Guyana during 1998 whereby large (in excess of G\$500,000) and small valued cheques are cleared. Data recorded after 1998 in this table reflect the value of small valued cheques cleared over the reporting period.

TABLE 2.10: Commercial Banks: Total Loans and Advances

The data include Loans and Advances to Residents and Non-Residents. Real Estate Mortgage Loans and inter-bank loans are excluded. The total of loans and advances to the private sector differs from total credit to the private sector in Table 3.1 (Monetary Survey). The totals for credit to the private sector in Table 3.1 include local securities, other credit instruments and real estate mortgage loans. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above

TABLE 2.10(b): Commercial Banks: Total Loans and Advances

The data covers total Loans and Advances to Residents and Non-Residents including Real Estate Mortgage Loans effective December 2001.

TABLE 2.11: Commercial Banks: Demand Loans and Advances

The data cover lending for short periods including overnight loans to Residents and Non-Residents and exclude inter-bank loans. See note under Private Sector For Table 2.1(a) above.

TABLE 2.12: Commercial Banks: Term Loans and Advances

The Loans and Advances are for longer periods extended to Residents and Non-Residents; inter-bank lending is excluded. See note under Private Sector for Table 2.1(a) above. See note under loans to Non-Residents for Table 2.1(a) above.

TABLE 2.13: Commercial Banks: Loans and Advances to Residents by Sector

The data provided record balances at the end of the respective period and therefore indicates the indebtedness of the respective industries at the end of the reporting period. The value of credit obtained by each industry for a given period can be obtained by taking the difference between the balances at the end of the desired period and that immediately preceding. The balances in this table exclude inter-bank loans, real estate mortgage loans, local securities and other credit instruments. It should be noted that gross indebtedness of the sugar and rice industry can be obtained by adding the balances of sugar cane and sugar and molasses manufacturing of sugar, and paddy and rice milling for rice respectively. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

TABLE 2.14: Commercial Banks: Liquid Assets

The liquid assets comprise Bank of Guyana notes and coins, foreign currency held by banks, (special interest earning) deposits held at the Bank of Guyana (BOG), balances due from other Commercial Banks - both local and foreign, Government of Guyana Treasury Bills. The special reserves deposits (SRDs) established in 1969, discontinued in 1994 as the Bank of Guyana sought to develop its capacity to manage the excess reserves of the bank more effectively. Approximately, 75-80 per cent of the SRDs were absorbed through a sale of three year, variable rate, fixed date debenture to the Commercial Banks.

Prior to March 1989, the legally required level of liquid assets to be held by the Commercial Banks against their deposit liabilities was calculated as the sum of 20 percent of demand liabilities and 15 percent of time liabilities. During the period March 31, 1989 to May 15, 1991 the determination of

the required liquid assets held by the banks was based on actual holdings on specified dates. Accordingly, from March 31, 1989 to June 30, 1990 required liquid assets were stipulated as the actual holdings on March 15, 1989. Between July 30, 1990 and February 19, 1991 the required liquid assets was based on the assets held by the banks on September 30, 1989. Further, between February 20, 1991 and May 14, 1991 the required balances were set as at the end of July 30, 1990.

With effect from May 15, 1991, however, the basis for calculating required liquid assets was changed to 25 percent of demand liabilities and 20 percent of time liabilities. Further, amendments to the liquid asset requirements became effective on 26th, October 1998. The liquid assets base period has been redefined as the Monday to Friday workweek immediately preceding the liquid asset maintenance period. The liquid asset requirement is determined by applying the prescribed percentages to the weekly average of the daily liabilities balances at the close of business of each of the five days of the liquid asset base period. Figures for Treasury Bills were reclassified from December 2000 to December 2002.

TABLE 2.15: Commercial Banks: Minimum Reserve Requirements

Prior to May 16, 1991, the minimum required reserves of the Commercial Banks were calculated as 6 percent of demand liabilities and 4 percent of time liabilities. Their percentages were changed with effect from May 16, 1991, to 11 percent of demand liabilities and 9 percent of time liabilities. Commencing April 7, 1994, the minimum required reserves of the Commercial Banks were again revised to the sum of 16 percent of demand liabilities and 14 percent of time liabilities.

On June 29, 1998, in addition to Commercial Banks, other licensed Financial Institutions were required to maintain balances with the Central Bank against their deposits and other liabilities. Further, the required reserve period has been changed on Monday to Friday workweek instead of the Wednesday to Thursday week used previously. The required reserve period has been referred to as the reserve base period. The week following the current reserve base period, i.e. the reserve maintenance period is also based on the Monday to Friday workweek. The deposits and other liabilities to which the required reserve ratio(s) are applied are referred to as the reserve base. During the reserve maintenance period, all licensed Financial Institutions subject to reserve requirement are required to maintain reserves against the relevant deposit and other liabilities.

Effective February 1, 1999, the required reserve ratio applicable to all liabilities of licensed Financial Institutions was lowered to twelve per cent (12 %). The first reserve base period for which the revised requirements became relevant was the 1st to 5th February 1999 while the reserve maintenance period was the 8th to 12th February 1999. However, reserve balances for the Non-Bank licensed Financial Institutions are excluded from table 2.15.

TABLE 3.1: Monetary Survey

A consolidation of the balance sheets of the Bank of Guyana and Commercial Banks.

Foreign Assets (net)

Bank of Guyana: Gross foreign assets **less** gross foreign liabilities.

Commercial Banks: Gross foreign assets **less** gross foreign liabilities. See note under Loans to Non-Residents for Table 2.1 (a) above.

Domestic Credit

Government (net): Gross lending to Central Government by the banking system (a sum of Holdings of debentures, bonds, Treasury Bills and loans and advances **less** total deposits of the Central Government).

Public Enterprise (net): Gross borrowing by Non-Financial Public Enterprises from the banking system **less** their deposits. See notes under Public Enterprises Deposits for Table 2.1 (b) and

Commercial Banks: Time Deposits for Table 2.4 above.

Other Public Sector (net): Gross borrowing from the banking system by local authorities and municipalities **less** their total deposits and other Public Sector funds. See note under loans to Non-Residents for Table 2.1(b) above.

Non-Bank Financial Institution (net): Gross borrowing from the banking system by the non-bank financial intermediaries with the banking system **less** their deposits. See notes under loans to Non-Residents for Table 2.1(b) and Commercial Banks: Time Deposits for Table 2.4 above.

Private Sector: Gross borrowing from the banking system. See note under Loans to Non-Residents for Table 2.1 (a) above. See note under Private Sector for Table 2.1(a) above.

Money and Quasi-Money

Money: Currency outside banks **plus** private sector demand deposits, managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above

Currency: Currency issue (Table 1.2) **less** currency holdings by Commercial Banks (Table 2.1(a)).

Quasi-money: Time and savings deposits held by the Private Sector. See note under Public Enterprises Deposits for Table 2.1 (b) above.

Demand deposits: Balances of the Private Sector including managers' cheques and acceptances. See note under Public Enterprises Deposits for Table 2.1 (b) above.

Savings and Time deposits: Balances held by Private Sector. See note under Loans to Non-Residents for Table 2.1 (a) above.

Other (net): Includes the net sum of all assets and liabilities of the Bank of Guyana and the Commercial Banks not shown elsewhere.

TABLE 4.1: Guyana: Selected Interest Rates

Interest rates at Commercial Banks and Non-Bank Financial Institutions on loans and deposits. The small savings rate represents an arithmetic average of savings deposit rates as reported by the Commercial Banks. Treasury bill rates for all maturities reflect rates at the end of the reporting period. Special deposits have been discontinued with effect from December 1994. NBS deposit rate for September, October and December 2001 have been revised. Small savings rate for November 2001 has been revised. The rates for the Five dollar shares, Save and prosper shares and the deposits for NBS have been revised for July 2002. The average deposit rates for GNCB Trust Company has been revised for the period of September 2002. Due to the modification of the interest rate structure, figures for the Commercial Banks' weighted average lending rate from September 2005 have been revised.

TABLE 4.2: Commercial Banks: Selected Interest Rates

Arithmetic average of interest rates as reported by the Commercial Banks.

TABLE 4.3: Comparative Treasury Bills Rates and Bank Rates

The average discount rate on three month Treasury Bills for the U.K., U.S.A., Barbados, Trinidad, Guyana and Jamaica. The U.K. and U.S. rates are the average discount rates at the last tender in each month. The rates for the CARICOM territories are those rates of monthly tender held towards the end of the month. Treasury bills rates for Barbados for 2001 have been revised. The Euro area Bank Rate is the rate at which other Monetary Financial Institutions obtain overnight liquidity from the National Central Bank against eligible assets.

TABLE 5.1: The New Building Society: Assets and Liabilities

Assets

Foreign Assets: Includes holdings of foreign assets.

Cash and Deposits: Holdings of cash and total deposits (demand, time and savings) at Commercial Banks.

Government of Guyana Treasury Bills: Holdings of Treasury Bills recorded at book value.

Government of Guyana Securities: Holdings of debentures and defence bonds at book value.

Government of Guyana Debentures: Holdings of debentures at book value.

Local Authorities Securities: Bonds at book value.

Liabilities

Share Deposits: A total of Five Dollar and Save and Prosper Share deposits.

Other Deposits: Ordinary Saving deposits

TABLE 5.2 (a): Trust Companies: Assets

Prior to December 1998 data reflect the operation of Trust and Finance Companies. Effective December 1998 finance companies have been excluded from database. Trust Companies thus reflect the consolidated operation of Trust Company (Guyana) Limited, Globe Trust Investment Company Limited and Hand-In-Hand Trust.

Cash: Currency (local notes and coins) held by the institution.

Deposits: Balances of savings and time deposits at Bank of Guyana and the Commercial Banks.

Government of Guyana Treasury Bills: Recorded at book value.

Local Government Securities: Recorded at book value.

TABLE 5.2 (b): Trust Companies: Liabilities

Deposits – Business Firms: Balances held by private sector businesses.

Deposits – Individual Customers: Balances held by private individuals.

Deposits – Other Customers: Balances held by other private sector agencies including non-financial organizations.

TABLE 5.2 (c): Finance Companies: Assets

Prior to December 1998 data reflect the operation of Trust and Finance Companies. Effective December 1998 finance companies have been excluded from database. Finance Companies thus reflect the consolidated operation of Secure International Finance Company, Beharry Stock Brokers Limited, Laparkan Financial Services; and one merchant bank.

Cash: See note under Cash for Table 5.2 (a) above.

Deposits: Balances of savings and time deposits at Commercial Banks.

Private Sector Shares: Ownership of equity such as bonds, bills, shares etc. in private companies.

TABLE 5.2 (d): Finance Companies: Liabilities

Loans: Loans received from Companies' affiliates.

Capital and Reserves: Includes retained earnings and reserves.

Deposits – Other Customers: Balances held by other private sector agencies including non-financial organizations.

TABLE 5.3: Domestic Life Insurance Companies: Assets and Liabilities

The data cover five insurance companies: Demerara Mutual Life Assurance Company; Guyana and Trinidad Mutual Life Insurance Company; Hand-In-Hand Mutual Life Insurance Company; North American Life Insurance Company Limited, and Clico Life and General Insurance Company (S.A.) Guyana.

Assets

Foreign Commercial Bank Deposits: Deposits held in Foreign Commercial Banks.

Foreign Securities: Holdings of the Government of the United Kingdom and CARICOM countries and other foreign securities.

Other Foreign Assets: Balances due from reinsurance abroad, and other foreign assets.

Government of Guyana Debentures: Holdings are recorded at book value.

Local Government Securities: Holdings are recorded at book value.

Securities in Firms: Holdings of commercial bills, shares and other securities recorded at book value.

Liabilities

Life Insurance Fund: Insurance premia received.

Foreign Liabilities: Claims by non-residents, balances due to insurance companies abroad, non-resident life insurance funds and other liabilities.

TABLE 5.4: Pension Schemes: Assets and Liabilities

Assets

Foreign Sector: Includes foreign deposits and foreign securities.

Government of Guyana Treasury Bills: Holdings recorded at book value.

Government of Guyana Debentures: Holdings recorded at book value.

Local Government Securities: Holdings of Local Government Securities recorded at book value.

Liabilities:

Pension Fund: Receipts from the twenty-nine pension funds in Guyana which submit returns to the Bank of Guyana.

TABLE 6.1 Central Government Finances: Summary

Current Revenue: The data include collection of taxes, other charges and fees. The data are recorded on a cash basis.

Current Expenditure: The data include interest payment, interest charges and other expenditure. Repayment of Principal is not included. The data are recorded on a cash basis.

Current Surplus/Deficit: Current revenue **less** current expenditure.

Capital Receipts: These include proceeds from sale of assets and external grants.

Capital Expenditure: Investment expenditure; the data also include net transfers and lending to the public enterprises for financing development projects.

Overall Surplus/Deficit: The total of current revenue and capital receipts **less** the total of current and capital expenditure.

Borrowing from abroad:

Net short term: Gross borrowing with a maturity of up to 1 year **less** repayment of principal.

Long term net borrowing: Gross borrowing with a maturity of over 1 year **less** repayment of principal.

Domestic Borrowing:

Borrowing from the banking system (net): The banking system holdings of Government debentures, bonds, Treasury Bills and loans and advances **less** Government deposits.

Non-bank borrowing: Borrowing outside the banking system. Short-term (net) includes Treasury bill holdings **less** redemptions and local suppliers' credits. Long-term (net) borrowing comprises holdings of debentures and development bonds **less** redemptions. Holdings of debentures and Treasury Bills by sinking funds are excluded.

Other Financing: Comprises mainly accumulated arrears on external debt repayment, rescheduling of debt and financing from counterpart funds.

TABLE 6.4 Public Corporations Finances: Summary

The table summarises the financial operations of the public corporations and companies. All data from 1990 are based on cash flow statements. Prior to 1990 the data were on an accrual basis.

TABLE 7.1 Domestic Public Debt

Comprise Government of Guyana Defence Premium Bonds, Guymine Bonds, Debentures and Treasury Bills.

Defence Premium Bonds: These are non-interest bearing savings certificates of six months duration. They are no longer used to raise funds. Data are at face value.

Guymine Bonds: These were issued by the Government of Guyana to foreign creditors of the Guyana Mining Enterprise at the time of the firm's restructuring in June 1992. The amounts shown here were required by Guyanese residents during 2000 through 2002. Data are at face value.

Government of Guyana Debentures: These are long term government securities with maturities in excess of one year. Data are at face value.

Government Treasury Bills: These are short-term government securities with maturities of 91 days, 182 days and 364 days. Data are at face value.

TABLE 7.2

Government of Guyana: Treasury Bills by Holders

The holdings of Treasury Bills are recorded at face value. Consequently, figures in this table will differ from those reported in the balance sheet of the Bank of Guyana, Commercial Banks and Non-Bank Financial Institutions, which are recorded at book value.

Other Financial Institutions: Consist of non-bank financial institutions viz:- building societies, insurance companies, trust companies and pension funds.

Public Sector: Include Public Enterprises, National Insurance Scheme, other funds and sinking funds.

Private Sector: excludes financial institutions.

Non-residents: include foreign missions and organizations.

TABLE 7.3

Government of Guyana: Debentures by Holders and Other Debt

The holdings of Debentures and Defence Bonds are at face value. The debentures are long term government securities with maturities in excess of one year. Non-interest bearing debentures held by the Bank of Guyana are excluded. The Defence Bonds have a six-month duration. They are no longer issued.

TABLE 7.4

Government of Guyana: Debentures by Maturities and Terms

Data include all fixed date, equated annuity and special issues; at face value.

Fixed Date Debentures: These debentures have fixed dates for payments of principal and interest.

Special Issues: Comprise fixed date and equate annuity debentures issued to Bank of Guyana and the National Insurance Scheme. In 1994 the Central Bank absorbed between 75 percent to 80 percent of the excess reserves of the banking system, through a forced sale of a long term (3 years) variable rate fixed date debenture. The interest is calculated at a rate of point five percent (0.5 %) per annum above the regular three month treasury bill yield rate averaged over the calendar months prior to the interest due date. In 2003, the Government of Guyana made a special issue of debentures to the National Bank of Industry and Commerce (NBIC) (now Republic Bank (Guyana) Limited) to capitalize the Guyana National Co-operative Bank (GNCB) at the time of its privatization.

TABLE 7.5

External Public Debt

The data comprise the stock of Central Government and Government guaranteed debt outstanding, Bank of Guyana's debt is excluded.

Bilateral Debt: Debt contracted with foreign investments.

Multilateral Debt: Debt contracted with international lending institutions such as the World

Bank, the Inter-American Development Bank, the Caribbean Development Bank and the European Investment Bank.

Financial Institutions Debt: These debts include borrowing from foreign commercial banks and specialized official lending agencies.

Suppliers Credit: Obligations to suppliers for deferred payment after delivery of goods and/or services.

Nationalisation Debt: Amounts owing to foreigners in compensation for nationalized assets.

TABLE 8.1(1) Imports by End-Use

The data are compiled on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns.

TABLE 8.2 Domestic Exports

The data are compiled on a free-on-board (f.o.b.) basis as recorded on customs returns. Figures for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana.

TABLE 8.6 International Reserves and Foreign Assets

International Reserves

Bank of Guyana Foreign Assets: Data include gold holdings, balances with foreign banks, foreign notes, foreign cash in the process of collection, gold tranche with I.M.F., S.D.R. holdings and money market securities.

Bank of Guyana Foreign Liabilities: Data include total short-term current liabilities, short-term liabilities in arrears and total medium liabilities in arrears. The liabilities include interest obligations. Rescheduled short-term liabilities are excluded.

Foreign Assets

Bank of Guyana Foreign Assets: The composition of the assets is identical to that of International Reserves Foreign Assets above.

Bank of Guyana Foreign Liabilities: Data include all short-term liabilities (current, arrears and rescheduled) and all medium term liabilities (current, arrears and rescheduled). The liabilities include interest obligations.

Commercial Banks' Foreign Assets: Data include foreign currencies in banks, net balances due from Head Offices and other branches abroad, balances due from other banks abroad, foreign treasury bills and securities and credit to non-residents.

Commercial Banks' Foreign Liabilities: Data include net balances due to Head Offices and other branches abroad, balances due to other banks abroad and deposits of non-residents. See note under Loans to Non-Residents for Table 2.1(a) above.

TABLE 8.8 Balances of Payments

Exports: The data are compiled on a free on board (f.o.b.) basis as recorded on customs returns. Data for all commodities are compiled by the Bureau of Statistics and forwarded to the Bank of Guyana. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

Imports: The data are compiled on a cost-insurance-freight (c.i.f.) basis as recorded on customs returns. Data on fuel and lubricants collected from the National Energy Authority. The Conversion rate is an average rate for the period for the United States Dollar against the Guyana Dollar.

TABLE 9.1 Changes in Bank of Guyana Transaction Exchange Rates

The Guyana dollar was fixed in Pound Sterling at the rate of £1 to G\$4.80 until October of 1975 when it was linked to the US\$1 to G\$2.55.

On June 2, 1981, the Guyana dollar was pegged to a composite basket of currencies consisting of the United States dollar, Pound Sterling, Deutsche Mark, Trinidad and Tobago dollar and the Japanese Yen. The exchange rates was fixed at US\$1 to G\$3.00. The US dollar was the intervention currency used to determine the exchange rate.

From January 11, 1984, the composite basket of currencies was adjusted to include the Pound Sterling, Deutsche Mark, Japanese Yen, French Franc and the Netherlands Guilder, the US dollar, although nor part of the revised basket, remained as the intervention currency. The United States dollar/Guyana dollar exchange rate was announced weekly. From October 1984 until January 1987, the exchange rate was maintained in the range of G\$4.15 to G\$4.40 per US dollar.

Effective January 19, 1987, the Guyana dollar was devalued to G\$10 to US\$1, effective from April 3, 1989 the Guyana dollar was devalued moving from G\$33 per US\$ to US\$1. On June 15, 1990, the Guyana dollar was devalued from G\$33.00 per US\$ to G\$45.00 per US\$. Transactions for this rate were confined to payments in respect of oil imports and external debt services and proceeds from sugar and rice exports.

On February 21, 1991, the Guyana dollar was devalued from G\$45.00 to US\$ to G\$101.75 thereby unifying the official exchange rate with the market determined rate prevailing at that date. The US dollar continued to be the intervention currency. From February 25, 1991, the exchange rate was fixed on a weekly basis. During the period February to September 1991, the exchange rate was determined by the pervious week free market exchange rate of the Commercial Banks and Non-Bank dealers.

From October 1991, the average weighted daily exchange rate was telegraphic transfers for the three largest Commercial Banks was utilised to determine the exchange rate for the Bank of Guyana daily transactions.

TABLE 9.1 Exchange Rate (G\$/US\$)

The Period Ended and Period Average Exchange Rates relate to the Bank of Guyana Transaction Rate.

TABLE 9.6: Monthly Average Market Exchange Rate

On March 13, 1990, the authorities established the cambio system for foreign currency transactions. Under the system, transactions in the cambio market were conducted freely with licensed dealers (banks and non-banks) setting the rate at which foreign exchange could be bought and sold. The rates are referred to as the market exchange rates. Data collection for the Euro started in January 2004.

The buying rate is a weighted average of the purchase rates of all licensed foreign exchange dealers for the month.

The selling rate is a weighted average of the sales rates of all licensed foreign exchange dealers for the month.

The mid-rate is the average buying and selling rates of all licensed foreign exchange dealers. The rate is based on transactions in foreign notes only.
